established as each such canner's quotas of the 1946 pack of such classes for sale or delivery to governmental agencies.

(3) Forty-five percent, by net weight, of each canner's 1946 pack of class numbered 6 (designated in (b) (1) hereof) is hereby established as each such canner's respective quota of the 1946 pack of such class for sale or delivery to governmental agencies.

(4) Forty-five percent, by net weight, of each canner's 1946 pack of class numbered 7 (designated in (b) (1) hereof) is hereby established as each such canner's respective quota of the 1946 pack of such class for sale or delivery to governmental agencies.

(5) Forty-five percent, by net weight, of each canner's 1946 pack of class numbered 8 (designated in (b) (1) hereof) is hereby established as each such canner's respective quota of the 1946 pack of such class for sale or delivery to governmental agencies.

(6) Forty-five percent, by net weight of each canner's 1946 pack of class numbered 9 (designated in (b) (1) hereof) is hereby established as each such canner's quota for the 1946 pack of such class for sale or delivery to governmental agencies.

(7) No canner may sell or deliver, in the aggregate, to governmental agencies, a total quantity, by net weight, of his 1946 pack of the fish of any class numbered 1 to 9, inclusive (designated in (b) (1) hereof) in excess of a quantity of canned fish equal to the applicable quota percentage of his 1946 pack of such class plus 30,000 pounds, by net weight, of the canned fish of the 1946 pack of such class.

(8) For each 33 pounds of canned fish of the 1946 pack of classes numbered 1 to 4, inclusive (designated in (b) (1) hereof), which a canner has sold or delivered to any governmental agency or with respect to which he has submitted to any governmental agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such governmental agency, such canner may sell or deliver 67 pounds of canned fish of the same class to persons other than a governmental agency: *Provided*, That, prior to the time of each such written tender, such canner has obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the governmental agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(9) For each 45 pounds of canned fish of the 1946 pack of class numbered 6 (designated in (b) (1) hereof) which a canner has sold or delivered to any governmental agency or with respect to which he has submitted to any governmental agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such governmental agency, such canner may sell or deliver 55 pounds of canned fish of the same class to persons other than a governmental agency: *Provided*, That, prior to the time of each such written tender, such canner has obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the governmental agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(10) For each 45 pounds of canned fish of the 1946 pack of class numbered 7 (designated in (b) (1) hereof) which a canner has sold or delivered to any governmental agency or with respect to which he has submitted to any governmental agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such governmental agency, such canner may sell or deliver 55 pounds of canned fish of the same class to persons others than a governmental agency: *Provided*, That, prior to the time of each such written tender, such canner has obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the governmental agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(11) For each 45 pounds of canned fish of the 1946 pack of class numbered 8 (designated in (b) (1) hereof) which a canner has sold or delivered to any governmental agency or with respect to which he has submitted to any governmental agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such governmental agency, such canner may sell or deliver 55 pounds of canned fish of the same class to persons other than a governmental agency: *Provided*, That, prior to the time of each such written tender, such canner has obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the governmental agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(12) For each 45 pounds of canned fish of the 1946 pack of class numbered 9 (designated in (b) (1) hereof) which a canner has sold or delivered to any governmental agency or with respect to which he has submitted to any governmental agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such governmental agency, such canner may sell or deliver 55 pounds of canned fish of the same class to persons others than a governmental agency: *Provided*, That, prior to the time of each such written tender, such canner has obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the governmental agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(13) If any canner's 1946 pack of canned fish of any class numbered 1 to 9, inclusive (designated in (b) (1) hereof) is less than 12,000 pounds, such canner may consider such canned fish as a part of his 1946 pack of the canned fish of any other class numbered 1 to 9, inclusive (designated in (b) (1) hereof).

(14) If any canner sells or delivers, to any person other than a governmental agency and for civilian use in the Philippine Islands, any canned fish of his 1946 pack of the class numbered 6 (designated in (b) (1) hereof), such canner may consider such canned fish as having been sold or delivered to a governmental agency pursuant to the provisions hereof.

(15) Unless otherwise authorized by the Assistant Administrator, no canner may use, in the production of his 1946 pack of class numbered 10 (designated in (b) (1) hereof) a quantity of vegetable oil in excess of the following applicable quantity per case of 48 cans of the size stated:

TUNA—YELLOWTAIL—BONITO

(a) *Solid pack*

No. ½ tuna can (307 x 113), 4.1 pounds of oil per case.

No. 1 tuna can (401 x 205.5), 5.6 pounds of oil per case.

Four-pound tuna can (603 x 408), 7.5 pounds of oil per case.

(b) *Flakes, shredded, or grated*

No. ½ tuna can (307 x 113), 3.00 pounds of oil per case.

No. 1 tuna can (401 x 205.5), 4.25 pounds of oil per case.

Four-pound tuna can (603 x 408), 5.50 pounds of oil per case.

(16) The Assistant Administrator may issue specifications at any time relative to the packing of the canned fish, the containers, container treatment, can marking, labeling, boxing, and strapping in connection therewith, or he may authorize any governmental agency to issue such specifications. Each person subject to the provisions of this order shall comply with such specifications, issued by the Assistant Administrator or the governmental agency authorized by the Assistant Administrator to issue such specifications, applicable to the canned fish processed by such person.

(c) *Inspection and grading.* All canned fish subject to the provisions of this order shall be subject to inspection and grading at any time by the Assistant Administrator or any governmental agency authorized by the Assistant Administrator to make such inspection and grading.

(d) *Contracts.* The restrictions of this order shall be observed without regard to contracts heretofore or hereafter entered into, or any rights accrued or payments made thereunder. This order shall not, however, be construed as reducing the amount of canned fish of the 1946 pack which any person is required to offer or deliver pursuant to contracts heretofore or hereafter entered into with any governmental agency.

(e) *Records and reports.* (1) The Assistant Administrator shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in the Assistant Administrator's discretion, to the enforcement or administration of the provision of this order, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Assistant Administrator may designate), maintain an accurate record of his transactions in canned fish.

(3) *Weekly reports.* Each canner who produces any canned fish of the 1946 pack shall report on Form FDO–44–1 (Revised April 2, 1946), entitled "Canned Fish: Pack Report," the total quantity

of canned fish of the 1946 pack produced by such canner from each class of fish (designated in (b) (1) hereof) during each calendar week of such canner's 1946 packing season. Each such report shall be submitted for each calendar week during the respective canner's 1946 packing season regardless of whether or not such canner produced any canned fish of the 1946 pack during a particular calendar week. Each report for a calendar week or a part thereof subsequent to April 1, 1946, shall be submitted as aforesaid within four days after the last day of each such calendar week or part thereof.

(4) *Seasonal reports.* In addition to the weekly reports required to be submitted pursuant to (e) (3) hereof, each canner, as aforesaid, shall report on Form FDO–44–1 (Revised April 2, 1946) the total quantity of canned fish of his 1946 pack of each class of fish (designated in (b) (1) hereof) produced by such canner during his 1946 packing season and shall submit such report within 15 days after the last day of such canner's 1946 packing season.

(5) *Completion of reports.* The respective reports submitted pursuant to (e) (3) and (4) hereof shall be completed in accordance with the instructions contained on the aforesaid Form FDO–44–1 (Revised April 2, 1946).

(f) *Audits and inspection.* The Assistant Administrator shall be entitled to make such audits or inspections of the books, records and other writings, premises, or stocks of canned fish of any person, and to make such investigations, as may be necessary or appropriate, in the Assistant Administrator's discretion, to the enforcement or administration of the provisions of this order.

(g) *Applicability of order.* Any person doing business in one or more of the 48 States, the District of Columbia, or the Territory of Alaska, is subject to the provisions hereof, but the provisions hereof shall not apply to any person doing business in any other territory or possession of the United States with respect to such business.

(h) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using canned fish. In addition, any person who willfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(i) *Delegation of authority.* The administration of this order and the powers vested in the Secretary of Agriculture, insofar as such powers relate to the administration of this order, are hereby delegated to the Assistant Administrator. The Assistant Administrator is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order; and one such employee shall be designated by the Assistant Administrator to serve as order administrator, and such other employees as may be necessary shall be designated to serve as deputy order administrators.

(j) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may apply in writing for relief to the Assistant Administrator, setting forth in such petition all pertinent facts and the nature of the relief sought. The Assistant Administrator may take any action with reference to such petition as he deems appropriate, which action shall be final.

(k) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided herein or in instructions issued by the Assistant Administrator, be addressed to the Assistant Administrator for Regulatory and Marketing Service Work, Production and Marketing Administration, Department of Agriculture, Washington 25, D. C. Ref. WFO–44.

(l) *Effective date.* The provisions of this order shall become effective at 12:01 a. m., e. s. t., April 1, 1946. With respect to violations, rights accrued, liabilities incurred, or appeals taken under War Food Order No. 44, as amended, prior to the effective time of the provisions hereof, the provisions of said War Food Order No. 44, as amended, in effect prior to the effective time hereof shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

NOTE: All record-keeping and reporting requirements of this order have been approved by, and subsequent reporting and record-keeping requirements will be subject to the approval of, Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(E.O. 9280, 7 F.R. 10179; E.O. 9577, 10 F.R. 8087)

Issued this 4th day of April 1946.

TITLE 32—NATIONAL DEFENSE

Chapter IX—Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827 and Pub. Law 270, 79th Cong.; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; E.O. 9599, 10 F.R. 10155; E.O. 9638, 10 F.R. 12591; CPA Reg. 1, Nov. 5, 1945, 10 F.R. 13714.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 32, as Amended Apr. 5, 1946]

INVENTORIES

(a) What this regulation does.

General Restrictions

(b) Restriction on delivery.
(c) Restrictions on receipts.
(d) Restriction on ordering more than needed.
(e) Adjusting outstanding orders when requirements change.
(f) Restriction on processing.

Exceptions

(g) In general.
(h) Receipts permitted after contract cancellations or cut-backs.

Miscellaneous Provisions

(i) Previous inventory authorizations.
(j) Separate inventories.
(k) Redistribution of excess inventories.
(l) Violations.
(m) Revisions of tables.
(n) Appeals, letters and questions.

§ 944.53 *Priorities Regulation 32*—(a) *What this regulation does.* This regulation contains the inventory rules formerly in § 944.14 of Priorities Regulation 1 and in CMP Regulation 2. Its purpose is to prevent excessive inventories by restricting ordering, deliveries, receipts and processing of materials in short supply. All kinds of materials are covered including raw or semi-fabricated materials, commodities, equipment, accessories, parts, assemblies or products of any kind, whether or not acquired with priorities assistance.

The general rule on receipts is in paragraph (c) (1), and this is controlling unless a more specific limitation or exception is indicated in Table 1 or 2 or a direction to this regulation, or unless Table 3 (formerly Order M–161) exempts the material entirely. Other exceptions to the inventory limitations are stated in paragraphs (g) and (h) and in directions to this regulation.

General Restrictions

(b) *Restriction on delivery.* No person may deliver any material if he knows or has reason to believe that acceptance of the delivery would be in violation of this regulation.

NOTE: For rule on making or delivering material earlier than required by customers, see Interpretation 3.

(c) *Restrictions on receipts*—(1) *General rule.* A person may not accept delivery of any material if his inventory of that material is, or will be, more than a practicable minimum working inventory reasonably necessary to meet his own deliveries or to supply his services on the basis of his current or scheduled method and rate of operation.

NOTE: For rule on when material is considered to be in inventory, see Interpretation 4; for rule as to seasonal industries, see Interpretation 1.

(2) *Special rules in Tables 1 and 2.* If Table 1 at the end of this regulation shows a special inventory limit on a particular material or product (either specifically or by reference to another CPA order or regulation), that limitation governs and the restrictions of paragraph (c) (1) above may be disregarded unless the applicable order or regulation (or a note in Table 1) also states that a practicable minimum working inventory may not be exceeded. The same is true with respect to particular classes of persons shown on Table 2. Where a specific period of time is shown on Table 1 or 2, no person affected may accept delivery of any material specified if his inventory of it is, or will be, more than he needs during the immediate period specified on the basis of his current or scheduled method and rate of operation. Even if an order or regulation is not listed on Table 1 or 2, any specific inventory limits imposed by it must be complied with. If an order or regulation listed on Table 1 or 2 is revoked or a listing removed from the tables all provisions of this regulation, including paragraph (c) (1), are automatically applicable.

(3) *Early delivery of steel, iron products, copper and copper base alloys.* Early delivery, up to 15 days before the requested delivery month, may be accepted from a producer of steel, iron products, copper or copper base alloys (in the forms listed on Table 1), but the producer may not make the early delivery if it would interfere with any rated orders. Other special rules on these materials are explained in Table 1.

(d) *Restriction on ordering more than needed.* (1) A person may not place any order, whether rated or unrated, for delivery of any material on earlier dates or in larger amounts than he would be permitted to receive under this regulation. Orders aggregating more than he is allowed to receive may not be placed with different suppliers even though he intends to cancel one or more of them before delivery. However, this restriction does not apply to materials listed on Table 3 of this regulation nor to purchases by ultimate consumers for personal or household use. The restriction does not forbid the placing of orders for delivery under the conditions explained in Interpretation 11 to Priorities Regulation 1, but such orders may not be scheduled for production as long as this restriction is effective.

(2) This restriction does not require immediate adjustment of orders placed before August 28, 1945. However, in view of its policy to prevent hoarding and speculative buying of materials in short supply, the CPA may direct adjustments or cancellations in individual cases where orders are in excess of reasonably anticipated needs especially where failure to do so might result in unbalanced distribution and curtail total production.

(3) If the inventory limits applying to any material are made more restrictive, whether by a change in Table 1 or otherwise, any person affected must immediately cancel, reduce or defer any order for the material to the extent that the scheduled delivery would result in an inventory greater than permitted by the new restriction and other applicable provisions of this regulation.

(e) *Adjusting outstanding orders when requirements change.* If because of a change in operations, slowing or stoppage of production, delayed delivery by a supplier, or any other change in requirements, a person who has ordered material for future delivery would, if he accepted delivery on the date specified, exceed the limits prescribed by this regulation, he must promptly adjust his outstanding orders, and, if necessary, postpone or cancel them. Paragraph (h) below describes what further deliveries may be accepted.

(f) *Restriction on processing.* No person may process, fabricate, alloy or otherwise alter the shape or form of any material if his inventory of the material in its processed, fabricated, alloyed or otherwise altered shape or form is, or will be, more than a practicable minimum working inventory. However, this does not restrict a person from altering the form of surplus materials by scrapping or reprocessing them, unless a CPA order specifically says otherwise. The CPA may issue directions to Priorities Regulation 32 or other orders that are more restrictive on processing than the general limitations of this paragraph. In such case, these more restrictive directions or orders control instead of the general restrictions of the paragraph.

Exceptions

(g) *In general.* This paragraph, paragraph (h) below, and certain directions to this regulation state general exceptions to the restrictions on acceptance of delivery described in paragraph (c) above, and to all other inventory restrictions on delivery and acceptance of delivery in CPA orders and regulations unless they contain specific provisions to the contrary. None of these or any other exceptions to CPA inventory restrictions on receipts permit a supplier to disregard any applicable CPA order or regulation which restricts production or delivery.

(1) *Exemption of Table 3 materials.* Materials listed on Table 3 at the end of this regulation may be delivered and accepted without regard to CPA inventory restrictions.

(2) *Materials bought under PR–13.* Priorities Regulation 13 provides a limited exemption from inventory restrictions in the case of items bought on special sales.

(3) *Imported materials.* A person may import any material without regard to CPA inventory restrictions, but if his

inventory of it thereby becomes in excess of the amount permitted by this regulation, he may not receive further deliveries of it from domestic sources until his inventory is reduced to permitted levels. The inventory restrictions of this regulation do apply to any deliveries of the imported material he makes, and to the amount of it that any person accepting delivery from him may receive.

(4) *Advance stockpiling for civilian production.* A person may receive in anticipation of starting or resuming civilian production the minimum amount of material he would need during the first 30 days of such production, provided no priorities assistance is used to get the material. Records of such receipts and the basis on which they were computed must be preserved as required by § 944.15 of Priorities Regulation 1. This 30-day amount is a ceiling as far as advance stockpiling is concerned, and may not be considered as a "bonus" to be added to the amount of any material which a producer expects to have available for making his civilian product. Changes in this 30-day amount may be indicated for a particular material by a note in Table 1.

(5) *Minimum sale quantities.* Minimum sale quantities and production runs may be accepted to the extent permitted by Interpretation 2 to this Regulation. However, where Column 3 of Table 1 shows a specific amount of a particular material, that is considered to be the minimum sale quantity of it. Thus, if a person would be permitted under paragraph (c) to accept less than the amount shown, he may accept delivery of the full amount. In any event, after receiving a minimum sale quantity of any material, a person may not accept delivery of any additional quantities until his inventory of it is within applicable limits.

(6) *Small inventory exemption for particular materials.* If a note in Table 1 or 2 shows a specific amount of a particular material as a small inventory exemption, a person may accept delivery of any quantities of it as long as his total inventory of it after acceptance is no more than the specified amount.

(h) *Receipts permitted after adjustment of orders.* Where a person has promptly adjusted his outstanding orders with his supplier as required by paragraph (e) and the supplier is not otherwise prohibited from producing or delivering any material involved, delivery of it may be made and accepted and the inventory restrictions of paragraph (c) exceeded to the following extent only:

(1) Delivery may be made and accepted if the supplier has shipped the material or loaded it for shipment before the receipt of the instruction to adjust; or

(2) Delivery may be made and accepted of any special item which the supplier actually has in stock or in production or special components or special materials which he has acquired for the purpose of filling that contract. A special item, as used above, means one that the supplier does not usually make, stock, or sell, and which cannot readily be disposed of to others; or

(3) Even if the material is not a special item, delivery may be made by and accepted from a producer if it has already been produced or is in production before receipt of the instruction to adjust, and it cannot be used to fill other orders on the producer's books.

NOTE: For special rules on continuing receipts of special items after contract cut backs, see Direction 3 to this regulation; and as to transfers of idle materials after cancellations or cut backs, see Direction 1. For effect of reduction in consumption rate on permitted inventories, see Interpretation 5.

Miscellaneous Provisions

(i) *Previous inventory authorizations.* Any specific authorizations, exceptions, or grants of appeals issued under § 944.14 of Priorities Regulation 1 or CMP Regulation 2 remain in effect according to their terms unless individually modified or revoked.

(j) *Separate inventories.* (1) In figuring his inventory, a person must include all material in his possession and all material held for his account by another person, but not material held by him for the account of another person.

(2) In the case of a person who on August 28, 1945, has more than one operating unit and keeps separate inventory records for them, this regulation applies to each such operating unit or division independently. A person may not make any further separation or consolidation of such operating units without special written approval of the Civilian Production Administration, unless it is purely incidental to a separation or consolidation which is made primarily for other than inventory purposes.

(k) *Redistribution of excess inventories.* Excess inventories of materials and products, including inventories of materials which are in such form as to be unusable by the holder, are subject to redistribution to other persons by voluntary action pursuant to Priorities Regulation 13, or if necessary for national defense, through requisitioning by the Civilian Production Administration.

(l) *Violations.* Any person who willfully violates any provision of this regulation, or who, in connection with this regulation, willfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(m) *Revisions of tables.* Tables 1, 2 and 3, attached to this regulation will be revised from time to time. As materials and products become in more ample supply, it is expected that they will be listed on Table 3. In special cases, particular materials or products may also be removed from Table 3 or added to Table 1. It is, therefore, important to be familiar with the latest revision of the tables.

(n) *Appeals, letters and questions.* Any appeal or other question regarding any provision of this regulation should be sent by letter in duplicate to the Inventory Control Division, Civilian Production Administration, Washington 25, D. C., Ref.: PR 32, unless Table 1 or 2 attached to this regulation indicates otherwise with respect to particular materials or classes of persons.

Issued this 5th day of April 1946.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

TABLE 1—MATERIALS AND PRODUCTS SUBJECT TO SPECIFIC INVENTORY PROVISIONS

Explanation. Materials or products listed in Column 1 are subject to the specific inventory provisions shown, as explained in paragraph (c) (2) of the regulation, except to the extent that different rules may apply as to certain classes of persons under Table 2.

Column 2 shows either the CPA order or regulation which controls inventories of the material, or if no order is specified, there is shown a period of time representing the maximum inventory permitted as explained in paragraph (c) (2). An asterisk (*) indicates that the practicable minimum working inventory limit of paragraph (c) (1) also applies, that is, if it would be less than the specific limit indicated.

If Column 2 shows a specific period of time (e. g., 30 days, 60 days, etc.) for a particular material or product, this restriction applies only to "users" of that material or product, i. e., persons, including Government operated consuming establishments, who use the material or product for production, operating supplies, maintenance and repair, or for construction whether for own account or for the account of another. In addition, the restriction applies only within the 48 States and the District of Columbia. In the case of persons who are not "users", such as persons buying for resale, paragraph (c) (1) applies instead of Column 2.

A figure in Column 3 shows the minimum sale quantity, that is, the amount of the particular material which a person may receive under the conditions stated in paragraph (g) (5), even if it is more than allowed under Column 2. If no figure is shown, the rule in Interpretation 2 must be followed.

Column 4 tells the Division or Office in the Civilian Production Administration to which should be sent any appeals or questions regarding the limitations described. However, if the applicable order says appeals are to be filed somewhere else, such as the nearest CPA field office, that provision controls.

Column 5 (Remarks) gives explanations, exemptions or other special rules applicable to the particular material or limitation.

representing the maximum inventory permitted as explained in paragraph (c) (2). An asterisk (*) indicates that the practicable minimum working inventory limit of paragraph (c) (1) also applies, that is, if it would be less than the specific limit indicated.

Column 3 tells the Division or Office in the Civilian Production Administration to which should be sent any appeals or questions regarding the limitations described. However, if the applicable order says appeals are to be filed somewhere else, such as the nearest CPA field office, that provision controls

Column 4 (Remarks) gives explanations, exemptions or other special rules applicable to the particular class of persons or limitation. Where this column specifies certain materials, the limitation or exemption for the particular class of person applies only to the materials specified.

TABLE 2—CLASSES OF PERSONS SUBJECT TO SPECIFIC INVENTORY PROVISIONS

Explanation. The classes of persons listed in Column 1 are subject to the specific inventory provisions shown, as explained in paragraph (c) (2) of the regulation.

Column 2 shows either the CPA order or regulation which controls the inventories of the particular class of persons, or if no order is specified, there is shown a period of time

Classes of persons	CPA division or office administering the control	Remarks
(1)	(3)	(4)
Bar makers (cotton textiles)	Containers	Bristles.
Brush manufacturers	Textiles	Applicable only to special high carbon steel in special forms and shapes needed to make files and rasps.
File and rasp manufacturers	Inventory control	No inventory restrictions apply to receipts of steel from producers, copper and copper base alloys for making jeweled watches.
Jeweled watch manufacturers	Inventory control	
Merchants (consumers' soft goods inventory).	Wholesale and retail trade.	Newsprint.
Newspapers, publishers of	Printing and publishing.	Newsprint.
Newsprint users, other than news paper publishers.	Printing and publishing.	Applicable only to special heat treated (tempered, polished, and colored high carbon steel (known as segment or expander steel) for use in the production of piston rings.
Piston ring manufacturers	Rubber	**See special rule under "Steel" in table 1
Rubber and rubber product manufacturers.	Inventory control	**All provisions of this regulation apply, except that with respect to steel, iron products, copper and copper base alloys such persons are subject to the rule of paragraph (c) (1) instead of the specific limitation in Column 2 of Table 1
Segregated structural steel for construction, persons using.	Wholesale and retail trade.	
Supplies	Inventory control	
Telegraph operators	Inventory control	**All provisions of this regulation apply, except that with respect to the materials on Table 1 (other than tin products) such persons are subject to paragraph (c) (1) instead of the specific limitations in Column 2 of Table 1. This does not prevent an operator from maintaining reasonable stocks of materials for emergency use, nor from acquiring reasonable stocks of ties and lumber for seasoning.
Telephone operators	Inventory control	
Transportation systems, operators of (MRO supplies).	Inventory control	***All provisions of this regulation apply, except that with respect to steel, iron products, copper and copper base alloys such persons are subject to the rule of paragraph (c) (1) instead of the specific limitation in Column 2 of Table 1.

*Or a practicable minimum working inventory, whichever is less.

TABLE 3—EXEMPTED MATERIALS AND PRODUCTS

Explanation. The following materials and products are exempt from the inventory restrictions on receipts of this regulation and of all other CPA orders or regulations unless they specifically state otherwise.

Abrasive products—made from manufactured or natural abrasives, including all items under CMP code 720
Aluminum in all forms
Asbestos, unmanufactured, all grades and types
Asbestos friction materials
Asbestos Tape .010-.025 thickness
Asbestos textiles
Batteries, dry cell
Bearings—ball and roller, including all items under CMP code 155
Bending machines for pipe, plate, roll, or structural shapes, including all items under CMP code 356
Bentonite
Capital equipment (other than that elsewhere listed on this table and other than wood poles, cross arms, domestic watt hour meters, power and distribution transformers, circuit breakers and switch gear)
Chains, except stud link anchor, cast steel, power transmission, but including all items under CMP code 712
China clay (English)
Cork, raw—corkwood, milling cork, grinding cork
Cotton: Baled, raw cotton
Cranes and hoists, including all items under CMP Codes 146, 303, 308 and 312.
Domestic andalusite
Domestic dumortierite
Fibrous glass products
Files and Rasps, including all items under CMP code 644
Forging Machines, including all items under CMP code 354
Foundry Machinery, Equipment and Supplies, including all items under CMP code 363
Furfural
Furnaces, metal melting, including all items under CMP code 422
Gages and Precision Measuring Tools, including all items under CMP code 658
Heat Treating Equipment, metal, including all items under CMP code 364
Ilmenite
Istle fiber and products
Jigs, dies and fixtures
Jute fiber and jute products except burlap
Kyanite (Indian)
Lamps, incandescent
Machine Tools, non-portable power driven, including all items under CMP code 350
Machine Tool and Metal Working Machine Attachments and Accessories, including all items under CMP code 361
Magnesium in all forms.
Mechanics Hand Service Tools, including all items under CMP code 647
Metal Cutting Tools, including all items under CMP code 362
Metal Working Machines and Tools, portable, power-driven, including all items under CMP code 365
Metal Working Presses, hydraulic and mechanical, including all items under CMP code 355
Mineral aggregates:
Sand
Gravel
Crushed stone.
Slag
Packings, Gaskets and Oil Seals
Pipe fittings (not bell, spigot, compression, flared or Parker type) including all items under CMP Codes 572 and 573 except grey cast iron and malleable iron fittings and unions.
Piping accessories: industrial, marine, under CMP Code 597.
Potter's flint
Pulpwood
Rolling Mill Stands and Attached Equipment, including all items under CMP code 357
Salt (sodium chloride) in bulk
Sediment separators
Shears, Punches and Nibblers, power-driven, including all items under CMP code 358
Sodium sulfate (salt cake)
Sodium sulfite
Stoneware clay
Sulphur
Valve handwheels
Valves, goggle
Valves, piping system (not airbrake equipment, aircraft, instrument, refrigeration, regulating, or plumbing fixture fittings and trim), including all items under CMP Codes 574 and 575 except brass.
Vermiculite
Waste paper
Wire Drawing Machinery, including all items under CMP code 359
Wood pulp
Wool: Raw wool

INTERPRETATION 1

INVENTORIES IN SEASONAL INDUSTRIES

Paragraph (c) (1) of Priorities Regulation 32 prohibits any person from accepting a delivery which will give him "more than a practicable minimum working inventory reasonably necessary to meet his own deliveries on the basis of his current or scheduled method and rate of operation" This does not prevent a person engaged in a seasonal industry who normally stocks up inventory in advance of the season from accepting delivery of his requirements of the inventory in question, provided (a) that he is not guilty of hoarding, and (b) that the deliveries accepted are no greater and no further in advance than those which he would normally accept in the ordinary course of his business to meet reasonably anticipated requirements. (Issued Aug. 28, 1945.)

INTERPRETATION 2

MINIMUM SALE QUANTITIES AND PRODUCTION RUNS

(a) *Applicable provisions of the regulations.* Priorities Regulation 32 forbids the making or acceptance of a delivery which will give the customer more than the "practicable minimum working inventory reasonably necessary" for him to make his own deliveries. A similar provision in paragraph (c) (2) of Priorities Regulation No. 3 says that a customer who is applying a rating for which no specific quantities have been authorized may use it only to get the "minimum amount needed."

(b) *Factors to be considered in determining how much can be ordered and delivered:* In determining a customer's minimum inventory "reasonably necessary" under Priorities Regulation 32 or his "minimum amount needed" under Priorities Regulation No. 3, it is proper in some cases to consider not only the immediate needs of the customer's plant but also whether the amount which he orders will be a minimum production run for his supplier. The customer may order and receive (and the supplier may deliver) the customer's requirements for a longer period in advance than he actually needs at the time of delivery if, but only if, it is not practicable for him to get the item from any supplier in the smaller quantities which he presently needs. The supplier may reject his customer's order if it is less than the minimum which he regularly sells or less than his minimum production run of a product which is mass produced under the conditions explained in Interpretation 3 of Priorities Regulation 1.

(c) *Relief in exceptional cases.* If the conditions stated in paragraph (b) above cannot be satisfied but the customer wants to order or accept delivery of more than his actual needs at the time of delivery, he should apply to the Civilian Production Administration for permission, stating the facts and why it is not practicable to satisfy the condition of paragraph (b).

(d) *Special provisions for certain materials.* Where a specific minimum sale quantity is shown in Column 3 of Table 1 of Priorities Regulation 32 with respect to any material or product, that quantity controls instead of the rule in this interpretation.

(e) *Specific limits on ratings may not be exceeded.* This interpretation does not apply to the use of a rating where a specific quantity is stated in the instrument assigning the rating. If a person is assigned a rating for a specific amount of material, he may not use it to get more. If he finds that he can only get the material in larger quantities, he should apply for a modification of the rating.

(f) *No effect on contractual rights.* The times and amounts in which deliveries are to be made are to be determined by agreement between the supplier and the customer. Nothing in this interpretation relieves a supplier from fulfilling a contract to make deliveries at specified times in specified amounts. For example, if a customer has agreed to buy and a supplier has agreed to furnish 100 units a month for six months, this interpretation does not obligate the buyer to accept 600 units delivered during the first month, although it permits him to do so under the conditions described in paragraph (b). (Issued Oct. 1, 1945.)

INTERPRETATION 3

MAKING OR DELIVERING MATERIAL EARLIER THAN REQUIRED BY CUSTOMERS

(a) Paragraph (b) of Priorities Regulation 32 prohibits a person from knowingly making a delivery which will give his customer more than the latter is permitted to receive under the regulation. Paragraph (f) of that regulation prohibits a person from processing or fabricating material if his inventory of the material in its processed or fabricated form will be more than a practicable minimum working inventory. These two restrictions should be borne in mind by any supplier who wants to make or deliver any material to his customer earlier or in greater quantities than required by the customer.

(b) For example: A supplier has accepted his customer's order of a product to be delivered at the rate of 100 a month for six months. The supplier would like to ship 200 a month for three months, or perhaps the entire 600 in the first month. Since the customer's requirements of 100 a month are presumably all he could accept within the inventory limitations of paragraph (c) of the regulation, the requirement that the supplier may not knowingly ship more than this would prevent him from delivering earlier than required by his customer, unless he received notice from his customer that the receipt of the larger amount would not cause him to have an excess inventory

(c) Thus, before delivering a material or product substantially earlier or in greater quantities than is called for by his customer's order, a supplier is required to satisfy himself that the receipt by the customer of the changed quantities will be within the permissible inventory limitations applicable to the customer. The supplier may rely on any statement or notice to this effect from his customer, unless he knows or has reason to know that it is false.

(d) Similarly, assuming his customer would not be permitted to receive the larger quantities, the supplier should take this into account in his plans for processing the material or product so that he himself will not have an inventory greater than permitted by paragraph (f) of the regulation.

(e) This interpretation, of course, does not change the rule on delivery or acceptance of minimum sale quantities or production runs to the extent described in Interpretation 2

to this regulation, nor does it prevent earlier delivery of iron products, steel, copper and copper base alloys under the conditions described in paragraph (c) (3) of Priorities Regulation 32. Also, if any CPA order or regulation permits increased deliveries to the extent necessary to avoid shipping partly filled containers (such as paragraph (y) (4) of Order M-300), the rule in this interpretation does not prevent such deliveries. (Issued Oct. 1, 1945.)

INTERPRETATION 4

INVENTORY MATERIAL

(a) Paragraph (c) of Priorities Regulation 32 prohibits a person from accepting delivery of material if his inventory of it is, or will be, greater than the maximum prescribed. For the purpose of this regulation, material is considered to be inventory until it is actually put into process or is actually installed or assembled. Putting into process does not include minor initial operations, such as painting, and does not include any shearing, cutting, trimming or other operation unless such initial operations are part of a continuous fabricating or assembling operation. Nor does it include operations such as inspection, testing and ageing nor segregation or earmarking for a specific job or operation.

(b) For example, if a manufacturer who uses wire or rod cuts a sufficient quantity of it to length at one time to maintain his operations for a considerable period of time, the cut pieces remain as inventory until processed into another form or until assembled or installed.

(c) If a manufacturer purchases and stores steel castings in the form purchased, the steel castings are not put into process when the castings are painted and stored. Consequently, the inventory of castings includes those painted and stored.

(d) If a manufacturer shears steel sheet and stocks in sheared form, such stock is still part of his inventory, if the material does not continue in production. (Issued Aug. 28, 1945)

INTERPRETATION 5

EFFECT OF REDUCTION IN CONSUMPTION RATE ON PERMITTED INVENTORIES

(a) Paragraph (c) of Priorities Regulation 32 prohibits the acceptance of delivery of material if a person's inventory of it is, or will be, more than the amount permitted by the regulation. If material is acquired within these restrictions, the regulation does not prohibit the mere possession of an inventory if a change in circumstances makes it greater than the amount permitted. For instance, if based upon current rate of production a manufacturer's permitted inventory of one item of steel is 100 tons and he has in inventory 60 tons, he may receive a further delivery of 40 tons. If after receiving the delivery of 40 tons his rate of consumption, because of contract cancellation or the like, is reduced drastically, the mere fact that he has an inventory of 100 tons, although his permitted inventory may be only 10 tons, is not a violation of the regulation. He may not, of course, accept any further deliveries of that item of steel until his inventory has been reduced below 10 tons (except as provided in paragraph (h) of Priorities Regulation 32 and Direction 3 to that regulation, relating to material already shipped, special items, etc.)

(b) Similarly, the regulation does not affect the liability of a customer for material in inventory when the customer cancels his contract. Such liability is controlled by the provisions of the contract between the customer and his supplier and by contract law. (Issued Aug. 28, 1945)

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule C, as Amended Apr. 3, 1946]

SPECIAL PROGRAM FOR COTTON FABRICS FOR CIVILIAN APPAREL ITEMS

§ 3290.120c *Schedule C to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in Order M-328B for manufacturers of civilian apparel made of cotton fabric to get preference ratings for fabric to make the items listed in this schedule. It also establishes set-asides for certain cotton fabrics for these items and for over-the-counter sale as piece goods.

(b) *Definitions.* (1) "Fabric", unless otherwise designated, means a woven fabric twelve inches or more in width.

(2) "Cotton fabric" means any fabric containing less than 25% wool by weight, but of which the remaining fibers are 50% or more cotton by weight.

(3) "Cotton item" means an item of which more than 50% of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is cotton fabric.

(c) *Requirements for obtaining priorities assistance.* (1) When a fabric is removed from the fabric column for any item, each manufacturer must immediately cancel or unrate any unfilled orders for that fabric which he placed with ratings assigned under this Schedule for that item.

(2) Whenever a fabric is added to a Preference Rating Schedule for any item, an applicant who has filed an application for that item need not file a new application, but may send a letter to the Civilian Production Administration, Textile Division, Washington 25, D. C., requesting authorization to use the new fabric in place of or in addition to fabrics previously applied for. Where the change is only in the sley of the fabric, the authorization to be issued by the Civilian Production Administration will give effect to such change and no letter is required. The letter must specify the item number, the description of the item, the complete description of all of the authorized fabrics which the applicant wishes to use during the quarter and the number of linear yards of each fabric for which priorities assistance is requested. Such letter should be mailed within five days of the issuance date of an amendment incorporating additional fabrics for an item.

(3) [Deleted Apr. 3, 1946.]

(d) *General provisions.* (1) Preference ratings assigned under this schedule may be used only to get the particular cotton fabrics shown in the fabric column of the preference rating schedule to make the cotton items specified.

(2) The fabrics must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration; or

(ii) The price specified in the Maximum Price column.

(3) [Deleted Apr. 3, 1946.]

(4) Manufacturers who did not manufacture an item in the base period must produce the item in the size assortments listed opposite each item in the size assortment column. Where 'normal industry practice' appears, the manufacturer should state his proposed sizes in the remarks section of Form CPA-3732. If his application is granted, he must comply with these size assortments.

(5) No person may place any orders bearing CC ratings assigned under Schedule C of M-328B for carded broadcloth of any sley, or carded poplins, sley of 88 and higher, except for incorporation into men's and boys' shirts and shorts (See items No. 4 (a), 4 (b), 6 (a), 6 (b), 32, 33 and 35 on Preference Rating Schedule No. 3), CC rated orders placed before March 6, 1946 are not affected by this provision and remain valid. The provisions of this paragraph do not apply to CC ratings assigned under this schedule for items on Preference Rating Schedule No. 4. Any manufacturer who is prohibited by the provisions of this paragraph from using for any item CC ratings for the fabrics listed, may, however, use CC ratings to get any other fabric permitted for that item on the applicable Preference Rating Schedule in an equivalent yardage.

(e) *Set-asides of cotton fabrics to fill rated or certified orders.* (1) Every producer of a cotton fabric listed in a Fabric Set-aside Table whether he sells it in the grey or finished state or uses it to manufacture civilian items shall set aside during the quarter stated for the purpose shown in Columns IV and V yardages of that fabric equal to at least the percentage shown of the yardage he produced during the preceding quarter or of his estimated production in that quarter, whichever is greater. Any producer who does not deliver the full yardages required during the applicable quarter must deliver in the next quarter a yardage of cotton fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter.

(2) *Set-asides for civilian apparel.* Only orders accompanied by Form CPA-4381 or Form CPA-4382 may be charged to the set-aside in Column IV of Fabric Set-aside Table No. I or by Form CPA-4413 or Form CPA-4412 to the set-aside in Column IV of Fabric Set-aside Table No. II. No producer need deliver or use to fill these orders more of any fabric than his set-aside for that fabric.

(3) *Set-asides for piece goods for over-the-counter sale.* Only orders accompanied by Form CPA-4380 (for Fabric Set-aside Table No. 1) or Form CPA-4414 (for Fabric Set-aside Table No. II), or the following certificate may be charged to the set-aside in Column (V):

The undersigned certifies subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code that in the ___ quarter of 1946 (insert applicable quarter) he will deliver at retail as over-the-counter piece goods, at not more than 60¢ a yard or his OPA ceiling price, whichever is lower, a yardage of cotton fabric at least equal to the yardage he orders for delivery in that quarter on orders bearing this certificate.

In addition the certificate must contain one of the following sentences:

He will not place orders bearing this certificate calling for delivery in this quarter of 1946 of a total of more than 300 yards of cotton fabric.

or

He will not place orders bearing this certificate calling for delivery in this quarter of 1946 of a total of more cotton fabric than 50% of the yardage he purchased for over-the-counter piece goods sale in the first quarter of 1943 (or 1944)

or (for the second quarter of 1946 only)

He will not place orders bearing this certificate calling for delivery in this quarter of a total of more cotton fabric than the greatest yardage he purchased for over-the-counter piece goods sales in any quarter of 1945.

(4) When a producer has accepted orders accompanied by applicable CPA forms, to the extent of a set-aside for any fabric, he may not require any customer to furnish any of these forms as a condition of filling additional orders for that fabric.

(5) Any person giving a certificate under this schedule, including the certificate set forth in paragraph (e) (3) above and the certificates on applicable CPA forms, must use or dispose of fabric he gets with that certificate in accordance with its terms.

(f) *Deliveries by finished goods suppliers to fill rated or certified orders.* (1) Every supplier of finished cotton fabric making the certification on Form CPA-4381 or CPA-4413 must, if possible, deliver during the applicable quarter on M-328B CC rated orders finished cotton fabric of the type covered by his purchase order in a yardage at least equal to the yardage which he orders for delivery in that quarter on orders accompanied by Form CPA-4381 or CPA-4413. Every supplier of finished cotton fabric making the certification on Form CPA-4380 or Form CPA-4414 must if possible deliver during the applicable quarter to persons who furnish the certificate set forth in paragraph (e) (3) above, or to persons who certify that they will sell only on orders bearing that certificate, finished cotton fabric of the type covered by his purchase order in a yardage at least equal to the yardage which he orders for delivery in that quarter on orders accompanied by Form CPA-4380 or 4414. In calculating the yardage of a particular fabric which he is required to deliver, the supplier of finished fabric may take into consideration actual processing loss in finishing the fabric. Any supplier who does not deliver the full yardage required during the applicable quarter must deliver in the next quarter a yardage of finished cotton fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter. In the first twenty calendar days of that next quarter he must give preference to the extent of this undelivered yardage for M-328B ratings to orders bearing CC ratings assigned under the program for the previous quarter over orders rated CC for the current quarter's program. For example, from April 1 to April 20, 1946, inclusive, orders bearing valid first quarter 1946 CC ratings assigned under M-328B must be filled from such undelivered first quarter yardage in preference to orders bearing second quarter ratings.

(2) No supplier of finished cotton fabric is required to accept or fill M-328B CC rated or over-the-counter piece goods certified orders for a greater yardage of any type of finished cotton fabric listed on a Fabric Set-aside Table than the yardage he is required to deliver on those orders under paragraph (f) (1) above.

(3) Any supplier of finished fabric who does not use the certification in Form CPA-4381 or CPA-4413, for a fabric must accept M-328B CC rated orders for that fabric in accordance with the provisions of Priorities Regulation No. 1. After a supplier of finished fabrics uses Form CPA-4381 or Form CPA-4413 on any of his purchase orders for a fabric he must not extend to any supplier on orders for that fabric, for delivery in the applicable quarter any CC ratings which he knows or has reason to believe were assigned under Order M-328B.

(g) *Restrictions on sale of student nurses' uniforms.* Student nurses' uniforms manufactured under Preference Rating Schedules Nos. 3 and 4 (items 42 through 47) may be sold only to hospitals or nurses' training schools; or to persons who furnish substantially the following certification on their purchase orders:

The purchaser represents to the seller and to the Civilian Production Administration that the student nurses' uniforms covered by this order will be sold only to hospitals or nurses' training schools or for ultimate delivery to such institutions.

The standard certification provided for in Priorities Regulation 7 must not be used instead of the above.

Issued this 3d day of April 1946.

PART 903—DELEGATIONS OF AUTHORITY

[Directive 43]

§ 903.156 *Directive 43—(a) Authorizations under Veterans' Housing Program Order 1.* The Secretary of Agriculture or the Director of the Materials and Equipment Branch, Production and Marketing Administration of the Department of Agriculture is authorized to approve or deny applications on Form CPA-4423 for authorization to begin construction under Veterans' Housing Program Order 1 where the construction involved is on a farm. Approvals and denials may be signed in the name of the Department of Agriculture by the authorized official exercising the authority.

(b) *Redelegations.* The authority delegated by this directive may be redelegated to authorized officials of the Department of Agriculture.

(c) *Standards and procedures.* Authority delegated by this directive must be exercised in accordance with any written instructions which may be given by the Director of the Bureau of Reconversion Priorities of the Civilian Production Administration. The Department of Agriculture shall submit all general processing instructions governing the exercise of this authority to the Civilian Production Administration for its prior approval.

(d) *Reports.* The Department of Agriculture shall make such reports to the Civilian Production Administration on the exercise of the authority granted by this directive as may from time to time be requested by the Civilian Production Administration.

Issued this 4th day of April 1946.

J. D. SMALL,
Administrator.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 3, as Amended Apr. 5, 1946]

The following amended direction is issued pursuant to Priorities Regulation 13:

Government agencies and state or local governments are entitled to certain priorities in getting surplus property from government disposal agencies under the Surplus Property Act of 1944 and War Assets Administration Regulation 2. Although, under paragraph (d) (2) of Priorities Regulation 13, preference ratings no longer have any effect on disposals of surplus property, disposals under WAA Regulation 2 are still subject to any individual directives which the CPA may issue with respect to delivery of specified surplus property to a named buyer or class of buyers. In general, such directives will be issued only in cases of emergencies, such as those involving floods, fires, explosions, or emergency replacements for essential services. (Direction 16 to Priorities Regulation 13 explains when CPA may issue urgency certificates for surplus government owned equipment.) Disposal agencies must also comply with the restrictions on special sales of the materials and products on Lists A and B of Priorities Regulation 13, and with any applicable directions to that regulation.

Issued this 5th day of April 1946.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 16]

URGENCY CERTIFICATES FOR SURPLUS EQUIPMENT

The following direction is issued pursuant to Priorities Regulation 13:

(a) *What this direction does.* Schedule I of Priorities Regulation 28 lists certain critical products. Increased production of these products is essential to the reconversion program. This direction describes how a person engaged in the production of any of these critical products may apply for a CPA urgency certificate which may help him to acquire surplus equipment from the War Assets Administration. Preference ratings have no effect on sales by War Assets Administration either by way of obliging it to sell, or by way of determining as among several buyers who shall get the material or product. The urgency certificates issued under this direction are not preference ratings, and may not be used to obtain equipment from new production.

(b) *How to apply for an urgency certificate.* Application for a CPA urgency certificate to acquire Government owned surplus equipment under this direction should be made on Form CPA-4425, addressed to the Civilian Production Administration, Washington 25, D. C., Ref.: PR-13, Direction 16. This form can be obtained from the Civilian Production Administration, Washington 25, D. C., or CPA District Construction Offices.

(c) *When the CPA may issue urgency certificates.* (1) It is the general policy of the CPA not to grant urgency certificates for Government owned surplus property. However, the CPA may in limited cases grant such certificates, good for 60 days, for items of equipment needed to support production of critical products under the following conditions:

(i) The equipment is required to sustain or increase production of a critical product listed in Schedule I of Priorities Regulation 28; and,

(ii) The applicant has been unable to obtain the equipment from new production as soon as required, without a rating. (If a CC rating has been assigned, and the equipment is not obtainable from new production as soon as required, an urgency certificate may be issued in place of the rating. If a CC rating has already been assigned, or an application has already been submitted for a rating for the desired equipment, a request to substitute an urgency certificate under this direction may be made by letter addressed to CPA, Washington 25, D. C., Ref.: PR-13, Direction 16, instead of using CPA 4425).

(2) CPA will carefully screen all requests, and issue urgency certificates only when in its judgment such action is deemed necessary in the interest of production of the critical products described in Schedule I of Priorities Regulation 28.

(d) *How to use an urgency certificate.* If a CPA urgency certificate is issued, it will be given to the applicant in duplicate. These certificates are good only for Government property which has been declared surplus to War Assets Administration and will cover equipment of the type requested or equivalent equipment. The certificate holder should present both copies of the certificate to a local sales office of War Assets Administration, together with his written order or bid as required by it. It is important that these certificates be filed with War Assets Administration promptly, since every urgency certificate expires 60 days after its issuance by CPA.

(e) *Effect of urgency certificates on disposal agencies.* (1) Unless CPA specifically directs otherwise, the local sales office of War Assets Administration must give precedence to holders of CPA urgency certificates over any other class of buyers in selling any surplus equipment of the type covered by urgency certificates which have been filed with it and which have not expired. The price and terms of sale of specific equipment to a holder of an urgency certificate and the relative precedence among holders of urgency certificates will be determined by War Assets Administration. If the sale is made through a dealer, War Assets Administration will designate the certificate holder who is to receive the equipment, and the dealer must give War Assets Administration a certification in substantially the following form:

> The undersigned certifies to the seller and to CPA, subject to the criminal penalties of section 35 (A) of the United States Criminal Code that he will resell promptly the equipment obtained with this certificate to_____ (insert name of urgency certificate holder designated by War Assets Administration).

The standard certification described in Priorities Regulation 7 may not be used instead of this certification. Any person giving the certification described above must dispose of the equipment he gets with it in accordance with its terms.

(2) If a holder of an urgency certificate is unwilling or unable to meet the price and terms of sale determined by War Assets Administration, it is not required to make the sale.

(f) *Expiration of urgency certificates.* Every urgency certificate expires 60 days after its issuance by CPA. If any person to whom an urgency certificate has been issued is unable to obtain the equipment covered by the certificate before it expires, he may file an application on Form CPA-4425 for renewal, after the original certificate has expired. CPA may issue a new certificate if the applicant still meets the criteria described in paragraph (c).

Issued this 5th day of April 1946.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328, Direction 31, as Amended Apr. 5, 1946]

COTTON AND RAYON FABRICS FOR PROCESSING IN PUERTO RICO, FIRST AND SECOND CALENDAR QUARTERS, 1946

The following amended direction is issued pursuant to Conservation Order M-328:

(a) *Purpose.* There is a shortage of materials needed for processing by the needlework industry in Puerto Rico, and this shortage is so serious as to threaten the economy of the Island.

The purpose of this direction is to provide priorities assistance for the procurement, during the first and second calendar quarters of 1946, for certain types of cotton and rayon fabrics that are urgently needed for this purpose. The remainder of the first and the second quarter will be considered one period and only one application for a preference rating may be made. Some of the fabrics are to be made available from the normal sources of supply in this country, and additional quantities from supplies now held by the War Assets Administration as Surplus Property under Surplus Property Declaration No. 6-14851, as explained in Direction 13 to Priorities Regulation 13.

(b) *Applications.* All applications for a CC rating under this Direction should be made on Form CPA-2842 (dated January 24, 1946), copies of which may be obtained from the Civilian Production Administration, Washington 25, D. C.

(1) The applications should be sent to the Department of the Interior, Division of Territories and Island Possessions, Room 4122, Washington 25, D. C., and must be filed not later than March 12, 1946 in order to be assured of consideration under this direction.

(2) Applications may be made for priorities assistance for rayon broad woven fabrics, and for the following cotton broad woven fabrics:

Aeronautical cloths, lawns, all other combed yarn fabrics, and print cloth yarn fabrics.

(3) In addition to the information called for by Form CPA-2842 each applicant must indicate his plans for the processing of the fabric in Puerto Rico by supplying the following information on that form or in an accompanying letter:

(i) The contractor or contractors located in Puerto Rico who will process the fabric for which the rating is to be applied.

(ii) The type of work to be done on each end product listed in column (b) of the form such as embroidery, hand sewing, etc.

(iii) Show labor and overhead costs or amount paid to contractors for work to be done in Puerto Rico on the materials going into each end product listed in column (b) of Section I of the form.

(iv) In column (e) of Section I of the form state the quantity or quantities of each fabric required for both the first and second quarters of 1946.

NOTE: Leave blank column (c) of Section I of the form.

The reporting requirements of this direction have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

(4) The total amount of the materials for which ratings may be assigned is limited. Applications, including those from persons not previously engaged in the business of having materials manufactured in Puerto Rico will be processed on an equitable basis, consistent with the most effective fulfillment of the purposes of the program, and taking into consideration the data submitted under subparagraph (b) (3) above, and other pertinent factors.

(c) *Quantity of materials available under this program.* CC ratings will be issued to applicants in quantities which, in the aggregate, are not greater than the yardages of fabric, including that being made available from surplus property, covered by the program. No applicant may place these CC ratings or use the certificate described in Direction 13 to Priorities Regulation 13, to order a total yardage, whether to be obtained from regular suppliers or as surplus property, of more than the quantity for which CC ratings are authorized under this direction. Thus an applicant who has been assigned a CC rating for lawns, and has placed a bid with War Assets Administration for some or all of the lawns, may place the CC rating only for the total quantity authorized less the quantity covered by his bid. If WAA does not agree to sell the full quantity of his bid, he may then place his CC rating on orders to get from new production the balance of the lawns covered by his bid. An applicant who has already placed CC rated orders for more yardage than he is entitled to under the above rules, must reduce or cancel these orders or notify his suppliers to treat them as unrated to the extent necessary to bring them within the quantities permitted.

(d) *Use of materials.* All materials obtained with a rating assigned under this order, or obtained with a certificate given under Direction 13 to Priorities Regulation 13, must be shipped immediately to Puerto Rico, either as whole cloth or as cut pieces ready for fabrication or processing, under arrangements by which the material will be processed in accordance with the representations made by the applicant with his application on Form CPA-26.2, and any conditions which may be imposed in the authorization which is issued him. Further, each applicant must provide that the processing of the material will be done in Puerto Rico at as nearly a uniform rate as practicable during the period from the date of the arrival of the goods in Puerto Rico through June 30, 1946.

Issued this 5th day of April 1946.

Recording Secretary.

Chapter XI—Office of Price Administration

PART 1393—ICE

[MPR 154, as Amended,[1] incl. Amdts. 1-15]

ICE

This compilation of Maximum Price Regulation 154, as amended, includes Amendment 15, effective April 10, 1946. The text added or amended by Amendment 15 is underscored.

A statement of the considerations involved in the issuance of Maximum Price Regulation No. 154 as Amended, issued simultaneously herewith, has been filed with the Division of the Federal Register.[2]

In the judgment of the Price Administrator, it is necessary to establish maximum prices for the sale of ice because the prices prevailing in March 1942 were abnormally low in relation to the prices in other industries. As the ice business is primarily seasonal in nature, it has been the custom in the ice business to make price increases only at the beginning of the summer season, which occurs in most regions of the United States in the month of April. Accordingly, in most cases, the prices for ice prevailing in March 1942 did not reflect increased costs incurred since the summer season of 1941, and consequently, as noted above, were abnormally low in relation to the prices prevailing in other industries in which price increases are not limited to a particular time of year. The maximum prices established by this regulation are, in the judgment of the Price Administrator, generally fair and equitable, and in conformity with the general level of prices established by the General Maximum Price Regulation.[3]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and in accordance with Procedural Regulation No. 1,[4] issued by the Office of Price Administration, Maximum Price Regulation No. 154 As Amended, is hereby issued.

AUTHORITY: §§ 1393.1 to 1393.12 inclusive, issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; Pub. Law 108, 79th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9599, 10 F.R. 10155; E.O. 9651, 10 F.R. 13487, E.O. 9697, 11 F.R. 1691.

§ 1393.1 *Maximum prices for ice.* On and after July 8, 1942, regardless of any contract, agreement, lease or other obligation, no person shall sell or deliver ice and no person in the course of trade or business shall buy or receive ice at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1393.12; and no person shall agree, offer, solicit, or attempt to do any of the foregoing.

[§ 1393.1 amended by Am. 12, 10 F.R. 10084, effective 8-13-45 and Am. 15, effective 4-10-46]

§ 1393.2 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1393.12) may be charged, demanded, paid or offered.

§ 1393.3 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

[§ 1393.3 amended by Am. 4, 8 F.R. 7593, effective 6-4-43; and Am. 7, 9 F.R. 2300, effective 3-4-44]

§ 1393.4 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 154 as amended, shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale or delivery of, or relating to the sale of ice, alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

Specifically, but not exclusively, the following practices are prohibited:

(a) The reduction or elimination of discounts in effect during April 1942, with respect to any particular class of purchasers, or, where the seller's maximum price for ice is established under § 1393.12 (a) (2), the reduction or elimination during any of the months from April to October, inclusive, of the discounts in effect during the corresponding month of 1941 with respect to any particular class of purchasers.

(b) Changes in the classification of purchasers of ice which were in effect during April 1942, or, where the seller's maximum price for ice is established under § 1393.12 (a) (2), changes during any months from April to October, inclusive, in the classification of purchasers of ice in effect during the corresponding month of 1941.

§ 1393.5 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 154 as amended, are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for the suspension of licenses provided by the Emergency Price Control Act of 1942, as amended.

(b) Persons who have any evidence of any violation of this Maximum Price Regulation No. 154 as amended, or of any acts or practices which constitute such a violation are urged to communicate with the nearest District or Regional Office of the Office of Price Administration, or its principal office in Washington, D. C.

[NOTE: Supplementary Order No. 7 (7 F.R. 5176) provides that war procurement agencies and governments whose defense is vital to the defense of the United States shall be relieved of liability, civil or criminal, imposed by price regulations issued by the Office of Price Administration.]

[NOTE: Under the provisions of Revised Supplementary Order 44 (10 F.R. 11065) MPR 154, as amended, is adopted and affirmed to be applicable to the Territory of Hawaii.]

§ 1393.5a *Licensing.* The provisions of Licensing Order No. 1,[5] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[§ 1393.5a added by Supplementary Order No. 72, 8 F.R. 13244, effective 10-1-43]

§ 1393.6 *Applicability of General Maximum Price Regulation.* Except as provided in § 1393.7 the provisions of this Maximum Price Regulation No. 154

[5] 8 F.R. 13240.

as amended, supersede the provisions of the General Maximum Price Regulation with respect to sales or deliveries of ice for which maximum prices are established by this regulation.

§ 1393.7 *Relationship between this regulation and the General Maximum Price Regulation.* The following sections of the General Maximum Price Regulation, as well as amendments to them, apply to sales covered by this regulation:

(1) Supplemental regulations (§ 1499.4).

(2) Transfers of business or stock in trade (§ 1499.5), except that the date, June 4, 1943, shall be substituted for the date, April 28, 1942, contained in that section.

[Subparagraph (2) amended by Am. 6, 8 F.R. 12660, effective 9–20–43]

(3) Federal and State taxes (§ 1499.7).

(4) Current Records (§ 1499.12).

(5) Maximum prices of cost-of-living commodities: statement, marking or posting (§ 1499.13).

(6) Sales slips and receipts (§ 1499.14).

[Subparagraphs (7) and (8) deleted by Supplementary Order 72, 8 F.R. 13244, effective 10–1–43]

(9) Defintions (§ 1499.20 (g), (h), (l), (k), (m), (o), (p), (r) and (s)).

[§ 1393.7 amended by Am. 4, 8 F.R. 7593, effective 6–4–43 and as otherwise noted]

§ 1393.8 *Applications for adjustment.* (a) *Conditions.* Any regional office of the Office of Price Administration or such other offices as may be authorized by order issued by the appropriate regional office may, either on application or its own motion, adjust, by order, the maximum prices of ice established under the Maximum Price Regulation No. 154, as amended, for any seller or group of sellers whenever it appears:

(1) That a shortage in the supply of ice available to the seller's locality exists or threatens to occur; and

(2) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices for ice for such seller or sellers; and

(3) That such adjustment will not create or tend to create a shortage or a need for an increase in prices in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

A local shortage may be said to exist or to be threatened when a shortage of ice supply in total sales or in a particular class of sales has arisen or threatens to arise because maintenance of existing maximum prices creates financial hardship in over-all operations or in particular classes of sales threatening the seller's ability to continue such sales, and when only by a price adjustment can such shortage be relieved or averted. More specifically, when maximum prices are so low that they do not produce sufficient revenue to cover the costs of producing, procuring, delivering and selling ice, plus the minimum amount of return necessary to assure an adequate and continuous supply in the locality, a local shortage may be said to exist or to be threatened.

Shortages will not be recognized if it appears that they arise out of factors other than the price level such as lack of manpower, inability to obtain materials and supplies, transportation conditions, or other difficulties apart from maximum prices. Subject to these limitations a local shortage exists or threatens when it appears that the supply of ice is less or will be less than local essential consumer demand in the area served by the applicant. Factors to be considered in this connection will be the normal consumption of ice in the trade area served by the applicant, actual or expected changes therein as a result of population changes and other relevant factors, and the amount of ice available in that particular community as measured by the production and storage capacities of all sellers in that market area.

[Paragraph (a), formerly (e), added by Am. 3, 8 F.R. 1270, effective 2–2–43; redesignated by Am. 10, 10 F.R. 7048, effective 6–18–45 and amended by Am. 15, effective 4–10–46. Former paragraph (a) deleted by Am. 10]

(b) *Standards*—(1) *General basis of adjustment.* Adjustments will be based, in general, upon a comparison of applicant's earnings in his most recent twelve-month accounting period with earnings in the base period years (ordinarily 1936–1939) and subject to the determination by the Administrator of what constitutes an appropriate net return in relation to base period earnings.

(2) *Other considerations.* In measuring the extent of adjustment consideration will be given also (1) to increased production and delivery costs which the seller of ice in the locality affected must incur in order to produce and deliver such ice as compared with production and delivery costs in April 1942, or, for natural ice, as compared with the nearest earlier month in which such ice was harvested and packed in such locality; and (2) to such other circumstances as may be pertinent to the procurement of sufficient supplies of ice to meet the requirements of the locality affected.

(3) *Excess importation costs.* Where a seller must import ice from other localities at costs in excess of the costs of local manufacture or procurement during the most recent calendar month, and the total cost of ice so imported is in excess of the average imported cost absorbed by that seller in a corresponding period in 1938, 1939 and 1940, an adjustment may be granted sufficient to allow such importer of ice to recover, over an appropriate period, the dollar amount of such excess cost.

[Paragraph (b), formerly (f), added by Am. 3, 8 F.R. 1270, effective 2–2–43; redesignated and amended by Am. 10, 10 F.R. 7048, effective 6–18–45; amended by Am. 15, effective 4–10–46. Former paragraph (b) amended by Am. 1and deleted by Am. 10]

(c) In making application for adjustment, any manufacturer of ice who sells at retail and also sells ice to distributors and peddlers for resale at retail may make application for adjustment on behalf of those distributors and peddlers who customarily purchase ice from him. If an adjustment of the manufacturer's maximum price is granted upon such application, a like adjustment of the maximum prices of the distributors and peddlers included in the application may be granted.

In any case where an adjustment is made in the ceiling prices of ice sold at retail by distributors and peddlers, pursuant to an individual application, the ceiling price of ice sold to such distributors and peddlers by manufacturers may, without order, be adjusted upward by an amount not to exceed the amount of the increase in price per ton granted such distributors and peddlers, except that where the Administrator or a Regional Administrator upon his own motion has adjusted maximum prices for ice at all levels and for all sellers within a defined geographical area, no upward adjustment of manufacturers' ceiling prices to their distributors and peddlers may be made except under specific order of the Administrator or Regional Administrator.

Applications for adjustment shall be filed in accordance with Revised Procedural Regulation No. 1, and must supply information substantially as called for by OPA Form 6043–2751 (Appendix C). Although it is not a requirement, in most cases consideration of applications may be facilitated by the applicant's use of this Form, which may be procured from OPA District or Regional Offices.

[Paragraph (c), formerly (g) added by Am 3, 8 F.R. 1270, effective 2–2–43; redesignated by Am. 10, 10 F.R. 7048, effective 6–18–45; and amended by Am. 15, effective 4–10–46. Former paragraph (c) amended by Am. 1 and deleted by Am. 10]

(d) *Special provisions; car-icing sales.* This paragraph (d) contains a flat pricing provision and an adjustment procedure supplementing the general provisions of the regulation and applying exclusively to car-icing sales. Nothing contained in this paragraph (d) shall prevent any seller of ice from making application for price increase for any class of ice, under paragraphs (a), (b) and (c) of § 1393.8. Definitions of terms used in this paragraph (d) are set out, in conjunction with OPA Form No. 644–2452, in Appendix B to this regulation.

(1) *Flat maximum price.* The maximum price for ice sold for car-icing purposes by any seller of ice subject to this regulation, whose lawful maximum price otherwise established under this regulation is less than $3.00 per ton, shall be $3.00 per ton, provided, however, that any seller who shall increase his maximum price to $3.00 under this subparagraph must first file a report thereof with the District Office of the Office of Price Administration nearest the seller's icing location at which such increase is made effective.

(2) *Adjustment by buyer-seller agreement.* Maximum prices for car-icing sales may be adjusted for any seller by the Office of Price Administration pursuant to an application by the buyer and the seller under the following conditions:

(i) The application must be filed on OPA Form No. 644–2452 (Appendix B) in accordance with the directions set forth therein.

(ii) The seller may request a price increase equal in cents per ton to the labor cost increase per ton in the most recent twelve-calendar-month period over the labor cost per ton for the seller's normal fiscal year ending nearest to April 30, 1942, subject to the limitations in subdivision (v) hereof.

(iii) The purchaser, joining in the application, must agree to absorb the proposed increase without passing it on in an increase in the prices or charges of such purchaser for commodities or services sold by such purchaser. This commitment, however, shall be without prejudice to the purchaser including such increased costs in any application for increased rates or charges in any proceeding before an authorized State or Federal regulatory agency, in which consideration of the proposed increases is based upon revenue needs. Specifically, any person furnishing protective service under contracts subject to section 14 (b), Part 1, of the Interstate Commerce Act may join in applications for adjustment by buyer-seller agreement under this subparagraph 2 (and, accordingly, execute the Purchaser's Certification, Item F of OPA Form 644–2452), notwithstanding the foregoing requirement that the purchaser must agree to absorb the proposed increase.

[Subparagraph (iii) amended by Am. 13, 10 F.R. 13594, effective 11–5–45]

(iv) The seller must agree to maintain the same ratio of car-icing sales to total sales, to the extent required by purchasers and available to the seller, as prevailed at that icing location during the twelve-month period immediately preceding the date of application.

(v) Price adjustments authorized under this subparagraph (2) may not exceed 20% of the highest price charged by the seller for car-icing sales at the subject icing location during April 1942; and in no event may the adjustment amount to more than $1.00 per ton above the April 1942 price.

Applications for adjustment under this subparagraph (2) shall be filed only with the Transportation and Public Utilities Division, Office of Price Administration, Washington 25, D. C. Upon consideration of the application, the Administrator will issue an order denying, in whole or in part, the requested adjustment in maximum price, or the Director of the Transportation and Public Utilities Division will issue a notice of approval or require that additional information be submitted. If none of these actions is taken within 20 days after the filing of the application, or after additional information has been supplied, the application shall be deemed to be approved. Note, however, that all approvals, whether made by affirmative action or by operation of the 20-day provision, are subject to revocation or modification by the Administrator at any time.

[Paragraph (d) added by Am. 10, 10 F.R. 7048, effective 6–18–45. Former paragraph (d) added by Am. 1, 7 F.R. 5944, effective 8–5–42; amended by Am. 2, 7 F.R. 8940, effective 11–4–42; and deleted by Am. 10, 10 F.R. 7048, effective 6–18–45]

[Section heading amended by Am. 1]

§ 1393.9 *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation 154, as amended, may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

[§ 1393.9 amended by Supplementary Order No. 26, 7 F.R. 8948, effective 11–4–42]

[NOTE: Procedural Regulation No. 6 (9 F.R. 10628; 10 F.R. 1382, 9394) provides for the filing of applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts. Revised Supplementary Order No. 9 (8 F.R. 6175; 10 F.R. 9394) makes the provisions of Procedural Regulation No. 6 applicable to all price regulations, with the exception of those which expressly prohibit such applications, and certain specific regulations listed in Revised Supplementary Order No. 9.]

§ 1393.10 *Definitions.* (a) When used in this Maximum Price Regulation No. 154 as amended the term:

(1) "Platform sale" (or bridge, or dock sale) is a sale of ice, delivery of which is made to the purchaser at the seller's place of business.

(2) "Delivered sale" is a sale of ice delivered to a purchaser at a point other than the seller's place of business.

(3) "Highest price charged" shall be (i) the highest price which the seller charged for ice delivered by him during any designated period or (ii) if the seller made no such delivery during any designated period, his highest offering price for delivery during that designated period.

(4) "Straight run crushed ice" is ice which has been reduced from block or cut form, by means of breaking or crushing, into various sized smaller pieces, the largest of which smaller pieces normally do not exceed ¼ pound in weight, and which is sold unsegregated as to the resultant sizes or degrees of fineness. The term includes such ice whether the breaking or crushing is done manually or by processing through mechanical crushers. Ice broken into chunks under the usual trade practice for dropping into bunkers of refrigerator cars or similar protective conveyances is not crushed ice within this definition.

(5) "Crushed and sized ice" is ice which, having been reduced in size consistently with the above definition of "straight run crushed ice", is then segregated, by screening, into two or more approximately uniform sizes, and sold in such separate sizes.

[Subparagraphs (4) and (5) added by Am. 14, 11 F.R. 1593, effective 2–18–46]

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1393.11 *Effective dates.* (a) This Maximum Price Regulation No. 154 as Amended (§§ 1393.1 to 1393.12, inclusive) shall become effective July 8, 1942. [MPR 154, as amended, originally issued July 3, 1942]

[Effective dates of amendments are shown in notes following the parts affected]

§ 1393.12 *Appendix A: Maximum prices for ice*—(a) *Determination of maximum prices*—(1) *Generally.* The seller's maximum delivered price and the seller's maximum platform price for any form, quantity, and quality of ice shall be the highest price charged by the seller for such form, quantity, and quality of ice during April 1942 on a delivered sale or on a platform sale respectively to a purchaser of the same class: *Provided,* That in the event the seller's only deliveries to any class of purchasers during April 1942 were made pursuant to a contract or contracts entered into prior to October 1, 1941, the seller's maximum delivered price and seller's maximum platform price to a purchaser of that class for any form, quantity, and quality of ice shall be (i) the highest delivered price or the highest platform price respectively for such form, quantity, and quality of ice for which provision is made in any contract entered into with a purchaser of said class after October 1, 1941 and prior to April 28, 1942, even though no deliveries were made under such contracts in April 1942, or (ii) if the seller has not entered into any contract with a purchaser of that class after October 1, 1941, and prior to April 28, 1942, a price determined in accordance with paragraph (b) of this section.

[Subparagraph (1) corrected, 7 F.R. 5276, effective 7–10–42]

(2) *Alternative maximum prices.* During the months from April to October inclusive, a seller of ice may charge on a delivered sale or a platform sale for any form, quantity, and quality of ice, the highest price charged by the seller for such form, quantity, and quality of ice on a delivered sale or on a platform sale respectively during the corresponding month of 1941 to a purchaser of the same class: *Provided,* That to avail himself of this alternative method of determining maximum prices the seller must be able to demonstrate by appropriate written records what his prices actually were during the corresponding months of 1941 and must preserve such records and make them available for examination by the Office of Price Administration.

(3) *Crushed and sized ice and straight run crushed ice.* Regardless of price limitations otherwise imposed by subparagraphs (1) or (2) above, a seller's maximum price for "crushed and sized ice" and for "straight run crushed ice" may be determined by application of the following differentials over that seller's price for ice in blocks or cuts customarily sold to purchasers of the same class, sub-

ject to dollars-and-cents limitations as indicated:

	Differential	Not to exceed—
	Percent	*Per ton*
Crushed and sized ice	20	$2.00
Straight run crushed ice	15	1.50

This subparagraph (3) is permissive only; it shall not be construed as requiring reduction of prices for crushed and sized ice or straight run crushed ice properly established under other provisions of this section.

[Subparagraph (3) added by Am. 14, 11 F.R. 1593, effective 2-18-46]

(b) *Maximum prices determined by reference to maximum prices of most closely competitive seller—(1) Generally.* Except as otherwise provided in subparagraphs (2), (3), or (4) below, or in paragraph (g) of this section, if the seller's maximum price for ice cannot be determined under paragraph (a) (1) of this section, and is not or cannot be determined under paragraph (a) (2) of this section, the seller's maximum delivered price and the seller's maximum platform price for any form, quantity, and quality of ice shall be the maximum price established under paragraph (a) (1) of this section for the most closely competitive seller of the same class for such form, quantity, and quality of ice on a delivered sale or on a platform sale respectively to a purchaser of the same class.

(2) *Expiring long term contracts.* Determination of maximum prices for ice sold pursuant to long term contracts as covered in paragraph (a) (1) above, may be made by reference to the most closely competitive seller's current lawful maximum price for ice of the same classification, rather than by reference to the most closely competitive seller's April 1942 price, where such competitor's maximum price for this classification has been adjusted by order of the Administrator.

(3) *New sellers and sales of new classifications or new services by existing sellers.* Bona fide new manufacturing plants or other new sellers (note § 1393.4), and existing sellers proposing to sell ice in new classifications or to provide new icing services, may establish their ceiling prices by reference to the current lawful maximum prices for such sales or services by the most closely competitive seller of the same class serving the same market area or trade territory.

(4) *Alternative maximum prices.* If a seller has customarily charged higher prices during the summer season than during the rest of the year, and if the seller's maximum price for ice cannot be determined under paragraph (a) (2) of this section, the seller may charge during the months from April to October inclusive, on a delivered sale or on a platform sale for any form, quantity, and quality of ice the maximum price established under paragraph (a) (2) of this section for the most closely competitive seller of the same class for such form, quantity, and quality of ice on a delivered sale or on a platform sale respectively to a purchaser of the same class.

[Paragraph (b) amended by Am. 15, effective 4-10-46]

(c) *Maximum prices for specially treated ice not sold prior to April 1942.* The maximum price for specially treated ice for which a maximum price is not established by paragraphs (a) or (b) above shall be determined upon application filed with the Director of the Transportation and Public Utilities Division, Office of Price Administration, Washington 25, D. C. Such maximum prices will be established by order of the Administrator in line with the level of maximum prices otherwise established by this regulation. Applications under this paragraph shall contain the following:

1. Name and address of the seller, indicating whether an individual, partnership, association, or corporation;
2. Brief description of the business;
3. Description of the customers or class of customers to be served;
4. A complete description of the specially treated ice for which a maximum price is sought;
5. A statement of the reasons why such specially-treated ice cannot be priced under paragraphs (a) or (b) above;
6. The maximum price proposed by the seller, and a specific breakdown of all relevant cost factors, including material, fuel or power, direct labor, other direct operating expenses, and applicable overhead costs; and
7. Any other facts which the seller wishes to submit in support of the application.

The application must be signed by the applicant personally, or if a partnership by a partner, or if an association or corporation by a duly authorized officer thereof.

Pending consideration of the application, sales and deliveries of the commodity may be made at prices not in excess of the maximum prices for untreated ice in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration in conformity with § 1393.3 of this regulation, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Orders issued under this paragraph may be made applicable to all sellers of a particular kind of specially-treated ice and will contain such restrictions and limitations as are deemed necessary by the Administrator.

[Paragraph (c) added by Am. 9, 10 F.R. 4246, effective 6-11-45. Former paragraphs (c), (d) and (e) redesignated as (d), (e) and (f) by Am. 9]

(d) No seller shall require any purchaser, and no purchaser shall be permitted to pay a larger proportion of transportation costs incurred in the delivery or supply of ice than the seller required purchasers of the same class to pay during April 1942, except that during the months of April to October inclusive, where the seller's maximum price for ice is established by paragraph (a) (2) of this section, no seller shall require any purchaser, and no purchaser shall be permitted to pay a larger proportion of transportation costs incurred in the delivery or supply of ice than the seller required purchasers of the same class to pay during the corresponding month of 1941.

[NOTE: Supplementary Order No. 31 (7 F.R. 9894, 8 F.R. 1312, 3702, 9521) provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."]

(e) The charges made for any special service shall not exceed the charge made during April 1942 except that where, during the months from April to October, inclusive, the seller's maximum price for ice is established by paragraph (a) (2) of this section, the charges made for any special services shall not exceed the charges made during the corresponding month of 1941.

[NOTE: 2nd Revised Supplementary Order No. 34 (10 F.R. 2014) permits, under certain conditions, the addition of special packing expenses to maximum prices on sales to procurement agencies of the United States.]

(f) *Maximum prices for natural ice.* (1) [Deleted]

[Subparagraph (1) amended by Am 8, 9 F.R 14852, effective 12-20-44 and Am. 11, 10 F.R 8660, effective 7-16-45, and automatically deleted by the terms of Am. 11]

(2) *Harvester's maximum prices determined by reference to highest price charged during the harvest period.* If the harvester's maximum price for natural ice cannot be determined under paragraphs (a) or (b) of this section, the harvester's maximum delivered price and the harvester's maximum platform price for any form, quantity and quality of such ice shall be the highest price charged by the harvester for such form, quantity and quality of natural ice during the month or months of harvest of such seller in the period from December 1, 1941 through March 31, 1942 on a delivered sale or platform sale respectively to a purchaser of the same class.

(3) *Transportation and special service charges.* (i) No harvester of natural ice who determines his maximum price under subparagraph (2) shall require any purchaser, and no purchaser shall be permitted to pay a larger proportion of transportation costs incurred in the delivery or supply of natural ice than the harvester required purchasers of the same class to pay during the months of April to October inclusive, where the seller's maximum price for ice is established by paragraph (a) (2) of this section, no seller shall require any purchaser, and no purchaser shall be permitted to pay a larger proportion of transportation costs incurred in the delivery or supply of ice than the seller required purchasers of the same class to pay during the corresponding month of 1941; and

(ii) The charges made for any special service rendered by such harvester shall not exceed the charge made during the month or months of harvest of such seller in the period from December 1, 1941 through March 31, 1942 for such special service to purchasers of the same class.

[Paragraph (f), formerly (e) added by Am. 3, 8 F.R. 1270, effective 2-2-43]

[Original paragraph (f) added by Am. 4, 8 F.R. 7593, effective 6-4-43; corrected 8 F.R. 8844, effective 7-2-43; revoked by Am. 5, 8 F.R. 10514, effective 7-26-43]

(g) *Maximum prices for sales and service which cannot be determined by the other provisions of this section.* If maximum prices cannot reasonably be determined under the foregoing provisions of this section, they must be established pursuant to application filed with the nearest District Office of the OPA for approval of a maximum price in line with the level of prices otherwise established by this regulation.

(1) The application shall contain a full description of the sales classification or service, the applicable material, labor and other costs, and must show conclusively that maximum prices cannot equitably be determined under other provisions of this section. Additional information must be furnished if requested by OPA.

(2) Applications shall show a comparison in costs and prices between the sales classification or service for which a price determination is being made, and the costs and prices of the most nearly comparable service, if any, being currently rendered.

(3) The OPA may disapprove or revise maximum prices proposed or established under this section where necessary to bring such maximum prices into line with the level of maximum prices generally established by this regulation, and in no event will prices be approved in excess of the total applicable costs plus an amount reflecting the percentage of net realization being currently earned by applicant in the most nearly comparable class of sales or services, reported pursuant to subparagraph (2) above.

(4) Applicant may not sell the ice or service at the maximum prices requested under this section until that price has been authorized by the OPA, except that the proposed price shall be considered approved and authorized upon the expiration of twenty days after the application, or requested additional information, has been filed, unless within that period the OPA notifies applicant that the requested price has been disapproved or requests additional information. Any approval may be subsequently modified or revoked by the OPA.

INSTRUCTIONS

(1) *Filing this form and OPA action.* (Copies of this form may be secured from any District or Regional Office of the Office of Price Administration or the Transportation and Public Utilities Division, Office of Price Administration, Washington 25, D. C.)

An original and one copy of this form are to be completed and filed with the Transportation and Public Utilities Division of the Office of Price Administration, Washington 25, D. C. at least 20 days prior to the date that applicant expects adjusted ceiling prices to become effective as shown in section "A".

In accordance with provisions of § 1393.8 (d) (2) of MPR 154, as amended, the adjusted ceiling price requested herein shall become effective upon affirmative approval by the Transportation and Public Utilities Division, Office of Price Administration, Washington, D. C., or upon the expiration of 20 days from the date of filing in the absence of a specific order of disapproval, a request for further information, or notice that this form may be inappropriate for this pricing action.

(2) *General applicability.* This method of request for adjustment in the ceiling price for ice is to be used only for "car icing sales" as defined below and relates only to labor cost increases for car icing operations during the most recent twelve month period preceding date of application over such labor cost for the seller's normal fiscal year ending nearest to April 30, 1942.

(3) *Amount of adjustment.* No adjustment in the ceiling prices of ice used for car icing sales as defined herein may be made as the result of an application on this form in excess of the increased car icing labor cost as determined under Section "D" herein during the most recent twelve month period preceding date of application over the seller's normal fiscal year ending nearest to April 30, 1942, and in no event more than in an amount equal to 20 percent of the April 1942 ceiling price, and limited in any case to not more than $1.00 per ton over the April 1942 ceiling price. Application for price increases in excess of these limits, or based upon cost increases other than for car icing labor, may be filed in accordance with § 1393.8 (a), (b) and (c) of MPR 154, as amended, but cannot be made on this form.

Address of seller is to be the location of plant where icing operations are performed.

Sections "A" "B" "C" "D" and "E" are to be filled in completely by the seller. Data under Section "D" relates to the total car icing operations of the seller at the plant or location herein.

Definitions—"Car-icing sales." As used in this regulation the term "Car-Icing Sales" refers to ice sold to railroads, express companies, boat lines, truck lines, fishing fleets, and commercial shippers of perishable products using the foregoing facilities, for use and consumption by the purchaser. For purposes of this definition no distinction shall be made between ice used for pre-cooling, initial icing, or re-icing purposes.

[Above paragraph amended by Am. 15, effective 4-10-46]

Car-icing, as used herein, is not intended to cover sales in small quantities to individual fishing boats, milk handlers and dealers, small truck gardeners and poultry processors, or for similar purchasers who use ice to transport perishable food products to local and adjacent markets. Ice for this purpose is usually purchased in small quantities at the seller's platform with no manual icing operation required of the seller.

Since price increases permitted as a result of the use of this form are intended to relieve ice shortages in situations which may arise quickly and/or require immediate attention, and where sellers have had burdensome labor cost increases over the seller's normal fiscal year ending nearest to April 30, 1942, in car-icing operations, obviously only in cases where sellers are required to do manual icing operations, will such labor costs be excessive except for nominal amounts to compensate for production labor cost increases. It will be found that in most instances, car-icing sales, as defined herein, are for large tonnage requirements and are usually made pursuant to contracts, often long-term, entered into prior to October 1, 1941, and usually specifying the amount of manual icing operations required of the seller by the purchaser, and with such icing services included in the price per ton paid by the purchaser.

[Above definition amended by Am. 12, 10 F.R. 10084, effective 8-13-45]

"Seller." Seller, as used herein, means any seller of ice who is subject to price control of ice under Maximum Price Regulation No. 154, as amended.

"Purchaser." Purchaser, as used herein, means any purchaser of ice who buys ice in substantial quantities for uses described under the above definition of "car-icing sales".

Car-icing labor. (Section D) *Production labor.* Production labor, as used herein, shall be the total production labor, (including applicable payroll taxes and insurance), under the usual and accepted industry definition of production labor, but covering only the amount of such labor applicable to ice manufactured and sold for car-icing purposes, as defined herein. It is to include proportionately all labor costs of employees who treat makeup water, fill ice cans, pull ice, operate compressors or other ice manufacturing machinery, fire boilers, maintain the production equipment, and all other labor operations in connection with the production of ice up to the point of placing it in the vault. It is to be arrived at by (1) taking the total of all tons produced in the seller's normal fiscal year ending nearest to April 30, 1942 and the total of all tons produced during the most recent twelve month period preceding date of the application, (2) dividing these total tons into the total production labor cost for the entire plant operation in each year, and (3) multiplying this resultant cost per ton figure by the number of tons of car-icing ice only, in each of the respective years. By this method, there will be reflected under this section only the production labor applicable to the tons of ice made and sold for car-icing purposes.

(2) *Vault, storage, hauling and miscellaneous labor.* Include all labor (including applicable payroll taxes and insurance) of employees who stack or tier ice in vaults or storage houses, either by hand or by elevators; who bring ice from storage to point of delivery to transporting vehicles or to the icing docks adjacent to the vaults or storage rooms; and who operate refrigeration machinery used exclusively for refrigeration of ice for car-icing purposes. It includes also wages or salaries of maintenance crews for car-icing vaults, platforms and icing equipment. All clerical and supervisory labor applicable to car-icing operations (item 1, 2 or 3) shall be included in this item #2.

Include under this classification, all labor of employees who haul or transport ice from the platforms of the seller to the point of actual icing operations, where such operations are not at the plant sidings, including all drivers and handlers or other persons engaged in the hauling or transportation of ice for car-icing purposes.

(3) *Direct icing operations.* Include all labor (including applicable pay-roll taxes and insurance) of employees who operate car-icing drag chains or icing elevators; distribute ice along icing platforms; operate ice crushers or blowers conditioning ice for car-icing use; drag ice onto cars; break and place in bunkers; set bunker grates; clean out the bunkers; place ice in body of cars or in or on shipping containers within the cars; spot cars or otherwise engage in car-icing operations not included in (1) and (2) above.

NOTE: Where accurate time card distribution of labor costs is not kept and employees are used jointly for car icing and other operations, show by separate attachment the method of allocation of such labor cost between car-icing and other operations.

No labor costs for production (except as specified above), operation of vaults, platforms, retail stations, retail delivery operations, processing or storage for retail sales, executive salaries, or construction work on additions to plant may be included in car-icing labor.

If customary labor classifications of seller differ substantially from the classifications in items 1, 2, and 3 in section D, explanation may be made by separate attachment.

GENERAL INSTRUCTIONS

PURPOSE AND USE

The Office of Price Administration, or any Regional Office thereof, or other District Office having delegated authority may adjust the maximum prices established under MPR 154, as amended, for any person, firm or corporation upon the conditions and pursuant to the provisions contained therein.

While the use of this form is not mandatory, the Revenue, Expense, and Tonnage for appropriate base period years and with some reasonable degree of segregation thereof, must be furnished with any application, together with balance sheets as of the close of each of the base period years and the current year. If base period data have been previously filed substantially as indicated herein, applicant need only file data for most recent year, fiscal or calendar.

This form is designed to expedite consideration by an adjusting office of applications for general price increases, and is as nearly universal as possible. It is understood that various applicants will not have information to report Revenue, Expense, or Tonnage, in exact accordance with classifications shown. When used, however, it should be completed as follows:

Complete all Sections A through E as applicable.

Blank spaces are provided for use when applicant's classifications are not in conformity with those given.

Fill out in even dollars and even tons.

Do not include in the operating expense any Federal or State income taxes; excess profit taxes, nor any items that are proper charges to capital (investment) accounts.

Line B-4 is the total of all expenses in Section B. (B-1, B-2, and B-3.)

Line C is the difference between the total of Section A and Line B-4.

Information under Section E may be necessary to process your application, therefore should be given.

The base period years are 1936–1939, inclusive. However, some sellers of ice do not have accurate figures for these years and where this is the case, the adjusting office may permit other base period years. Where other than base period years, 1936–1939, are used, an explanation of such change must accompany application. Years subsequent to 1942 may not be used as base period. It is not mandatory that columns "average" and "change + or −" be completed by applicant, however, such completion may expedite consideration of the application.

Section G—is self-explanatory. Applicant is to furnish a brief description of the plant, for example:

"50 ton raw water plant built in 1930, Arctic-Pownall tank using 300 pound cans, electrically driven, York compressors, etc."

Section H—As the amount of ice storage space available will be a consideration for an ice adjustment, one total of daily capacity in tons of all daily vaults should be shown. If seasonal storage in appreciable quantity is in use, this should be shown separately from "daily" storage.

Section I—must be filled in complete detail for "Present," regardless of whether price increases are requested for al classifications.

Section J—Since the amount of total capacity available in each locality is a criterion for adjustment, applicant should list the other manufacturers of ice in his trade territory and show their daily production and storage capacities, if known.

Section K—Show applicable Section of Regulation and sign as indicated. Unsigned applications will not be considered.

PART 1312—LUMBER AND LUMBER PRODUCTS

[MPR 525, Amdt. 11]

JOBBERS SALES OF STOCK MILLWORK

A statement of the considerations involved in the issuance of this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 525 is amended in the following respects:

1. Paragraph (b) of section 2 is amended to read as follows:

(b) *Definition of the term "jobber's sale of stock millwork."* As used in this regulation the term "jobber's sale of stock millwork" means all sales out of jobbers' warehouses to retail lumber yards and other distributors, and all direct-mill sales of stock millwork covered by Revised Maximum Price Regulation 293 and Maximum Price Regulation 589 in quantities not covered under those regulations. (Revised Maximum Price Regulation 293 and Maximum Price Regulation 589 cover direct mill sales in quantities of 12,000 pounds or more by truck delivered to one place, or of 15,000 pounds or more by rail delivered to one or more places, no matter whether the buyer is a jobber, dealer, or anyone else. Maximum Price Regulation 589 also covers direct-mill sales of millwork when it is shipped with softwood lumber and/or fir doors, mouldings or plywood and the weight of the total shipment is 12,000 pounds or more by truck to a single place, or 15,000 pounds or more by rail to one or more places.) Note that sales out of jobbers' warehouses which are situated in the same locality as a manufacturing plant and which are controlled by the plant, or control it, or are under common control with it, are on the same basis as sales direct from the factory.

2. A new section 2a is added in Article II, to read as follows:

SEC. 2a. *Effect of changes in manufacturers' prices.* (a) Notwithstanding any other provision of this regulation, all sellers of stock millwork, covered by this regulation, shall use the maximum prices which were in effect at the manufacturing level (excluding any increases by individual adjustment to a particular manufacturer) on March 1, 1946, as a basis for calculating maximum prices under this regulation. If for any item no maximum prices were in effect at the manufacturing level on March 1, 1946, a seller shall use the earliest maximum prices established at the manufacturing level after March 1, 1946.

(b) Where a seller under this regulation sells stock millwork for which the maximum price at the manufacturing level has been increased by Office of Price Administration action, either by way of industry-wide or individual adjustment, he may increase his maximum price under this regulation, computed pursuant to paragraph (a) above, only by the dollar and cent amount by which the price at the manufacturing level has been adjusted.

This Amendment No. 11 shall become effective April 4, 1946.

Issued this 4th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

PART 1312—LUMBER AND LUMBER PRODUCTS

[RMPR 293, Amdt. 14]

STOCK MILLWORK

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 293 is hereby amended in the following respects:

1. The first paragraph of section 9 (b) is amended to read as follows:

The amount by which the seller's acquisition cost of the item delivered to his warehouse would by reason solely of price increases authorized by the Office of Price Administration exceed his March 1942 net acquisition cost of the item if the item had been purchased from a supplier of the same class in the same quantities as in March 1942.

2. Paragraph (a) of Appendix B in section 18 is amended to read as follows:

(a) The maximum prices for Ponderosa pine glazed windows and sash sold alone, or with other millwork, in carload quantities shall be the net prices, f. o. b. mill, full freight allowed, computed by applying the base discounts shown in Tables I and II to the list prices and list extras contained in Standard Lists Catalog No. 40 and the list prices contained in Supplemental Lists to Standard Lists Catalog No. 40 as follows:

5. Section 30; Appendix N is amended to read as follows:

SEC. 30. *Appendix N: Supplemental lists to Standard Lists Catalog No. 40.* The following Modular Standard lists of Ponderosa pine sash, windows, sash screens and window screens must be used by all sellers in computing maximum selling prices for any item contained therein. In computing maximum selling prices for items not on this supplemental list, the seller must base his computations on lists contained in Standard Lists Catalog No. 40. In establishing maximum selling prices for 2 light storm sash the seller will use the list price of the 1⅜" 2 light checkrail windows. In establishing maximum selling prices for 4 light storm sash the seller will use the list price of the 1⅜" 4 light checkrail windows.

Supplemental List No. 1. Unless otherwise specified, windows and sash will be supplied with wood parts no wider than standard layouts shown for each design and for an opening no larger than that shown.

PART 8309—CONTRACTOR INVENTORY AND DISPOSALS BY OWNING AGENCIES

Surplus Property Administration Regulation 9, October 12, 1945, entitled "Contractor Inventory and Disposals by Owning Agencies," as amended through Dec. 7, 1945, (10 F.R. 12961, 14966) is hereby further amended in the following respects:

1. Section 8309.1 (m) is amended to read as follows:

§ 8309.1 (m) "Salvage" means property that is in such a worn, damaged, deteriorated or incomplete condition, or is of such a specialized nature that it has no reasonable prospect of sale as a unit, or is not usable as a unit without major repairs or alteration. Salvage has some value in excess of its basic material content because it may contain serviceable components or may have value to a purchaser who may make major repairs or alterations. Salvage includes used containers and cable reels.

2. Section 8309.16 (b) is amended to read as follows:

§ 8309.16 (b) Except as specified in any order issued under paragraph (a) of this section, any owning agency is authorized to sell at the best price obtainable small lots in its possession at any one place at any one time. Such small lots should not be declared surplus to disposal agencies except in special cases and upon mutual agreement between the owning and disposal agency. A small lot shall consist of any item or group of identical items, normally constituting a single entry on Form SPB-1, the cost of which (estimated if not known) does not exceed $100. Notwithstanding the foregoing, if, in the opinion of a disposal agency, such disposition of small lots of any given type of property interferes with the orderly marketing of such type of property by it, such agency may direct the owning agencies to cease sales of such property and to report such property as surplus pursuant to the act.

This amendment shall become effective April 4, 1946.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Order 130–E]

PART 12—AMATEUR RADIO: STATIONS AND OPERATORS

FREQUENCY BANDS

MARCH 29, 1946.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of March, 1946;

Whereas by Order No. 130–A, dated November 14, 1945, as amended by Order No. 130–B, dated January 16, 1946, and as further amended by Order No. 130–C, dated February 20, 1946 and as further amended by Order No. 130–D, dated March 13, 1946, the Commission made available for amateur station operation certain frequency bands; and

Whereas one of these bands, namely, 3700 to 4000 kilocycles, which was made available for use as of April 1, 1946, 3:00 a. m. Eastern Standard Time, by amateur stations within the continental limits of the United States, may now be expanded to include the frequencies from 3625 to 3700 kilocycles, and the use of the expanded band 3625 to 4000 kilocycles extended to amateur stations within the Territories of Alaska and Puerto Rico, and in the Virgin Islands; and

Whereas two minor changes in frequency bands previously made available are considered advisable;

It is hereby ordered, That the second ordering clause of Order No. 130–A, as amended by Orders Nos. 130–B, 130–C and 130–D, be and it is hereby further amended to read as follows:

2. (a) The following frequency bands are available for use for amateur station operation, subject to the limitations and restrictions set forth herein:

(1) 3625 to 4000 Kc., using type A1 emission, and, on frequencies 3900 to 4000 Kc., type A3 emission, subject to the restriction that A3 emission may be used only by an amateur station which is licensed to an amateur operator holding Class A privileges and then only when operated and controlled by an amateur operator holding Class A privileges. This band may be used for amateur station operation on and after, but not before, April 1, 1946, 3:00 a. m. Eastern Standard Time. Use of this band is restricted to amateur stations within the continental limits of the United States, the Territories of Alaska and Puerto Rico, and the Virgin Islands.

(2) 27.185 to 27.455 Mc., using types A0, A1, A2, A3 and A4 emissions, and also special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques). This band is subject to use also for operation of scientific, industrial and medical apparatus.

(3) 28.0 to 29.7 Mc., using type A1 emission.

(4) 28.1 to 29.7 Mc., using type A3 emission.

(5) 29.0 to 29.7 Mc., using special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(6) 50.0 to 54.0 Mc., using types A1, A2, A3 and A4 emissions and, on frequencies 52.5 to 54.0 Mcs., special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(7) 144 to 148 Mc., using types A1, A2, A3 and A4 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques). The portion of this band between 146.5 and 148 Mc. shall not be used, however, by any amateur station located within 50 miles of Washington, D. C., Seattle, Washington, or Honolulu, T. H.

(8) 235 to 240 Mc., using types A1, A2, A3 and A4 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(9) 420 to 430 Mc., 1215 to 1295 Mc., 2300 to 2450 Mc., 5250 to 5650 Mc., 10,000 to 10,500 Mc., and 21,000 to 22,000 Mc., using on these six bands, types A1, A2, A3, A4 and A5 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques). Peak antenna power on the band 420 to 430 Mc. shall not exceed 50 watts.

(b) No frequencies other than those assigned in this order shall be used for amateur operation.

This order shall become effective immediately.

By the Commission.

[Docket No. 6220]

HERMAN RADNER

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Herman Radner, Dearborn, Michigan, for construction permit; Docket No. 6220, File No. B2–P–3180.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of March 1946;

The Commission having under consideration the above-entitled application of Herman Radner for a permit to construct a new broadcast station at Dearborn, Michigan, to be operated on the frequency 680 kc with power of 250 watts, unlimited time, which was dismissed without prejudice on June 22, 1943, and a petition filed by the applicant on September 13, 1945 requesting reinstatement of the said application;

It is ordered, That the above petition be, and it is hereby granted; and

It is further ordered, That the application be, and it is hereby designated for hearing upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of the other broadcast services available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the areas and populations proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with the services of Stations WISR, Butler, Pennsylvania or WMAQ, Chicago, Illinois or any other existing or proposed broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine the extent of the applicant's interest in the licensee of Station WIBM, Jackson, Michigan.

6. To determine the areas and populations expected to receive primary service from the operation of the proposed station which are included within the primary service area of Station WIBM, Jackson, Michigan.

7. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

GLOBE WIRELESS LTD.

NOTICE OF HEARING

In re application of Globe Wireless Ltd., dated August 30, 1945, for modification of license to include Havana, Cuba as an authorized point of communication; class of service, fixed public; class of station, point-to-point telegraph; location, Woodcliff Lake, New Jersey; Docket No. 7491, File No. T1–SA–406.

You are hereby notified that the Commission having examined the above described application, and being unable to determine upon examination of such application that public interest, convenience or necessity would be served by the granting thereof, has designated the matter for hearing for the following reasons:

1. To determine the extent to which applicant's authorized frequencies and facilities will be used for operating the proposed circuit and whether such use is the most desirable use of these frequencies and facilities for providing the United States public with rapid and efficient communication service.

2. To determine the nature and capacity of existing telegraph communication facilities between New York, N. Y., and Havana, Cuba, and the capacity, transmission qualities and scheduled hours of operation of the circuit proposed in the above application.

3. To determine the efficiency of operation of the proposed circuit, as compared with the efficiency of operation of existing facilities for telegraph communication service between the United States and Cuba.

4. To determine whether there is a public need for additional telegraph communication facilities between New York, N. Y., and Havana, Cuba.

5. To determine the nature of any contracts, agreements or understandings between the applicant and any other carrier for the operation of the proposed circuit.

6. To determine the nature of service to be rendered by applicant over the proposed circuit, including the classes of service to be offered, the charges to be made for each such class and the division of such charges.

7. To determine the extent to which the general public in the United States would make use of service over the proposed circuit and whether applicant proposes to enter into any agreements for service to any particular user or users which would limit general public use of the proposed circuit.

8. To determine the effect of a contract of January 2, 1946 between applicant on the one hand and the Robert Dollar Company and the International Business Machines Corporation, on the other hand, on the control of the applicant, and on its ability to render foreign telegraph service in the public interest.

9. To determine the financial qualifications of the applicant to establish and operate the proposed circuit in the public interest.

10. To determine any other relevant facts which would indicate whether or not a grant of the above application would serve public interest, convenience or necessity.

The applicant is hereby given an opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.384 (a) of the Commission's rules and regulations. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's rules and regulations.

The applicant's address is as follows: Globe Wireless Ltd., 311 California Street, San Francisco, California.

Dated at Washington, D. C., March 27, 1946.

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN ILLINOIS COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A;

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 6 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the persons described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on April 1, 1946.

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN MICHIGAN, INDIANA, MISSOURI AND WISCONSIN COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 4 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property which each of the persons named in said Column 1 of said Exhibit A obtains or is determined to have as a result of the action or proceeding described in said Column 3 of said Exhibit A the sums stated in said Column 4 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on April 1, 1946.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A;

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 6 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the persons described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on April 1, 1946.

GIICHI YASUGAMI AND SAKAE YASUGAMI

In re: Real property owned by Giichi Yasugami and Sakae Yasugami.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Giichi Yasugami and Sakae Yasugami, subjects of Japan, whose present whereabouts are unknown and who are believed to be residents of Japan, are nationals of a designated enemy country (Japan);

2. That the property described as follows: Real property situated in the District of Santa Ana, City of Manila, Commonwealth of the Philippines, therein registered and particularly described in Exhibits A to E, inclusive, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in subparagraph 2 hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on February 12, 1946.

GEORGE A. BRYANT ET AL.

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120; *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 13. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classifications of the respective size groups. The location of each mine is given by county and state. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparation plant and when stated to be for rail shipment or for railroad fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.224 and all other provisions of Maximum Price Regulation No. 120.

U. C. MURCELL, INC.

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion, issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 9, 10 and 11 (c) of Revised Maximum Price Regulation 136, *It is ordered:*

(a) U. C. Murcell, Inc., 5400 Santa Fe Avenue, Los Angeles, California, may sell, f. o. b. plant, each Murcell Universal trailer, described in subparagraph (1) below at a price not to exceed $184.40 plus federal excise tax, state and local taxes on the sale or delivery of the trailer and the cost of transporting it to the purchaser, if any.

(1) *Description.* Model 1001-A. MUT, two wheel utility trailer; 1 ton capacity; all steel, all welded frame and body; body dimenstons 54" wide x 84" long; equipped with 6.00 x 16, 4 ply synthetic rubber tires and tubes and extension draw-bar.

(b) U. C. Murcell, Inc. is authorized to suggest to resellers a resale price for the trailer described in paragraph (a) (1) consisting of the following:

(1) *Price to dealers.* $204.88.

(2) *Price to consumers.* $273.17.

(3) *Charges.* (i) A charge for transportation, if any, not to exceed the actual freight charge from the factory at Los Angeles, California, to the railroad freight receiving station nearest to the place of business of the reseller.

(ii) A charge equal to the charge made by U. C. Murcell, Inc. to cover federal excise taxes.

(iii) A charge equal to reseller's expense for payment of state and local taxes on the purchase, sale or delivery of the trailers.

(c) A reseller of Murcell trailers in any of the territories or possessions of the United States is authorized to sell the trailer described in paragraph (a), at a price not to exceed the applicable price established in paragraph (b), to which it may add a sum equal to the expense incurred by or charged to it for payment of territorial and insular taxes, on the purchase, sale or introduction of the trailer; export premiums; boxing and crating for export purposes; marine and war risk insurance; and landing, wharfage and terminal operations.

(d) U. C. Murcell, Inc. shall furnish to the Automotive Branch, Office of Price Administration, Washington, D. C., not later than September 30, 1946 detailed unit costs based on actual production during March, April, May, June, July and August 1946. These unit costs, however, shall be computed in accordance with section 10 of Revised Maximum Price Regulation 136 in order to be on a comparable basis to those used for this price determination.

(e) All requests not granted herein are denied.

(f) This order may be amended or revoked by the Administrator at any time.

NOTE: Where the manufacturer's invoice charge to the reseller is increased or decreased from the previous invoice charge because the manufacturer has a newly established price under section 8 of Revised Maximum Price Regulation 136, due to substantial changes in design, specifications or equipment of the trailer, the reseller may add to its price under paragraph (b) the increase in price, plus its customary markup on such a cost increase, but in case of a decrease in the price, the reseller must reduce its price under paragraph (b) by the amount of the decrease and its customary markup on such an amount.

This order shall become effective April 5, 1946.

Issued this 4th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

HOWARD ZINK CORP.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to Order No. 4418 under § 1499.157b of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturers' maximum prices.* The Howard Zink Corporation, Fremont, Ohio may sell and deliver to jobbers and retailers, the articles listed below which it manufactures, at prices no higher than its maximum prices for such sales in effect immediately prior to the issuance of this order, increased by the appropriate one of the following percentages:

	Percentage adjustment
Custom-tailored seat covers:	
Coupe	18.3
Coaches and Sedans (complete sets)	10.6
Palm-Tex (No. 2 Universal):	
Coupe	30.2
Coaches and Sedans (complete sets)	20.7

(b) *Maximum prices of purchasers for resale.* Purchasers for resale of such articles, which the manufacturer has sold at adjusted maximum prices, shall determine their maximum resale prices in the manner set forth below in this paragraph (b); and the provisions of Supplementary Order No. 153 shall not apply to resales of articles covered by this order.

(1) A purchaser for resale who delivered or offered for delivery during March 1942 any article which meets the definition of "most comparable commodity" contained in § 1499.3 (a) of the General Maximum Price Regulations except that it need not be currently offered for sale, shall determine his maximum resale price by adding to his invoice cost the same markup which he had on that comparable article, according to the method and procedure set forth in that section.

The determination of a maximum resale price in this way need not be reported to the Office of Price Administration. However, each seller must keep complete records showing all the information called for on OPA Form 620–759, with regard to how he determined his maximum resale price, for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) If a purchaser for resale cannot determine his maximum resale price under the above method, he shall apply to the Office of Price Administration for the establishment of his maximum resale price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum resale prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances, and other price differentials, in effect during March, 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 4th day of April 1946.

Issued this 4th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

R & R TOOL AND DIE WORKS

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by R & R Tool and Die Works, 324 Lafayette Street, New York, N. Y.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	Maximum prices for sales by any seller to— Jobbers	Chain and department stores	Other retailers	Consumers
Aluminum food chopper with open body feature and return channel for juice and bracket		*Each*	*Each*	*Each*	*Each*
	C22	$2.98	$3.57	$3.97	$5.95

These maximum prices are for the articles described in the manufacturer's application dated January 26, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. These prices are f. o. b. factory and subject to a cash discount of 2% for payment in 10 days, net 30 days.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, under the Fourth Pricing Method, § 1439.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

Model No. ------
OPA Retail Ceiling Price—$------
Do Not Detach or Obliterate

(c) At the time of, or prior to, the first invoice to each purchaser for resale at wholesale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 5th day of April 1946.

Issued this 4th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

MOSHANNON FALLS MINING CO. ET AL.

ESTABLISHMENT OF MAXIMUM PRICES AND PRICE CLASSIFICATIONS

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120; *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 1. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classifications of the respective size groups. The location of each mine is given by county and state. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparation plant and when stated to be for rail shipment or for railroad locomotive fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.212 and all other provisions of Maximum Price Regulation No. 120.

SPEAKMAN CO.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 410 under section 16 of Maximum Price Regulation No. 591. Specified mechanical building equipment, Docket No. 6123-SO 133-1. Adjustment of maximum prices for sales of brass plumbing fixture trim manufactured by the Speakman Company of Wilmington, Delaware.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 16 of Maximum Price Regulation No. 591, it is ordered:

(a) *Adjustment of maximum prices for the Speakman Company of Wilmington, Delaware.* (1) The Speakman Company may increase its properly established maximum prices for its line of plumbing fixture trim in effect during March, 1942, to each class of purchaser by 8.0 percent.

(2) The Speakman Company shall continue to extend discounts and allowances, including transportation allowances, and to render services which are at least as favorable as those which the Speakman Company extended or rendered or would have extended or rendered to purchasers of the same class on sales of comparable quantities of those products during March 1942.

(b) *Maximum prices for resellers.* The maximum prices for sales by a reseller of any of the commodities for which adjustment is granted the Speakman Company under this order shall be his maximum price to each class of purchaser in effect during March 1942, plus the actual dollars-and-cents increase in present acquisition costs resulting from the adjustment granted the Speakman Company of Wilmington, Delaware under this order.

(c) *Notification to all purchasers.* The Speakman Company of Wilmington, Delaware shall send the following notice to every purchaser of the commodities covered by this order at or before the time of the first billing after the adjustment granted by this order is put into effect:

Order No. 410 under section 16 of Maximum Price Regulation No. 591 provides for increases in net prices for sales of brass plumbing fixture trim manufactured by the Speakman Company. Resellers may add the actual dollars-and-cents increase in their acquisition cost resulting from the adjustment granted the manufacturer, to their existing maximum prices.

(d) All prayers of the application of the Speakman Company not granted in this order are denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective April 5, 1946.

Issued this 4th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

[Rev. SO 119, Order 144]

ELECTROMASTER, INC.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, *It is ordered:*

(a) Electromaster, Inc., 1803 East Atwater Street, Detroit 31, Michigan, may increase by no more than 10.1 percent its highest prices charged during October 1941 to each class of purchaser for the electric cooking ranges of its manufacture.

(b) For sales in each zone by wholesale distributors to retail dealers the ceiling prices for the models of electric ranges manufactured by Electromaster, Inc. and listed below are as follows:

any time.

Model	Quantity	Ceiling prices for sales to retail dealers			
		Zone 1	Zone 2	Zone 3	Zone 4
		Each	*Each*	*Each*	*Each*
15-1	1 to 4	$119.56	$121.56	$124.31	$125.34
	5 or more	115.62	117.57	119.21	121.17
T-41-1	1 to 4	78.77	79.86	80.96	82.02
	5 or more	76.12	77.32	78.22	79.24

The ceiling prices include the Federal excise tax and are subject to terms, discounts, allowances, and other price differentials no less favorable than those the seller had in effect on sales of similar articles during March 1942. If a seller made no such sales during March 1942 the ceiling prices are subject to terms, discounts, allowances, and other price differentials no less favorable than those of his closest seller of the same class had in effect during the same period on sales of similar articles or which he thereafter properly established under applicable OPA regulations.

(c) For sales in each zone by retail dealers to ultimate consumers the ceiling prices for the models of electric ranges manufactured by Electromaster, Inc. and listed below are as follows:

Model	Ceiling prices for sales to ultimate consumers			
	Zone 1	Zone 2	Zone 3	Zone 4
	Each	*Each*	*Each*	*Each*
15-1	$178.75	$181.95	$184.75	$187.95
T-41-1	118.50	120.95	121.95	123.75

These prices include the Federal excise tax, delivery, a one year warranty and installation with connection to electric facilities to be provided by the consumer where such connection does not require any additional materials. If a range cord set (customarily referred to in the industry as a "pigtail") is required and is furnished by the retail dealer, he may add $3.50 to the above OPA retail ceiling price. In all other respects these ceiling prices are subject to terms, discounts, allowances, and other price differentials no less favorable than those the seller had in effect on sales of similar articles during March 1942. If a seller made no such sales during March 1942, the ceiling prices are subject to terms, discounts, allowances and other price differentials no less favorable than those his closest seller of the same class had in effect during the same period on sales of similar articles or which he thereafter properly established under applicable OPA regulations.

(d) For purposes of this order Zones 1, 2, 3, and 4 comprise the following states:

Zone 1. Michigan, Indiana, and Ohio.

Zone 2. Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, District of Columbia, West Virginia, Virginia, North Carolina, South Carolina, Kentucky, Tennessee, Mississippi, Alabama, Georgia, Wisconsin, Illinois, Minnesota, Iowa, Missouri, and Arkansas.

Zone 3. North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Louisiana, Montana, Wyoming, Colorado, New Mexico, and Florida.

Zone 4. Idaho, Utah, Arizona, Nevada, Washington, Oregon, and California.

(e) At the time of, or prior to the first invoice to each purchaser for resale at wholesale the manufacturer shall notify him of the ceiling prices set by this order for resales by the purchaser. This notice may be given in any convenient form.

(f) The manufacturer prior to shipping any range covered by this order to a purchaser for resale shall attach securely to the outside panel of the oven door of each range a label which contains all the following information:

1. The model number of the range.
2. The range's OPA retail ceiling prices in each zone.
3. A list of the states included in each zone.
4. A statement that the ceiling prices shown include the Federal excise tax, delivery, a one year warranty and installation where the installation requires only that the range be connected to electric facilities to be provided by the purchaser and such connection does not require any additional materials.
5. A statement that if the installation requires the use of a range cord set (customarily referred to in the industry as a "pigtail") and such a set is furnished by the retail dealer, he may add $3.50 to the OPA retail ceiling price of the range.

(g) The ceiling prices established by this order supersede those established by Order No. 197 under Maximum Price Regulation No. 64 with respect to articles sold by the manufacturer at prices adjusted under this order.

(h) This order may be revoked or amended by the Price Administrator at any time.

(i) This order shall become effective on the 4th day of April, 1946.

Issued this 4th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

[MPR 188, Order 4937]

GREAT AMERICAN INDUSTRIES, INC.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Virginia Rubatex—Division of Great American Industries, Inc., Bedford, Va.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	Maximum prices for sales by any seller to—				
		Distributors	Jobbers	Chains and department stores	Other retailers	Consumers
		Each	*Each*	*Each*	*Each*	*Each*
Rubber mat, swordfish design	18 x 26	$0.85	$0.94	$1.13	$1.25	$1.88

These maximum prices are for the articles described in the manufacturer's application dated February 22, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. These prices are f. o. b. factory and subject to a cash discount of 2% for payment in 10 days, net 30 days.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

Model No. ------
OPA Retail Ceiling Price—$------
Do Not Detach or Obliterate

(c) At the time of, or prior to, the first invoice to each purchaser for resale at wholesale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 5th day of April 1946.

Issued this 4th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

25 cu. ft. ½ HP condensing unit	412.00	450.00	824.00

(b) The maximum net prices established in (a) above may be increased by the following amount to each class of purchaser to cover the cost of crating when crating is actually supplied: $6.00.

(c) The maximum net prices established by this order shall be subject to discounts and allowances and the rendition of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales in the same general category on October 1, 1941.

(d) On sales by a distributor or dealer the following charges may be added to the maximum prices established in (a) above:

(1) The actual amount of freight paid to obtain delivery to his place of business. Such charges shall not exceed the lowest common carrier rates.

(2) Crating charges actually paid to his supplier but in no instance exceeding the amount specified in (b) above.

(e) Each seller covered by this order, except a dealer, shall notify each of his

purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers upon resale, except dealers, including allowable transportation and crating charges.

(f) The Eskimo Kooler Corporation of Chicago, Illinois, shall stencil on the lid or cover of the farm and home freezers covered by this order, substantially the following:

OPA Maximum Retail Price—$------

Plus freight and crating as provided in Order No. 409 under Maximum Price Regulation No. 591.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective April 5, 1946.

Issued this 4th day of April 1946.

[SO 94, Order 111]

CERTAIN WORN LEATHER FOOTWEAR

SPECIAL MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and in accordance with section 11 of Supplementary Order 94, It is ordered:

(a) *What this order does.* This order establishes maximum prices for sales at retail of certain worn leather footwear hereinafter described, which has been or may be purchased from the War Assets Administration or any other United States Government Agency.

(b) *Maximum prices.* Maximum retail prices per pair for the worn leather footwear described herein shall be:

Description	*Retail price*
Worn men's shoes, including but not limited to Field shoes, Service shoes, Garrison shoes, High black shoes (Navy), Combat boots, Mechanic's shoes, Rigger & Aircraft shoes, Shoes for Foreign Armies, Canvas top shoes and Oxfords	$3.00
Worn women's shoes, including but not limited to Nurse's black shoes, Nurse's white shoes, WAC Field shoes, and WAC Service shoes	$4.00
Worn boots, including but not limited to Flying boots (fur or fleece lined), Logger boots, Lace boots (enlisted man's), Blucher high top boots, Parachute boots, Ski mountain boots, Ski mountain boots with rubber soles, Leather lace waterproof boots and Storm fleece lined boots	5.50

The aforesaid prices do not apply to resales of leather footwear sold by the Government as "new rebuilt".

(c) *Notification.* Any person who sells the leather footwear described in paragraph (b) to a retailer shall furnish the retailer with an invoice of sale setting forth the maximum prices for sales at retail, and stating that the retailer is required by this order to attach to each pair of shoes or boots before sale a tag or label which plainly states a selling price not in excess of the appropriate ceiling price.

(d) *Tagging.* Any person who sells the shoes or boots described in paragraph (b) at retail shall attach to each pair of shoes or boots before sale a tag or label which plainly states a selling price not in excess of the appropriate ceiling price.

(e) *Relation to other regulations and orders.* This order with respect to the commodities it covers supersedes any other regulation or order previously issued by the Office of Price Administration.

(f) *Definitions.* "Retailer" means any person who sells to ultimate consumers.

(g) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective April 6, 1946.

Issued this 5th day of April 1946.

[Region VI Order G-1 Under MPR 329, Amdt. 1]

MILK IN MADISON, WIS.

For the reasons set forth in the accompanying opinion and under the authority vested in the Regional Administrator by § 1351.408 (f) of Maximum Price Regulation, *It is hereby ordered:*

1. Paragraph (1) of Order G-1 (formerly Regional Order No. 46) under Maximum Price Regulation No. 329, is amended to read as follows:

(1) The maximum price which distributors within the Madison, Wisconsin area may pay to producers for milk for resale as fluid milk shall be $3.10 per cwt., f. o. b. purchaser's plant, for milk having a 3.5% butterfat content, plus not more than 4¢ per 1/10 of 1% of butterfat in excess of 3.5% and minus not less than 4¢ per 1/10 of 1% of butterfat below 3.5%; *Provided*, That an additional amount not to exceed 40¢ per cwt. may be paid for Guernsey milk containing more than 4.2% butterfat.

2. Paragraph (4) is amended to read as follows:

(4) *Definitions.*

(a) "Guernsey milk" means milk from Guernsey cows to be sold under the name "Guernsey milk" or a modification of such name, but including the word "Guernsey".

(b) Unless the context otherwise requires, the definitions used in Maximum Price Regulation No. 329 and the General Maximum Price Regulation shall apply to the terms herein.

3. Paragraph (5) shall be added as follows:

(5) *Addition of transportation charges.* (a) The maximum price established in Paragraph 1 is the maximum price for milk f. o. b. purchaser's plant. If the transportation charge or any part thereof is paid by the purchaser, the total amount paid for transportation, plus the amount received by the producer, shall not be in excess of the maximum price set forth in paragraph 1.

(b) If the purchaser hauls the milk to his plant in a conveyance owned, leased or operated by him, he shall deduct from the maximum price set forth in paragraph 1 of this order the cost of such transportation. The 'cost of such transportation' shall be the maximum price which may be charged by milk haulers or other transportation companies for the hauling of milk to the purchaser's plant.

This amendment may be revoked, amended or modified at any time.

Effective the 4th day of April 1946.

Issued this 4th day of April 1946.

FLUID MILK PRICES IN MADISON, WIS.

For reasons set forth in the accompanying opinion and under the authority vested in the Regional Administrator by § 1499.75 (a) (9) of Supplementary Regulation No. 15 to the General Maximum Price Regulation and § 1351.807 (b) (3) of Maximum Price Regulation No. 280, *It is hereby ordered:*

1. That the portion of Appendix A to Order G-9 (formerly Regional Order No. 13) issued under section 18 (c) of the General Maximum Price Regulation, which was added by Amendment 1 to such order, is amended by removing the word "Guernsey" from the heading.

2. That Appendix A to Order G-9 is amended by adding the following:

GUERNSEY MILK

[Butterfat content over 4.2%]

	Wholesale	Retail
Gallon	$0.52	.....
Quart	.13½	$0.15
Pint	.07½	.08½
½ pint	.04	.05

3. That a new paragraph (2) is added to read as follows:

(2) Where the maximum price set forth in Appendix A is expressed in terms of ½¢, the price charged for a single unit at retail may be increased to the next even cent. An opportunity must, however, be given to each buyer to purchase two units for which the maximum price shall be twice the single unit price. All sales at wholesale and home delivery sales at retail shall be considered multiple unit sales unless separate collections are made for single units when delivered.

4. That paragraphs (2) and (5) of Order G-9 are renumbered (3) and (4) respectively.

5. That a new paragraph (5) is added as follows:

(5) *"Guernsey milk"* means milk from Guernsey cows sold under the name "Guernsey milk" or some modification of such name, but including the word "Guernsey."

This amendment may be revoked, amended or corrected at any time.

SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 70-1222, 31-541]

NORTH WEST UTILITIES CO. AND BEAR, STEARNS & CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE AND GRANTING APPLICATIONS FOR EXEMPTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 28th day of March A. D. 1946.

North West Utilities Company, a registered holding company, having filed a declaration and amendments thereto pursuant to section 12 (d) of the Public Utility Holding Company Act of 1935 and Rule U-44 thereunder and an application pursuant to Rule U-50 thereunder, with respect to the following:

(1) The sale by said company of its entire interest in Northwestern Public Service Company, a subsidiary public utility company, to Bear, Stearns & Co., investment bankers, such interest consisting of 52,150 shares of common stock without par value, constituting all of such stock outstanding, for a cash consideration of $2,400,000 subject to certain adjustments to the closing date, and;

(2) Exemption of such sale of common stock from the competitive bidding provisions of Rule U-50; and

(3) The use of the proceeds from such sale by said company to discharge its note indebtedness to The First National Bank of Chicago in the principal amount of $1,000,000, the balance of such proceeds to be used for such other corporate purposes referred to in Supplement R of the Internal Revenue Code as it might subsequently ask the Commission by further order to approve; and

By amendment filed after completion of the record herein, North West Utilities Company having proposed to invest the balance of the proceeds from such sale remaining after discharging its said note indebtedness, but not in excess of $1,500,000, as paid-in surplus of its subsidiary, Wisconsin Power and Light Company; and

Bear, Stearns & Co., a limited partnership organized and existing under the laws of the State of New York, having filed an application for exemption as a holding company pursuant to section 3 of the act, if and in the event that it acquires such common stock; and

North West Utilities Company having requested that the Commission's order conform to the requirements of section 1808 (f) and Supplement R of the Internal Revenue Code, as amended; and

The proceedings relating to the above described transactions having been consolidated, a public hearing having been held on such matters after appropriate notice, the Commission having considered the record, and having filed its findings and opinion herein:

It is ordered, That the aforesaid application and declaration of North West Utilities Company, as amended, be, and the same hereby are, granted and permitted to become effective, respectively, subject to the terms and conditions contained in Rule U-24.

It is further ordered, That the sale by North West Utilities Company to Bear, Stearns & Co. of its interest in Northwestern Public Service Company, consisting of 52,150 shares of common stock without par value, and the investment of the proceeds from such sale in retirement of its note indebtedness to The First National Bank of Chicago in the principal amount of $1,000,000, and for such one or more of the purposes specified in Supplement R of the Internal Revenue Code as the Commission by further order may approve, are necessary and appropriate to the integration and simplification of the holding company system of which North West Utilities Company is a member, and are necessary and appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, and that North West Utilities Company shall proceed forthwith to consummate the said sale and related transactions. It is a condition of this order that the aforesaid transactions shall be effected within sixty days from the date hereof.

It is further ordered, That jurisdiction is reserved over the proposal of North West Utilities Company to invest the balance of the proceeds of such sale remaining after payment of its said note indebtedness, but not in excess of $1,500,000, as paid-in surplus of its subsidiary, Wisconsin Power and Light Company.

It is further ordered, That the application of Bear, Stearns & Co. for exemption from the provisions of the act, if and in the event that it acquires the said common stock of Northwestern Public Service Company, be, and hereby is, granted, pursuant to section 3 (a) (4) of the act, for a period of 12 months from the date of acquisition of such common stock, subject, however, to the condition that Bear, Stearns & Co. complies with the provisions of its stipulation filed herein.

By the Commission.

ASSOCIATED GAS AND ELECTRIC CO. ET AL.

ORDER RELEASING JURISDICTION OVER ACCOUNTING FEES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 3d day of April 1946.

In the matter of Stanley Clarke, trustee of Associated Gas and Electric Company; Denis J. Driscoll and Willard L. Thorp, trustees of Associated Gas and Electric Corporation; Associated Electric Company, NY PA NJ Utilities Company, File No. 70-1147.

The Commission having by order dated December 28, 1945, granted applications and permitted to become effective declarations filed pursuant to sections 6 (a), 7, 9 (a), 10 and 12 of the Public Utility Holding Company Act of 1935 by Stanley Clarke, trustee of Associated Gas and Electric Company ("Ageco") and Denis J. Driscoll and Willard L. Thorp, trustees of Associated Gas and Electric Corporation ("Agecorp"), and their subsidiaries, Associated Electric Company ("Aelec"), and NY PA NJ Utilities Company ("NY PA NJ"), with respect to transactions involved in carrying into effect the settlement of various claims of Aelec, for itself and its subsidiaries, against its parent companies, Ageco and Agecorp; and having by said order reserved jurisdiction with respect to, among other things, fees and expenses of Aelec in connection with the proposed transactions; and

Aelec having filed statements with respect to accounting services rendered by Peat, Marwick, Mitchell & Company in connection with the transactions, and it appearing to the Commission that the fee of such company in the amount of $10,000 is not unreasonable, and that jurisdiction over such fee should be released;

It is ordered, That jurisdiction heretofore reserved over the payment of the accounting fees of Peat, Marwick, Mitchell & Company in connection with the above transactions be, and hereby is, released.

By the Commission.

MIDDLE WEST CORP.

ORDER MODIFYING PREVIOUS ORDER AND PERMITTING POST-EFFECTIVE AMENDMENT TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 2d day of April A. D. 1946.

The Middle West Corporation, a registered holding company, having filed a declaration and application, and amendments thereto, under section 12 (d) of the Public Utility Holding Company Act of 1935 and Rule U-44 thereunder regarding a sale by it, in accordance with the competitive bidding requirements of Rule U-50, of 167,956½ shares of common stock of Midland Realization Company; and

The Commission having by order dated February 12, 1946 (Holding Company Act Release No. 6406), granted the application and permitted the declaration to become effective, subject to conditions set forth in said order and to the terms and conditions prescribed by Rule U-24; and

The Middle West Corporation having filed a post-effective amendment to the said application and declaration on April 2, 1946, proposing to reduce from 167,956½ to 84,000 the number of shares of common stock of Midland Realization Company to be sold by The Middle West Corporation at this time and, to that extent, requesting a modification of said order of February 12, 1946; and

The Commission having considered such post-effective amendment and deeming it appropriate to permit it to become effective;

It is hereby ordered, That said order of February 12, 1946 herein, be, and hereby is, modified so as to reduce the number of shares of common stock of Midland Realization Company to be sold at this time by The Middle West Corporation from 167,956½ to 84,000, subject to all the conditions set forth in said order of February 12, 1946 and prescribed by Rule U-24, and without in any manner extending or otherwise modifying the time within which The Middle West Corporation is now required to dispose of all its interest in Midland Realization Company as provided in the Commission's order dated October 24, 1944 (Holding Company Act Release No. 5317-A);

It is further ordered, That jurisdiction be, and hereby is, reserved with respect to the sale or other disposition of the remaining 83,956½ shares of common stock of Midland Realization Company;

It is further ordered, That jurisdiction is hereby reserved over all fees and expenses to be incurred in connection with the proposed transaction.

AMERICAN CITIES POWER & LIGHT CORP.

NOTICE OF AND ORDER FOR ARGUMENT BEFORE THE COMMISSION ON MOTION TO DISMISS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 3d day of April A. D. 1946.

In the matter of Hugh B. Baker, (American Cities Power & Light Corporation); File No. 812-374.

Hugh B. Baker having filed an application for an order either declaring that the Investment Company Act of 1940 is not applicable to, and the Commission has no jurisdiction over, the exercise of an option granted to him on April 2, 1940, by American Cities Power & Light Corporation, a registered investment company, to purchase 50,000 shares of the common stock of Blue Ridge Corporation, a registered investment company, held in its portfolio or exempting under the provisions of sections 6 (c) and 17 (b) of the act, the exercise of the option from the provisions of section 17 (a) (2) thereof;

Counsel for the Corporation Finance Division of the Commission having moved the Commission to dismiss said application upon the ground that the Commission lacks jurisdiction to consider the application because the option was exercised prior to the filing of said application in violation of section 17 (a) (2) of said act.

It is ordered, Pursuant to section 40 (a) of said act, that argument on the afore-

said motion be held on April 23, 1946, at 12:00 o'clock noon, Eastern Standard Time, in Room 1014 of the Securities and Exchange Commission Building, 18th and Locust Streets, Philadelphia, Pa.:

It is further ordered, That the brief for counsel for the Corporation Finance Division of the Commission in support of its motion to dismiss be filed on or before April 5, 1946, and that reply briefs be filed on or before April 16, 1946.

Notice of such argument is hereby given to the applicant and to any other persons whose participation in such proceedings may be in the public interest or for the protection of investors.

By the Commission.

MIDLAND UNITED CO. ET AL.

NOTICE OF FILING OF POST-EFFECTIVE AMENDMENT, ORDER FOR HEARING THEREON; AND ORDER CONSOLIDATING PROCEEDINGS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 3d day of April 1946.

In the matters of Hugh M. Morris, trustee of the estate of Midland United Company; Clarence A. Southerland and Jay Samuel Hartt, trustees of the estate of Midland Utilities Company, File No. 52-24; The Middle West Corporation, File No. 70-1258.

Hugh M. Morris, trustee of Midland United Company ("United"), a registered holding company, and Clarence A. Southerland and Jay Samuel Hartt, trustees of Midland Utilities Company ("Utilities"), a registered holding company, having heretofore jointly filed an application pursuant to section 11 (f) of the Public Utility Holding Company Act of 1935 ("act"), for approval of a modified plan for the reorganization of said companies under said section of the act and section 77B of the Bankruptcy Act; and

The Commission having entered its findings and opinions and orders approving such modified plan; and

The modified plan having been approved by the United States District Court for the District of Delaware, accepted by the requisite percentages of the holders of allowed claims and stock interests, confirmed by said court, and consummated; and

It appearing that, in consummating such modified plan, the name of Midland United Company was changed to Midland Realization Company ("Realization"); and

Said modified plan having provided, among other things, that within one year after the date of its confirmation, April 7, 1945, or within 90 days after certain obligations of Realization to certain secured creditors shall have been reduced to $1,500,000 or less, whichever occurs sooner, Realization and Utilities shall present a plan for their merger to this Commission for its approval, the court retaining jurisdiction to require the filing of such merger plan with this Commission and, upon its approval by this Commission, to require the execution and consummation of said merger plan; and

It further appearing that the said modified plan further provided that the purpose and policy of Utilities, as reorganized, and of the company surviving the merger of Realization and Utilities, was to liquidate its assets expeditiously, but without undue sacrifice of values, and to distribute its assets among the holders of its stock, and that the policy of Utilities and of the company surviving the merger of Realization and Utilities was to make no new investments or to engage in no business activities except for the purpose of effecting or facilitating such liquidation and distribution:

Notice is hereby given that a post-effective amendment to said modified plan of reorganization has been filed with this Commission pursuant to the provisions of section 11 (f) of the act and section 222 of the Bankruptcy Act, as amended. All interested persons are referred to said post-effective amendment, which is on file in the offices of this Commission, for a statement of the transactions proposed therein, which may be summarized as follows:

Applicants state that the post-effective amendment to the modified plan eliminates the requirement of a merger as an intermediate step in the liquidation of Realization and Utilities, that it substitutes in lieu thereof a plan for the direct and immediate liquidation of the two companies, and that its effect will be to do promptly and in one step what the modified plan requires to be done in two steps. Applicants further state that the amendment will neither materially nor adversely affect the interest of creditors or stockholders. The steps to be undertaken are as follows:

1. Utilities has outstanding 1,500,000 shares of capital stock. It is the owner of 2,154,395 shares, or 98.6%, of the no par value common stock of Northern Indiana Public Service Company ("Northern Indiana"), of promissory notes in the principal amount of $2,739,000, plus accrued interest thereon, of Indiana Service Corporation ("Indiana Service"), and of a 2% obligation of Realization in the principal amount of $2,500,000. Utilities will declare and distribute, as a liquidating dividend to its own stockholders, 1.4 shares of the common stock of Northern Indiana for each share held of the capital stock of Utilities. As a result, 840,000 shares of the common stock of Northern Indiana will be distributed to the public, 1,260,000 shares will be distributed to Realization as the holder of 60% of the capital stock of Utilities, and the balance of 54,395 shares of such stock will be retained by Utilities and, subsequently, will be offered for public sale.

2. Realization has outstanding 618,707 shares of capital stock. It is indebted to secured creditors in the principal amount of $1,517,000, and to Utilities in the principal amount of $2,500,000. Under the terms of the indebtedness to such secured creditors, Realization may not make any capital distribution prior to the payment of such indebtedness in full. It will, therefore, borrow on a short-term basis, at current rates of interest, the approximate amount of $1,350,000, which, together with its other available cash resources, will enable it to liquidate its indebtedness to the secured creditors.

3. As indicated above, Realization will have received as a dividend upon the 900,000 shares of capital stock of Utilities owned by it, 1,260,000 shares of the common stock of Northern Indiana. Realization will declare, as a liquidating dividend to its own stockholders, 1.75 shares of the common stock of Northern Indiana for each share held of the capital stock of Realization, or a total of 1,082,737½ shares. The balance of 177,262¾ shares of such stock will be retained by Realization, and will be offered for public sale simultaneously with the public offering of similar shares by Utilities.

4. The proceeds from the sale of such shares of common stock of Northern Indiana will thereupon be used by Realization (a) to retire the short-term loan in the approximate amount of $1,350,000, and then (b) to pay to Utilities the sum of $1,000,000, being the 40% of the principal amount of $2,500,000 due Utilities by Realization, which would not inure to Realization as the holder of 60% of the capital stock of Utilities.

5. Proceedings are presently pending before this Commission whereby Utilities is seeking to reduce to cash its investment in the notes of Indiana Service. Applicants state that, although the outcome of such proceedings cannot be predicted, it shall be the continued policy of Utilities to liquidate such investment expeditiously, but without undue sacrifice of values. In the event that the investment of Utilities in Indiana Service shall not be liquidated by the time Realization pays Utilities $1,000,000 in satisfaction of its indebtedness, as described above, or, in the opinion of the board of directors of Utilities, Utilities will not be liquidated in the immediate future, Realization will distribute, as a final liquidating dividend upon its capital stock, all of the shares of Utilities owned by it and all the cash or other assets remaining in its possession after making appropriate provisions for the costs of liquidation. Realization may, in its discretion, acquire sufficient shares of the capital stock of Utilities in the open market to enable Realization to make the distribution of the capital stock of Utilities in convenient fractions;

Notice is further given that an application or declaration (or both) has been filed, pursuant to the provisions of the act, with this Commission by The Middle West Corporation ("Middle West"), a registered holding company. All interested persons are referred to said application or declaration (or both), which is on file in the offices of the Commission, for a statement of the purpose and nature of the proposed transactions, which may be summarized as follows:

Middle West presently holds 167,956.5 shares of the capital stock of Realization. It requests the approval of this Commission to permit it to acquire from time to time, pursuant to the said post-effective amendment to the plan, such shares of the common stock of Northern Indiana, such shares of the capital stock of Utilities, and such other securities as may be declared and distributed from time to time by Realization in respect of the shares of stock of Realization then owned by Middle West.

It also requests the approval of this Commission to permit it to sell from time to time, pursuant to the competitive bidding requirements of Rule U-50 to the extent applicable, all or any part of such shares of stock of Northern Indiana and Utilities and of such other securities as may be acquired by it from time to time pursuant to said post-effective amendment to the plan.

It appearing to the Commission that the proceeding with respect to the post-effective amendment to the modified plan of reorganization, designated as File No. 52-24, involves questions of law and fact common to the application or declaration (or both) filed by Middle West, designated as File No. 70-1258, and that evidence adduced in one proceeding may have a bearing upon the issues presented in the other proceeding; and that a substantial saving of time and expense will result if the proceedings are consolidated:

It is hereby ordered, That the proceeding with respect to the post-effective amendment to the modified plan of reorganization, designated as File No. 52-24, and the proceeding with respect to the application or declaration (or both) filed by Middle West, designated as File No. 70-1258, be, and hereby are, consolidated and that a hearing on such consolidated proceedings under the applicable provisions of the said act and rules and regulations promulgated thereunder be held on the 7th day of May, 1946, at 11:00 a. m., e. s. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. Any persons desiring to be heard or otherwise wishing to participate therein shall notify the Commission to that effect in the manner provided in Rule XVII of the Commission's Rules of Practice on or before May 6, 1946.

It is further ordered, That Allen MacCullen or any other officer or officers of the Commission designated for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said proceedings, particular attention will be directed at such hearing to the following matters and questions:

1. Whether the transactions proposed in the post-effective amendment to the modified plan of reorganization are fair and equitable to all persons affected.

2. Whether the post-effective amendment to the modified plan of reorganization is feasible.

3. Whether the proposed acquisitions by Realization and Middle West have the tendency required by section 10 (c) (2) of the act.

4. Whether the various transactions proposed in connection with the post-effective amendment to the modified plan and in connection with the application or declaration (or both) filed by Middle West meet the requirements of the applicable sections of the act and the rules and regulations promulgated thereunder, and of the Bankruptcy Act, as amended.

5. The propriety of the proposed accounting treatment of the several transactions on the books of the respective applicants or declarants (or both).

6. Whether the fees, commissions, and other expenses to be incurred are for necessary services and reasonable in amount.

7. Generally, whether the proposed transactions comply with all the applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder, and of the Bankruptcy Act, as amended, and, if not, whether and what modifications or terms and conditions should be required or imposed to satisfy the statutory standards.

It is further ordered, That notice of said hearing is hereby given to Realization, Utilities, Middle West, the Indiana Public Service Commission, and to all other interested persons, said notice to be given Realization, Utilities, Middle West, and the Indiana Public Service Commission by registered mail, and to all other persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on the mailing list for releases issued under the Public Utility Holding Company Act of 1935 and by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That Realization and Utilities give notice of said hearing to their respective stockholders of record (insofar as the identity of such stockholders is available or known) by mailing, postage prepaid, to each such security holder to his last known address a copy of this notice and order together with a copy of the post-effective amendment to the modified plan of reorganization at least twenty (20) days prior to the date of said hearing.

It is further ordered, That jurisdiction be, and is hereby, reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues and questions which may arise in these proceedings, and to take such other action as may appear necessary or appropriate to the orderly and economical disposition of the issues involved.

By the Commission.

AMERICAN GAS AND ELECTRIC CO., SCRANTON ELECTRIC CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 2d day of April A. D. 1946.

Notice is hereby given that a joint application-declaration has been filed with this Commission under the Public Utility Holding Company Act of 1935 by American Gas and Electric Company ("American") (a registered holding company and a subsidiary of Electric Bond and Share Company, also a registered holding company), and by American's subsidiary, The Scranton Electric Company ("Scranton"). All interested persons are referred to said application-declaration which is one file in the offices of the Commission for a statement of the transactions therein proposed, which may be summarized as follows:

Part I of the proposed transactions concerns a refinancing program by Scranton involving the issuance and sale of 58,500 shares of new —% cumulative preferred stock and the redemption of all of its presently outstanding $6 preferred stock. Part II concerns the disposition by American of its investments in Scranton and in West Pittston-Exeter Railroad Company ("Railroad"), also a subsidiary of American, pursuant to an order of the Commission entered on December 26, 1945 (Holding Company Act Release No. 6333). Part II also provides that American, in compliance with said order of December 26, 1945, will cause Franklin Real Estate Company ("Real Estate"), a subsidiary of American which holds title to certain parcels of real estate for companies in the American System, to dispose of such of its assets as are related to the properties and business of Scranton.

Part I. (A) Scranton proposes to issue and sell at public sale, pursuant to the competitive bidding provisions of Rule U-50, 58,500 shares of —% cumulative preferred stock, par value $100. The annual dividend rate (to be a multiple of $\frac{1}{10}$% and not to exceed 4%) and the price, exclusive of accrued dividends, to be received by Scranton (to be not less than 100% and not more than 102¾% of the par value of the stock) are to be determined by competitive bidding.

(B) The proceeds of the sale, together with treasury funds to the extent necessary, will be used to redeem and cancel Scranton's presently outstanding

53,248 shares of $6 preferred stock (including 3,326 shares of such stock owned by American) at the redemption price of $110 per share plus accrued dividends thereon to date of redemption. In connection with the redemption program Scranton may obtain a one-day bank loan in an amount not in excess of $5,900,000.

Part II. (A) American now owns 500 shares of the $50 par value common stock of Railroad, being one-half of the outstanding shares of such common stock (the remaining shares being owned by Pennsylvania Realty and Investment Company, a subsidiary of Pennsylvania Power & Light Company, an associate company in the Electric Bond and Share Holding Company System), and is also the owner of a 6% interest bearing open account indebtedness of Railroad in the principal sum of $260,221.83. American proposes to sell and Scranton proposes to acquire the 500 shares of common stock of Railroad for $25,000 cash and American proposes to assign and transfer, and Scranton proposes to acquire, the said open account indebtedness for $260,221.83 cash.

(B) Real Estate now holds title to approximately 400 acres of farm land located adjacent to the Stanton Generating Station of Scranton, an undivided one-half interest therein being held for the benefit of Scranton and the remaining interest being held for the benefit of Pennsylvania Realty and Investment Company. The title is recorded on the books of Real Estate at $1 and the cost of one-half of such farm land is included among the assets on the books of Scranton, having been paid for by Scranton. American, the owner of all the capital stock of Real Estate, proposes, after the sale of the common stock of Scranton has been completed as hereinafter described, to cause Real Estate to sell and transfer its title to such lands to Scranton or its nominee for $1.

(C) American now owns 2,500,000 shares of no par value common stock of Scranton, being all the authorized and issued common stock of Scranton, and proposes to cause Scranton to amend its charter so that its authorized capital stock will consist of 75,000 shares of cumulative preferred stock, par value $100, of which 58,500 shares will be ----% cumulative preferred stock, proposed to be issued as above described, and 1,500,000 shares of common stock of a par value of $5 per share of which 1,214,000 shares are proposed to be issued and outstanding. The 2,500,000 shares of no par value common stock of Scranton owned by American will accordingly be changed and converted into 1,214,000 issued and outstanding shares of common stock of a par value of $5 per share. American proposes to sell the said 1,214,000 shares of common stock at public sale, pursuant to the competitive bidding provision of Rule U-50.

(D) American proposes to cause American Gas and Electric Service Corporation ("Service Corporation"), a subsidiary service company presently rendering management, advisory, engineering and other similar services to Scranton pursuant to a written agreement dated August 1, 1939, to cease rendering such services as soon as practicable following the sale by American of its investments in Scranton and upon request of the new management of Scranton, and in any event not later than 3 months following the completion of the sale of such investments. The filing requests, however, that engineering and other services rendered Scranton by Service Corporation in connection with the construction of an addition to Scranton's suburban generating station, be permitted to continue until the addition is completed and placed in commercial operation about August 1, 1947.

American requests that the Commission issue its order reciting that the relevant transactions are necessary or appropriate to the integration or simplification of the American Holding Company System and necessary or appropriate to effectuate the provisions of subsection (b) of section 11 of the act, in accordance with the meaning and requirements of the Internal Revenue Code, as amended, including section 1808(f), and Supplement R thereof.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application-declaration and that said application-declaration shall not be granted or become effective except pursuant to further order of the Commission:

It is ordered, That a hearing on said application-declaration under the applicable provisions of the act and the rules and regulations of the Commission promulgated thereunder, be held on April 15, 1946, at 10:00 a. m., e. s. t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order to the Pennsylvania Public Utility Commission and to the applicants-declarants herein by registered mail; and that notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER. Any person desiring to be heard in these proceedings shall file with the Secretary of this Commission on or before April 11, 1946, an appropriate request or application to be heard as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues presented by said application-declaration, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the proposed issue and sale of the new preferred stock of Scranton are solely for the purpose of financing the business of Scranton and have been expressly authorized by the State Commission of the State in which it is organized and doing business;

(2) Whether the terms and conditions of the sale by Scranton of securities are detrimental to the public interest or the interests of investors or consumers;

(3) Whether, in any respect, the proposed sales by American to Scranton of the securities and open account indebtedness of Railroad are detrimental to the public interest or the interests of investors and consumers and whether the considerations to be received therefor are in all respects fair and reasonable;

(4) Whether in any respect the proposed sales of securities by American to the public are detrimental to the public interest or the interests of investors and consumers and whether the terms and conditions thereof comply with all of the applicable standards of the act and of the rules and regulations promulgated thereunder;

(5) Whether the proposed limited continuance of services rendered by Service Corporation to Scranton is necessary or appropriate in the public interest or for the protection of investors and consumers;

(6) Whether the proposed intrasystem sales and acquisitions of securities and assets will effect partial compliance with a previous order of the Commission entered December 26, 1945;

(7) Whether the underwriting fees and legal fees to be paid in connection with the proposed transactions are fair and reasonable.

(8) Generally, whether the proposed transactions are in all respects in the public interest and in the interests of investors or consumers, and consistent with all applicable requirements of the act and with the rules thereunder, and whether any terms and conditions should be imposed to satisfy the statutory standards.

By the Commission.

§ 3.45 (e) *Discriminating in price—Indirect discrimination—Cumulative discounts.* In or in connection with the sale or distribution of "frit" in commerce, and on the part of the corporate respondents Ferro Enamel Corporation, Pemco Corporation, The O. Hommel Company, Chicago Vitreous Enamel Product Co., and Ingram-Richardson Mfg. Co. of Indiana, Inc., their respective officers, etc., and among other things, as in order set forth, (1) directly or indirectly discriminating in price between different purchasers of "frit" of like grade and quality in the manner and degree set forth in the volume discount schedule shown in Paragraph Five of the findings as to the facts herein, or in any manner or degree substantially similar thereto, or from continuing or resuming any such discriminations in price; ii. e., as there set forth, through classifying their customers according to the annual dollar volume of purchases of "frit" from all sources by their customers and granting discounts to each customer based upon such classification, as shown by the volume report containing a summary of all sales of said product by all of said manufacturers each month, as disseminated by respondent management corporation and respondent Moody, its director (whom said manufacturers supply with regular periodical reports of annual dollar volume of sales to their respective customers) and in accordance with which classification purchases of $5,000 a year entitled customer to no discount from list, purchases from $5,000 to $10,000 entitled him to 5 percent, and those ranging from $10,000 to $20,000, from $20,000 to $29,000, from $29,000 to $40,000, and over $40,000 entitled him to discounts of, respectively, 10 percent, 12½ percent, 15 percent and 20 percent] (2) directly or indirectly discriminating in price in any other manner between purchasers of "frit" of like grade and quality, when such discriminations substantially equal or exceed any of the discriminations shown in the volume discount schedule set forth in Paragraph Five of the findings as to the facts herein; or (3) otherwise discriminating in price as between purchasers of "frit" of like grade and quality where the effect may be substantially to lessen competition or tend to create a monopoly in any line of commerce or to injure, destroy, or prevent competition with any person who either grants or receives the benefit of such discrimination; prohibited, subject to the provision, however, that the foregoing shall not prevent price differences which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from differing methods or quantities in which said "frit" is to such purchasers sold or delivered, and to the further provision that the foregoing shall not prevent respondents from showing that any lower price to any purchaser was made in good faith to meet an equally low price of a competitor. (Sec. 2 (a), 49 Stat. 1526; 15 U.S.C., sec. 13 (a) [Cease and desist order, Ferro Enamel Corporation, et al., Docket 5155, February 26, 1946]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 26th day of February A. D. 1946.

In the Matter of Ferro Enamel Corporation, Pemco Corporation, The O. Hommel Company, a Corporation; Chicago Vitreous Enamel Product Co., a Corporation; Ingram-Richardson Mfg. Co. of Indiana, Inc., and Stevenson, Jordan & Harrison, Inc., a Corporation; Harry L. Moody, an Individual

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the substitute answers of the several respondents admitting all the material allegations of fact set forth in said complaint and waiving all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act and that each of the respondents except Stevenson, Jordan & Harrison, Inc., and Harry L. Moody has violated subsection (a) of section 2 of an Act of Congress entitled "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes," approved October 15, 1914 (the Clayton Act) as amended by an act approved June 19, 1936 (the Robinson-Patman Act);

I. *It is ordered*, That the corporate respondents Ferro Enamel Corporation, Pemco Corporation, The O. Hommel Company, Chicago Vitreous Enamel Products Co., and Ingram-Richardson Mfg. Co. of Indiana, Inc., their respective officers, agents, representatives, and employees, in or in connection with the offering for sale, sale, and distribution of "frit" in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from entering into, continuing, cooperating in, or carrying out any planned common course of action, understanding, agreement, combination, or conspiracy between and among any two or more of said respondents or between any one or more of said respondents and others not parties hereto, to do or perform any of the following acts or practices:

1. Establishing, fixing, or maintaining prices, discounts, or terms and conditions of sale for "frit," or adhering to or promising to adhere to prices, discounts, or terms and conditions of sale so fixed or established.

2. Quoting or selling "frit" at prices calculated or determined pursuant to or in accordance with any plan or system of equalizing freight with competitors which results in identical delivered prices at any given destination by respondents quoting or selling at such destination, or which prevents purchasers from finding any advantage in price in dealing with one or more of respondents as against any of the other respondents; or quoting or selling "frit" pursuant to or in accordance with any other plan or system which has the aforesaid results.

3. Establishing or maintaining any classification of customers, or any method or formula for classifying customers, used or to be used in determining prices, discounts, or terms and conditions of sale to customers.

4. Exchanging, directly or through Stevenson, Jordan & Harrison, Inc., Harry L. Moody, or any agency or clearing house, price and discount lists or other records showing current prices, discounts, terms, and conditions of sale for the purpose or with the effect of restraining competition in the offering for sale or sale of "frit."

5. Adhering, or promising to adhere, to filed or published prices, discounts, or terms and conditions of sale for "frit" pending the filing or publication of changes in such prices, discounts, or terms and conditions of sale.

6. Filing with Stevenson, Jordan & Harrison, Inc., Harry L. Moody, or any agency, copies of invoices and orders covering sales of "frit" and showing the details of such transactions in a manner used or useful in ascertaining whether respondents have adhered to filed or published prices, discounts, or terms and conditions of sale.

7. Fixing or determining the amount of credit which will be extended to any purchaser; or exchanging, directly or through Stevenson, Jordan & Harrison, Inc., Harry L. Moody, or any agency or clearing house, credit information, with the purpose or effect of fixing or determining the credit allowed any customer, or the terms upon which credit may be allowed any customer.

8. Exchanging, directly or through Stevenson, Jordan & Harrison, Inc., Harry L. Moody, or any agency or clearing house, copies of credit memoranda issued to purchasers, used or useful in disclosing variations from filed or published prices.

9. Refusing or declining to sell "frit" upon a consignment basis; or refusing or declining to pack or prepare "frit" in a specified way for shipment to customers; or refusing or declining to demonstrate a product to their customers; or otherwise refusing or declining to grant a competitive inducement as a means of securing or retaining or seeking to secure or retain customers.

10. Exchanging, directly or through Stevenson, Jordan & Harrison, Inc., Harry L. Moody, or any agency or clearing house, data concerning "frit" which

discloses to any manufacturing respondent the volume of sales made by, the freight equalization charges paid or allowed by, or the average price received by, any other individual manufacturing respondent, for the purpose or with the effect of hindering or restraining competition in the sale and distribution of "frit."

11. Holding or participating in any meeting, discussion, or exchange of information between or among themselves or under the auspices of Stevenson, Jordan & Harrison, Inc., Harry L. Moody, or any other medium or agency, for the purpose or with the effect of reaching any understanding concerning the prices to be charged for "frit" or the maintenance of any of the practices prohibited by this order.

II. *It is further ordered*, That respondents Stevenson, Jordan & Harrison, Inc., a corporation, its officers, and Harry L. Moody, individually and as a director of Stevenson, Jordan & Harrison, Inc., their respective agents, representatives, and employees, do forthwith cease and desist from doing or performing any of the things forbidden in the preceding paragraphs of this order, or aiding, assisting, or cooperating in the performance thereof.

III. *It is further ordered*, That the corporate respondents Ferro Enamel Corporation, Pemco Corporation, The O. Hommel Company, Chicago Vitreous Enamel Product Co., and Ingram-Richardson Mfg. Co. of Indiana, Inc., their respective officers, agents, representatives, and employees in or in connection with the sale or distribution of "frit" in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from:

1. Directly or indirectly discriminating in price between different purchasers of "frit" of like grade and quality in the manner and degree set forth in the volume discount schedule shown in paragraph five of the findings as to the facts herein, or in any manner or degree substantially similar thereto, or from continuing or resuming any such discriminations in price.

2. Directly or indirectly discriminating in price in any other manner between purchasers of "frit" of like grade and quality, when such discriminations substantially equal or exceed any of the discriminations shown in the volume discount schedule set forth in paragraph five of the findings as to the facts herein.

3. Otherwise discriminating in price as between purchasers of "frit" of like grade and quality where the effect may be substantially to lessen competition or tend to create a monopoly in any line of commerce or to injure, destroy, or prevent competition with any person who either grants or receives the benefit of such discrimination: *Provided*, That this shall not prevent price differences which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from differing methods or quantities in which said "frit" is to such purchasers sold or delivered: *And provided further*, That this shall not prevent respondents from showing that any lower price to any purchaser was made in good faith to meet an equally low price of a competitor.

IV. *It is further ordered*, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SFAW Order 35]

PART 602—GENERAL ORDERS AND DIRECTIVES

BITUMINOUS COAL PRODUCERS IN DISTRICT 15

It appears that a sufficient number of bituminous coal mines in District No. 15 are still operating and producing enough coal so that it is unnecessary to hold one full day's production of said mines on track unbilled. Accordingly, producers in that district should be released from the provisions of Notice of Direction to All Bituminous Coal Producers Except Those in Districts 5 and 16, issued on March 28, 1946.

Pursuant to SFAW Regulation No. 1, as amended, *It is ordered*, That:

All bituminous coal producers in District 15 are hereby exempted from the provisions of Notice of Direction to All Bituminous Coal Producers Except Those in Districts 5 and 16, issued on March 28, 1946.

This order shall become effective immediately.

(E.O. 9332, 8 F.R. 5355; E.O. 9125, 7 F.R. 2719; sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236; 56 Stat. 176; 58 Stat. 827 and 59 Stat. 658)

Issued this 5th day of April 1946.

PART 602—GENERAL ORDERS AND DIRECTIVES

REVISED DIRECTION CONCERNING DELIVERIES OF BITUMINOUS COAL BY RETAIL DEALERS, LAKE AND TIDEWATER DOCK OPERATORS

In order to permit the fullest possible use of delivery equipment and facilities of retail dealers and lake and tidewater dock operators consistent with the supplying of emergency requirements for bituminous coal, the Notice of Direction issued March 28, effective April 1, 1946, is hereby revised to read as follows:

1. Every retail dealer and every lake and tidewater dock operator is prohibited from delivering any bituminous coal other than coal produced in Districts 5 and 16 except to (a) a gas plant which certifies in writing that it has less than a 10-days' supply; (b) a hospital that certifies in writing that it has less than a 10-days' supply; (c) a tugboat or steamship for bunker or galley fuel; (d) any domestic consumer; (e) an industrial consumer that certifies in writing that it has less than a 10-days' supply; and (f) any person upon specific written direction of the appropriate SFAW Area Distribution Manager or Regional Representative.

2. Each retail dealer and each lake and tidewater dock operator making deliveries of bituminous coal to a consumer in accordance with paragraph 1 above is prohibited from delivering an amount of bituminous coal in excess of one truck or wagon load or that amount which will enable the consumer to meet his minimum requirements for 10 days, whichever amount is larger; *Provided, however*, That the amount delivered to a domestic consumer shall not exceed 50 per cent of his annual requirements. "Days' supply" is that amount of coal which a consumer reasonably expects to consume in each day over a period of 10 days from the date of delivery of coal pursuant to this direction. Any certification required by paragraph 1 shall be made to and kept by the retail dealer or dock operator supplying the coal and may be inspected by any authorized representative of SFAW.

3. Every consumer is prohibited from receiving any bituminous coal which a retail dealer or lake or tidewater dock operator is not permitted to deliver to him pursuant to paragraphs 1 or 2 above.

4. Each SFAW Area Distribution Manager or Regional Representative is authorized to modify the limitations imposed by this direction within the area of his jurisdiction, which has heretofore been prescribed for all areas east of the Mississippi River. Area Distribution Managers have been appointed and have jurisdiction over the following areas west of the Mississippi River:

James C. Fitzpatrick, Rooms 1160-1162 Merchandise Mart, 222 W. N. Bank Drive, Chicago 54, Ill.: State of Iowa.

Howard J. Thomas, 706 Chamber of Commerce Building, 1829 First Avenue North, Birmingham 3, Ala.: State of Louisiana.

Arthur H. Beddoe, 914-915 New Federal Building, 1114 Market Street, St. Louis 1, Mo.: Counties comprising Area I in the State of Missouri for which SFAW Area Advisory Committee on Local Distribution was appointed pursuant to SFAW Order No. 12.

Ernest N. Ahlfeldt, 540 Dwight Building, Kansas City, Mo.: All of the remaining counties in Missouri not included in Area I, and the States of Arkansas, Kansas, Oklahoma, Nebraska and Texas.

Milton Almer, 520 New York Life Building, 125 South 5th Street, Minneapolis 2, Minn.: Minnesota, North Dakota and that part of South Dakota designated as Areas IV, V and VI for which SFAW Area Advisory Committees on Local Distribution were appointed pursuant to SFAW Order No. 12.

Joseph E. Parker, % B. T. Manley, Utah Coal Operators' Association, 709 Tribune-Telegram Building, Salt Lake City, Utah: That part of South Dakota designated as Areas I, II and III for which SFAW Area Advisory Committees on Local Distribution were appointed pursuant to SFAW Order No. 12, and the States of New Mexico, Arizona, Colorado, Utah, Montana, Idaho, Wyoming, Nevada, Washington, Oregon and California.

This direction shall take effect immediately and remain in effect until further notice.

(E.O. 9332, 8 F.R. 5355; E.O. 9125, 7 F.R. 2719; sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 176, 58 Stat. 827 and 59 Stat. 658)

Issued this 5th day of April 1946.

J. A. KRUG,
Solid Fuels Administrator for War.

PART 602—GENERAL ORDERS AND DIRECTIVES

STATEMENT CONCERNING RELEASE OF COAL HELD UNBILLED ON TRACK AT MINES UNDER DIRECTION OF MARCH 28, 1946

On March 28, 1946, I issued a direction that one full day's production of bituminous coal be held unbilled at the mine, assigned tracks, scales or other facilities made available by the railroad. Area Distribution Managers have heretofore been authorized to release such coal: (1) where the mine expected to be in operation on and after April 1 either because of a contract with the Progressive Mine Workers of America or because the mine is non-union; (2) to permit shipments to a gas plant which certifies in writing that it has less than 10 days' supply; and (3) to permit shipments to a hospital which certifies in writing that it has less than 10 days' supply.

Additional authority now is being delegated to the Area Distrbution Managers to release coal held pursuant to the direction of March 28 to the limited extent necessary (a) to permit continued operation of those public utilities which render public service by supplying electricity, water, gas, sewage disposal service or street railway transportatiton to any community, railroads, laundries, food processing plants (including milk plants, dairies and commercial bakeries) and refrigeration plants; (b) to provide for the bunkering of steamships and tugboats; and (c) to permit the non-wasteful and orderly close-down of any industrial plant that has goods in process of manufacture that would be lost if coal were not supplied; *Provided*, That such plant did not have a sufficient coal supply on April 1 to close down in an orderly manner, including such continuous operation plants as glass plants and rayon plants.

In addition to those already appointed for districts east of the Mississippi River, Area Distribution Managers have been appointed or designated for the following bituminous coal producing districts and the foregoing authority has been conferred upon such persons:

District No. 12: James C. Fitzpatrick, Rooms 1160-1162 Merchandise Mart, 222 W. N. Bank Drive, Chicago 54, Illinois.

District No. 14: Ernest N. Ahlfeldt, 540 Dwight Building, Kansas City, Missouri.

Districts Nos. 17, 18, 19, 20, 22 and 23: Joseph E. Parker, c/o B. T. Manley, 709 Tribune-Telegram Building, Salt Lake City, Utah.

Issued this 5th day of April 1946.

J. A. KRUG,
Solid Fuels Administrator for War.

PART 3290—TEXTILE, CLOTHING, AND LEATHER

[General Limitation Order L-85 as Amended Apr. 8, 1946]

APPAREL FOR FEMININE WEAR

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of wool, silk, rayon, cotton, linen, and other materials for defense, for private account and for export: and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3290.1 *General Limitation Order L-85*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the Civilian Production Administration.

(b) *Definitions.* For the purpose of this order and its schedules:

(1) "Put into process" means the first cutting of cloth in the manufacture of any apparel for feminine wear.

PART 3290—TEXTILE, CLOTHING, AND LEATHER

[General Limitation Order L-85, Schedule I, as Amended Apr. 8, 1946]

WOMEN'S, MISSES' AND JUNIOR MISSES' DRESSES

§ 3290.2 *Schedule I to General Limitation Order L-85*—(a) *Definitions.* For the purpose of this schedule:

(1) When descriptive of sizes:

(i) "Misses'" means sizes 10-20;

(ii) "Junior misses'" means sizes 9–17;
(iii) "Women's regular" means sizes 36–52;
(iv) "Little women's" means sizes 14½–28½;
(v) "Women's stout" means sizes 38½–52½;
(vi) "Women's odd" means sizes 35–51.

(2) "Evening dress" and "dinner dress" means a dress of floor or ankle length;

(3) "Suit dress" means an unlined two-piece outfit consisting of top and skirt, sold as one unit and commonly known to the trade as a two-piece dress. It shall be subject to all the regulations of this Schedule I governing dresses. However, if the top is lined, half lined, sleeve lined, partly or skeleton lined, it shall be deemed a suit and not a dress, and shall be subject to Schedule III governing suits;

(4) "Daytime dress" means any dress other than an evening or dinner dress;

(5) "Dress" includes an evening dress, dinner dress, suit dress, daytime dress, nurses' uniform, maid's uniform and maternity dress;

(6) "Body basic" means the front and back of the waist, the skirt, sleeves, inside shoulder pads, belt or sash, hem, an attached slip under a transparent fabric, normal facings, and 2" lap on an open front top;

(7) "Trimming allowance" means the material allowed to be used to trim a body basic;

(8) [Deleted Apr. 8, 1946.]

(9) "French facing" means a facing extending to the armhole or beyond;

(10) "Culotte" means a garment with a divided skirt;

(11) "Measurements" means, unless otherwise specified, maximum finished measurements in inches after all manufacturing operations have been completed and the dress is ready for shipment, as follows:

(i) "Sweep" means the maximum circumference of a skirt at any point parallel to the floor;

(ii) "Hipline" means the line 9 inches below the waistline;

(iii) "Sleeve length" means the maximum measurement from the side of the neck over the shoulder to the bottom of the sleeve;

(iv) "Sleeve circumference" means the maximum measurement at the bottom of the sleeve, or at the part attached to the cuff;

(v) Measurements of the length of a daytime dress and of a top of a suit dress shall be made from the nape of the neck to the bottom of the finished garment;

(vi) Measurements of the length of a suit dress skirt shall be made from the highest point of the skirt to the bottom of the finished garment;

(vii) Measurements of the length of an evening or dinner dress shall be made from the center of the hollow of the neck to the bottom of the finished garment.

(b) [Deleted Oct. 30, 1945.]

(c) *General restrictions on processing, manufacture and sale of women's, misses', and junior misses dresses.* (1) No person shall put into process, manufacture, sell or deliver any dress, including a jumper dress, with another garment or article at a unit price, except that the top and skirt of a suit dress may be sold as one unit at a unit price.

(2) No person shall put into process, manufacture, sell or deliver a dress with an attached hood, cape, fichu, vest, pants, handkerchief, or shawl.

(3) No person shall change any manufactured size marking to denote a different size or a different size range.

(d) *General restrictions applying to the processing of a dress.* (1) No person shall put into process any cloth for the manufacture of a dress with:

(i) French facings;
(ii) [Deleted Oct. 30, 1945.]
(iii) [Deleted Oct. 30, 1945.]
(iv) [Deleted Oct. 30, 1945.]
(v) [Deleted Oct. 30, 1945.]
(vi) Culottes;
(vii) A skirt with pleating, tucking or shirring, except when the sweep before pleating, tucking or shirring does not exceed the prescribed sweep of that particular size;
(viii) An open front or fly front skirt, which does not conform when open to the measurements prescribed for that particular size;
(ix) [Deleted Apr. 8, 1946.]
(x) [Deleted Oct. 30, 1945.]

(e) *General restrictions applying to the use of trimming allowance.* (1) No person shall put into process any cloth for trimming on a dress exceeding the following restrictions:

(i) Cuffs over 3" in width;
(ii) [Deleted Oct. 30, 1945.]
(iii) More than 1 ruffle on each sleeve;
(iv) A sleeve ruffle exceeding 3" in width;
(v) More than 1 collar or revers. (A single collar or revers of 2 thicknesses with an inside lining is permitted);
(vi) A collar or ruffle over 5" wide;
(vii) More than 2 pockets, inside or out, or with any patch pocket exceeding 42 square inches of material before reduction;
(viii) [Deleted Apr. 8, 1946.]
(ix) Quilting in excess of 300 square inches;
(x) Pleating, tucking or shirring of any part or section above the waistline of a dress, increased by more than 10% of said part or section, except that the width of the complete front of a top of a dress may be increased by 8 inches of material.

Provided, That the use of cloth as allowed above shall be charged against the trimming allowance.

(f) *Body basic and trimming allowance.* (1) A dress shall consist only of cloth sufficient for the body basic and the trimming allowance. At any place on the body basic where there is more than 1 thickness of material, except for the belt or sash, normal facings, inside shoulder pads, hem, an attached slip under a transparent fabric, and a 2" lap on an open front top, all of which are considered part of the body basic, the extra thickness shall be deemed trimming and shall be charged against the trimming allowance.

(2) The body basic shall be limited to (See Fig. 1):

(i) The complete front and back of the waist up to the neckline, including normal fullness. In the case of a suit dress, the waist or top shall not exceed 25 inches in length for a size 16, other sizes to be graded in normal proportions;
(ii) The skirt, with the limitations of hip length, sweep, and hem, as provided in paragraph (g);
(iii) Short or full length sleeves with the limitations of length and circumference as provided in paragraph (g).
(iv) One belt or sash;
(v) Inside shoulder pads;
(vi) A 2" lap on an open front top;
(vii) Normal facings.
(viii) An attached slip under a transparent fabric.

(3) The trimming allowance shall be limited to:

(i) 700 square inches for nontransparent fabrics for all sizes if the hip measurement does not exceed the body basic hip measurement. However, if the hip measurement exceeds the allowable body basic hip measurement, and in no event may it exceed the allowable sweep, such trimming allowance shall be reduced to 525 square inches;

(ii) 1400 square inches for transparent fabrics for all sizes if the hip measurement does not exceed the body basic hip measurement. However, in the hip measurement exceeds the allowable body basic hip measurement, and in no event may it exceed the allowable sweep, such trimming allowance shall be reduced to 1050 square inches.

(g) *General restrictions on the measurements of dresses.* Maximum measurements for all sizes and ranges other than those specified below shall be graded in normal trade proportions.

(1) *Daytime dresses.* Daytime dresses shall be of and graded from the following maximum measurements:

PART 3290—TEXTILE, CLOTHING, AND LEATHER

[General Limitation Order L–85, Schedule V, as Amended Apr. 8, 1946]

CHILDREN'S APPAREL FOR OUTER WEAR

§ 3290.6 *Schedule V to General Limitation Order L–85—(a) Definitions.* For the purpose of this schedule:

(1) "Outerwear" means all apparel for children, excluding underwear and lounging wear;

(2) "Children's apparel" means outerwear of the following size ranges:

(i) Toddler's range 1 to 4 for both sexes;

(ii) Children's range 3 to 6x for both sexes;

(iii) Girl's range 7 to 14;

(iv) Teen age range 10 to 16;

(v) Chubbie range 7½ to 14½ and 10½ to 16½.

(3) "Children's" means all ranges from 1 to 16½;

(4) "Coat" means any outer garment for children usually worn over other outer apparel, including a cape, a raincoat, a reefer and a topper, but excluding a jacket;

(5) "Playsuit" means either a one-piece garment consisting of a top attached to a pair of shorts, or a two-piece garment consisting of a separate top and a pair of shorts.

(6) "Suit" means a garment consisting of a separate jacket and skirt of either matching or contrasting material, sold as one unit;

(7) "Jacket" means a coat shorter than 33" in teen age and shorter than 24" in girls' range; (Note that paragraph (d) (2) (xvi) specifies the maximum permitted length for a jacket.)

(8) "Dress" includes a street dress, a suit dress and a party dress;

(9) "Street dress" means any dress other than a party dress;

(10) "Party dress" means a dress of floor or ankle length;

(11) "Suit dress" means an unlined two-piece outfit consisting of a top and skirt, sold as one unit and commonly known to the trade as a two-piece dress. It shall be subject to all the regulations of paragraph (d) (5) governing dresses. However, if the top is lined, half lined, sleeve lined, partly or skeleton lined, it shall be deemed a suit and not a dress

and shall be subject to paragraphs (d) (2) and (d) (3) governing jackets and skirts.

(12) "Legging set" means a combination of coat and leggings or pants, of the type known as a double duty outfit;

(13) "Snow suit" or "ski suit" means a one-piece garment or a combination of a jacket and leggings or pants, made exclusively for outdoor wear;

(14) "French facing" means a facing extending to the armhole or beyond;

(15) "Culette" means a garment with a divided skirt;

(16) "Measurements" means, unless otherwise specified, maximum finished measurements in inches after all manufacturing operations have been completed and the garment is ready for shipment, as follows:

(i) Measurement of the length of coats, toppers, dresses, and jackets shall be made from the nape of the neck to the bottom of the finished garment;

(ii) Measurements of the length of skirts shall be made from the highest point of the skirt to the bottom of the finished garment;

(iii) "Sweep" means the maximum circumference of a skirt or a dress at any point parallel to the floor.

(b) [Deleted Oct. 30, 1945.]

(c) *General restrictions on processing, manufacture and sale of all children's apparel.* (1) No person shall put into process, manufacture, sell or deliver any children's apparel, including a jumper or pinafore, with another garment or article at a unit price, except in the case of the following garments which may be sold as one unit:

(i) A skirt and a top may be sold as a dress;

(ii) A jacket may be sold with a skirt, or with slacks, or with ski pants, as a suit;

(iii) A coat may be sold with one pair of leggings up to and including size 14;

(iv) A one-piece play suit may be sold with a skirt.

(2) No person shall put into process, manufacture, sell or deliver any children's apparel with an attached cape, muff, scarf, bag, hat, cap, capelet, handkerchief or hood, except that a collarless raincoat and a collarless mackinaw or ski jacket may be sold with a permanently attached hood up to and including size 14.

(3) No person shall change any manufactured size marking to denote a different size or a different size range.

(d) *General restrictions applying to the processing of children's apparel.* (1) No person shall put into process any cloth for the manufacture of a Coat, Cape, or Raincoat, with:

(i) [Deleted Oct. 30, 1945.]

(ii) More than one collar or revers. (Single collar or revers of two thicknesses with inside lining permitted);

(iii) A collar over 5 inches wide;

(iv) More than 2 pockets, inside or out, except on a reversible raincoat in which case 2 pockets may be used on the inside and the outside, or with any patch pocket exceeding 36 square inches of material before reduction.

(v) [Deleted Apr. 8, 1946.]

(vi) [Deleted Apr. 8, 1946.]

(vii) [Deleted Oct. 30, 1945.]

(viii) French facings, except of wool cloth:

(ix) [Deleted Oct. 30, 1945.]

PART 3293—CHEMICALS

[Limitation Order L-355, as Amended Apr. 8, 1946]

ETHYL FLUID

The fulfilment of requirements for the defense of the United States has created a shortage in the supply of lead and tetraethyl lead, both imported and domestic, for defense, for private account and for export; and the following order is deemed necessary and appropriate to the public interest and to promote the national defense:

§ 3293.662 *Limitation Order L-355*—(a) *Definitions.* For the purposes of this order:

(1) "Ethyl fluid" is a mixture of tetraethyl lead and other ingredients designed to raise the octane number of gasoline. It includes: (i) "Motor ethyl fluid" which is ethyl fluid containing organic chlorides and bromides designed for use in motor gasoline for land- and sea-going engines; and (ii) "Aviation ethyl fluid" which is ethyl fluid without organic chlorides designed for use in aviation gasoline.

(2) "Use" means to blend ethyl fluid with gasoline or any component of gasoline or with any other material that can be blended with gasoline.

(b) *Restrictions on delivery.* (1) No producer of ethyl fluid shall deliver to any person in any calendar month more than 27% of the aggregate quantity of motor ethyl fluid delivered to such person in the months of November, December, 1945 and January, 1946, except that when a person certifies to a producer that he used more motor ethyl fluid than the quantity he received in the base period, the producer may deliver to such person in any month a quantity not in excess of 27% of the quantity of motor ethyl fluid certified to have been used in the base period.

(2) No producer of ethyl fluid may export outside the United States, its territories or possessions, more motor ethyl fluid than 27% of the aggregate quantity exported in the months of November, December, 1945 and January, 1946 except on special authorization by the Civilian Production Administration.

(3) No person shall accept delivery of motor ethyl fluid at any one blending point if his inventory of motor ethyl fluid at that point is or will by virtue of such delivery become more than he needs in the succeeding 30 days on the basis of his current or scheduled rate of operations. Persons normally receiving deliveries of motor ethyl fluid by tank car or tank truck shall not maintain any inventory except in scale tanks for blending motor ethyl fluid with gasoline.

(4) Nothing in this paragraph shall prevent the delivery and receipt of a minimum tank car, tank wagon or drum carload by any person whose inventory of motor ethyl fluid is less than 30-days' supply.

(c) *Restrictions on use.* (1) No person shall in any month beginning with April, 1946 use more than 27 percent of the aggregate quantity of motor ethyl fluid which he used in the production of motor gasoline in the three months of November, December, 1945 and January, 1946.

(2) No person shall use aviation ethyl fluid in the production of motor gasoline or any component thereof, or use any gasoline component containing aviation ethyl fluid in the production of motor gasoline.

(3) No person shall use ethyl fluid to produce motor gasoline having higher than 80 octane (ASTM-D-357-45) for use in motor-propelled vehicles, trucks, tractors or boats or to produce aviation gasoline of 100 octane (A&N grade 100-130) or higher, except on special authorization from the Civilian Production Administration.

(d) *Exceptions.* Nothing in this order shall prevent the delivery, receipt and use for laboratory purposes of ethyl fluid in containers of one litre or less.

(e) *Newcomer's quota.* Any person who was not a user of ethyl fluid in November or December, 1945 or January, 1946 and who wishes to have a quota established for him to receive or use ethyl fluid in any calendar month, may apply by letter to the Civilian Production Administration, Chemicals Division, Washington 25, D. C., Ref.: L-355.

(f) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable regulations of the Civilian Production Administration, as amended from time to time.

(2) *Appeals.* Any appeals from the provisions of this order shall be made by filing with the Civilian Production Administration, Chemical Division, Washington 25, D. C., Ref.: L-355, a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(3) *Violations.* A person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment.

(4) *Communications to Civilian Production Administration.* Communications concerning this order, shall, unless

otherwise directed, be addressed to: Civilian Production Administration, Chemicals Division, Washington 25, D. C., Ref.: L–355.

Issued this 8th day of April 1946.

PART 3290—TEXTILES, CLOTHING AND LEATHER

[Limitation Order L–99, as Amended Apr. 8, 1946]

OPERATION OF LOOMS FOR COTTON BROAD WOVEN FABRIC PRODUCTION

The fulfillment of requirements for the defense of the United States has created a shortage in the production of cotton broad woven fabrics and materials for making cotton broad woven fabrics for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.46 *Limitation Order L–99*—(a) *Operation of looms for cotton broad woven fabric production*—(1) *Purpose.* This order controls the operation of looms for the production of cotton woven fabrics of more than 12" in width.

(2) No person shall, regardless of the presentation of rated orders, operate looms contrary to the provisions in the schedules of this order.

(3) No person shall operate looms formerly operated in the production of cotton broad woven fabrics and which were acquired by him after June 30, 1944, except as specifically authorized in writing by the Civilian Production Administration. The term "acquired" refers not only to the direct purchase of looms but also to obtaining operating control over looms by obtaining control of the corporation which owns them. Application for authorization may be made by letter to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: L–99, stating all facts, including the type of fabric he wishes to produce, the name of the person who formerly owned or controlled the looms, and the fabric formerly produced on them.

(b) *Minimum quantities to be produced.* Each person in the business of producing in any calendar quarter after March 31, 1946 any broad woven cotton fabric item marked with an asterisk on Schedule A, or any item in the "May Produce Only" column of Schedule B, must produce in that quarter at least as much yardage of the items within the same group as the greater of the following:

(1) Ninety percent of the linear yardage of such items which he produced in the second quarter of 1944, increased or decreased in inverse proportion to any change in pick he has made since then, or

(2) The linear yardage which can be produced by operating each loom producing such items for at least as many hours as any other loom in his mill is operated.

(c) *Exemptions.* (1) *Special looms.* Jacquard and box looms, and looms which were Dobby head looms on March 8, 1946, are exempt from the provisions of paragraphs (a) and (b) of this order and from Schedules A and B.

(2) *Temporary exemption in certain cases pending appeal action.* Any person who files an appeal for exemption from changing over any looms to produce any item required by Schedule B, may postpone production of the required Schedule B item on these looms until he receives notice by telegram or letter from the Civilian Production Administration of the action taken on his appeal. This temporary exemption applies only to appeals filed on or before April 13, 1946 by registered mail with return receipt requested or by telegraph, and does not apply to any reappeal from action taken on the initial appeal.

(d) *Reports and records.* All persons operating looms for the production of cotton textiles of any kind shall file with the Civilian Production Administration at the times specified in the reporting forms, reports on Forms CPA–658–A, B, and C giving the information therein required. All persons affected by this order shall keep and preserve for a period of not less than two years, accurate and complete records concerning inventories, production and sales. The reporting requirements of this order have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

(e) *Appeals.* (1) Any appeal from the provisions of this order shall be made by filing a letter in triplicate addressed to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: L–99, referring to the particular provisions appealed from and stating fully the grounds of the appeal. However, in order to qualify under paragraph (c) (2) above for exemption pending appeal from Schedule B requirements, the appeal must be filed on or before April 13, 1946 by registered mail with return receipt requested or by telegraph. Any person who wishes to produce Schedule B items but is not permitted to do so under the terms of Schedules A or B, need specify only the number of looms, the constructions currently produced on them, and the number of looms proposed to be transferred to each different Schedule B construction.

(2) All appeals granted under this order before March 8, 1946 are revoked effective April 13, 1946.

(3) In cases of appeal for suspension of the requirements of paragraphs (a) or (b) on the ground that compliance will result in production at a loss, an application for price relief on that ground must first be filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy filed with the CPA appeal. If the CPA appeal is granted, the requirement of these paragraphs for increases above current production will be suspended until the decision by the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

(f) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the Civilian Production Administration, as amended from time to time.

(g) *Violations.* Any person who wilfully violated any provision of this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(h) *Communications to the Civilian Production Administration.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: L–99.

Issued this 8th day of April 1946.

CIVILIAN PRODUCTION ADMINISTRATION,

SCHEDULE B

Looms which at any time during the period March 1, 1942 through February 28, 1946, inclusive, produced any item listed in the "Did Produce" column of Schedule B, and did not produce any item listed in the "May Produce Only" column of Schedule A on March 8, 1946 (or the last prior date when the looms were in production) are subject to the following requirement:

(1) These looms may produce only the items in the "May Produce Only" column of Schedule B opposite the applicable Group Number in the "Did Produce" column.

(2) This requirement is effective on and after April 13, 1946 except that the effective date is April 30, 1946 in the case of looms which change to a different sley, and is May 15, 1946 in the case of looms which change to a different yarn numbers.

(3) If a loom was operated on Class C sheetings for more than one Group Number during the base period, any such Group Number of Schedule B may be selected, but may be registered at any time from the production of the permitted item to the production of any other item permitted for that loom.

(4) Looms which are required to shift to production of Schedule B items, are granted exemption pending appeal by registered mail with return receipt requested or by telegraph, as provided in paragraph (c) (2) of the order. If the appeal is died on or before April 13, 1946, effective April 13, 1946, all appeals granted under the order in paragraph (c) (2) revokes.

(5) Jacquard, box and Dobby head looms are exempt to the extent specified in paragraph (c) (1) of the order.

Chapter XI—Office of Price Administration

PART 1305—ADMINISTRATION

[Rev. SO 113,[1] Amdt. 4]

MANUFACTURERS' MAXIMUM AVERAGE PRICE FOR WOOL CIVILIAN APPAREL FABRICS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Supplementary Order No. 113 is amended in the following respects:

1. Section 2 (c) is amended by adding the following third group of "subject" fabrics:

(3) 100% wool overcoatings, 26 oz. and heavier, delivered at or below $3.25 per yard (net basis). However, the base period deliveries of this group of "subject" fabrics may be substituted for the quarterly deliveries of these fabrics only if the weighted average price for the quarterly deliveries of this group of "subject" fabrics does not exceed the weighted average price of the corresponding base period deliveries of these fabrics by more than 10%.

2. Section 10 (a) (2) is amended by the substitution of the words "his base year" for the numeral "1944" in subparagraph (2).

3. Section 10 (b) (2) is amended by the substitution of the words "his base year" for the numeral "1944" in subparagraph (2).

This amendment shall become effective April 10, 1946.

Issued this 8th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

The grades in Tables I and II are defined as follows (subject to the qualifications listed in paragraph (b) of this appendix):

[2] "No. 1 mixed paper" consists of wastepaper which does not have the uniform or distinctive qualities required for classification as any other grade.

[3] "No. 1 news" consists of waste newspapers and may contain up to 25% of other papers customarily included in the packing of newspapers.

[5] "Overissue news" consists of unused over-run newspapers from a newspaper office. Dealers' returns constitute a lower quality of this grade and may contain sheets of wrapping or other paper customarily used as protection in making returns. Optional method of packing—securely tied bundles.

[6] "Old Corrugated Containers" consist of stock from used corrugated containers and may contain other Kraft paper or board which meets the requirements for inclusion in any Kraft grade listed in this Appendix A at a price equal to or higher than the price listed for "Old Corrugated Containers." Lower qualities may contain stock from used solid fibre containers.

[4] "Extra manilas" of the highest quality consist of unprinted manila paper. Lower qualities may contain printing.

[8] "Mixed books" consist of books or magazines, including outthrow, which may in no event exceed 20% of the total weight of the packing. Packings which contain in excess of 20% outthrow may not be sold at a price in excess of the maximum price for "No. 1 Mixed Paper."

[7] "No. 1 heavy books and magazines" consist of used and oversissue books and magazines, stitchless stock, quire waste and similar printed matter and may contain colored ledger or any white paper which meets the requirements for inclusion in any white grade listed in this Appendix A at a price equal to or higher than the price listed for "No. 1 heavy books and magazines." The packing may contain up to 5% outthrow. A shipment containing more than 5% outthrow but not more than 16% outthrow must be rejected or paid for only after adjustment to eliminate any payment for outthrow in excess of 5%; in such shipment the excess of outthrow becomes the property of the purchaser. When a shipment invoiced as "No. 1 heavy books and magazines" contains outthrow of more than 10%, such shipments must be rejected as "No. 1 heavy books and magazines" and may be accepted only as "No. 1 Mixed Paper," even though it would otherwise meet the definition of "Mixed Books." A deduction of at least $5.00 per ton from the maximum price must be made if the material is not packed in machine compressed bales weighing not less than 500 lbs., in air compressed bales, or on skids.

[9] "No. 1 mixed ledger (colored ledger)" consists of sheets and shavings of ledger, bond and writing papers, white and colored. Other papers which are similar and equivalent may be included. Must be free from groundwood and must contain no more than 2% outthrow. Deliveries which fail to meet the requirement as to outthrow must be rejected or paid for only after adjustment to eliminate any payment for the excessive outthrow.

[9] "No. 1 white ledger" consists of sheets and shavings of ledger, bond and writing papers, all white. Other white papers which are similar and equivalent may be included. It shall be free from groundwood and contain no more than 2% outthrow. Deliveries which fail to meet the requirements as to outthrow must be rejected or paid for only after adjustment to eliminate any payment for the excessive outthrow.

[10] "Mill wrappers" consist of paper used as outside wrappers for rolls or bundles of finished paper stock and may contain sulfite or kraft screenings, groundwood fibre or chemical woodpulp fibre.

[11] "New corrugated cuttings" consist of new corrugated or solid fibre container board cuttings.

[12] "Boxboard cuttings" consist of new cuttings of wastepaper grades of paperboard (i. e. paperboard made principally from wastepaper) such as is used in the manufacture of folding paper cartons, set-up boxes and similar boxboard products.

[13] "White blank news" consists of unprinted cuttings or sheets of white newsprint paper or other papers of white newsprint quality.

[14] "New manila envelope cuttings" consist of new cuttings or sheets of unprinted manila paper of the quality used in the manufacture of manila envelopes.

[15] "One cut new manila envelope cuttings" consist of new one cut cuttings or sheets of unprinted manila paper of the quality used in the manufacture of manila envelopes.

[16] "Manila tabulating cards, free from groundwood" consist of new or used printed manila cards which have been manufactured for use in automatic tabulating machines. Must be free from groundwood. Lower qualities of this grade may include tabulating cards of similar stock having colors other than manila. Optional method of packing—bags or boxes.

[17] "Manila tabulating cards, groundwood" consist of new or used printed manila cards, containing groundwood, which have been manufactured for use in automatic tabulating machines. Lower qualities of this grade may include tabulating cards of similar stock having colors other than manila. Optional method of packing—bags or boxes.

[18] "No. 1 hard white shavings" consist of shavings or sheets of new bond or writing paper of sulfite or rag fibre content. Must be free from groundwood. Highest quality shall be all-white. Lower qualities may contain rulings or light colored stock.

[19] "Hard white envelope cuttings" consist of cuttings and sheets, all white, from new bond or writing papers of the quality used in the manufacture of envelopes. The fibre content of the stock shall be sulfite, rag, or bleached sulfate, free from printed matter and free from groundwood.

[20] "One cut hard white envelope cuttings" consist of one cut cuttings and sheets, all white, from new bond or writing papers of the quality used in the manufacture of envelopes. The fibre content of the stock shall be sulfite, rag, or bleached sulfate, free from printed matter and free from groundwood.

[21] "No. 1 soft white shavings" consist of shavings and sheets, all white, from book and similar printing papers, free from printed matter and containing not in excess of 10% of coated paper stock or heavily filled papers. Must be free from groundwood.

[22] "One cut soft white shavings" consist of one cut shavings and sheets, all white, from book and similar printing papers, free from printed matter and containing not in excess of 10% of coated paper stock or heavily filled papers. Must be free from groundwood.

[23] "Miscellaneous soft white shavings" consist of shavings and sheets, all white, from book and similar printing papers, free from printed matter but not limited with respect to coated or filled paper stock. Must be free from groundwood.

[24] "No. 1 flyleaf shavings" consist of the trim of magazines, catalogs, and similar printed matter. It may contain the bleed of cover and insert stock but must be free from groundwood. Solid color and beater-dyed papers constitute a lower quality of this grade. Shavings of novel news or newsprint grades may not be included in the packing.

[25] "No. 1 groundwood flyleaf shavings" consist of the trim of magazines, catalogs and similar printed matter, not limited with respect to groundwood, and may contain the bleed of cover and insert stock, but shall be free from beater-dyed papers. The highest quality shall be free of solid color printing and of coated stock but lower qualities may contain them.

[26] "No. 2 mixed colored groundwood shavings" consist of the trim of magazines, catalogs and similar printed matter, not limited with respect to groundwood or coated stock, and may contain the bleed of cover and insert stock as well as beater-dyed papers and solid color printing.

[27] "No. 1 assorted kraft (old kraft)" consists of kraft paper waste, free from corrugated waste of any kind.

[28] "Triple sorted No. 1 brown soft Kraft" consists of old sort natural color kraft papers completely free from papers other than those containing 100% sulfate fibre. Lower qualities may contain old soft kraft papers of color other than brown or natural.

[29] "Mixed Kraft envelope and bag cuttings" consist of new cuttings and sheets of 100% kraft papers of the qualities used in the manufacture of kraft envelopes and kraft bags.

[30] "Kraft envelope cuttings" consist of new cuttings and sheets of 100% kraft papers of the quality used in the manufacture of kraft envelopes.

[31] "New 100% Kraft corrugated cuttings" consist of cuttings and sheets from new corrugated and solid fibre container board of 100% sulfate fibre content and may contain cuttings and sheets of the component plies thereof provided such component plies are also of 100% sulfate fibre content. Lower qualities may contain cuttings or sheets from new corrugated stock composed of two liners which are 100% sulfate fibre with a corrugated filler of other fibre, but unless both of the liners are of 100% sulfate fibre, the material must not be sold at a price in excess of the maximum price of "New corrugated cuttings."

[32] "Damaged newsprint" consists of unprinted white newsprint paper rejected or discarded because of damage sustained prior to pressroom use. Optional method of packing—rolls.

3. In § 1347.14 (b) new sub-paragraphs (3) and (4) are added to read as follows:

(3) *Tare.* The billed weight on any shipment of commercially packed wastepaper shall not include tare in excess of 2%.

(4) *Fibre content.* In the grade definitions listed in § 1347.14 (a) "free from groundwood" shall mean free from groundwood except to the extent that groundwood is used in the furnish of papers, otherwise admissible in the grade, which had no groundwood content before the war. Similarly "100% kraft" or

"100% sulfate fibre" or "free from non sulfate fibre" shall mean free from non sulfate fibre except to the extent that non sulfate fiber is used in the furnish of papers, otherwise admissible in the grade, which were 100% sulfate fibre before the war.

4. § 1347.14 (e) is amended to read as follows:

(e) *Transportation allowances.* All prices established by this Maximum Price Regulation No. 30 shall be for wastepaper f. o. b. freight cars, trucks, or barges at the point of shipment. The point of shipment is the point at which the wastepaper is first loaded on a conveyance for transportation to the buyer, except that in the case of imported wastepaper the point of shipment shall be the port or city of entry in the United States.

(1) *Delivery charges.* Sales may be made on a delivered basis, but such sales must be made at prices not in excess of the maximum f. o. b. point of shipment prices established by this Maximum Price Regulation No. 30, plus, where the costs of delivery are incurred by the seller, such of the transportation allowances set forth in this sub-paragraph (e) as are applicable thereto.

(i) When transportation to the consumer is by public (common or contract) carrier, the lowest established transportation rate for such shipment;

(ii) When transportation to the consumer is by a vehicle owned or controlled by the seller, other than a common or contract carrier;

(a) An amount not in excess of $1.00 per short ton, plus actual toll charges, when the point of shipment and the consumer's premises are located in the same city, town or municipality, or at a distance of ten miles or less from each other by the shortest available public highway route.

(b) An amount per short ton not in excess of the lowest published rail rate for full carload shipments of wastepaper, when the point of shipment and the consumer's premises are not located in the same city, town or municipality and are at a distance of more than ten miles from each other by the shortest available public highway route.

(2) *Loading charge.* If there is no rail siding at the point of shipment, and the wastepaper is transported to and loaded on a freight car at the expense of the seller for transportation to the consumer, the seller may add to the maximum price an amount not in excess of $1.00 per short ton for such transportation and loading. Similarly, if there is no barge dock at the point of shipment and the wastepaper is transported to and loaded on a barge at the expense of the seller for transportation to the consumer, the seller may add to the maximum price an amount not in excess of $1.00 per short ton for such transportation and loading.

For the purpose of this subparagraph (2) a rail siding or barge dock at the plant of an accumulator shall not be considered to be at the point of shipment if such rail siding or barge dock is not normally available and usable for the shipment of wastepaper.

This amendment shall become effective April 13, 1946.

Issued this 8th day of April 1946.

PAUL A. PORTER,
Administrator.

PART 1390—MACHINERY AND TRANSPORTATION EQUIPMENT

[RMPR 136, Amdt. 32]

MACHINES, PARTS AND INDUSTRIAL EQUIPMENT

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 136 is amended in the following respects:

Section 19 (g) is amended to read as follows:

(g) *Metal stampings and screw machine products*—(1) *Metal stampings.* The maximum prices for sales by a manufacturer to any purchaser of any new metal stampings shall be the prices established under section 7 or computed under section 8, 9 or 10, increased by 19.0%. For the purposes of this paragraph the term "stampings" shall include all products which are subject to this regulation as otherwise definable parts, components or subassemblies fabricated by the stampings process as this process is defined under that heading in Appendix A.

(2) *Screw machine products.* The maximum prices for sales by a manufacturer to any purchaser of any new screw machine products for which the manufacturer had a published list price or an established price in effect on the base date shall be the prices established under section 7 or computed under section 8, increased by 8.0%. For the purposes of this paragraph, the term "screw machine products" shall include all products which are subject to this regulation as otherwise definable parts, components or subassemblies fabricated by the screw machine process as that process is defined under that heading in Appendix A.

This amendment shall become effective April 8, 1946.

Issued this 8th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

PART 1377—WOODEN CONTAINERS

[RMPR 186, Amdt. 14]

WESTERN WOODEN AGRICULTURAL CONTAINERS

A statement of the considerations involved in the issuance of this Amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Maximum Price Regulation 186 is amended in the following respects:

1. In § 1377.110, Table 2 is amended by providing new prices on the item, "Display lugs (apricots, plums, prunes, peach—Yakima or Wenatchee)" and by inserting a new item, "Cherry (spec. acc. to #50 and #51 in Trf #1) for Yakima and Wenatchee use only," after the item "Standard cherry," as follows:

2. In § 1377.110 (e), subparagraph (1) is amended to read as follows together with the heading of paragraph (e):

(e) *Special addition for sales of shook by metropolitan factories.* (1) In sales by "metropolitan factories" an addition of not more than $5.00 per 1000 feet may be made to the basic prices for shook. A "metropolitan factory" is a factory whose box production in the year 1942 was at least 66 percent industrial box and which is located within the city limits, or within five miles of the city limits, of any of the following cities:

Oakland, California.
San Francisco, California.
Los Angeles, California.
Portland, Oregon.
Salem, Oregon.
Seattle, Washington.
Spokane, Washington.
Tacoma, Washington.

3. In § 1377.110 (h) a new undesignated paragraph is added to read as follows: "Distribution warehouses may apply an addition of 20 percent to the charges listed in Table 4 above."

This amendment shall become effective April 4, 1946.

Issued this 4th day of April 1946.

NOTES: Applying to Table 9. 1. In all specified length groups below, the lengths will be evenly distributed.

2. For any specification of pole other than those listed herein, the seller shall determine the size A. S. A. pole having the same or nearest larger circumference 6' from the butt. This price for an A. S. A. pole shall be the tentative price so determined for the specification pole to be priced. The tentative price so determined must be submitted to the Lumber Branch according to Section 6.

3. For specified length groups, 6 or more consecutive lengths in 5-foot multiples. No addition.

4. For specified length groups, of 4 or 5 consecutive lengths in 5-foot multiples add $0.005 per lin. ft.

5. For specified length groups, of 3 consecutive lengths in 5-foot multiples add $0.01 per lin. ft.

6. For specified length groups, of 2 consecutive lengths in 5-foot multiples add $0.015 per lin. ft.

7. For specified single length, add $0.02 per lin. ft.

8. For random length orders where the purchaser specifies restricted loading, the seller may add 2½ of the proper specified length addition above. Additions allowed by this footnote must be shown separately on invoices.

9. For Clean Peeled Poles.

Classes 1, 2 and 3 or top size equivalent, add $0.02 per lin. ft.

Classes 4 to 10 inclusive or top size equivalent, add $0.01 per lin. ft.

10. Unpeeled Poles.

Classes 1, 2 and 3 or top size equivalent, deduct $0.02 per lin. ft.

Classes 4 to 10 inclusive or top size equivalent, deduct $0.01 per lin. ft.

11. Framing of poles including roofing and, if required, two gains and boring of holes therein.

All poles under 40' in length, regardless of class or top dimension: Per pole, $0.15.

For 40' length Class 6 or top dimension equivalent and smaller: Per pole, $0.15.

For 40' length Class 5 or top dimension equivalent and larger: Per pole, $0.30.

For all poles longer than 40', regardless of class or top dimension: Per pole, $0.30.

For each additional gain and boring of one hole therein: Per gain, $0.06.

For boring of each additional hole: Per hole $0.02.

12. Continuous slab gain shall be considered as multiple gains and may be priced accordingly on basis of six cents for each twelve inches of slab-gained surface including the boring of hole therein.

13. Cut Back Allowances. When requirements of the buyer exceed the available supply of the seller, for one or more sizes or lengths of pole for delivery required, the seller may cut back the most similar size pole in the 5' longer length and may charge the maximum price for the size and length pole actually used. The additions for transportation, treatment, processing, etc., on such cut back poles, shall be those additions applicable to the size and length pole ordered by the buyer, plus an addition for in-bound freight computed at the difference in estimated weights times the freight rate to the concentration yards. No addition may be made for the labor included in such cutting back operations. The seller shall keep a record of such sales and show this charge as a separate item on the invoices.

Chapter XVIII—Office of Economic Stabilization

PART 4005—RATIONING

[Directive 105]

ALLOCATION OF HALIBUT

The Secretary of the Interior, the Price Administrator, and the Secretary of Agriculture having submitted certain information and recommendations with respect to the allocation of halibut, I hereby find it necessary, in order to carry out the purposes and provisions of the Emergency Price Control Act of 1942, as amended, to stabilize the national economy, to maintain and increase production, and to aid in the effective reconversion of our economy from war to peace, to issue the following directive:

The Secretary of the Interior is authorized in his discretion to issue such orders as he deems reasonably necessary for the allocation of halibut among water-front dealers in order to cooperate with the Department of Agriculture in its food production and distribution program and with the Office of Price Administration in support of its price regulations, and to carry out the purposes of the Emergency Price Control Act of 1942, as amended.

Any request or application for a share in the halibut landings, or any action under the order which in the opinion of the Secretary of the Interior or his representative may affect in any way the program of the Price Administrator or of the Department of Agriculture, may be referred, with all available information, to the Office of Price Administration or to the Department of Agriculture, or to both, or to their properly designated local representatives. Each of these agencies or their representatives to whom such matter is referred shall recommend the action which is deemed advisable thereon, state the reasons for the recommendation, and set out, as definitely as possible, the probable effect of granting or denying the request or application upon the programs of the respective agencies. The Secretary of the Interior shall consider such recommendations and statements in determining the appropriate action to be taken in the matter.

As used herein the word "halibut" includes Pacific halibut and all other species caught with set-lines of the type commonly used in the Pacific Coast halibut fishery, including cod, rockfish, and sablefish, and the word "dealer" means any individual, partnership, association, firm, agent, corporation, or other business entity engaged in the buying of halibut at the water front, for his own account or as a broker for the account of others.

The authority of the Secretary of the Interior under this directive may be exercised by the Director of the Fish and Wildlife Service and such members of his staff as he designates for that purpose.

MIDDLE WEST BROADCASTING CO., INC.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Middle West Broadcasting Company, Inc., St. Paul, Minnesota, for construction permit; File No. B4-P-4261, Docket No. 7472.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 27th day of March, 1946;

The Commission having under consideration an application for construction permit (File No. B4-P-4261) of Middle West Broadcasting Company, Inc. for a new standard AM broadcast station at St. Paul, Minnesota:

It is ordered, That the said application be designated for hearing in a consolidated proceeding with the application for construction permit of La Crosse Broadcasting Company (File No. B4-P-4507), on the following issues:

1. To determine the legal, technical, financial and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which would gain or lose primary service through the operation of the proposed station and what other broadcast services are available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the areas and populations proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with Stations CKUA, Edmonton, Alberta, CKFR, Port Arthur, Ontario, CJFX, Antigonish, N. S., and CKEY, Toronto, Ontario, and if so, the nature and extent thereof.

5. To determine whether the operation of the proposed station would involve objectionable interference with any existing United States stations, particularly WNAX, Yankton, S. D., WOW, Omaha, Nebraska, WIBW, Topeka, Kansas, and WILL, Urbana, Ill., and if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other broadcast services to such areas and populations.

6. To determine whether operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities, the nature and extent of any such interference, the areas and populations affected thereby, and

the availability of other broadcast service to such areas and populations.

7. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, particularly as to the service to be rendered to the St. Paul-Minneapolis metropolitan district.

8. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

FEDERAL SECURITY AGENCY.

Food and Drug Administration.

[Docket No. FDC-45]

CANNED BEANS

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO STANDARDS OF IDENTITY AND QUALITY

In the matter of establishing specific regulations defining and setting up standards of identity and quality for canned green beans or canned green stringless beans or canned stringless green beans, and canned wax beans or canned stringless wax beans.

Notice is hereby given that the Administrator of the Federal Security Agency on his own initiative, in accordance with the provisions of sections 401 and 701 of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. 341 and 371; the Reorganization Act of 1939, 53 Stat. 561, 5 U.S.C. 133; and Reorganization Plans No. I (53 Stat. 1423, 4 F.R. 2727) and No. IV (54 Stat. 1234, 5 F. R. 2421), will hold a public hearing commencing at 10 o'clock in the morning of May 14, 1946, in Room 3106, South Agriculture Building, corner 12th Street and Independence Avenue SW., Washington, D. C., for the purpose of receiving evidence upon the basis of which regulations may be promulgated fixing and establishing reasonable definitions and standards of identity and standards of quality for canned green beans or canned green stringless beans or canned stringless green beans, and canned wax beans or canned stringless wax beans.

Bernard D. Levinson is hereby designated as presiding officer to conduct the hearing in the place of the Administrator, with full authority to administer oaths and affirmations and to do all other things appropriate to the conduct of the hearing.

The hearing will be conducted in accordance with the rules of practice provided therefor (21 CFR, Cum. Supp. 2.701 to 2.715).

In lieu of oral testimony, interested persons may submit affidavits to the presiding officer at Room 3257, Social Security Building, Fourth Street and Independence Avenue SW., Washington 25, D. C., on or before the date of the opening of the hearing. Such affidavits should be submitted in quintuplicate and, if relevant and material, will be received and made a part of the record of the hearing. The Administrator will consider the lack of opportunity for cross-examination in determining the weight to be attached to statements made in the form of affidavits. Every interested person shall be permitted to examine all affidavits which have been submitted, and to file counter-affidavits with the presiding officer, within a period of time to be fixed by the presiding officer.

At the hearing the evidence will be restricted to testimony and exhibits that are relevant and material to matters contained in the proposed definitions and standards of identity and standards of quality set forth below. These suggested regulations are subject to adoption, rejection, amendment, or modification, in whole or in part, as the evidence of record adduced at the hearing may require.

It is proposed to amend § 52.990 of Title 21, Code of Federal Regulations, Cumulative Supplement, by deleting therefrom all references to green beans or green stringless beans or stringless green beans, and wax beans or stringless wax beans, and to establish specific definitions and standards of identity and standards of quality for these foods, as follows:

§ 51.3 *Canned green beans, canned green stringless beans, canned stringless green beans; identity; label statement of optional ingredients.* (a) Canned green beans is the food prepared from succulent green bean pods from which stem ends have been removed, in one of the following optional forms:

(1) Whole pods, or pods cut to a length or not less than 2¾ inches, packed vertically;

(2) Whole pods packed otherwise than vertically;

(3) Whole pods sliced lengthwise;

(4) Pods cut into pieces not less than ¾ inch in length, with or without shorter end pieces from such pods;

(5) Pods cut into pieces less than ¾ inch in length;

(6) Mixtures of two or more of the forms specified in (2), (3), (4), and (5).

To one of these optional forms water is added, with or without salt, sugar or dextrose for seasoning. The food is sealed in a container and so processed by heat as to prevent spoilage.

(b) When optional form (a) (1) is used, the label shall bear the word "Whole" preceded or followed by the words "Vertical Pack"; when optional form (a) (2) is used the label shall bear the word "Whole" preceded or followed by "_____" (the blank to be filled in with words describing the style of pack, the exact wording to be determined on basis of evidence at the hearing); when optional form (a) (3) is used the label shall bear the words "Sliced" or "French Style"; when optional form (a) (4) is used the label shall bear the word "Cut" or "Cuts"; when optional form (a) (5) is used the label shall bear the words "Short Cut" or "Short Cuts"; when optional form (a) (6) is used the label shall bear the names specified herein for the optional forms in the mixture in order of predominance by weight, if any.

(c) Wherever the name "Green Beans" or "Green Stringless Beans" or "Stringless Green Beans" appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the words and statements specified in paragraph (b) of this section shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter, except that the varietal name of the green beans may so intervene.

§ 51.4 *Canned green beans, canned green stringless beans, canned stringless green beans, quality; label statement of substandard quality.* (a) The standard of quality of canned green beans is set forth below.

When tested by the methods prescribed in paragraph (b) of this section:

(1) Not more than one string per ounce of drained weight will support a weight of ½ pound for 5 seconds or longer. ((b) (5))

(2) The drained pods contain not more than ____ percent (to be fixed within the range of 10 to 15 percent) by weight of seeds or pieces of seeds. ((b) (6))

(3) The deseeded pods contain not more than ____ percent (to be fixed within the range of .10 to .15 percent) by weight of fibrous material. ((b) (7))

(4) Except in the case of pods sliced lengthwise, the combined weight of loose seeds and loose pieces of seeds is not more than 5 percent of the drained weight. ((b) (9))

(5) The combined weight of leaves and other harmless extraneous vegetable material is not more than 1/10 of one percent of the drained weight. ((b) (10))

(6) The proportion of stem ends is not more than 6 per 12 ounces of drained weight. ((b) (11))

(7) The proportion of blemished units is not more than ____ (to be fixed within the range of 12 to 24) per 12 ounces of drained weight. A unit with only a blemish having a maximum dimension not exceeding 1/16 inch shall not be counted as blemished. ((b) (12))

(8) The proportion of units less than ½ inch in length is not more than 60 per 12 ounces of drained weight. ((b) (13))

(b) Canned green beans shall be tested by the following methods to determine whether they meet the requirements of paragraph (a) of this section.

(1) Distribute the contents of the container over the meshes of a circular sieve which has been previously weighed. The diameter of the sieve is 8 inches if the quantity of the contents of the container is less than 3 pounds, and 12 inches if such quantity is 3 pounds or more. The bottom of the sieve is woven-wire cloth which complies with the specifications for such cloth set forth under "2380 Micron (No. 8)" in Table I of "Standard Specifications for Sieves," published March 1, 1940, in L. C. 584 of the U. S. Department of Commerce, National Bureau of Standards. Without shifting the material on the sieve, so incline the sieve as to facilitate drainage. Two minutes from the time drainage begins, weigh the sieve and the drained material. Record, in ounces, the weight so found, less the weight of the sieve, as the drained weight.

(2) Pour the drained material from the sieve into a flat tray spreading it in a layer of fairly uniform thickness. Select a representative sample of 3½ to 4 ounces and record its weight in ounces for use in (5). Place cover over remaining material to prevent evaporation, and reserve for further examination under (8).

(3) Segregate from the sample obtained in (2) the loose seeds and pieces of loose seeds, the harmless extraneous vegetable material, and the stem ends (removing any stem ends which are attached to pods or pieces of pods), reserving each class of material in a separate dish. (The seed material need not be reserved in the case of pods sliced lengthwise.) Count and record, but do not remove, the blemished units and the pieces of pods less than ½ inch in length.

(4) Examine the pods segregated in (3) and trim off as far as the end of the space formerly occupied by seed, that portion of any pods from which seeds or pieces of seeds have become separated. Retain trimmings (freed from any pieces of seed) for use in (7). Weigh, and record weight of trimmed pods. Deseed them, placing seed and pieces of seed on a sieve fine enough to retain them and so placed that any liquid drains away.

(5) Remove any strings from the deseeded pods and test the strings as follows:

Fasten one end of the string in a clamp weighted to ½ pound. Hold the string with the fingers and lift gently. Count those strings which support this weight for at least 5 seconds and divide by the weight of sample recorded in (2). Place broken and unbroken strings with the deseeded pods and trimmings from (4) and reserve for testing under (7).

(6) Weigh the seed material obtained in (4), divide by the weight of the trimmed pods recorded in (4), and multiply by 100 to obtain percent by weight of seeds or pieces of seeds in the drained pods.

(7) Weigh the deseeded pods, trimmings, and strings obtained in (5). Transfer them to the metal cup of a malted milk stirrer, and crush. Wash material adhering to crushing instrument back into cup with 200 cc. of boiling water. Bring mixture to a boil and add 25 cc. of 50 percent (by weight) sodium hydroxide solution. If foaming is excessive a piece of paraffin may be added. Boil for 5 minutes, and stir for an additional 5 minutes with a malted milk stirrer capable of a no-load speed of at least 7200 r. p. m. Transfer material from cup to a previously weighed 30-mesh monel metal screen having a diameter of about 4 inches and side walls about 1 inch high, and wash with a stream of warm water until washings are clear and free from alkali. Dry the screen and fibrous material for 2 hours at 100° C., cool, weigh, and deduct weight of screen. Divide the weight of fibrous material by the weight of deseeded pods and multiply by 100 to obtain the percent of fibrous material in the deseeded pods.

(8) Segregate, as directed in (3), the loose seeds, harmless extraneous vegetable material and stem ends from the drained material reserved in (2), and combine with the corresponding types of material reserved in (3). In the case of pods sliced lengthwise the seed material need not be segregated. Reserve the drained pods for examination under (12) and (13).

(9) Weigh (in ounces) the combined loose seed material, divide by the drained weight recorded in (1) and multiply by 100 to obtain percent by weight of loose seeds and pieces of loose seeds.

(10) Weigh the combined harmless extraneous vegetable material and calculate the percent as in (9).

(11) Count the combined stem ends, divide this number by the drained weight recorded in (1) and multiply by 12 to obtain the number of stem ends per 12 ounces of drained weight.

(12) Count the blemished units in the drained pods reserved in (8) and add it to the number of such units recorded in (3). From the total, compute the number per 12 ounces as directed in (11).

(13) Count the units less than ½ inch in length in the drained pods reserved in (8), add it to the number of such units recorded in (3), and compute the number per 12 ounces as directed in (11).

(c) If the quality of canned green beans, canned green stringless beans, canned stringless green beans, falls below the standard prescribed in paragraph (a) of this section, the label shall bear the general statement of substandard quality specified in § 10.2 (a), in the manner and form therein specified.

§ 51.6 *Canned wax beans, canned stringless wax beans; identity; label statement of optional ingredients.* (a) Canned wax beans is the food which conforms to the definition and standard of identity for canned green beans prescribed in § 15.3 (a) and is subject to the requirements for label statement of optional ingredients specified in § 51.3 (b) for canned green beans, except that it is prepared from succulent wax bean pods instead of succulent green bean pods.

(b) Wherever the name "Canned Wax Beans" or "Canned Stringless Wax Beans" appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the words and statements specified in § 51.3 (b) shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter, except that the varietal name of the wax beans may so intervene.

§ 51.7 *Canned wax beans, canned stringless wax beans; quality; label statement of substandard quality.* (a) The standard of quality for canned wax beans is that prescribed for canned green beans in § 51.4 (a) and (b).

(b) If the quality of canned wax beans, canned stringless wax beans falls below the standard prescribed in paragraph (a) of this section, the label shall bear the general statement of substandard quality specified in § 10.2 (a), in the manner and form therein specified.

1. That Mitteleuropaeisches Reisebuero, G. m. b. H., the last known address of which is Leipziger Platz, Berlin W. 9, Germany, is a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation owing to Mitteleuropaeisches Reisebuero, G. m. b. H., by The Chase National Bank of the City of New York, 18 Pine Street, New York, New York, arising out of an inactive dollar checking account, entitled Mitteleuropaeisches Reisebuero, G. m. b. H., Bankabteilung, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on March 26, 1946.

MARTHA LIEBRECHT

In re: Bank account owned by Martha Liebrecht.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Martha Liebrecht, whose last known address is Berlin, Germany, is a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation owing to Martha Liebrecht, by The Seamen's Bank for Savings in the City of New York, 74 Wall Street, New York, New York, arising out of a savings account, Account Number 823418, entitled Martha Liebrecht, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on March 26, 1946.

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN IOWA, NORTH DAKOTA, MINNESOTA, WISCONSIN AND OHIO COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 4 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property which each of the persons named in said Column 1 of said Exhibit A obtains or is determined to have as a result of the action or proceeding described in said Column 3 of said Exhibit A the sums stated in said Column 4 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN NEW YORK COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A;

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 6 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the persons described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on April 2, 1946.

HEINZ MOSER

In re: Bank account owned by Heinz Moser.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Heinz Moser, whose last known address is Konigstadter Str. 103, Russelsheim/M, Germany, is a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation owing to Heinz Moser, by The Marine Midland Trust Company of New York, 120 Broadway, New York, New York, arising out of a dividends due foreigners withheld under federal regulation account, entitled Heinz Moser, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a na-

tional of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on March 26, 1946.

H. MUSOLF

In re: Bank account owned by H. Musolf.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That H. Musolf, whose last known address is c/o L. Leybold Shokwan K. K., Nihoubashi-ku, Tokyo, Japan, is a national of a designated enemy country (Japan);

2. That the property described as follows: That certain debt or other obligation owing to H. Musolf, by The National City Bank of New York, 55 Wall Street, New York, New York, arising out of a compound interest department account, Account Number A–53666, entitled H. Musolf, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

ESTABLISHMENT OF MAXIMUM PRICES AND PRICE CLASSIFICATIONS

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120, *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 9. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be

changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classification of the respective size groups. The location of each mine is given by county and State. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparaton plant and when stated to be for rail shipment or for railroad fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.220 and all other provisions of Maximum Price Regulation No. 120.

OSCAR MAYER & CO. ET AL.

ESTABLISHMENT OF MAXIMUM PRICES

On November 19, 1945, Oscar Mayer and Company, Madison, Wisconsin, filed an application for the establishment of maximum prices on sales of the sausage product known as "Cooked Quick Frozen Chili Con Carne with Beans" packed in 1 pound and 2 pound cartons and made in accordance with the individual secret formula submitted by the applicant. That application was assigned Docket No. 6036.3-389-2 (a)-43.

Due consideration has been given to the application and an opinion in support of this order has been issued simultaneously herewith and filed with the Division of the Federal Register.

For the reasons set forth in the opinion, and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, and pursuant to the provisions of section 2 (a) (6) of Maximum Price Regulation No. 389; *It is ordered:*

(a) That the maximum prices other than at retail for the sausage product known as "Cooked Quick Frozen Chili Con Carne with Beans" and made by Oscar Mayer and Company in accordance with the individual formula submitted to the Office of Price Administration with the application for this order shall be determined by the seller as follows:

(1) The base price for this product is established at the following amounts per hundredweight:

1-pound cartons	$19.00
2-pound cartons	18.00

(2) To the base price should be added the proper zone differential provided in section 12 (b) of Maximum Price Regulation No. 389 for sausage which is not Kosher sausage, all beef sausage or sausage containing meat and meat by-products from swine only. In determining the proper zone differential to be added, the zone descriptions provided in section 14 of Maximum Price Regulation No. 389 shall be used.

(3) That to the sum of the base price plus the applicable zone differential the "Permitted additions to base prices" provided in section 12 (c) of Maximum Price Regulation No. 389 may be added when applicable.

(b) That with the first delivery of "Cooked Quick Frozen Chili Con Carne with Beans" to a wholesaler, peddler-truck-seller, or intermediate distributor, Oscar Mayer and Company shall supply each such seller with a written notice in the following form:

(Insert date)

Our OPA ceiling prices for "Cooked Quick Frozen Chili Con Carne with Beans" have been established by the Office of Price Administration at the base price of $19.00 per hundredweight in 1 pound cartons and $18.00 per hundredweight in 2 pound cartons to which may be added the zone differentials provided in section 12 (b) of MPR 389 (See section 14 for zone boundaries) plus the permitted additions of section 12 (c). We are required to inform you that if you are a wholesaler, a peddler-truck-seller, or an intermediate distributor you must figure your ceiling prices for this product pursuant to the same sections of Maximum Price Regulation No. 389.

(c) That with the first delivery of "Cooked Quick Frozen Chili Con Carne with Beans" to a retailer the seller shall supply such retailer with a written notice in the following form:

(Insert date)

Our OPA ceiling prices for "Cooked Quick Frozen Chili Con Carne with Beans" have been established by the Office of Price Administration. We are required to inform you that if you are a retailer, you must figure your ceiling price for this item in accordance with the provisions of Maximum Price Regulation No. 336.

(d) That all pertinent provisions of Maximum Price Regulation No. 389, including the descriptive labelling and invoicing provisions of section 6, and the definitions of section 13, in addition to the pricing provisions of paragraph (b) and (c) of section 12 shall be applicable to all sales made under this order.

(e) All prayers of the application not herein granted are denied.

(f) This Order No. 36 may be revoked or amended by the Price Administrator at any time.

This Order No. 36 shall become effective April 6, 1946.

Issued this 5th day of April 1946.

PLUG FUSES

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion, issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 31 of Revised Maximum Price Regulation 136, *It is ordered:*

(a) For the purposes of this order, the phrase "plug fuse" includes standard plug fuses, sub-standard plug fuses, and special size plug fuses.

"Standard" plug fuses are one-time (or nonrenewable) standard Edison base plug fuses constructed in accordance with the requirements of Underwriters Laboratories, Inc., or of any governmental agency, for the protection of 125-V electric current, and of 10, 15, 20, 25 or 30 amperages.

"Sub-standard" plug fuses are plug fuses of size not included in the definition of "standard" plug fuses, but which otherwise meet the definition of "standard" plug fuses, and which were specifically identified as "sub-standard" sizes in the manufacturer's published price list in effect on October 1, 1941.

"Special" size plug fuses are plug fuses of sizes which are not included in the definitions of "standard" and "sub-standard" plug fuses, but which otherwise meet the definition of "standard" plug fuses.

The phrase "plug fuse" shall not include any type plug fuse having a thermal element or any other electrical device in addition to a fusable element.

(b) The maximum prices for sales (except to consumers) of any plug fuses shall be the dollars-and-cents amount listed in the following table subject to the same extra charges, allowances and discounts in effect to a purchaser of the same class just prior to the issuance of this order.

Type of sale	Standard plug fuses	Sub-standard plug fuses
Sales to distributors in quantities of 2,000 or more	$29.00	$32.00
Sales to any resellers in quantities of 100 or more	34.50	38.00
Sales to any resellers in quantities of less than 100	39.50	43.00

The table gives the type of sale and the maximum prices per thousand for standard plug fuses and the maximum price per thousand for substandard plug fuses for each type of sale (maximum prices for sales to consumers are covered by Supplementary Regulation 14K (Modifications of Maximum Prices Established by General Maximum Price Regulation for Certain Machinery and Parts)).

(c) The maximum prices for special size plug fuses shall be the prices for substandard plug fuses given in the above table plus $2.00 per thousand.

(d) The maximum prices for imprinting and other special services shall be the dollars-and-cents amounts added for similar services on October 1, 1941.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective April 5, 1946.

Issued this 5th day of April 1946.

PAUL A. PORTER,
Administrator.

PHILLIPS PETROLEUM CO.

APPROVAL OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 13 of Maximum Price Regulation No. 598; *It is ordered:*

(a) This order establishes ceiling prices for resales to petroleum jobbers and dealers of the Models N–803 and R–803A kerosene refrigerators manufactured by Servel, Inc. and sold to the Phillips Petroleum Company, Bartlesville, Okla.

(1) The ceiling prices for sales by the Phillips Petroleum Company to petroleum jobbers and to dealers are as follows:

Model	Ceiling prices for sales to—	
	Petroleum Jobbers	Dealers
	Each	*Each*
N–803	$190.24	$218.83
R–803A	190.24	218.83

These ceiling prices include the Federal excise tax and a one year warranty and installation. They are f. o. b. Evansville, Indiana.

(2) The ceiling prices for sales to dealers by petroleum jobbers who purchase from the Phillips Petroleum Company are as follows:

Model:	*Ceiling prices for sales to dealers (each)*
N–803	$218.83
R–803A	218.83

These ceiling prices include the Federal excise tax and a one year warranty and installation. They are f. o. b. Evansville, Indiana.

(3) For purpose of this order a petroleum jobber is a person who is engaged in the business of buying oil and reselling it to gasoline stations.

(b) At the time of, or prior to, the first invoice to each purchaser for resale at wholesale the Phillips Petroleum Company shall notify the purchaser of the ceiling prices established by this order for his resales. This notice may be given in any convenient form.

(c) All the provisions of Maximum Price Regulation No. 598 continue to apply to all sales and deliveries of refrigerators covered by this order except to the extent that those provisions are modified by this order.

(d) Unless the context requires otherwise, the definitions set forth in Maximum Price Regulation No. 598 shall apply to the terms used herein.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 5th day of April 1946.

Issued this 5th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

[Rev. SO 119, Rev. Order 89]

WALTERS MANUFACTURING CO.

ADJUSTMENT OF CEILING PRICES

Order No. 89 under Revised Supplementary Order No. 119 is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Walters Manufacturing Company, Oakmont, Pa., may compute its adjusted ceiling prices for all articles of steel metal household cabinets and accessories, which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 18 per cent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of revised order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of revised order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this revised order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with revised order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this revised order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580, and a wholesaler who must determine his ceiling price under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 8 under § 1499.159a of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 8 under Section 1499.159e of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price," the reseller shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced. The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this revised order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this revised order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this revised order, showing prices adjusted in accordance with this revised order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this revised order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this revised order are hereby denied.

(f) This revised order may be revoked or amended by the Price Administrator at any time.

(g) This revised order shall become effective on April 5, 1946.

Issued this 5th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

[MPR 599, Order 12]

FORD MOTOR CO.

APPROVAL OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register; and pursuant to section 11, Maximum Price Regulation 599, *It is ordered:*

(a) This order establishes ceiling prices for sales of automobile radios sold by The Ford Motor Company which are already installed or are to be installed in motor cars of its manufacture.

(b) The ceiling prices for sales by The Ford Motor Company, and its dealers, of the radios listed below, are the prices set forth opposite each radio for sale to each class of purchaser under the terms and conditions of sale specified.

Model	Ceiling prices to dealer		Ceiling prices to consumer	
	Uninstalled	Installed	Uninstalled	Installed
51A–18800–A1	$31.33	$36.99	$44.25	$51.69
5EH–18805–A or B	37.70	41.45	52.08	55.83

These ceiling prices are subject to the same terms and conditions of sale including provision for transportation charges to which ceiling prices of extra or optional equipment or accessories sold by the Ford Motor Company are subject under the provisions of Maximum Price Regulations 594, 452, 453 and orders thereunder. Ceiling prices for the Model 51–A–18800–A1 radio on an installed basis include the price of the antenna and the installation charges for installation of both the radio and the antenna. Prices for the 5 EH–18805A or B radio on an installed basis are for the radio alone but these prices include installation charges for both the radio and antenna which may be installed at the same time. Ceiling prices on uninstalled basis are for the radio alone.

(c) The ceiling prices fixed by this order are exclusive of Federal excise taxes. In addition to these ceiling prices each seller may collect the amount of the Federal excise taxes. State and local taxes may also be collected.

(d) Sellers of the radios covered by this order are not required to comply

with the tagging requirements of Maximum Price Regulation 599 but at the time of or prior to the first invoice to a purchaser for resale of such radio each seller shall notify the purchaser of the ceiling prices, terms and conditions of sale established by the order.

(e) *Description.* (1) Auto radio, Model No. 51A–18800–A1 covered by this order is an auto radio of 6 tubes, battery power, 6" x 9" oval speaker, 1 slide rule dial, metal case, 4¼" x 8¾" x 5⅝", 1 band and antenna.

(2) Auto radio, Model No. 5EH–18805–A or B, covered by this order is an auto radio of 7 tubes, battery power, 1 band, 6" x 9" oval speaker, slide rule dial, metal case, 10¼" x 11⅜" x 8⅛".

This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 4th day of April 1946.

Issued this 4th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

[Kansas City Order G–1 Under Gen. Order 68]

CERTAIN BUILDING MATERIALS IN CLAY AND JACKSON COUNTIES, MO., AND JOHNSON AND WYANDOTTE COUNTIES, KANS.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to the provisions of General Order No. 68, it is hereby ordered:

SECTION I. *What this order does.* This order establishes maximum prices for all retail sales of certain building materials specifically described in Appendix A of this order when such sales are made in the geographical area comprising Clay and Jackson Counties, Missouri and Johnson and Wyandotte Counties, Kansas.

SEC. II. *Definitions.* (1) The term retail sale as used in this order means any sale of the building materials covered by this order to an ultimate user or to a contractor who will resell the same on an installed basis.

(2) *Free delivery zone.* The term free delivery zone as used in this order includes all points within a radius of 10 miles from the place from which delivery is made and all points within the following described boundary line:

Beginning at the North end of the Fairfax Bridge across the Missouri River, thence north and east along U. S. Highway 69 to Claycomo, then south along an unnumbered road to the Missouri River, thence straight south across the Missouri River and along the south bank thereof to and including Cement City, thence southwest along County Road 7E to Sugar Creek Road (4N), thence east along Sugar Creek Road (4N) to a common junction thereof with U. S. Highway 24 and an unnumbered highway, thence southeast over such unnumbered highway to its junctions with Jones Road and south thereon and on Necessary Road to Holke Road; thence west thereon to Kiger Road; thence south thereon to Evans & Sheley Lane; thence west thereon to Noland Road (U. S. Highway 71 By-Pass); thence south thereon to junction with U. S. Highway 40; thence west along U. S. Highway 40 and Alternate U. S. Highway 40 to Norfleet Road; thence south thereon to Smith Road (or an unnumbered highway representing an extension thereof); thence generally west thereon to Woodson Road; thence south on Woodson Road to junction with County Road (8E); thence west to Raytown South Road; thence south on Raytown South Road (5E) to Bannister Road; thence west on Bannister Road to Blue Ridge Boulevard Extension (County Road 4E); thence south on Blue Ridge Boulevard Extension to junction with Red Bridge Road, east of Hickman Mills; thence west through Hickman Mills on Red Bridge Road (County Road 10S) to Missouri-Kansas State line; thence north on Missouri-Kansas State Line to 93d Street; thence west on 93d Street to Mission Road; thence north on Mission Road to 83d Street; thence west on 83d Street through and including Overland Park to State Highway 58 and southwest thereon to the Mission Township line; thence north on Mission Township line to U. S. Highway 50; thence west on U. S. Highway 50 and State Highway 10 to Cemetery Road; thence north on Cemetery Road to Fisher Lane; thence east thereon to O'Hara Road; thence north to Hester Road; thence west thereon to Holliday Road; thence southwest along Holliday Road to a point directly south of Morris; thence north through Morris to Muncie; thence northeast from Muncie on State Highway 32 to its junction with Francis Road; thence generally north along Francis Road to its junction with U. S. Highway 40; thence east on U. S. Highway 40 to its junction with Brenner Heights Road; thence generally north on Brenner Heights Road to Parallel Avenue; thence west thereon to Mahan Road and north thereon to its junction with Dickenson Road; thence east on Dickenson Road to Nearman; thence north to the Missouri River and thence east and south along the south bank of the Missouri River to Fairfax Bridge; thence across the bridge to point of beginning (including all points and places within the limits of all points described as on said boundary). The boundary line so described shall be construed as following the center of the public highways named. The above described area is generally known and referred to as Greater Kansas City.

SEC. III. *Maximum prices.* Maximum prices for commodities subject to this order are those set forth in Appendix A, which is specifically made a part of this order, subject to the terms and conditions of sale and other limitations set forth therein.

SEC. IV. *The relation of this order to other regulations.* The maximum prices fixed by this order supersede any maximum prices or price determining method previously established by any other regulation or order issued by the Office of Price Administration for the commodities covered by this order.

SEC. V. Each seller making sales subject to this order shall post a copy of Appendix A of this order plainly visible to all purchasers in each of his places of business located in the area covered by this order.

SEC. VI. *Invoices and notification.* Each seller making sales subject to this order shall, if requested by any purchaser of commodities subject hereto, make available to such purchaser for inspection a copy of this order. Each seller covered by this order is required to furnish each purchaser with an invoice at the time of sale, which must contain the following information:

1. Name and address of the purchaser.
2. A description of each commodity sold.
3. The quantity of each commodity sold.
4. The price charged for each commodity sold.
5. The type of sale, whether f. o. b. railroad car, f. o. b. seller's yard or store, delivered to job site in free delivery area, or delivered outside free delivery area.
6. If delivery is made outside the seller's free delivery zone, the amount of any delivery charges made stated separately on the invoice.
7. A statement of cash discounts allowed for prompt payment.
8. A separate statement of any amount added for the extension of credit.

Each seller is required to keep a duplicate of such invoice in his place of business, and make it available for inspection by the Office of Price Administration during regular business hours.

SEC. VII. *Addition of increase in supplier's prices prohibited.* The maximum prices set out by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the District Director.

SEC. VIII. *What this order prohibits.* Regardless of any obligation no person shall:

(1) Sell, or in the course of trade or business buy, building materials at higher prices than the maximum prices set by this order; but less than the maximum prices may at any time be charged, paid or offered.

(2) Obtain higher than maximum prices by;

(i) Making a charge for delivery of building material items delivered within the free delivery zone hereinafter defined;

(ii) Making a charge for delivery outside the free delivery zone in excess of that permitted by this order;

(iii) Making a charge higher than this order authorizes for the extension of credit;

(iv) Failure to give the discounts required by this order for prompt payment;

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the building materials requested by him; or

(vi) Using any other device by which a higher than maximum price is obtained directly or indirectly.

SEC. IX. *Enforcement.* (1) Persons violating any provisions of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Kansas City District Office of the Office of Price Administration.

SEC. X. *Building materials not covered by this order.* There are building materials sold and delivered in the area covered by this order which are not included in, and for which prices are not established in this order. The maximum prices for such building materals, when sold by any person covered by this order, shall continue to be determined under the applicable Maximum Price Regulation. Sellers who are in doubt as to the regulation applicable to such building materials should consult the Kansas City District Office of the Office of Price Administration.

This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective February 11, 1946.

[1] Add 1¢ for copper-bearing metal lath or 3¢ for galvanized metal lath. Add an additional 1¢ to the price of each of these specifications when the item sold is furring metal lath.

1. *Terms of sale.* Maximum prices hereinabove established are subject to the following cash discount:

(a) For sellers who were in business during March 1942, the same cash discount they had in effect during March 1942 for each quantity and type of sale made.

(b) For sellers who were not in business during March 1942, the cash discount which their most competitive seller who was in business during March 1942 is required to make under the provisions of this order.

2. *Additions for the extension of credit.* The following additions for the maximum prices hereinabove established may be made for the extension of credit beyond 30 days.

(a) Sellers who were in business during March 1942 are permitted to add to prices established hereinabove for the extension of credit beyond a period of 30 days the same additions that they had in effect during March 1942 for the same type and quantity of sale. If no extra charges were made for the extension of credit during March 1942, none may be added.

(b) Sellers who were not in business during March 1942 are permitted to make the same charge for the extension of credit which their most closely competitive seller is permitted to make under the provisions of this order.

3. The following delivery charges may be made when delivery is made outside the free delivery zone hereinabove described of all commodities subject to this order.

(a) For sellers who were in business during March 1942, the same delivery charge they had in effect during March 1942 for each type and quantity of sale made.

(b) For sellers who were not in business during March 1942, the delivery charge which their most competitive seller, who was in business during March 1942, may make under the provisions of this order.

4. *The Missouri and Kansas State sales tax.* Sellers may add to the prices listed in this Appendix A the sales taxes required to be collected by the laws of the States of Missouri or Kansas. These taxes shall be separately stated in the dealer's invoice, sales slip or receipt.

[Raleigh Order G-1 Under Gen. Order 68]

HARD BUILDING MATERIALS IN RALEIGH, N. C., DISTRICT

For the reasons set forth in the accompanying opinion and under the authority vested in the District Director of the Raleigh, North Carolina District Office, Region IV, of the Office of Price Administration by General Order No. 68 issued by the Administrator of the Office of Price Administration in Region IV, Delegation Order No. 93 issued November 5, 1945, it is hereby ordered:

SECTION 1. *What this order covers.* This order covers all "retail sales" made by any seller, of the commodities specified in Table I delivered by any seller whose place of business is located in the "Raleigh District Trade Area."

The "Raleigh District Trade Area" for the purpose of this order consists of the following area: That area located in the counties of Alamance, Beaufort, Bertie, Bladen, Brunswick, Camden, Carteret, Caswell, Chatham, Chowan, Columbus, Craven, Cumberland, Currituck, Dare, Duplin, Durham, Edgecombe, Franklin, Gates, Granville, Greene, Halifax, Harnett, Hertford, Hoke, Hyde, Johnston, Jones, Lee, Lenoir, Martin, Moore, Nash, New Hanover, Northampton, Onslow, Orange, Pamlico, Pasquotank, Pender, Perquimans, Person, Pitt, Robeson, Sampson, Scotland, Tyrrell, Vance, Wake, Warren, Washington, Wayne and Wilson, North Carolina (except the Townships of Atlantic, Nags Head, Kenneket and Hatteras in Dare County and the Township of Ocracoke in Hyde County).

SEC. 2. *Definition of retail sales.* For the purpose of this order, a retail sale means a sale to an ultimate consumer or to any person for resale on an installed basis within the meaning of section 1 (b) of Revised Maximum Price Regulation No. 251.

SEC. 3. *Description of items covered by this order.* This order covers the list of "hard building materials" set forth in the annexed Table I. Other related items may be added from time to time by amendment without reference being made to this section.

SEC. 4 *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order, except to the extent they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation shall apply to sales covered by this order.

SEC. 5. *Maximum prices.* The maximum prices for hard building materials covered by this order are set forth in Table I which is annexed to and made a part of this order. Such maximum prices are subject to provisions of section 6 of this order.

SEC. 6. *Discounts, allowances and delivery practices.* Each seller subject to this order must maintain his customary terms, discounts and allowances in sales to each class of purchaser which he had in effect during March, 1942.

SEC. 7. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of Table I, as amended from time to time, which lists the maximum prices fixed by this order in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers.

SEC. 8. *Sales slip and records.* Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer, such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller, the description of each item sold and the price received for it. If he customarily prepared his sales slips in more than one copy, he must keep for at least six months after delivery a duplicate copy of each sales slip delivered by him pursuant to this section.

For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of the buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

SEC. 9. *Enforcement provisions.* On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No person subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 10. *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, a copy of which will be furnished upon request.

SEC. 11. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This Order No. G-1 shall become effective February 11, 1946.

Issued this 6th day of February 1946.

THEODORE S. JOHNSON,
District Director.

[Region IV Order G-2 Under RMPR 251]

PLUMBING SERVICES AND INSTALLED PLUMBING AND HEATING FIXTURES AND MATERIALS IN ATLANTA REGION

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator for Region IV by section 9 of Revised Maximum Price Regulation 251, it is hereby ordered:

1. *What this order does.* This basic order puts into one document the provisions which will be common to all future orders establishing flat (dollars-and-cents) maximum prices for plumbing services and installed plumbing and heating fixtures and materials to be issued by the Atlanta Regional Office and/or by the District Office in Region IV, pursuant to the authority contained in section 9 of Revised Maximum Price Regulation 251. The orders to be issued under this basic order are referred to herein as "adopting orders" and when issued will expressly adopt the provisions of this basic order. The provisions of Revised Maximum Price Regulation 251 cover all sales of plumbing services and installed plumbing and heating fixtures and materials in all areas not

covered by these orders, unless and until adopting orders are issued under this order. When such adopting orders are issued, they will supersede the provisions of sections 6 and 7 of Revised Maximum Price Regulation 251 with respect to plumbing services and installed plumbing and heating fixtures and materials.

2. *Transactions covered by this order.* This order covers all sales of plumbing services and installed plumbing and heating fixtures and materials.

3. *Relationship of this order to all adopting orders to Revised Maximum Price Regulation 251.* The provisions of this order, when and if adopting orders are issued, supersede sections 6 and 7 of Revised Maximum Price Regulation 251 with respect to sales of plumbing services and installed plumbing and heating fixtures and materials in the areas affected by such adopting orders. All other provisions of Revised Maximum price Regulation 251 are applicable to transactions subject to this order unless otherwise provided in this order. On and after the effective date of any adopting order issued under this basic order, regardless of any contract or other obligation, no person shall sell or offer to sell plumbing services and installed plumbing and heating fixtures and materials in the area covered by such adopting order at prices higher than those established by such adopting order.

4. *Definitions.* (a) The term "plumbing services" in this order includes plumbing and allied services performed by any person selling plumbing services and installed plumbing and heating fixtures and materials, including installation and repair services and sale of fixtures and materials installed at job site.

(b) "Fixtures" include such plumbing facilities as bath tubs, lavatories, commodes, hot water tanks, heaters and all other plumbing and heating appliances except those defined as materials.

(c) "Plumbing materials" include all items of materials necessary for the installation, maintenance or repair of plumbing fixtures and other plumbing facilities, including but not limited to pipe, pipe fittings, valves, hangers, lead and items generally known to the trade as plumbing specialities.

(d) "Maximum hourly labor charge" means the amount charged for labor of a specified type or class of plumbing services, made either at a flat rate per hour so as to include a margin for administrative and overhead costs and profit, or as a percentage of seller's labor costs, which resulting maximum labor charge is also deemed to include a margin for administrative and overhead costs and profit, together with overtime applicable in either case.

(e) "Legal wage rates" means the wage rates in effect on October 3, 1942 or the wage rates which have been approved by a Federal wage or stabilization agency, but not more than the wage rate actually paid by the seller.

(f) "Master plumber" means any person who, as owner or supervisor, renders plumbing services and is licensed as such by the appropriate government agency.

(g) "Journeyman plumber" means any person who renders plumbing services and is licensed as such by the appropriate government agency.

(h) "Apprentice plumber" means any person who renders plumbing services and is in the process of becoming a journeyman plumber.

(i) "Helpers" or "laborers" means any person other than a master plumber, journeyman plumber or apprentice plumber who renders plumbing services.

5. *Special pricing practices to be used in computing maximum prices.* — (a) *Measurement of hours.* The time charged against any job shall be counted from the time the workman leaves the shop, completes the job and returns or proceeds to the next job. Time in transit to and from the job can be charged only once per day. The hours for which charges are made shall not exceed those shown in the seller's payroll record.

(b) *Overtime.* When work is performed at the purchaser's request between 5:00 p. m. and 8:00 a. m. of any day from Monday through Friday or at any time on Saturdays, Sundays or legal holidays, the maximum labor charge per hour may not be in excess of 150 percent of the straight time rate authorized in the adopting order for the particular area covered by said adopting order.

(c) *Minimum service charge.* The highest minimum service charge that may be made for any job is established as the hourly service charge for one hour's work as calculated under the adopting order for the particular area covered by said adopting order.

(d) *Self-employed plumber.* A self-employed licensed Journeyman or Master Plumber, who performs plumbing services himself, may take as his maximum service charges those applicable to a journeyman or master plumber, respectively, of his nearest competitive establishment.

(e) *Maximum labor charges for combination work.* The labor charges for any combination of workers other than those set forth in the adopting order for the particular area covered by said adopting order shall not exceed the sum of the service charges as computed for the individual workers comprising the team.

6. *Guaranteed prices.* A seller may offer to supply plumbing services covered by the adopting order for the particular area on the basis of a contract or guaranteed price: *Provided, however,* That such guaranteed price shall not be higher than the maximum price figured in accordance with the pricing method and requirements covered by the adopting order for the particular area.

7. *Records.* Every person making sales subject to the adopting order for the particular area must keep a record showing the time spent by his employees on any job involving plumbing services and the wage rate paid to each such employee. Such person must keep invoices showing amounts paid for materials, fixtures, specialties and for sub-contracted work. Such records shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

8. *Sales slips and receipts.* Every person subject to the adopting order for the particular area shall furnish to each purchaser of plumbing services a sales slip or invoice showing separately the amount charged for labor, materials, fixtures, specialties and for any sub-contracted work, and such sales slip must contain a statement that the prices charged do not exceed maximum prices established by the adopting order for the particular area. Duplicates of such invoices or sales slips shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

9. *Evasion.* Any practice or device which results in a higher price to the purchaser of plumbing services and installed plumbing and heating fixtures and materials than is permitted by the applicable adopting order under this order is a violation of this order and the provisions of section 11 of Revised Maximum Price Regulation 251, as amended, remain in full force and effect.

10. *Revocation or amendment.* This order may be revised, amended, revoked or modified at any time by the Office of Price Administration.

This order shall become effective in each area when adopted by an order covering that area, except that it shall not apply to such sales under Revised Maximum Price Regulation 251 made pursuant to contracts entered into prior to the effective date of such adopting order.

Issued: March 22, 1946.

JOHN D. MOSBY,
Acting Regional Administrator.

[Region V Order G-29 Under RMPR 251]

INSTALLED MINERAL WOOL INSULATION IN TEXARKANA, TEX., AND TEXARKANA, ARK.

For the reasons set forth in the opinion issued simultaneously herewith and pursuant to the authority vested in the Regional Administrator of Region V of the Office of Price Administration by section 9 of Revised Maximum Price Regulation No. 251, it is ordered:

(a) *Transactions covered by this order.* This order covers sales of mineral wool insulation on an installed basis in existing structures. All items of incidental construction work as defined below remain covered by Revised Maximum Price Regulation 251.

"Mineral wool" means rock wool, slag wool and glass wool blown from molten materials and used to retain or exclude heat.

"Existing structures" means completed structures whether occupied or unoccupied, and includes ordinary changes, improvements, remodeling and additions.

"On an installed basis" means a transaction in which the seller furnishes mineral wool insulation, together with the labor, services and material required to incorporate such insulation into an existing structure. Installation may be performed by the pneumatic or blowing method, by the hand-packing method, or by the use of batts and blankets.

"Incidental construction work" means work performed or services rendered with respect to a building or structure apart from the installation of mineral wool insulation. It also includes those materials and operations the cost of which are expressly described as not included in the prices of certain items listed in Table I of section (d) of this order.

(b) *Relationship of this order to Revised Maximum Price Regulation No. 251.* The provisions of this order supersede sections 6, 7, and 8 of Revised MPR 251, except as otherwise provided in this order, with respect to sales of mineral wool insulation on an installed basis and incidental construction work. Except as otherwise provided herein, all transactions subject to this order shall remain subject to all provisions of Revised MPR 251, together with all amendments that have been or hereafter may be issued.

On and after the effective date of this order, regardless of any contract or other obligation, no person shall sell, offer to sell, or deliver mineral wool insulation on an installed basis or incidental construction work as herein defined, at prices higher than the maximum prices established by this order.

(c) *Geographical applicability.* This order shall apply to all sales of installed mineral wool in structures located in Texarkana, Texas, and Texarkana, Arkansas.

(d) *Maximum prices.* The maximum prices for sales of mineral wool insulation on an installed basis shall be those shown in Table I of this section. Prices apply to all types and thicknesses of blown mineral wool and to all types and thicknesses of hand packed loose mineral wool and to batts and blankets. The prices listed in Table I are based upon an insulation thickness of 4 inches. For each inch or fraction of inch of insulation over 4 inches, when ordered by the buyer, the seller may make an additional charge of 25 percent of the 4 inch price per inch per square foot. For each inch of thickness under 4 inches, the seller shall deduct 20 percent of the 4 inch price. A ⅜ inch tolerance may be allowed without charge in maximum price.

The drawings referred to in Table I are on file with the Division of the Federal Register, and are hereby made a part of this order. For the convenience of seller and buyers, and in the interest of simplification and clarity of description copies of these drawings are attached to this order and distributed by the Office of Price Administration.

Where a machine or a crew of two or more workers is used on mineral wool insulation jobs and the total charge as determined in accordance with the maximum prices listed in Table I is $40 or less, the seller may add $10.00 to such charge.

Openings and closings

A separate additional charge may be made for openings and closings only in those cases where opening and closing are not specifically included in the price applicable to the category. The charge includes payment for all labor and material including that used for replacement of material where necessary. This charge applies only to work performed by the installer in connection with installation of mineral wool insulation.

The above prices shall be cash prices. If the seller customarily made an extra charge for credit during his base period, he may now make this charge so long as his charge is no higher than his base period charge.

(e) *Measurements.* It shall be the seller's responsibility to ascertain that all measurements are accurate. Measurements for exterior walls are to be taken over all, with no deduction for openings, except for sun porch walls, store fronts or similar areas where windows and door areas must be deducted.

Reference APR 12 '46

In the case of elevator wells, ventilators, skylights, monitors and pent houses on flat roofs the entire such area must be deducted where they are more than 16 square feet in area and extend through the flat ceiling area to be insulated. For attic floors outside gross dimensions may be taken. In measuring the heights of knee walls, to the height between floors, joists and rafters add one foot for floor seal piling of granulated insulation. For slopes add six inches to length of clear span for capping intersecting surfaces. For flat ceilings which intersect slopes add one foot to length of span taken at right angles to intersecting slopes. For stairwell walls measurement may be taken as a rectangle from floor to ceiling and not as triangles.

In determining the total of the square foot area for each category of insulation installed a tolerance of 5 percent will be recognized.

(f) *Maximum prices for special insulation and related work and incidental construction.* The maximum prices that may be charged by sellers for special insulation and related work and incidental construction work for which no separate dollar and cents price has been set out in Table I of this order shall be the maximum prices established in accordance with Revised MPR 251.

(g) *Quoting a "guaranteed price".* The seller may offer to sell an insulation job covered by this order on the basis of a "guaranteed price" wherein the seller agrees to charge a fixed amount: *Provided, however,* That the so-called "guaranteed price" must not be higher than the maximum price figured in accordance with the pricing methods and requirements of this order. The seller shall stamp or otherwise mark conspicuously on each invoice or statement a statement in substantially the following form: "Prices are at or below ceiling prices set by OPA Regional Order G–29 under RMPR 251."

(h) *Records, invoicing and notification requirements*—(1) *Record keeping requirements.* Every seller of mineral wool insulation sold on an installed basis, whether the sale is made as a part of a general contract calling for installation of other commodities or not, shall preserve records showing the following information:

(i) The date on which the installation was completed.

(ii) The name and address of the seller and buyer.

(iii) The number of square feet and type of insulation installed, the thickness of insulation material, and the areas in which such insulation material was installed.

(iv) The price charged for each separate category exactly as stated in Table I, including category number and drawing number.

(v) The terms of sale.

(vi) A statement of any special insulation and related work and incidental construction work.

(2) *Invoicing requirements.* Any seller subject to this order, upon request of a purchaser, must furnish an invoice which contains all of the information set out in paragraphs (i) through (vi) of section (h) (1) of this order.

(3) *Notification requirements.* Every person making sales subject to this order shall notify the purchaser of the existence of this order, and, if requested, show the purchaser a copy of this order as well as a copy of Revised Maximum Price Regulation No. 251.

(i) *Revocation.* This order may be revised, amended, or revoked at any time by the Office of Price Administration.

This order No. G–29 shall become effective March 27th, 1946.

NOTICE OF DETERMINATION

Pursuant to the provisions of the invitation for sealed bids, dated January 15, 1946, for the construction of three 650 foot twin screw turbine driven passenger and cargo vessels (Proposal PDW–6).

Notice is hereby given that, pursuant to the provisions of paragraph 14 of Invitation (Proposal PDW–6), dated January 15, 1946, for the construction of three 650 foot twin screw turbine driven passenger and cargo vessels, "Design P3–S2–DL1," and addenda thereto numbered 1 through 4, dated respectively February 28, March 12, March 19, and April 3, 1946, and on request made by each of the companies hereinafter named for a determination of the proportionate part of the 3½ per cent differential to be used in evaluating bids made by such companies under said Invitation, each of said companies having submitted data with respect to the use of facilities which are partly Government owned and partly privately owned, the Commission has determined:

(1) That with respect to any bid submitted by New York Shipbuilding Corporation, no portion of the 3½ per cent differential will be applied in such evaluation;

(2) That with respect to any bid submitted by Federal Shipbuilding and Dry Dock Company, a differential of ⅛ of 3½ per cent, to wit, 0.3889 per cent will be applied in such evaluation;

(3) That with respect to any bid submitted by Sun Shipbuilding & Dry Dock Co., no portion of the 3½ per cent differential will be applied in such evaluation; and

(4) That with respect to any bid submitted by Bethlehem Steel Company (Quincy Yard), a differential of ⅛ of 3½ percent, to wit, 0.4375 percent will be applied in such valuation.

No other prospective bidders have requested from the Commission the determination referred to in paragraph 14 of the Invitation.

By order of the United States Maritime Commission.

Dated: April 8, 1946.

NOTICE OF DETERMINATION

Pursuant to the provision of the invitation for sealed bids, dated December 29, 1945, for the construction of two 670 foot twin screw turbine driven passenger vessels (Proposal PDW–5).

Notice is hereby given that, pursuant to the provisions of paragraph 14 of Invitation (Proposal PDW–5), dated December 29, 1945, for the construction of two 670 foot twin screw turbine driven passenger vessels, "Design P3–S2–DA1," and Addendum No. 1 thereto dated March 12, 1946, and on request made by each of the companies hereinafter named for a determination of the proportionate part of the 3½ per cent differential to be used in evaluating bids made by such companies under said Invitation, each of said companies having submitted data with respect to the use of facilities which are partly Government owned and partly privately owned, the Commission has determined:

(1) That with respect to any bid submitted by New York Shipbuilding Corporation, no portion of the 3½ per cent differential will be applied in such evaluation;

(2) That with respect to any bid submitted by Federal Shipbuilding and Dry Dock Company, a differential of ⅛ of 3½ per cent, to wit, 0.3889 per cent will be applied in such evaluation; and

(3) That with respect to any bid submitted by Bethlehem Steel Company (Quincy Yard), a differential of ⅛ of 3½ per cent, to wit, .4375 per cent will be applied in such valuation.

No other prospective bidders have requested from the Commission the determination referred to in paragraph 14 of the Invitation.

PART 1415—IMPORTED FOODS

GREEN COFFEE

The fulfillment of requirements for the defense of the United States will result in a shortage of the supply of green coffee for defense and for private account, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1415.8 *Restrictions with respect to coffee*—(a) *Definitions.* When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof:

(1) "Person" means any individual, partnership, corporation, or any organized group of persons, whether incorporated or not.

(2) "Assistant Administrator" means the Assistant Administrator for Regulatory and Marketing Service matters, Production and Marketing Administration, United States Department of Agriculture.

(3) "Green coffee" means any coffee which has not been fully roasted and is not in a state or condition for accepted methods of brewing as generally recognized by the trade. This term includes, but is not limited to, raw, unroasted coffee in original import shipping containers.

(4) "Roaster" means any person who, for commercial purposes, roasts green coffee owned by him or who has such coffee roasted for his account by some other person.

(5) "Handle" means to import, buy, sell, or otherwise deal in green coffee for commercial purposes.

(6) "Civilian deliveries" means the total quantity of green coffee which a person, other than a roaster, who handles green coffee delivered, during a specified period, to or for the account of a person or persons other than a department or agency of any government or governments, including, but not limited to, (i) the Armed Services of the United States and (ii) the United Nations Relief and Rehabilitation Administration.

(7) "Civilian roastings" means the total quantity of green coffee which a roaster roasted, during a specified period, for his own account or had roasted by some other person or persons for such roaster's account and which was thereafter delivered to or for the account of a person or persons other than a department or agency of any government or governments, including, but not limited to, (i) the Armed Services of the United States and (ii) the United Nations Relief and Rehabilitation Administration.

(b) *Restrictions of inventories.* (1) No person, other than a roaster, who handles green coffee shall acquire, by purchase or otherwise, or accept delivery of a quantity of coffee which will cause the quantity of green coffee which he has on hand, at the end of any calendar month, to exceed a quantity of green coffee equivalent to one-twelfth of his total civilian deliveries during the calendar year 1945.

(2) No roaster shall acquire, by purchase or otherwise, or accept delivery of a quantity of green coffee which will cause the quantity of green coffee which he has on hand, at the end of any calendar month, to exceed a quantity of green coffee equivalent to seven twenty-fourths of his total civilian roastings during the calendar year 1945.

(c) *Equitable distribution.* Every person, including roasters, who handles green coffee shall make an equitable distribution of such coffee among his respective purchasers. In the event the Assistant Administrator finds that the distribution of green coffee made by any person, including roasters, who handles green coffee is not equitable in any particular instance, the Assistant Administrator may prohibit such person from making any further distribution of green coffee except such as may be specified by the Administrator as being equitable. Any failure on the part of any person, including roasters, who handles green coffee to observe such direction by the Assistant Administrator shall be a violation of this order.

(d) *Dual capacities.* In the case of any roaster who also handles coffee in some capacity or capacities other than as a roaster, the provisions of this order shall apply separately to his separate capacities.

(e) *Exemptions.* The provisions of this order shall not apply to the handling of green coffee by any department or agency of any government or governments, including, but not limited to, (1) the Armed Services of the United States and (2) the United Nations Relief and Rehabilitation Administration, nor shall the provisions of this order apply to any person, including roasters, who does not have, at any one time, an inventory of more than 1,000 pounds of green coffee and who handles not more than 500 pounds of green coffee during any one month.

(f) *Contracts.* The restrictions of this order shall be observed without regard to the rights of creditors, existing contracts or payments made thereunder, or to deliveries of green coffee made prior to the effective date hereof.

(g) *Records and reports.* (1) Within ten days after the effective date of this order, (i) every person, other than a roaster, who handles green coffee shall submit a statement showing his total civilian deliveries of green coffee during the calendar year 1945, and (ii) every roaster shall submit a statement showing his total civilian roastings of green coffee during the calendar year 1945.

(2) Every person who has been assigned a quota to import green coffee under the subsidy program pursuant to Directive 87 of the Office of Economic Stabilization shall submit, in duplicate, Form SC–100 relating to green coffee purchases.

(3) The forms, statements and reports required in subparagraphs (1) and (2) of this paragraph (g) shall be submitted to the Order Administrator, War Food Order No. 146, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

(4) Every person who handles more than 500 pounds of green coffee in any one month shall submit Form BUS–930 to the Bureau of the Census, Washington 25, D. C., monthly.

(5) The Assistant Administrator shall be entitled to obtain such additional information from, and to require such additional reports and the keeping of such records by, any person, as may be necessary or appropriate, in the discretion of the Assistant Administrator, to the enforcement or administration of the provisions of this order, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(h) *Audits and inspections.* The Assistant Administrator shall be entitled to make such audits and inspections of the books, records and other writings, premises, and stocks and inventories of persons, including roasters, who handle green coffee, and to make such investigations, as may, in the discretion of the Assistant Administrator, be deemed necessary or appropriate to the administration and enforcement of the provisions of this order.

(i) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would impose an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Such petition shall be addressed to Order Administrator, War Food Order No. 146, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

Petitions for such relief shall be in writing and shall set forth all pertinent facts relating to the request and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Assistant Administrator. If the petitioner is dissatisfied with the action taken by the Order Administrator on the petition, the petitioner may obtain, by requesting the Order Administrator therefor, a review by the Assistant Administrator of such action. The Assistant Administrator may, after such review, take such action as he deems appropriate, and such action shall be final. The provisions of this paragraph (i) shall not be construed to deprive the Assistant Administrator of authority to consider originally any petition for relief from hardship submitted in accordance herewith. The Assistant Administrator may consider any such petition and may take such action with reference thereto that he deems appropriate, and such action shall be final.

(j) *Violations.* Any person who violates any provision of this order may, in accordance with applicable procedure, be prohibited from receiving, making any deliveries of, or handling or using green coffee. In addition, any person who willfully violates any provision of this order is guilty of a crime and may be prosecuted therefor under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(k) *Delegation of authority.* The administration of this order and the powers vested in the Secretary of Agriculture of the United States, insofar as such powers relate to the administration of this order, are hereby delegated to the Assistant Administrator who is hereby authorized to redelegate to any employee or employees of the United States Department of Agriculture any or all of the authority vested in the Assistant Administrator by this order. One such employee shall be designated by the Assistant Administrator to serve as Order Administrator, another such employee shall be designated by the Assistant Administrator to serve as Alternate Order Administrator, and such other employees as may be necessary shall be designated by the Assistant Administrator to serve as Deputy Order Administrators.

(l) *Effective date.* This order shall become effective at 12:01 a. m., e. s. t., April 1, 1946.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(E.O. 9280, 7 F.R. 10179; E.O. 9577, 10 F.R. 8087)

Issued this 5th day of April 1946.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

TITLE 24—HOUSING CREDIT

Chapter I—Federal Home Loan Bank Administration

[Bulletin 57]

PART 2—ORGANIZATION OF THE BANKS

SPECIAL ELECTION OF DIRECTORS FOR FEDERAL HOME LOAN BANK OF SAN FRANCISCO

The following rules and regulations are hereby adopted and prescribed:

(1) Eight directors of the Federal Home Loan Bank of San Francisco will be elected in accordance with the following provisions.

(2) Two of such directors shall be known as Class A directors, two as Class B and two as Class C. One director from each Class is to be elected for a term beginning August 1, 1946, and ending as of the close of December 31, 1946, and one director from each Class is to be elected for a term beginning August 1, 1946, and ending as of the close of December 31, 1947. Each of these Class directors shall be a citizen of the United States, a bona fide resident of the district in which the Bank is located; shall be an officer or director of a member of the Bank in the group electing him and shall be deemed to be from the State in which such member is located.

(3) Two of the eight directors to be elected shall be elected by the membership-at-large without regard to classes and shall be known as directors-at-large. One of these directors is to be elected for a term beginning August 1, 1946, and ending as of the close of December 31, 1946, and another for a term beginning August 1, 1946, and ending as of the close of December 31, 1947. Each of these directors shall be a citizen of the United States and a bona fide resident of the Bank district. Each of these directors who is an officer or director of a member of the Bank shall be deemed to be from the State in which such member is located. Each of these directors who is not an officer or director of a member of the Bank, shall be deemed to be from the State in which he has established a bona fide residence.

(4) The election of directors shall be conducted by mail under the supervision of the Administration. No nominations shall be accepted from members which were admitted to membership within the ten days prior to April 15, 1946, and no votes for the election of candidates shall be accepted from members which have been admitted to membership within the ten days prior to May 31, 1946.

(5) The Administration will divide the member institutions into groups A, B, and C on the basis of the size of the members as determined from the aggregate unpaid principal of each member's home mortgage loans appearing on the most recent financial statement of members in the possession of the Administration on March 29, 1946. The Administration will then notify each member by information mailed on or before April 15, 1946, of its right to nominate and of its classification and will furnish each member with a list of the members in its class. At the same time each member will be furnished with the necessary nominating ballots.

(6) Upon receipt of the nominating ballots each member, by resolution of its governing body, may nominate, or authorize one of its directors and one of its officers to nominate, a suitably qualified person for each directorship to be filled in its class and each directorship to be filled from the membership-at-large. The ballots shall then be duly executed and mailed to the Secretary to the Federal Home Loan Bank Administration, so as to arrive in Washington not later than 5:00 P. M., Eastern Standard Time, May 15, 1946.

(7) Not later than May 17, 1946, a letter will be mailed to each nominee under registered mail or registered air mail addressed to his address, as shown by the Administration's records, informing him of his nomination. With such letter each nominee will be forwarded a questionnaire which will contain, among other things, a request for a brief biography and questions to ascertain whether the nominee is eligible for the directorship and whether he is willing to serve if elected. Such questionnaire must be completely filled in and returned so as to be received by the Administration not later than 5:00 P. M., Eastern Standard Time, May 27, 1946, in order for the nominee to have his name placed on an election ballot.

In the event any person is nominated for two directorships, he will be so informed by the Administration in the letter referred to in the immediately preceding paragraph hereof and given an opportunity to state which of said directorships he prefers; or in the event any person is nominated for more than two directorships, he will be so informed by said letter and given the opportunity to express his order of preference for the directorships for which he has been nominated. In each such case the nominee will be informed by said letter that it is necessary that the Administration receive from him, not later than 5:00 p. m., Eastern Standard Time, May 27, 1946, an expression of preference in order to have his name placed on an election ballot. In each such case where the Administration has received from a nominee an expression of preference within the time referred to and the other information as required herein, the Administration will, in accordance with the preference expressed, designate the directorship for which the nominee shall be a candidate; however, if it appears to the Administration that such action would impair, or result in such nominee having no chance of being elected on account of the representation per State as set forth in paragraph (9) hereof, the Administration will designate such person as a candidate only for the directorship which appears to the Administration to be the most suitable, if it also appears to the Administration such person has a chance of being elected to such directorship. If it appears to the Administration that a candidate has no chance of being elected to a directorship or to any of the directorships for which he has been nominated, on account of the representation per State as set forth in paragraph (9) hereof, the name of such candidate will not be placed on an election ballot if he has made a request that his name not be so placed in such event.

On or before May 31, 1946, the Administration will mail to each member election ballots which will contain in alphabetical order the name of each nominee for each directorship to be filled in its class and from the membership-at-large who has complied with the provisions of these Rules and Regulations. Each ballot for a class directorship will also contain opposite the name of each nominee the name and address of the member institution of which he is an officer or director, and his title, and each ballot for a directorship-at-large will also contain opposite the name of each nominee the city and State of which he is a resident and the name and address of the institution with which he is affiliated and his title or, if not affiliated with an institution, his present or former occupation. In the event a candidate for a directorship-at-large is affiliated with an institution which is not a member of the Bank such fact will be recorded on the ballot. The election ballots forwarded to each member shall be accompanied by a brief biography of each candidate listed on said ballots.

(8) Each member, by resolution of its governing body, may cast its vote or authorize one of its directors and one of its officers to cast its vote for each directorship to be filled in its class and for each directorship-at-large to be filled by votes from the membership-at-large. Each ballot cast must show clearly the member's first, second and third choices of candidates, where the number of candidates is more than three, otherwise the ballot will be void. If there are three candidates for a directorship the member's first and second choices must be clearly shown on the ballot therefor, otherwise the ballot will be void. If there are only two candidates for a directorship the member's choice must be clearly shown on the ballot therefor, otherwise the ballot will be void. In making choices of candidates listed on a ballot no member shall vote more than once for any one candidate. The ballots shall be properly marked and the certification properly executed, and both mailed to the Secretary to the Federal Home Loan Bank Administration so as to arrive in Washington not later than 5:00 P. M., Eastern Standard Time, June 30, 1946.

(9) In determining the results of balloting by the members, the Administration will see that each State is represented on the new board of directors by at least one elective director, provided there has been an eligible nominee from such State who has been voted for.

(10) The Administration will determine the results of the election ballots. In case of each directorship subject to the election, any candidate having a majority of all votes cast in the column of first choice will be declared elected. If no candidate has a majority of all votes in the first column, then there will be added together for each candidate receiving a vote in the first column, his votes both in the first and second columns. The candidate then having a majority of the members voting and the highest number of combined votes will be declared elected. If no candidate has a majority of the members voting and the highest number of combined votes, when the first and second choices shall have been added, then all votes cast in the first, second and third columns for each candidate will be added together and the candidate then having the highest number of votes will be declared elected. No candidate will be declared elected by the foregoing procedure if the required minimum representation per State will be impaired thereby. If the required minimum representation per State will not be maintained on the new board of directors, the Administration will designate for each State which apparently would otherwise be inadequately represented the directorship or directorships to be filled only by a candidate from such State, provided there has been a properly qualified nominee from each of such States who has been voted for as a first choice for the directorship so designated.

In making each such designation the Administration will first ascertain the directorships for which a candidate from the State which apparently would otherwise be inadequately represented has been voted for as a first choice and which can be reserved for such State without impairing the necessary representation of any other State. From the directorships thus ascertained to be available for designation, the Administration will designate for each State which apparently would otherwise be inadequately represented the directorship for which a candidate from such State has received more first choice votes than any other candidate for such directorship. If no candidate from such State has received such a plurality and the leading candidates for all of the available directorships are, therefore, from other States, the Administration will, from the available directorships, designate the directorship for which the leading candidate has a lesser percentage of votes than any of the leading candidates for other available directorships, such percentage to be determined in accordance with the procedure set forth herein. This procedure will eliminate from further consideration all candidates from other States for such directorship reserving it for candidates from the State which apparently would otherwise be inadequately represented.

If after designating a directorship to be filled from a State which apparently would otherwise be inadequately represented, the Administration finds that only one candidate from such State has received a first choice vote or votes for such directorship, such candidate will be declared elected. Otherwise, the candidate from such State receiving the largest number of votes cast in the first column for candidates from such State shall be declared elected; however, in case of a tie the votes cast in the first and second column for each candidate from such State shall be added together and the candidate from such State then having a majority of the members voting for candidates from such State and the highest number of combined votes for candidates from such State shall be declared elected, but if no candidate from such State has a majority of the members voting for candidates from such State, and the highest number of combined votes for candidates from such State, when the first and second choices shall have been added, then the votes cast in the first, second and third columns for each candidate from such State shall be added together and the candidate then having the highest number of votes for candidates from such State shall be declared elected.

Upon determining the results of the election ballots, the Administration will declare elected the candidates who should be declared elected in accordance with the provisions of these Rules and Regulations. The Administration will thereupon spread said results upon its records and notify the directors elected of their election. The Administration will also furnish the Bank and each member thereof the results of the election, showing, with respect to each directorship subject to the election, the name of each candidate, the name and address of the institution with which he is affiliated; the number of votes he received and the candidate declared elected. Upon the request of a candidate the Administration will furnish him with the number of votes each candidate received for the directorship for which he was a candidate.

(11) In the event the voting for those whose names appear on an election ballot results in a tie after the foregoing procedure has been followed, the Administration will determine which of the leading candidates shall be declared elected. The Administration will also determine any other matters concerning the election which are not provided for in these rules and regulations.

(12) All nominating ballots sent to members shall be forwarded by regular mail or regular airmail. All election ballots shall be forwarded by registered mail or registered airmail and return receipt requested.

(13) No election ballots will be opened until after the close of the polls. No ballots will be considered except ballots executed on forms supplied by the Administration. All ballots and envelopes of certification shall be preserved by the Secretary to the Federal Home Loan Bank Administration until the end of the ensuing calendar year and shall be subject to inspection only by an officer of the Administration.

(14) To be eligible for election as a director of the Bank, a candidate may not hold an active political office for which he receives compensation.

(15) Neither an officer, attorney, employee or agent of the Administration nor the Board of Directors, Executive Committee, an officer, attorney, employee or agent of the Bank shall take any action which would tend to influence votes for any candidate for a directorship in the Bank. The Administration, after hearing, may consider a violation of the provisions of this paragraph as grounds for dismissal or may declare the directorship involved as vacant, or both.

(16) No ballots or other material shall be considered unless delivered at the offices of the Secretary to the Federal Home Loan Bank Administration, Federal Home Loan Bank Administration, Washington, D. C., at or before the time

specified. No change in any ballot will be permitted after it has been delivered to the Secretary to the Federal Home Loan Bank Administration.

(17) In the event of a vacancy in any directorship filled by the election, the Administration will fill the vacancy by an appointment for a period to expire at the end of the calendar year containing the next election date, and at said next election a director shall be elected to hold office for the unexpired portion of the term.

(18) As used in the foregoing provisions of these Rules and Regulations the term "State" means any one of the States in the eleventh Federal Home Loan Bank District except that the States of Nevada and Arizona shall be deemed to constitute one "State".

These rules and regulations are deemed to be of an emergency character.

These rules and regulations shall become effective April 9, 1946.

PART 1001—TIN

[Conservation Order M-43, as Amended Apr. 9, 1946]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of tin for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

INDEX

(a) What this order does.

Deliveries of Pig Tin

(b) Restriction on deliveries of pig tin.
(c) Allocations of pig tin.
(d) Reports on use, disposition and inventories of pig tin.

Use of Tin in Manufacture

(e) General restrictions on the use of pig tin, secondary tin, tin plate, terne plate, solder, babbitt, and other tin-bearing alloys.
(f) Quota restrictions on the use of pig tin in manufacture.
(g) Special restrictions on the use of metals to which pig tin has been added.
(h) Additional restrictions on the use of tin in making certain articles.

Implements of War

(i) Exemptions for implements of war.

Use and Sale of Articles Containing Tin

(j) General restrictions on the use and sale of tin-bearing products.
(k) Special restrictions on purchases and sales of certain articles containing tin.

Inventories

(l) Limitation on inventories.

Miscellaneous

(m) Appeals and communications.
(n) Violations.

Schedules of Permitted Uses

Schedule I—Miscellaneous.
Schedule II—Solders.
Schedule III—Babbitt.
Schedule IV—Brass and bronze.
A. Cast alloys.
B. Wrought alloys.
Schedule V—Use of tin to repair gas meters (superseded by item (b) (7) of Schedule II).
Schedule VI—Tin plate, terne plate, and terne metal.

§ 1001.1 *Conservation Order M-43*—(a) *What this order does.* This order prohibits deliveries of pig tin except under certain conditions and provides for allocation of pig tin by the Civilian Production Administration. It also restricts the use of pig tin, secondary tin, certain tin-bearing products and tinplate in manufacture. The order also prohibits sales and deliveries of jewelry and certain other articles containing tin. It also limits inventories of tin. Certain other orders of the Civilian Production Administration also restrict the manufacture and use of articles containing tin. The provisions of these other orders must also be followed.

Deliveries of Pig Tin

(b) *Restriction on deliveries of pig tin.* No person shall deliver or accept delivery of pig tin without a specific allocation in writing by the Civilian Production Administration or the War Production Board, except under the conditions set forth in paragraphs (b) (1) and (b) (2) below. "Pig tin" means metal containing 98% or more by weight of the element tin, in shapes current in the trade (including anodes, small bars and ingots) produced from ores, residues or scrap.

(1) Pig tin may be delivered without specific allocation to the Office of Metals Reserve, Reconstruction Finance Corporation, or to any other corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act as amended or to any agent of such a corporation.

(2) Pig tin may be delivered without specific allocation by a distributor in lots not larger than 2,000 pounds each to any person who does not receive from all sources more than 6,000 pounds of pig tin in the calendar month the distributor makes the delivery and who gives to the distributor at the time he places his purchase order, a certificate in substantially the form below, signed manually or as provided in Priorities Regulation 7 by an official duly authorized for that purpose:

I certify, subject to the penalties of Section 35 (A) of the United States Criminal Code, that I will use this pig tin for _____ (specify end use) in accordance with Order M-43 or will resell it only in accordance with that order. I will not receive more than 6,000 pounds of pig tin from all sources in _____ (specify month of delivery) including the amount covered by this order.

_____
(Name of purchaser)

By_____
(Duly authorized official)

If the pig tin, or any portion of it, to be delivered under this subparagraph is to be exported outside the United States, its territories or possessions, or Canada, the purchaser (exporter) should state as the end use in the certificate the words "for export" and give the number of the export license.

(c) *Allocations of pig tin.* The Civilian Production Administration will allocate the supply of pig tin, including all pig tin released by the Reconstruction Finance Corporation, and will issue specific directions as to the source, destination and amount of pig tin to be delivered or acquired. Applications for allocations of pig tin should be made to the Civilian Production Administration not later than the 20th day of the month before the month in which delivery is requested, and should be made on Form CPA-412. Except in unusual circumstances, the Civilian Production Administration will not allocate to a person for a calendar quarter an amount greater than the quantity he is permitted to melt or put in process during that quarter plus the quantity which he sold during the corresponding quarter of 1944 for small order sales under M-43. No larger quantity than this may be requested on the regular CPA-412 report, which should be marked "Regular Report." If a larger quantity than this is requested, a separate application on Form CPA-412 must be filed for the additional quantity, marked "Supplementary Application" and a statement should be attached giving a complete explanation of the reasons for the increase requested. If pig tin is requested for export outside the United States, its territories or possessions or Canada, the quantity to be exported must be separately stated on the CPA-412 report. Separate allocations for domestic and export requirements will be made. The Civilian Production Administration may specifically direct the purposes and end products for which a person may convert, process or fabricate pig tin allocated to him.

(d) *Reports on use, disposition and inventories of pig tin.* (1) On or before the 10th of each calendar month, each distributor of pig tin must report to the Civilian Production Administration on Form CPA-412 or by letter in triplicate all of his transactions in pig tin during the previous month.

(2) Any person who, on the first day of a calendar month, has in his possession or under his control 4,000 pounds or more of pig tin must report to the Civilian Production Administration on Form CPA-412 by the 20th of that month.

(3) Any person who uses 2,000 pounds or more of pig tin in any calendar month must report to the Civilian Production Administration on Form CPA-412 on or before the 20th of the following month.

(4) The reporting requirements of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Use of Tin in Manufacture

(e) *General restrictions on the use of pig tin, secondary tin, tin plate, terne plate, solder, babbitt and other tin-bearing alloys.* No person may use any pig tin, secondary tin, tin plate, terne plate, solder, babbitt, copper base alloys or other alloys containing 1.5% or more tin, or any britannia metal, pewter metal or other similar tin-bearing alloys to make or treat any item or product, or in any process, not set forth in one of the schedules attached to this order. In making or treating these items, or performing these processes, pig tin may not be used where the schedule permits secondary tin only, and the tin content of an item may not exceed the amount indicated in the schedule.

"Pig tin" means metal containing 98% or more by weight of the element tin, in shapes current in the trade (including anodes, small bars, and ingots) produced from ores, residues or scrap. "Secondary tin" means any alloy which contains less than 98% but not less than 1.5% by weight of the element tin.

(f) *Quota restrictions on the use of pig tin in manufacture.* (1) Quotas are set in the schedules for certain of the items and for certain of the processes in which pig tin may be used. If a quota is set for an item or a process in the schedule, a manufacturer or processor must not use, in the manufacture of the item or in the process during any calendar quarter, more pig tin than the specified percentage of the amount he legally used for that purpose during the corresponding quarter of the year indicated. Manufacturers or processors who did not use pig tin during the year indicated as the base year in the manufacture of an item or in a process which is subject to a quota restriction (including persons who were not in business at that time) may nevertheless apply for a quota, and their applications will be considered on an equitable basis.

(2) Any manufacturer or processor who did not use all of his pig tin quota during the first quarter 1946 for a particular item or process, may carry forward the unused balance and use it in the second quarter, 1946 for the manufacture of that item or in that process. Balances permitted to be carried over under this paragraph may be used in addition to the regular quota for that item or process permitted by the schedule for the second quarter, 1946. A manufacturer or processor who wishes to use his carry over quota during the second quarter, 1946 must report to the Civilian Production Administration not later than May 15, 1946 for each item or process; the unused balance of his first quarter quota, and the amount he wishes to carry over and use in the second quarter 1946.

(g) *Special restrictions on the use of metals to which pig tin has been added.* No person may use metal to which pig tin has been added to produce any product or perform any process for which pig tin is not permitted by one of the schedules attached to this order.

(h) *Additional restrictions on the use of tin in making certain articles.* In addition to the restrictions in paragraphs (e) through (g), no person may use tin of any kind to make the articles listed below. This prohibition applies to any part of any of these articles, and applies to the use of pig tin, secondary tin, solder, tin plate, terne plate, tin plate or terne plate scrap or waste, and any other form of tin or alloy containing 1.5% or more of tin by weight.

Implements of War

(i) *Exemptions for implements of war.* (1) The restrictions of paragraphs (e) and (g) and of the schedules do not apply to the manufacture of "Implements of war" produced for the Army or Navy of the United States, the U. S. Maritime Commission or the War Shipping Administration where the use of tin contrary to these restrictions is required either by the latest applicable specifications, on drawings, or by letter or contract of the government service or agency for which the "Implements of war" are being produced. Pig tin used in implements of war must be charged against any applicable quotas.

(2) "Implements of war" means combat end-products, complete for tactical operations (including, but not limited to aircraft, ammunition, armaments, weapons, ships, tanks, military vehicles and radio and radar equipment), and any parts, assemblies or materials to be incorporated in any of these items. This term does not include facilities or equipment used to manufacture the items described above.

Use and Sale of Articles Containing Tin

(j) *General restrictions on the use and sale of tin-bearing products.* (1) In some cases the schedules attached to this order permit the use of pig tin or secondary tin in making a product only if the product is to be used for a particular purpose. No person shall use any of these products for any purpose other than the purpose permitted by the schedule.

(2) No person giving a certificate under this order or its schedules may receive, use or dispose of the materials obtained with the certificate contrary to its terms. The standard certificate described in Priorities Regulation 7 may not be used in place of any of the certificates described in this order or its schedules.

(3) Notwithstanding the authorization by the War Production Board or the Civilian Production Administration of a sale or delivery of tin, no person shall sell or deliver any tin or tin-bearing material or product thereof in the form of raw materials, semi-processed materials, finished parts or subassemblies to any person if he knows or has reason to believe such material or any product thereof is to be used in violation of the terms of this order. A supplier may rely upon the written statement of the customer seeking delivery of any such material, as to the purposes for which it will be used, unless the supplier knows or has reason to believe the statement is false, and such a statement shall constitute, on the part of the person making it, a representation to the Civilian Production Administration within the meaning of section 35 (A) of the United States Criminal Code, 18 U. S. C. sec. 80.

(k) *Special restrictions on purchases and sales of certain articles containing*

tin. No person, for the purpose of resale, shall receive from a manufacturer any new article of the kinds listed below, if the article contains tin plate or tin in any other form except solder used for joining purposes. No person shall sell or deliver any new article of the kinds listed below, if the article contains tin plate or tin in any other form except solder used for joining purposes, unless he has an authorization in writing from the Civilian Production Administration or the War Production Board for the sale or delivery. A person who wishes to get such an authorization should apply to the Civilian Production Administration by letter in triplicate, giving a report of his inventory of all of the items listed below containing tin plate or tin in any other form except solder used for joining purposes, showing the quantity of each such item in his possession on March 1, 1945, the names and addresses of the sellers from whom he bought the items, and the dates the purchases were made. Authorizations will ordinarily be given, except where it appears that the purchases were in violation of Order M-43. "New article" means one which has not been used by an ultimate consumer. A purchaser for resale of articles of the kinds listed below may rely on a written certification by his supplier that they contain no tin plate or any other tin except solder used for joining purposes, unless he knows or has reason to believe the statement is false.

1. Advertising specialties.
2. Art objects.
3. Britannia metal, pewter metal or other similar tin-bearing alloy.
4. Buckles.
5. Buttons.
6. Emblems and insignia.
7. Jewelry.
8. Novelties, souvenirs and trophies.
9. Ornaments and ornamental fittings.
10. Toys and games.

Inventories

(l) *Limitation on inventories.* No person shall receive delivery of pig tin, or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies, nor shall he put into process any raw material, in quantities which in either case shall result in an inventory of such raw, semi-processed or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of tin products by this order. Forty-five days inventory of pig tin shall, for the purpose of this order, be deemed a practicable working inventory for any person except a manufacturer of tin plate as tin plate is defined in Schedule VI, as from time to time amended. Direction 2 to M-43 also contains restrictions on the inventories of solder, babbitt and other tin-bearing alloys.

Miscellaneous

(m) *Appeals and communications.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal. Priorities Regulation 16 gives additional instructions about the filing of appeals. Appeals, reports and all communications concerning this order should be addressed to the Civilian Production Administration, Tin, Lead, and Zinc Branch, Washington 25, D. C., Reference: M-43.

(n) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 9th day of April 1946.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

Schedules of Permitted Uses

Under Order M-43 pig tin, secondary tin, tin plate, terne plate, solder, babbitt, copper base alloys and other alloys containing tin may be used only in the production of the items and for the purposes set forth in the following schedules, subject to the limitations, restrictions and conditions specified in these schedules with respect to the various items and purposes.

SCHEDULE I—MISCELLANEOUS

(1) *Detonators and blasting caps.* Pig or secondary tin may be used to make detonators and blasting caps (including electric blasting caps) including all their necessary parts and accessories.

(2) *Collapsible tubes.* (a) Pig or secondary tin may be used to make collapsible tubes for the following purposes, if the tin content by weight of the tube is no greater than the maximum specified below:

Product	Maximum permitted tin content (percent of tin by weight)
Ointments and other preparations for opthalmic use, sulfa drugs in ointment or jelly form, diagnostic extracts (allergens), and morphine or hypodermic injection	Unlimited
Preparations intended for introduction into the body orifices, and medicinal and pharmaceutical ointments (excluding unmedicated petroleum jelly and lanolin)	Unlimited
Dental cleansing preparations	3%

Secondary tin may be used to make lead collapsible tubes for any purpose if the tin content of the tube is not greater than 0.5% by weight.

(b) *Pig tin quota:* 150% of the amount legally used in the corresponding quarter of 1944.

(c) No person may purchase, accept delivery of, or use collapsible tubes containing tin for packing products except those permitted above.

(3) *Foil.* (a) Pig or secondary tin may be used to make foil for the following purposes if the tin content by weight of the foil is no greater than the maximum specified below:

Purpose	Maximum permitted tin content (percent of tin by weight)
(i) Electrotypers foil	16%
(ii) Dental foil	30%
(iii) Soft babbit for the preparation of industrial metallic packing	1½%
(iv) Condenser foil of dimensions 0.00035 inch by ½ inch or less	50%
(v) Condenser foil for all other condensers	5%
(vi) Foil for aircraft magnetos	50%
(vii) Cap liner foil for packing biologicals, preparations containing chloroform, or other highly volatile chemicals for which other liners cannot be used	Unlimited

(b) *Pig tin quota:* 110% of the amount legally used in the corresponding quarter of 1944.

(4) *Dairy equipment.* (a) Pig or secondary tin may be used to coat fluid milk shipping containers.

Pig tin quota: See Direction 3 to M-43.

(b) Pig or secondary tin may be used to manufacture dairy equipment other than fluid milk shipping containers.

Pig tin quota: The amount legally used in the corresponding quarter of 1944.

(c) Any dairy equipment may be retinned.

Pig tin quota: The amount legally used during the corresponding quarter of 1944.

(5) *Equipment for preparing and handling food.* (a) Pig or secondary tin may be used to coat or to retin any parts of kitchen utensils, galley and mess equipment and other equipment used in processing and handling of food if the parts are designed to come into actual contact with food.

Pig tin quota: The greater of: (i) the amount legally used in the corresponding quarter of 1944, or (ii) 25% of the amount used in the corresponding quarter of 1940.

(b) Pig or secondary tin may be used to plate cutlery and flatware.

Pig tin quota: 25% of the amount used in the corresponding quarter of 1940.

(6) *Wire coating.* Tin or tin alloys may be prepared and used for coating wire as follows:

(a) *For copper base wire.* There is no limitation upon the tin content of the coating alloy when the copper base wire to be coated is of a size of .0320" nominal diameter or finer. If the wire to be coated is of a size larger than .0320" nominal diameter, the tin content of the coating alloy is limited to 12% tin by weight.

(b) *For steel wire.* (i) To be used as armature binding wire.

(ii) To be used in the manufacture of equipment for the production of textiles.

(iii) To be used in the packaging or marking of meat where the wire comes into actual content with the meat.

(iv) In the liquor finishing process of fine steel bright wire.

(c) *Pig tin quota:* The amount legally used during the corresponding quarter of 1944.

(7) *Lead base alloys for coating.* Lead base alloys containing tin for coating sheet, tubing, wire, foundry chaplets, etc., may be manufactured and used if the tin content of the alloy does not exceed 7% of tin by weight and if the alloys are derived from secondary tin only.

(8) *Printing plates and type metal.* Printing plates and type metal containing tin may be made for use by the printing, publishing and related service industries if they are produced from secondary tin only.

(9) *Dental amalgam alloys.* Tin may be used in the manufacture of dental amalgam alloys if the tin content of the alloy does not exceed 30% of tin by weight.

(10) *Pipe organs for religious and educational institutions.* Pipe organs for religious and educational institutions may be manufactured, rebuilt, or repaired with secondary tin taken from the inventories of organ builders or acquired from old organs.

(11) *Bolster metal.* Bolster metal may be made and used in the manufacture of surgical instruments if the tin content of the bolster metal does not exceed 10% of tin by weight and if the tin is derived from secondary tin only.

(12) *Fusible alloys and dry pipe seat rings.* Pig or secondary tin may be used in the manufacture of dry pipe valve seat rings to the extent required to meet performance specifications; and in the manufacture of fusible alloys for safety purposes only, to the extent required to meet minimum code requirements with respect to the operation of the product in which the alloy is to be contained.

Pig tin quota: The amount legally used during the corresponding quarter of 1944.

(13) *Tin pipe and sheet.* (a) Pig or secondary tin may be used to make tin pipe, sheet tin, and fittings to repair or maintain beverage dispensing units and their parts, if the consumer for whom the pipe, sheet or fittings are made returns to the supplier a quantity of scrap tin having the same tin content as that of the new pipe, sheet or fittings delivered to him.

(b) Pig or secondary tin may be used to coat copper or brass pipe and fittings for beverage or distilled water dispensing purposes.

(c) *Pig tin quota:* 130% of the amount legally used in the corresponding quarter of 1944.

(14) *Chemicals.* Pig tin may be reprocessed for use as laboratory re-agents and may be used in the manufacture of tin chemicals for use as laboratory re-agents for medicinal purposes and for use in plating processes where plating is permitted.

Pig tin quota: 200% of the amount legally used in the corresponding quarter of 1944.

(15) *Tin oxide.* Tin oxide may be produced from tin obtained from detinning used tin cans, or from sludges or secondary tin for use in the production of chrome green, pink, yellow, and red colors. No person may receive pig tin from any supplier and use it for the production of tin oxide.

SCHEDULE II—SOLDERS

(a) *Certificates.* No manufacturer or wholesale distributor shall sell or deliver any solder to a wholesale distributor or retailer and no wholesale distributor or retailer shall purchase or accept delivery of any solder unless the purchaser has given to the seller a statement that he will not resell the solder to a user without obtaining from the user the certificate called for below. No manufacturer, wholesale distributor or retailer shall sell or deliver any solder to a user and no user shall purchase or accept delivery of any solder from a manufacturer, wholesale distributor or retailer unless the user has given to the seller the certificate called for below. However, if the solder is in wire form, solid or cored, not to exceed $\frac{5}{32}$ inch in diameter, and contains not more than 30% of tin by weight, any person may sell or deliver it to a wholesale distributor or retailer without getting any statement from him and the retailer may sell it to a user without getting any certificate from him.

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the Civilian Production Administration that the tin contained in the material covered by this order shall be used solely for the purpose listed in Schedule II, section of Conservation Order M-43, or is to be incorporated in an "implement of war" and the tin content of the material has been definitely specified in accordance with paragraph (i) of this order.

(b) *Tin content.* In the manufacture of solder, the tin content by weight shall be limited as follows, according to the purpose for which it is to be used:

Purpose	Maximum tin content of solder (percent of tin by weight)
(1) For all cellular type radiators (average per radiator)	21%
(2) For all fin and tube type radiators for military and civilian use (average per radiator)	32%
(3) Soldering end seams on all solder seamed cans	26%
(4) For a filler or smoother for automobile or truck bodies or fenders or for similar purposes (from secondary tin only)	4%
(5) For soldering side seams in the manufacture of cans made with either lock or lap side seams or with a combination of lock and lap seams	5%
(6) For sealing milk cans	21%
(7) For all soldering on motors, generators, electrical equipment, instruments, meters, radio, radar, tanks, fire protection equipment, copper tube joints and water service pipes refrigeration equipment, dairy equipment, and food processing equipment	40%
(8) [Deleted Apr. 9, 1946.]	
(9) For soldering aluminum	60%
(10) For other hand soldering operations done either with a soldering iron or with a torch and wiping	35%
(11) For any other purpose (except items in paragraph (h))	80%

(c) *Pig tin quota:* The pig tin quotas for solder permitted to be made under this Schedule, and terne metal made for sale as such under Schedule VI have been combined. The pig tin quota for these two products combined is 140% of the amount of pig tin legally used for solder during the corresponding quarter of 1944.

SCHEDULE III—BABBITT

(a) No manufacturer or wholesale distributor of babbitt shall deliver any babbitt containing more than 10% tin by weight to any wholesale distributor of babbitt and no wholesale distributor of babbitt shall accept delivery from a manufacturer or a wholesale distributor unless he shall have furnished the manufacturer or other wholesale distributor with a statement on his purchase order to the effect that he will not resell such babbitt containing more than 10% tin by weight to any user unless he has received the certificate from such user set forth below. No manufacturer of babbitt or wholesale distributor of babbitt shall deliver any babbitt containing more than 10% tin by weight to any user and no user shall accept delivery of any babbitt containing more than 10% tin by weight from any manufacturer of babbitt or wholesale distributor of babbit unless the user shall have furnished the manufacturer or wholesale distributor with the certificate set forth below.

No manufacturer of finished bearings containing babbitt metal of more than 10% tin by weight shall deliver such bearings to any user and no user shall accept delivery of such bearings from the manufacturer unless the user shall have furnished the manufacturer with the certificate set forth below.

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code to the seller and to the Civilian Production Administration, that the tin contained in the material covered by this order shall be used solely for the purpose listed in Schedule III, section — of Conservation Order M-43, or is to be incorporated in an "implement of war" and the tin content of the material has been definitely specified in accordance with paragraph (i) of said Order M-43.

(b) *Tin content.* In the manufacture of babbitt metal and similar alloys used as babbitt, the tin content shall be limited as follows, according to the purpose for which it is to be used:

Purpose	Maximum tin content of babbitt (percent of tin by weight)
(1) For the manufacture, repair, maintenance or replacement of multivane crosshead linings in locomotives or for lining aluminum crossheads	Unlimited
(2) For the manufacture, repair, maintenance or replacement of connecting rods or main engine bearings for trucks, tractors, bulldozers or busses	90%
(3) For repair, maintenance or replacement in existing diesel engines, turbines, locomotive connecting rod or coupling rod bearings, irrigation water pumping engines and equipment, industrial engines, generators and motors, compressors or pumps used in the petroleum industry, vessels or other shipping facilities, electric locomotives, electric traction motor bearings, stone crusher bearings, and saw mill, planing mill and paper mill machinery	90%
(4) For all other purposes (except items in paragraph (h)) (from secondary tin only)	10%

(c) *Pig tin quota:* 80% of the amount legally used in the corresponding quarter of 1944.

SCHEDULE IV—BRASS AND BRONZE

A. CAST ALLOYS

(a) *Tin content.* No person shall cast or have any person cast for him any copper base alloy containing 1.5% or more tin by weight for other than the specific purposes listed below. The tin content of any such alloy shall not be more than the amount specified for each purpose.

Purpose	Maximum tin content (percent of tin by weight)
(1) For the manufacture of high ratio worm gears, fire engine pump gears, jack nuts, feed nuts, elevating nuts, thrust washers or disks, machine tool spindle bearings, hydraulic pump bodies and ends for gear pumps, grinder spindle sleeve bearings, step bearings, internal parts of industrial centrifugal pumps and injectors, and collector rings	12%
(2) For the manufacture of piston rings for locomotives and for air-brake equipment	20%
(3) For use as bearings and bushings	9%
(4) For bearings produced by process of powder metallurgy	10%
(5) For all other castings, except for items listed in paragraph (h) and no pig tin may be used to produce them	6%
(6) For production of or use in items listed in paragraph (h), provided that the tin used shall not be derived from pig tin	less than 1.5%

(b) *Certificate.* Any person receiving copper base alloy castings containing 1.5% or more tin shall furnish his supplier with a certificate on his purchase order stating the end use of such castings. All suppliers shall require such a certificate. If the end use is not permitted by M-43, and the purchaser has not special authorization from the Civilian Production Administration or the War Production Board, the supplier shall refuse the order.

(c) *Pig tin quota:* For item (a) (4) (Bearings produced by process of powdered metallurgy): 125% of the amount legally used in

the first quarter of 1946; for all other items: 40% of the amount legally used during the corresponding quarter of 1944.

B. WROUGHT ALLOYS

(a) Tin content. No person shall purchase or use and no supplier shall sell copper base wrought alloys containing more than 2% tin by weight for any purpose other than those listed below. The tin content of any such alloy shall not be more than the amount specified for the particular purpose.

	Maximum tin content (percent of tin by weight)
1. Fourdrinier wire, screen plates, Jordan and beater bars	8.0%
2. Manufacture of discs and diaphragms for industrial control instruments, bronze welding rods, and rifle nuts in air hammers	10.0%
3. For use as bearings, spectacle ware, and functional parts in all other items (except items in paragraph (h))	5.5%
4. All other (except items in paragraph (h)	2.0%

(b) *Melting scrap.* Except as specifically authorized in writing by the War Production Board or Civilian Production Administration, no person other than a brass mill shall melt or process (1) brass mill scrap containing in excess of 1.5% tin or (2) termination inventories of brass mill products containing in excess of 1.5% tin and which are being disposed of as scrap, nor shall any person dispose of either of such materials in any way other than by delivery to a brass mill.

(c) *Certificates.* Any person receiving wrought-copper base alloys containing more than 2% tin shall furnish his supplier with a certificate on his purchase order stating that he will use such alloy only as permitted by Conservation Order M-43, or that he will not dispose of said alloy without obtaining such a certificate from the person to whom he disposes of said alloy. All suppliers shall require such statements on all purchase orders

(d) *Pig tin quota:* The amount legally used in the corresponding quarter of 1944.

SCHEDULE V WHICH FORMERLY COVERED USE OF TIN TO REPAIR GAS METERS HAS BEEN SUPERSEDED BY ITEM (3) (7) OF SCHEDULE II

SCHEDULE VI—TIN PLATE, TERNE PLATE, AND TERNE METAL

(a) *Definitions*—(1) "Tin plate" means steel sheets coated with tin including electrolytic tin plate and hot dipped tin plate and including primes, seconds and waste-waste but not scrap.

(2) "Terne plate" means steel sheets coated with terne metal including short ternes (coated on tin mill coating machines) and long ternes (coated on sheet mill coating machines) including primes, seconds and long terne waste-waste but not scrap.

(3) "Tin plate or terne plate scrap" means any material or product made in whole or in part of tin plate or terne plate which is the waste of industrial fabrication or which has been discarded after being put into actual use, including tin plate crowns, screw caps or similar closures for various containers. The term also includes tin plate and terne plate sheets recovered from tin plate or terne plate cans or from other articles.

(4) "Reconditioned tin" plate or terne plate" means damaged tin plate or terne plate which has been put into usable condition by recoating.

(5) "Terne metal" means a tin-bearing lead alloy used as a coating for plate but does not include lead recovered from secondary sources which contains not more than 3% residual tin.

(6) "Waste-waste" means hot dipped or electrolytic tin coated sheets or steel sheets coated with terne metal which have been rejected during processing by the producer because of imperfections which disqualify such sheets from sale as primes or seconds.

(b) *Manufacture of tin plate and terne plate.* Tin plate and terne plate may be manufactured for the purposes set forth below. However, coating of tin or terne metal per single base box of tin plate or terne plate must not exceed the maximum indicated below for the particular permitted use. No person may use terne metal of over 15% tin in tin mill coating machines. No person may use terne metal of over 10% tin in sheet mill coating machines.

Pig tin quota: 110% of the amount legally used in the corresponding quarter of 1944.

(c) *Manufacture of terne metal.* Pig or secondary tin may be used to make terne metal.

Pig tin quota: The pig tin quota for terne metal made for sale as such is combined with the quota for solders permitted under Schedule II. The pig tin quota for these two products combined is 140% of the amount of pig tin legally used for solder during the corresponding quarter of 1944. If pig tin is used to make terne metal which is not sold as such, but used by the maker to coat terne plate, it must be charged against the manufacturer's pig tin quota for tin plate and terne plate described in paragraph (b) above.

(d) *Certificates.* No person shall sell or deliver any tin plate or terne plate to any person unless he gives with his purchase order a certificate in substantially the following form:

> I certify, subject to the penalties of section 35 (A) of the United States Criminal Code, that I will use this tin plate or terne plate for _____ (specify end use) in accordance with Order M-43 or will resell it only in accordance with that order.
>
> A person who has given one of the certificates described in Direction 9 to M-21 with his purchase order need not give the certificate described in this paragraph.

NOTE: Paragraphs (e) and (f), formerly (d) and (e), redesignated Apr. 9, 1946.

(e) *Tin plate and terne plate may be used only for the following purposes:*

Permitted use	Permitted material	Maximum permitted coating of tin or of terne metal (per single base box)
1. Baking pans, domestic.	Electrolytic tin plate.	0.25 lb. per base box.
2. Baking pans for institutions and commercial bakers.	Hot dipped tin plate.	1.25 lbs. per base box.
	Electrolytic tin plate.	0.50 lb. per base box.
	Reconditioned tin plate.	
3. Brushes, power driven.	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terneplate.	
4. Cans.	As permitted by Conservation Order M-81 as amended.	
5. (a) Closures for all food products (excluding malt beverages and nonalcoholic beverages) if preserved in a hermetically sealed container made sterile by heat; and olives, pickles, relishes, sauces, vinegar, French dressing, flavoring extracts, spices, mustard, horseradish and cherries.	Hot dipped tin plate.	1.50 pounds per base box.
(b) Closures for meat and fish and products made from them; ice cream mix; apple cider and juice; fruits (only crush, fountain fruit and ice cream toppings); soup mix, cheese spreads; spaghetti and macaroni products, corn beef hash and sauerkraut.	Electrolytic tin plate.	0.50 pound per base box.
(c) Closures for biologicals; blood plasma; drug chemicals; dental supplies; glycerites; liniments of ammonia; magmas; drug oils; ointments; penicillin; prescriptions; medicinal soaps; aromatic spirits of ammonia; ammonia products, aromatic chemicals; reagent chemicals; deodorants, liquid or paste (not for use on human body); dyes; germicides; hypochloride powders; phenols; photographic supplies; and all other liquid chemicals.	Electrolytic tin plate.	0.50 pound per base box.
(d) Closures for home canning.	Electrolytic tin plate.	0.50 pound per base box.
(e) Closures to be purchased by or for the account of the American Red Cross, Office of Scientific Research and Development or the Panama Canal, including the Panama Railroad Company, or for shipment outside the forty-eight States of the United States and the District of Columbia. (General exceptions for certain other governmental agencies are included in item 30 below.)	As specified.	
(f) Closures for steel drums.	Hot dipped tin plate.	1.25 lbs. per base box.
	Electrolytic tin plate.	0.50 lb. per base box.
	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
6. Carbide non-explosive emergency lights.	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	
7. Chaplets, skimgates and tin forms for foundry use.	Hot dipped tin plate.	1.25 lbs. per base box.
	Electrolytic tin plate.	0.50 lb. per base box.
	Reconditioned tin plate.	
8. Cheese vats.	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	
9. Component parts for Internal Combustion engines including air cleaners, cooling systems, fuel systems, and lubricating systems, but only where less essential material is impractical because of corrosion or solder-ability.	Hot dipped tin plate.	11 lbs. per base box.
	Reconditioned tin plate.	
	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate	
10. Cylinder liners for lard and fruit presses.	Hot dipped tin plate.	1.25 lbs. per base box.

Permitted use	Permitted material	Maximum permitted coating of tin or of terne metal (per single base box)
11. Dairy ware and equipment including dairy pails, milk strainer pails, hooded milking pails, milk kettles, setter or cream cans, weigh cans, measures and test ware, bottle conveyors, ice cream freezers, milk filters, receiving tanks, separators, strainers, upper and lower troughs and covers for surface type heaters and coolers, and testing equipment.	Hot dipped tin plate.	3.30 lbs. per base box (2A charcoal).
	Electrolytic tin plate.	0.50 lb. per base box.
	Reconditioned tin plate.	
12. Diamond cutting wheels.	Electrolytic tin plate.	0.50 lb. per base box
	Reconditioned tin plate.	
13. Dusters and sprayers, hand, for disinfectant and pest control; parts requiring solderable coatings.	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	
	Electrolytic tin plate.	0.50 lb. per base box.
	Reconditioned tin plate.	
14. Equipment or appliance parts requiring solderable coatings.	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	
	Electrolytic tin plate.	0.25 lb. per base box.
15 (a) Fuel tanks, except for automotive equipment.	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	
(b) Fuel tanks, for automotive equipment.	Short ternes.	1.30 lbs. per base box.
	Long ternes.	6 lbs. per base box.
	Reconditioned terne plate.	
16. Gas mask canisters.	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	
17. Gas meters.	Hot dipped tin plate.	3.30 lbs. per base box (2A charcoal).
	Electrolytic tin plate.	0.50 per base box.
	Reconditioned tin plate.	
	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	
18. Heat exchangers.	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	
19. Integral parts of signal cells—but only for current collectors and baskets.	Hot dipped tin plate.	1.25 lbs. per base box.
	Electrolytic tin plate.	0.50 lb. per base box.
	Reconditioned tin plate.	
20. Lining of drying chambers for milk and egg dehydration.	Hot dipped tin plate.	11 lbs. per base box.
	Reconditioned tin plate.	
21. Maple syrup evaporators.	Hot dipped tin plate.	11 lbs. per base box.
	Reconditioned tin plate.	
22. Oilers (excluding cans as defined by Order M-81)	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate	
23. Oil lanterns.	Short ternes.	1.30 lbs. per base box
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate	
24. Repair parts for domestic laundry equipment.	Hot dipped tin plate.	1.25 lbs. per base box.
	Electrolytic tin plate.	0.50 lb. per base box.
	Reconditioned tin plate.	
25. Safety cans for inflammable liquids.	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	
26. Textile spinning cylinders, card screens, spools and bobbins.	Hot dipped tin plate.	1.25 lbs. per base box.
	Electrolytic tin plate.	0.50 lb. per base box.
	Reconditioned tin plate	
	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	
27. Torpedoes for oil and gas well shooting.	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	
28. Vaporizing liquid fire extinguishers.	Hot dipped tin plate.	1.25 lbs. per base box.
	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.
	Reconditioned terne plate.	
29. Wick holders for oil stoves	Short ternes.	1.30 lbs. per base box.
	Long ternes.	4 lbs. per base box.

TRANSPORTATION OF MILK BY MOTOR VEHICLE IN WASHINGTON

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 16 is added to read as follows:

SEC. 16. *Transportation of milk and cream by motor vehicle in Washington.* The maximum rates for the transportation of milk and cream in shipping cans between points within the State of Washington by motor carriers other than common carriers, are the rates set forth in an order issued by the Department of Transportation of the State of Washington on January 25, 1946, in Cause No. T-7948, effective February 15, 1946, or the maximum rates established by the General Maximum Price Regulation or any supplementary regulation or order issued by the Office of Price Administration, whichever rates are higher.

This amendment shall become effective as of February 15, 1946.

Issued this 9th day of April 1946.

PAUL A. PORTER,
Administrator.

EXEMPTION AND SUSPENSION OF CERTAIN ARTICLES OF CONSUMER GOODS FROM PRICE CONTROL

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order No. 126 is amended in the following respect:

A new section 10a is added to read as follows:

SEC. 10a. *Additional suspensions.* In addition to the exemptions and suspensions from price control effected by the preceding section of this order, the following sales and deliveries are suspended from price control:

(a) Sales and deliveries by wholesalers and retailers of all articles of consumers' durable goods covered at the manufacturing level by Maximum Price Regulation No. 188 which are not listed in Appendix C (§ 1499.168) of that regulation. (The circumstances under which manufacturers' sales of those articles are suspended from price control are set forth in § 1499.152 (a) (1) of Maximum Price Regulation No. 188, Amendment No. 77).

This amendment shall become effective on the 8th day of April 1946.

Issued this 8th day of April 1946.

PART 1340—FUEL

[MPR 88[1] incl. Amdts. 1-43]

FUEL OIL, GASOLINE AND LIQUEFIED PETROLEUM GAS[2]

This compilation of Maximum Price Regulation 88 includes Amendment 43, effective April 10, 1946. The text added or amended by Amendment 43 is underscored. Deletions and changes in tables are indicated by notes.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order Nos. 9250 and 9328. Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected. A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.[3]

§ 1340.151 *Maximum prices for fuel oil, gasoline and liquefied petroleum gas.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order Nos. 9250 and 9328, Maximum Price Regulation No. 88 (Fuel Oil, Gasoline and Liquefied Petroleum Gas), which is annexed hereto and made a part hereof, is hereby issued.

ARTICLE I—GENERAL PROVISIONS AND SCOPE OF REGULATION

SECTION 1.1 *To what products this regulation is applicable.* The provisions of this regulation cover the following products:

Liquefied petroleum gas.
Natural gasoline.
Aviation gasoline.[3a]
Automotive gasoline.[3b]
Blending naphtha.
Stove and lamp naphtha (includes pressure appliance fuel).
Jet propulsion fuel.
Tractor fuel.
Kerosene.
Range oil, stove oil or heater oil.
All other distillate burning, heating or fuel oils.
Diesel fuel.
Gas oil.
Gas enrichment oil.
Residual fuel oil.

[Footnotes 1 and 2 added by Am. 34, 10 F.R. 12847, effective 10-15-45]

Crude petroleum when sold: (1) to a processor for use as gas enrichment oil, (2) to a tank wagon reseller by sellers other than crude oil producers for resale to a consumer for a purpose other than the production of more than one petroleum fraction therefrom, or (3) to a consumer for a purpose other than the production of more than one petroleum fraction therefrom: *Provided, however,* This regulation shall not be applicable to sales of crude petroleum to a refiner or to a person using such crude petroleum in oil and gas field operations.

Any fraction of crude petroleum which is a source of or is used to produce any of the foregoing commodities.

Any fraction of petroleum which is sold for the same end use as any of the foregoing commodities.

SEC. 1.2 *To what transactions, persons and areas this regulation is applicable.* (a) This regulation covers all types of sales and deliveries of the products listed in section 1.1; either by refiners, blenders, resellers or any other person, with the following exceptions:

(1) Retail sales at retail establishments, as such establishments are defined under Revised Maximum Price Regulation No. 137.[4]

[Subparagraph (1) amended by Am. 29, 10 F.R. 8900, effective 7-23-45]

(2) Sales of liquefied petroleum gas to consumers in single lot deliveries of 500 gallons or less.

(3) Exchanges of petroleum products and sales of gasoline and liquefied petroleum gas other than natural gasoline between refiners except where a maximum price is specifically established hereafter for such exchanges or sales. For the purposes of this section an operator of a natural gasoline or a recycling plant shall be considered a refinery.

[Subparagraph (3) amended by Am. 35, 10 F.R. 13121, effective 10-27-45 and Am. 38, 10 F.R. 15266, effective 12-19-45]

(4) Sales between original suppliers made pursuant to assignments or reassignments under Petroleum Directive No. 59 of the Petroleum Administration for War.

(5) Sales between corporations when one is a wholly owned subsidiary of the other, or when both are wholly owned subsidiaries of a third corporation, and sales between such other affiliated corporations as are especially excepted by order in writing of the Price Administrator or his duly authorized representative.

(6) Sales by the Defense Supplies Corporation at pipe line termini.

(7) Inter-refinery sales of C-4 petroleum fractions when such sales are made for replacement purposes at the direction of the Petroleum Administration for War.

(8) Sales of aviation gasoline of 87 ASTM Octane rating or higher.

(9) Sales to the United States Government and agencies thereof of United States Army specification gasoline, 2-103-B (all types).

(10) Sales of special hydrocarbon fractions when sold for use in the manufacture of synthetic rubber, aviation gasoline of 87 Octane ASTM rating or higher, toluene or their components.

(b) *Maximum prices for particular transactions which are ordinarily exempt.* Notwithstanding the provisions of paragraph (a) above, the Administrator, by amendment to this regulation or by order thereunder, may establish, except in the case of the transactions described in items 1 and 2 of said paragraph (a), a maximum price for a particular sale which would otherwise be excepted, pursuant to such paragraph (a), from the coverage of this regulation.

(c) This regulation applies in the 48 states of the United States, District of Columbia and the territories and possessions of the United States except in the Panama Canal Zone and except in the Territory of Alaska.

[Sec. 1.2 amended by Am. 8, 9 F.R. 4686, effective 5-8-44; Am. 17, 9 F.R. 10639, effective 9-1-44; Am. 21, 9 F.R. 14064, effective 12-2-44; Am. 25, 10 F.R. 2080, effective 2-26-45; and as otherwise noted]

SEC. 1.3 *Products and transactions exempted from the General Maximum Price Regulation.*[5] Any products or transactions stated in section 1.1 or 1.2 to be excepted from the coverage of this regulation are also exempt from the provisions of the General Maximum Price Regulation.

[Sec. 1.3 amended by Am. 3, 9 F.R. 3230, effective 2-19-44; and Am. 25, 10 F.R. 2080, effective 2-26-45]

SEC. 1.4 *Sales for export.* The maximum price at which a person may export any commodity covered by this regulation shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation[6] including amendments issued or hereafter issued by the Office of Price Administration.

SEC. 1.5 *Imports.* Maximum prices in this regulation shall apply even though the product involved originated outside of the area covered by the regulation and was imported into such area.

[Sec. 1.5 amended by Am. 3, 9 F.R. 3230, effective 2-19-44]

SEC. 1.6 *Sales to United States and other governments under secret contract excepted.* This regulation shall not apply to sales or deliveries of any product made under a contract or subcontract that is officially classified as "Secret" and certified as such to the Office of Price Administration by the United States or any agency thereof, or by the Government or any agency thereof of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941 entitled "An Act to Promote the Defense of the United States". Such certification shall set forth the date of the secret contract or subcontract and its number or other designation. The certifying Government agency shall notify the contractor or subcontractor and the Office of Price Administration whenever such contract or subcontract ceases to be secret; upon receipt of such notification this exception shall not apply.

[3a] Aviation gasoline means a gasoline which meets prevailing industry and consumer specifications for a particular grade of aircraft motor fuel and which is sold for use in aircraft or for use at manufacturing establishments or laboratories for special testing purposes.

[3b] Automotive gasoline includes all gasolines sold for use in automobiles.

SEC. 1.7 *Transfers of business or stock in trade.* This section covers cases where the business effects or stock in trade of any seller or any person are sold, leased or otherwise transferred after February 11, 1942 and the transferee carries on the business or continues to deal in the same commodity in an establishment separated from any other establishment previously owned or operated by the transferee. In such cases the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place. His obligation to keep records and make reports shall be the same as those of the transferor. The transferor shall either preserve and make available or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the provisions of this regulation and those of the General Maximum Price Regulation where the latter were applicable.

[Sec. 1.7 amended by Am. 8, 9 F.R. 4686, effective 5-8-44]

SEC. 1.8 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery. Where a petition for adjustment or amendment is pending the buyer and seller may agree that prices for deliveries made during the pendency of the petition shall be determined in accordance with the disposition of the petition. Such change in prices will be allowed if the deliveries are necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

SEC. 1.9 *Applications for adjustment and petitions for amendment*—(a) *Government contracts.* Any person who has entered into or proposes to enter into a "Government contract" as defined by Revised Supplementary Order No. 9[1] who believes that a maximum price contained in this regulation impedes or threatens to impede production, manufacture or distribution of a commodity essential to the war program, may file an application for adjustment in accordance with Procedural Regulation No. 6[2] and under the terms of Revised Supplementary Order No. 9.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1[3] issued by the Office of Price Administration.

(c) *Local shortages.* The Office of Price Administration, or any duly authorized representative thereof, may adjust by order any maximum price established under this regulation for any seller or group of sellers when it appears:

(1) That there exists or threatens to exist in a particular locality a shortage in the supply of a petroleum product which aids directly in the war program or is essential to a standard of living consistent with the prosecution of the war; and

(2) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such seller and of like sellers for such petroleum product; and

(3) That such adjustment will not create or tend to create a shortage, or a need for increase in prices, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

NOTE: Applications for adjustment shall be filed in Washington, D. C., in accordance with Revised Procedural Regulation No. 1.

(4) Any maximum price or prices established pursuant to an order issued under the provisions of § 1340.156 (d) of Revised Price Schedule 88 shall continue in full force and effect subject to revocation or amendment upon written notice from the Office of Price Administration.

SEC. 1.10 *Taxes.* Any tax increase or new tax hereafter imposed upon or incident to the sale, delivery, processing or use of any petroleum product covered by this regulation may be collected by a seller in addition to the maximum prices established under this regulation.

[NOTE: Supplementary Order No. 31 (7 F.R. 9894; 8 F.R. 1312, 3702, 9521, provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."]

SEC. 1.11 *Shifts which must be reported.* A seller who on the last sale prior to January 15, 1944 sold a particular petroleum product to a purchaser who is a reseller on a delivered price basis at a given point and thereafter sells such a reseller on an f. o. b. shipping point price basis shall report such fact to the regional office of the Office of Price Administration serving the point of destination for such shipment within ten days after either the effective date of this regulation or the date such sale is made if, but only if, the effect of selling on an f. o. b. shipping point price basis is to increase the laid-down cost to the reseller above the seller's maximum delivered price to such reseller.

SEC. 1.12 *Records and price filing requirements.* Every person selling petroleum products subject to this regulation shall for as long as the Emergency Price Control Act of 1942, as amended, remains in effect keep and make available for examination by the Office of Price Administration records of the same kind as he customarily kept, relating to the prices which he charged for such petroleum products and in addition, records showing the basis upon which he determined maximum prices for such petroleum products.

[Sec. 1.12 amended by Am. 21, 9 F.R. 14064, effective 12-2-44]

SEC. 1.13 *Compliance with this regulation required.* (a) On and after the effective date of this regulation regardless of any contract, obligation or understanding, no person shall sell or deliver and no person shall buy or receive in the course of trade or business any petroleum products covered by this regulation at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer, or attempt to do any of these things. Prices lower than the maximum prices may, of course, be charged and paid.

(b) *Evasion.* The price limitations set forth in this regulation shall not be evaded either by direct or indirect methods in connection with a sale, delivery or transfer of petroleum products alone or in conjunction with any other materials or by way of any commission, service, transportation, loading, tank car rental or other charge or discount, premium or privilege or by tying-agreement or other trade understanding or by a change in the quality of a product or otherwise.

(c) *Penalties for non-compliance*—(1) *In general.* Any person violating a provision of this regulation is subject to the criminal penalties, civil enforcement actions and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

War procurement agencies and their contracting or paying finance officers are not subject to any liability, civil or criminal, imposed by this regulation. Persons who make sales covered by this regulation to war procurement agencies and buyers to whom such products have been allocated by any such agencies are, however, subject to all the liabilities imposed by this regulation. "War procurement agencies" include the War Department, the Navy Department, the United States Maritime Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any of their agencies.

(d) *Licensing.* The provisions of Licensing Order No. 1,[4] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 1.14 *Definitions.* (a) "Person" includes any individual, corporation, partnership, association, or any other organized group of persons, the legal successors thereto and representatives thereof and includes any government, its political subdivisions and agencies.

(b) "Product of the same grade." For a product of a particular seller to be regarded as of the same grade as the product of another seller it must customarily have been so regarded in trade practice at the point of sale and it must be a product that has customarily been sold in competition with the product of such other seller.

[2] 9 F.R. 10628; 10 F.R. 1382, 9394.
[3] 9 F.R. 10476, 13715.
[4] 8 F.R. 13240.

(c) "Contract" means an agreement, the existence of which is established by written evidence.

(d) As determined or established under any provision of this regulation, a maximum price of a product in bulk lots f. o. b. a refinery or a shipping point means a price that a seller may charge for the product loaded into transportation facilities except when the product has been placed in packages or containers for shipment.

(e) "Tank wagon price" means a particular delivered at destination price level. It is customarily charged to service station dealers and also to consumers who purchase in lots larger than are customarily sold at service stations and other retail establishments but in smaller quantities than tank cars or other special large lot quantities. However, if at a particular bulk plant or marine terminal the operator thereof, in the 60-day period preceding October 15, 1941, customarily charged the tank wagon price to consumers who picked up their supply at such bulk plant or marine terminal then the operator thereof may continue to charge the tank wagon price to a purchaser of such class at the particular bulk plant or marine terminal.

[Paragraph (e) amended by Am. 20, 9 F.R. 13522, effective 11-8-44]

(f) "Tank wagon area" as used in this regulation means the reference seller's tank wagon area served from any given point (see Article VII for designated reference sellers).

(g) "Retail establishment" means a store, shop, garage, service station or other stationary place of business at which the major portion of the sales of petroleum products are sold in small quantities to consumers at retail.

(h) "Reseller" as used in any paragraph of Article II of this regulation means a reseller at a retail establishment.

(j) "Marketing" and "eligible marketer".

(1) "Marketing", as the term is used in this regulation, means the business of buying petroleum products and reselling the same to any person other than a domestic consumer.

(2) "Eligible marketer" means one of the following:

(i) A person who in the 60-day period preceding January 15, 1944 was engaged in the business of marketing and/or broking petroleum products covered by this regulation and was maintaining an office therefor, provided however, that a seller who is a refiner, a manufacturer of natural gasoline, the operator of a bulk plant or terminal, or who is the operator of a facility similar to the foregoing, or any corporation in whole or part owning or owned by one of the foregoing or any person directly or indirectly affiliated with any of the above shall not be regarded as an eligible marketer under this provision.

(ii) A person who, upon written application, has been granted the status of eligible marketer by written order of the Administrator or his duly authorized representative. Such status will not be granted to a seller who is a refiner, a manufacturer of natural gasoline, the operator of a bulk plant or terminal, or who is the operator of a facility similar to the foregoing or to any corporation in whole or part owning or owned by one of the foregoing, or any person directly or indirectly affiliated with any of the above.

[Subparagraph (2) amended by Am. 11, 9 F.R. 7137, effective 7-1-44; Am. 20, 9 F.R. 13522, effective 11-15-44; and Am. 26, 10 F.R. 3553, effective 4-7-45]

(k) "Broker", "eligible broker" and "brokerage commission".

(1) A "broker" is an agent who performs services for a buyer or a seller in connection with the sale of petroleum products and who does not take title to the product or products involved in the sale.

(2) "Eligible broker" means one of the following:

(i) A person who in the 60-day period preceding January 15, 1944 was engaged in the business of marketing and/or broking petroleum products covered by this regulation and was maintaining an office therefor: *Provided, however,* That a seller who is a refiner, a manufacturer of natural gasoline, the operator of a bulk plant or terminal, or who is the operator of a facility similar to the foregoing, or any corporation in whole or part owning or owned by one of the foregoing or any person directly or indirectly affiliated with any of the above shall not be regarded as an eligible broker under this provision.

(ii) A person who, upon written application, has been granted the status of eligible broker by written order of the Administrator or his duly authorized representative. Such status will not be granted to a seller who is a refiner, a manufacturer of natural gasoline, the operator of a bulk plant or terminal, or who is the operator of a facility similar to the foregoing or to any corporation in whole or part owning or owned by one of the foregoing, or any person directly or indirectly affiliated with any of the above.

[Subparagraph (2) amended by Am. 11, 9 F.R. 7137, effective 7-1-44; Am. 20, 9 F.R. 13522, effective 11-15-44; and Am. 26, 10 10639, effective 9-1-44]

(3) "Brokerage commission" is money paid or agreed to be paid to one or more brokers by a buyer or seller for the services of such broker or brokers in bringing about a sale of petroleum products.

(m) "Original supplier" means a person as so defined by the Petroleum Administrator for War in Petroleum Directive No. 59.

(n) "Schedule D area" means Schedule "D" area of Zone 6 of District 1 of Petroleum Administration for War and covers an area described as follows:

(1) The entire State of West Virginia with the exception of the Counties of: Berkeley, Grant, Hampshire, Hardy, Jefferson, Mineral, Morgan, Pendleton, Randolph and Tucker.

(2) The following counties or portions thereof in the State of Pennsylvania: Allegheny; Armstrong; Beaver; Butler; Cameron; Clarion; the township of Sandy in Clearfield County; the townships of Chapman, East Keating, Leidy, Noyes, and West Keating in Clinton County; Crawford; Elk; Erie; Fayette, Forest; Greene; Jefferson; Lawrence; McKean; Mercer; Potter; Tioga; Venango; Warren; Washington; and all of Westmoreland except the townships of Derry, Fairfield, Ligonier and St. Clair.

(3) The following counties in the State of New York: Allegany, Cattaraugus, Chautauqua, Erie, Niagara, and Steuben.

[Paragraph (n) amended by Am. 17, 9 F.R. 10639, effective 9-1-44]

(p) "PAW" means Petroleum Administration for War.

(q) "P. W. distillate" means prime white distillate.

(r) "T. P. S." means Treasury Procurement Supply.

[Paragraph (r) added by Am. 18, 9 F.R. 12530, effective 10-19-44]

(s) "R. V. P." means Reid Vapor Pressure in pounds per square inch at 100° F. when tested in accordance with the currently prescribed A. S. T. M. method.

[Paragraph (s) added by Am. 19, 9 F.R. 12591, effective 10-23-44]

(t) "Township" means the entire geographical area within the outermost boundaries of a particular township. A specific price established for a township would apply in a separate political subdivision, for example, an incorporated city, village, etc., situated within such township, unless a different maximum price was expressly spelled out for the particular subdivision. For example, in Pennsylvania the City of Du Bois is located geographically within the outermost boundaries of Sandy Township. For the purposes of this regulation Du Bois, therefore, is to be regarded as being within Sandy Township.

(u) [Revoked]

[Paragraph (u) added by Am. 23, effective 12-28-44; revoked by Am. 32, 10 F.R. 11245, effective 9-1-45]

(v) "Blending naphtha" means a petroleum naphtha sold for use as a blending agent to produce gasoline or for direct use as a substitute for gasoline.

[Paragraph (v) added by Am. 27, 10 F.R. 6936, effective 6-13-45]

(w) *PAW Districts*

(1) PAW District I comprises the States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Georgia, Florida east of the Apalachicola River, New York, Pennsylvania, and West Virginia.

(2) PAW District II comprises the States of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Minnesota, Iowa, Missouri, Wisconsin, Illinois, Indiana, Ohio, Kentucky, Tennessee, Michigan.

(3) PAW District III comprises the States of New Mexico, Texas, Arkansas, Louisiana, Mississippi, Alabama and that part of Florida west of the Apalachicola River.

(4) PAW District IV comprises the States of Montana, Idaho, Wyoming, Utah and Colorado.

(5) PAW District V comprises the States of Washington, Oregon, Nevada, California, and Arizona and the Territory of Hawaii.

[Paragraph (w) added by Am. 42, 11 F.R. 2990, effective 3-18-46]

SEC. 1.15 *How to ascertain a particular maximum price under this regulation—(a) Prices of fuel oil and fuels (except waste lubricating oil or re-refined lubricating oil prices).* After you have read Article I containing various general provisions, check Article II and ascertain whether there is a specific maximum price at the shipping or delivery point involved in your sale; if not, and if you are selling a fuel oil of the types mentioned in Article III, your maximum price will be established or determined under one of the tables therein and the provisions of the article. If neither Article II nor III applies, it may be that your maximum price can be determined from one of the formulas set forth in Article V.

[Heading of paragraph (a) amended by Am. 4, 9 F.R. 3849, effective 4-14-44 and Am. 11, 9 F.R. 7137, effective 7-1-44]

If it can be, then you should also examine Article VI carefully to ascertain whether there are any additions which may be made or any reductions which must be made to the formula price. Note that more than one addition to the maximum price determined under Article V may be provided by Article VI. If you are concerned with a maximum tank wagon price, Article VII should then be examined. It deals with provisions for determining a maximum tank wagon price at the point of sale in accordance with the maximum tank wagon price of the state's reference seller at the same point. Note two things: First, if you have not been able to ascertain your maximum price under any preceding article of the regulation, you may adopt the reference seller's price providing he has one at that particular point, and second, even if your price has been determined under Article V you may nevertheless at some points adopt the reference seller's price instead if it is higher than your own, though at other points you are required to take the reference seller's price even if it is lower than yours.

If you have not been able to ascertain a maximum price under the aforementioned articles you should then apply to the Office of Price Administration for a maximum price pursuant to the provisions of Article VIII. If a maximum price has already been established for you under Article VIII you should examine Article VI to see whether any applicable reductions or increases have been made to such maximum price.

[Above sentence added by Am. 23, 9 F.R. 14944, effective 12-28-44]

(b) *Prices of waste lubricating oil or re-refined lubricating oil sold for use as fuel oil.* Read Article I for the various general provisions of the regulation, then turn to Article VIII which provides that maximum prices for either waste lubricating oil or re-refined lubricating oil when sold for use as fuel oil must be established by application to the Office of Price Administration. There is no other method for establishing a maximum price for such products. If a maximum price has already been established for you under Article VIII you should examine Article VI to see whether any applicable reductions or increases have been made to such maximum price.

[Paragraph (b) amended by Am. 4, 9 F.R. 3849, effective 4-14-44; Am. 11, 9 F.R. 7137, effective 7-1-44; and Am. 23, 9 F.R. 14944, effective 12-28-44]

(c) *Liquefied petroleum gas prices.* After you have read Article I containing general provisions, check Article II and ascertain whether there is a specific maximum price at the shipping or delivery point involved in your sale. If Article II does not apply, it may be that your maximum price can be determined from the formulas set forth in Article V.

If it can be, then you should also examine Article VI carefully to ascertain whether there are any additions which may be made or reductions which must be made to the formula price.

If you have not been able to ascertain maximum prices under the aforementioned articles, you should then apply to the Office of Price Administration for a maximum price pursuant to the provisions of Article VIII. If a maximum price has already been established for you under Article VIII you should examine Article VI to see whether any applicable reductions or increases have been made to such maximum price.

[Above sentence added by Am. 23, 9 F.R. 14944, effective 12-28-44]

(d) *Gasoline prices.* After you have read Article I containing various general provisions, check Article IV and ascertain whether there is a specific maximum price at the shipping or delivery point involved in your sale. If not, it may be that your maximum price can be determined from the formulas set forth in Article V.

If it can be, then you should also examine Article VI carefully to ascertain whether there are any additions which may be made or any reductions which must be made to the formula price. Note that more than one addition to a maximum price determined under Article V may be provided by Article VI. If you are concerned with a maximum tank wagon price, Article VII should then be examined. It deals with provisions for determining a maximum tank wagon price at the point of sale in accordance with the maximum tank wagon price of the state's reference seller at the same point. Note two things: First, if you have not been able to ascertain your maximum price under any preceding article of the regulation, you may adopt the reference seller's price providing he has one at that particular point, and second, even if your price has been determined under Article V you may nevertheless at some points adopt the reference seller's price instead if it is higher than your own, though at other points you are required to take the reference seller's price even if it is lower than yours.

If you have not been able to ascertain a maximum price under the aforementioned articles, you should then apply to the Office of Price Administration for a maximum price pursuant to the provisions of Article VIII. If a maximum price has already been established for you under Article VIII you should examine Article VI to see whether any applicable reductions or increases have been made to such maximum price.

(e) [Revoked]

[Paragraph (e) revoked by Am. 1, 9 F.R. 2405, effective 2-28-44]

ARTICLE II—SPECIFIC MAXIMUM PRICES OF FUEL OIL, FUELS AND LIQUEFIED PETROLEUM GAS FOR AREAS WITHIN SINGLE STATES OR TERRITORIES OR THE DISTRICT OF COLUMBIA

(Prices stated in Article II are exclusive of taxes)

Special section 1—Permissible increases for certain marketers—(a) On certain f. o. b. refinery shipments. On f. o. b. refinery shipments to ultimate destinations other than in Petroleum Administration for War District I, when made by an eligible marketer, as defined in section 1.14 (j) of this regulation, the sum of ⅛ of a cent per gallon may be added to a maximum f. o. b. refinery price established for the particular shipping point under any other section of this Article II; or

(b) *On sales to governmental agencies pursuant to public bidding.* If bids are taken by a governmental agency on an f. o. b. shipping point price basis then, on such a bid, if the bidder is an eligible marketer, as defined in section 1.14 (j), the sum of ¼ of a cent per gallon may be added to a maximum f. o. b. refinery price established for the particular shipping point under any other section of this Article II: *Provided*, That the laid-down cost to such governmental agency does not exceed the sum of the maximum f. o. b. price of each person participating in the particular bidding as determined or established under any other section of this regulation for the shipping point from which each bidder proposes to make shipment plus the actual cost of transportation that would be incurred from such point to destination by such person.

Special section 2—Permissible brokerage charges to buyers. The terms "broker," "eligible broker" and "brokerage commission" are defined in section 1.14 (k) of this regulation. Except as herein provided, a buyer may not be charged brokerage commission which will increase the buyer's cost on an f. o. b. refinery shipment to more than the applicable f. o. b. refinery price established below in this Article II. On f. o. b. refinery shipments found or negotiated by an eligible broker or eligible brokers a buyer may, however, be charged such brokerage commission which, added to the applicable maximum f. o. b. refinery price established below in this Article II, will not increase the buyer's cost f. o. b. the particular refinery to more than ½ of a cent per gallon above the said maximum f. o. b. refinery price.

Special section 3. [Revoked]

[Special sec. 3 added by Am. 32, 10 F.R. 11245, effective 9-1-45; amended by Am. 33, 10 F.R. 12082, effective 9-1-45 and revoked by Am. 43, effective 4-10-46]

[1] When any of the above products except gas oils are loaded into pipe line (see note 7 below), tank car, motor transport or tank wagon for shipment to ultimate destinations other than in Petroleum Administration for War District I, seller may charge prices in this table or his maximum prices under other sections of this regulation, whichever may be higher.

[2] When any of the above products except gas oils are loaded into barge, pipe line (see note 7 below), tank car, motor transport or tank wagon for shipment to ultimate destinations other than in Petroleum Administration for War District 1, seller may charge prices in this table or his maximum prices under other sections of this regulation whichever may be higher.

[3] New Orleans Area means Mississippi River ports up to and including Baton Rouge.

[4] If range or stove oil or No. 1 fuel oil conform to all of a particular seller's specifications for water white kerosene of 41 API gravity and above the maximum price for such products shall be 4.125¢ per gallon for such seller.

[5] Unless separately listed as another product in the above table or in any other part of section 2.16 (a), any refined distillate or overhead petroleum product (except lube distillates or naphthas sold for blending with gasoline or natural gasoline) of lower than 41 degrees gravity, API, is to be considered a gas oil. For grades of gas oils claimed to be special grades sellers may not charge higher prices than established for gas oils in the above table without a written order from the Administrator.

[6] These prices apply only to fuels sold for use in Diesel engines.

[7] Products loaded into all types of transportation facilities for ultimate delivery to War Emergency Pipelines and pipe lines with Petroleum Administration for War District 1 termini shall be considered destined for Petroleum Administration for War District 1.

[Subparagraph (1) amended by Am. 24, 10 F.R. 739, effective 1-23-45]

ARTICLE III—MAXIMUM PRICES FOR HEAVY FUEL OIL FOR AREAS NOT LIMITED TO A SINGLE STATE OR TERRITORY

SEC. 3.1 *Products and area covered*—(a) *Heavy fuel oil; definition of.* The term heavy fuel oil as used in this Article means any of the following products, except diesel fuels, provided such products fall within Commercial Standard Specifications for fuel oils as to flash point, water, and sediment:

(1) Crude oil sold to tank wagon resellers for resale as fuel oil or gas enrichment oil or to consumers for use as fuel oil or gas enrichment oil;

(2) Residual fuel oil;

(3) Blends of (1) and (2) with each other;

(4) Blends of any of the foregoing with distillate fuel oils or other petroleum fractions.

(b) *Area covered.* The provisions of this article apply in the Continental United States (other than Petroleum Administration for War District V), Puerto Rico and the Virgin Islands of the United States.

[Paragraph (b) amended by Am. 24, 10 F.R. 739, effective 1-23-45]

SEC. 3.2 *Permissible increases for certain marketers*—(a) *On certain f. o. b. refinery shipments.* When made by an eligible marketer as defined in section 1.14 (j), the maximum price, on an f. o. b. refinery shipment from any point covered by section 3.4 to an ultimate destination other than in Petroleum Administration for War District 1, shall be the maximum f. o. b. refinery price established for the particular shipping point in such section plus 5.25 cents per barrel; or

(b) *On sales to governmental agencies pursuant to public bidding.* If bids are taken by a governmental agency on an f. o. b. shipping point price basis, then, on such a bid, if the bidder is an eligible marketer, as defined in section 1.14 (j), he may bid and charge, for an f. o. b. refinery shipment from any point covered by section 3.4 the maximum f. o. b. refinery price established for the particular shipping point in such section plus 10.5 cents per barrel: *Provided*, That the laid-down cost to such governmental agency does not exceed the sum of the maximum f. o. b. price of each person participating in the particular bidding as determined or established under any other section of this regulation for the shipping point from which each bidder proposes to make shipment plus the actual cost of transportation that would be incurred from such point to destination by such person.

SEC. 3.3 *Permissible brokerage charges to buyers.* The terms "broker," "eligible broker" and "brokerage commission" are defined in section 1.14 (k) of this regulation. Except as herein provided, a buyer may not be charged brokerage commission which will increase the buyer's cost on an f. o. b. refinery shipment from any point covered by section 3.4 to more than the maximum f. o. b. refinery price established for the particular shipping point in such section. When, however, an f. o. b. refinery shipment from any point covered by such section has been found or negotiated by an eligible broker or eligible brokers a buyer may be charged brokerage commission, which, added to the f. o. b. refinery price established for the particular shipping point under such section, will not increase the buyer's f. o. b. refinery cost to more than 5.25 cents per barrel above such maximum price.

SEC. 3.4 *Specific prices for heavy fuel oil f. o. b. certain shipping and delivery points*—(a) *No. 6 Commercial Standard Specification fuel oil.* The maximum prices for heavy fuel oil within the Price Areas described in (b) below and set forth in this section shall apply as follows:

(1) In bulk lots f. o. b. refineries and seaboard tanker terminals for shipment to any destination;

(2) In bulk lots f. o. b. river tanker terminals at Albany, New York, and the Mississippi River up to and including Baton Rouge, Louisiana, for shipment to any destination;

(3) In bulk lots f. o. b. any bulk storage on sales of crude oil for shipment to any destination;

(4) In bulk lots f. o. b. any bulk storage outside Petroleum Administration for War District 1 for shipment to ultimate destinations in Petroleum Administration for War District 1.

[Article III amended by Am. 8, 9 F.R. 4686, effective 5-8-44; Am. 13, 9 F.R. 9402, effective 8-1-44; and as otherwise noted]

ARTICLE IV—SPECIFIC MAXIMUM PRICES FOR GASOLINES FOR AREAS WITHIN SINGLE STATES OR TERRITORIES OR THE DISTRICT OF COLUMBIA

(Prices stated in Article IV are exclusive of taxes)

Special section 1—Permissible increases for certain marketers—(a) *On certain f. o. b. refinery shipments.* On f. o. b. refinery shipments to ultimate destinations other than in Petroleum Administration for War District 1, when made by an eligible marketer, as defined in section 1.14 (j) of this regulation, the sum of ⅛ of a cent per gallon may be added to a maximum f. o. b. refinery price established for the particular shipping point under any other section of this Article IV; *or*

(b) *On sales to governmental agencies pursuant to public bidding.* If bids are taken by a governmental agency on an f. o. b. shipping point price basis then, on such a bid, if the bidder is an eligible marketer, as defined in section 1.14 (j), the sum of ¼ of a cent per gallon may be added to a maximum f. o. b. refinery price established for the particular shipping point under any other section of this Article IV: *Provided*, That the laid-down cost to such governmental agency does not exceed the sum of the maximum f. o. b. price of each person participating in the particular bidding as determined or established under any other section of this regulation for the shipping point from which each bidder proposes to make shipment plus the actual cost of transportation that would be incurred from such point to destination by such person.

Special section 2—Permissible brokerage charges to buyers. The terms "broker," "eligible broker" and "brokerage commission" are defined in section 1.14 (k) of this regulation. Except as herein provided, a buyer may not be charged brokerage commission which will increase the buyer's cost on an f. o. b. refinery shipment to more than the applicable f. o. b. refinery price established below in this Article IV. On f. o. b. refinery shipments found or negotiated by an eligible broker or eligible brokers a buyer may, however, be charged such brokerage commission which added to the applicable maximum f. o. b. refinery price established below in Article IV, will not increase the buyer's cost f. o. b. the particular refinery to more than ⅛ of a cent per gallon above the said maximum f. o. b. refinery price.

Special section 3—Computation of maximum price of natural gasoline of an intermediate R. V. P. In any case where a table of maximum prices for natural gasoline is established in this Article IV and the vapor pressure of a particular natural gasoline is between any two R. V. P.'s specified in such table, then the maximum price of such natural gasoline shall be proportionate between the maximum prices for the next higher and next lower R. V. P.'s as specified in the particular table. When mutually agreeable, however, a buyer and a seller may allow a tolerance not to exceed .5 R. V. P. above or below the R. V. P. of the particular natural gasoline without making the adjustment provided above.

[Special section 3 added by Am. 19, 9 F.R. 12591, effective 10-23-44]

Special section 4—Maximum prices for certain grades of gasoline made to United States Army specifications. Maximum prices other than tank wagon prices established under Article IV are inapplicable to sales of any grade of gasoline which meets all United States Army Grade 2-103-B specifications except those with respect to tetraethyl lead, octane rating or color, and to sales of United States Army grades 2-116 and 2-114 when any of such grades of automotive gasoline are sold to the United States Armed Forces, Foreign Economic Administration and Federal agencies making purchases under T. P. S. contracts. Maximum prices for such sales of these grades of gasoline must be established pursuant to section 8.3.

[Special section 4 added by Am. 23, effective 12-28-44; amended by Am. 25, 10 F.R. 2080, effective 2-26-45]

Special section 5—[Revoked]

[Note 3 added by Am. 23; revoked by Am. 32, 10 F.R. 11245, effective 9-1-45]

[Former note added by Am. 15, 9 F.R. 10046, effective 8-22-44, and deleted by Am. 23]

SEC. 5.1 *Determination of maximum prices by published prices and other formulas*—(a) *Published prices.* A seller's maximum price for a petroleum product of a particular grade shall be the lowest quoted price published in the October 8, 1941, issue of the National Petroleum News for a product of the same grade. Where such products are sold and prices are quoted on a delivered basis then the maximum delivered price shall be the lowest quoted delivered price so published. Where products are sold and prices are quoted on an f. o. b. shipping point basis, then the maximum f. o. b. price shall be the lowest quoted f. o. b. price so published.

[Section heading added; text designated (a) by Am. 18, 9 F.R. 12530, effective 10-19-44]

Quotations in the above named periodical for 68-70 Octane motor gasoline shall not be used in determining maximum prices. Quotations in the above named periodical for 80, 72-74 motor gasoline; for kerosene and/or No. 1 fuel, No. 2, No. 3, No. 5 and No. 6 fuel oil, as set forth on Page 42 of such publication under the heading "Atlantic Coast," shall be used only in determining a seller's maximum price for such products loaded into motor transports and tank cars.

[Above paragraph amended by Am. 16, 9 F.R. 9896, effective 8-15-44]

The quotation in the above named periodical for 72-74 octane motor gasoline, as set forth on page 40 of such publication under the sub-heading "Ohio," shall not be used for determining a seller's maximum price except on sales to consumers.

[Above paragraph added by Am. 6, 9 F.R. 4395, effective 4-29-44]

Quotations in the above-named periodical for the States of California, Oregon, Washington, Arizona and Nevada shall not be used in determining maximum prices.

Quotations in the above-named periodical for Motor Gasoline 72-74 Octane A. S. T. M. for "New York Harbor, barges," as set forth on page 40 of such publication under the heading "Summary of Daily Gasoline Prices (Sept. 30 to October 6)", and the quotations for gas oil, as set forth on page 42 of such publication under the heading "Gulf Coast", shall not be used for determining a seller's maximum price.

[Above paragraph added by Am. 12, 9 F.R. 8987, effective 7-31-44]

The quotations in the above-named periodical for motor fuels as set forth on page 44 of such publication under the sub-heading "Humble Oil and Refining Company" shall not be used for determining a sellers' maximum price.

[Above paragraph added by Am. 30, 10 F.R. 9585, effective 8-1-45]

If a seller's maximum price for any product covered by this regulation is established by this paragraph and if on his last sale of either of such products to a purchaser of a particular class during the 60 days prior to October 15, 1941 the seller granted a discount or discounts and the discount or discounts were stated as such in the contract of sale, or on the invoice to the purchaser, then discounts no less favorable shall be granted by the seller to all purchasers of the same class in connection with sales of the product on which the discount was granted. Deliveries pursuant to contracts of sale entered into more than 60 days prior to October 15, 1941, shall not be considered as sales for the purpose of determining discounts hereunder.

(b) *In the States of Arizona, California, Nevada, Oregon and Washington*—(1) *P. S. 100 and P. S. 200 fuel oils*—(i) *Truck-and-trailer delivered maximum prices.* A seller's maximum delivered truck-and-trailer price to consumers at a particular delivery point in the States of Arizona, California, Nevada, Oregon and Washington for P. S. 100 fuel oil and P. S. 200 fuel oil shall be the maximum tank wagon price as determined under section 7.5 (a) (excluding the .3 of a cent per gallon permitted in former rationed areas) at the particular delivery point for the same grade of fuel oil less three-fourths (¾) of a cent per gallon.

(ii) *Maximum tank car prices, f. o. b. shipping points.* A seller's maximum tank car price to consumers f. o. b. any shipping point in the States of Arizona, California, Nevada, Oregon and Washington for P. S. 100 fuel oil and P. S. 200 fuel oil shall be the maximum tank wagon price as determined under section 7.5 (a) (excluding addition permitted in former rationed areas) at the particular shipping point for the same grade of fuel oil less one cent (1¢) per gallon.

[Former subparagraphs (1) and (2) redesignated as (1) (i) and (ii) and new (2) added by Am. 37, 10 F.R. 45397, effective 11-28-45]

(2) *Pressure appliance fuel.* Maximum tank wagon prices exclusive of all taxes of any petroleum fraction sold for use as pressure appliance fuel in the States of Arizona, California, Nevada, Oregon, and Washington shall be as follows:

Quantity	*Amount*
In single lot deliveries of 40 gallons or more.	The reference seller's (as designated in section 7.2) maximum tank wagon price exclusive of all taxes for 73 octane aviation gasoline.
In single lot deliveries of 10 to 39 gallons.	The maximum price for 40 gallons or more plus 8¢ per gallon.
In single lot deliveries of 5 to 9 gallons.	The maximum price for 40 gallons or more plus 6¢ per gallon.
For package deliveries.	Applicable bulk price plus seller's regularly established package differential.

[Paragraph (b) added by Am. 18, 9 F.R. 12530, effective 10-19-44]

(c) *At delivery points within Petroleum Administration for War Districts Nos. 2, 3 and 4—Natural Gasoline*—(1) *On shipments from Petroleum Administration for War Districts 2 and 3.* Except as provided in subparagraph (2) below, on shipments from shipping points within Petroleum Administration for War Districts 2 (except in Kentucky) and 3 to delivery points within Petroleum Administration for War Districts 2, 3 and 4, the maximum delivered-at-destination price of natural gasoline shall be the lower of the following: (i) The sum of the maximum price, as established under Article IV for natural gasoline of the same R. V. P., f. o. b. Oklahoma shipping points, plus the applicable October 1, 1941 rail rate of freight from Tulsa, Oklahoma to the particular destination or (2) the sum of the maximum price, as established under Article IV for natural gasoline of the same R. V. P., f. o. b. shipping points in the Breckenridge, Texas area, plus the applicable October 1, 1941 rail rate of freight from Breckenridge, Texas to the particular destination. An eligible marketer may add ⅛¢ per gallon to his maximum price determined as above.

(2) *At any Texas or Louisiana Gulf Coast port.* The maximum delivered-at-destination price for natural gasoline delivered by pipe line into purchasers' storage facilities from a seller's terminal located at the same or any other Texas or Louisiana Gulf Coast port, shall be the sum of the maximum price established under Article IV for natural gasoline of the same R. V. P., f. o. b. shipping points in the Breckenridge, Texas, area, plus the applicable October 1, 1941 rail rate of freight from Breckenridge, Texas, plus .25¢ per gallon.

(d) *F. o. b. terminals at Texas and Louisiana Gulf Coast Ports; natural gasoline.* Maximum prices for natural gasoline in bulk lots loaded into transportation facilities f. o. b. a seller's terminal located at a Texas or Louisiana Gulf Coast Port shall be the sum of the maximum price established under Article IV for natural gasoline of the same R. V. P., f. o. b. shipping points in the Breckenridge, Texas, area, plus the applicable October 1, 1941 rail rate of freight from Breckenridge, Texas, plus .25¢ per gallon.

[Paragraphs (c) and (d) added by Am. 19, 9 F.R. 12591, effective 10-23-44]

(e) *In the States of Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Dakota and Wisconsin*—(1) *Automotive gasoline.* In the above states (except in the southern peninsula of Michigan) a supplier's maximum delivered-at-destination tank car prices (exclusive of taxes incident to the sale of gasoline) for automotive gasoline of the grades or specifications described below delivered in tank cars and transport trucks shall be as set forth below except that the sum of ⅛ of a cent per gallon may be added by an eligible marketer.

(i) *Tank wagon resellers; contract buyers.* If on October 1, 1941, there was a written contract in effect extending over a period of not less than one year for deliveries by a supplier to a tank wagon reseller, then the particular supplier's maximum delivered-at-destination price to such reseller shall be determined in accordance with the provisions of section 5.2 and Article VI or shall be established pursuant to section 8.3.

(ii) *Consumers and tank wagon resellers.* If (i) is inapplicable any supplier's maximum delivered-at-destination prices (exclusive of taxes incident to the sale of gasoline) shall be

(a) For 78 octane ASTM and above gasoline—to consumers, 6.75¢ (6.25¢ in the State of Indiana and the Metropolitan Chicago Area) per gallon plus the rail rate of transportation as of October 1, 1941 from Tulsa, Oklahoma, to the particular destination; and to tank wagon resellers either the maximum price to consumers or the dealer tank wagon maximum price as of May 1, 1944, for premium grade gasoline at such particular destination less 2.25¢ per gallon, whichever is the lower.

[Paragraph (a) amended by Am. 32, 10 F.R. 11245, effective 9-1-45]

(b) For 72-74 octane ASTM gasoline—to consumers, 6¢ (5.50¢ in the State of Indiana and the Metropolitan Chicago Area) per gallon plus the rail rate of transportation as of October 1, 1941 from Tulsa, Oklahoma to the particular destination; and to tank wagon resellers either the maximum price to consumers or the dealer tank wagon maximum price as of May 1, 1944 for regular grade gasoline at such particular destination, less 2¢ per gallon, whichever is the lower.

(c) For 63-66 octane ASTM gasoline—to consumers, 5.625¢ (5.125¢ in the State of Indiana and the Metropolitan Chicago Area) per gallon plus the rail rate of transportation as of October 1, 1941 from Tulsa, Oklahoma to the particular destination; and to tank wagon resellers the maximum price to consumers or the maximum price for 72-74 octane gasoline as determined in (b) above, less .25¢ per gallon, whichever is the lower.

(d) For 60-62 octane ASTM and below gasoline—to consumers, 5.25¢ (4.75¢ in the State of Indiana and the Metropolitan Chicago Area) per gallon plus the rail rate of transportation as of October 1, 1941 from Tulsa, Oklahoma to the particular destination; and to tank wagon resellers either the maximum price to consumers or the maximum price for 72-74 octane gasoline as determined in (b) above, less .25¢ per gallon, whichever is the lower.

(iii) *Metropolitan Chicago Area, definition of.* Metropolitan Chicago Area as used in this section means the City of Chicago, Illinois, and the areas contiguous thereto within which, with respect to petroleum products, railroad "switching rates" (as distinguished from "through rates") apply from any refinery in Lake, Cook, DuPage and Will Counties in the State of Illinois, and Lake, Porter and LaPorte Counties in the State of Indiana.

(2) *Kerosene.* In the above states (except in the southern peninsula of Michigan) a supplier's maximum delivered-at-destination tank car prices (exclusive of taxes incident to the sale of kerosene) for kerosene delivered in tank cars and transport trucks shall be as set forth below, except that the sum of ⅛ of a cent per gallon may be added by an eligible marketer:

(i) For 41-43 API gravity W. W. kerosene, 4.375¢ (3.875¢ in the State of Indiana) per gallon, plus the rail rate of transportation as of October 1, 1941 from Tulsa, Oklahoma, to the particular destination.

(ii) For 42-44 API gravity W. W. kerosene, 4.5¢ (4¢ in the State of Indiana) per gallon, plus the rail rate of transportation as of October 1, 1941 from Tulsa, Oklahoma, to the particular destination.

(3) *Range, stove, or heater oil, No. 1 prime white distillate (fuel oil), No. 1 straw fuel oil, No. 2 fuel oil and No. 3 fuel oil.* In the above states (except in the southern peninsula of Michigan and in the Metropolitan Chicago Area, as said area is defined in section 5.1 (e) (1) (iii) above), a supplier's maximum delivered-at-destination tank car prices (exclusive of any applicable taxes incident to the sale of such products) for range, stove or heater oil, No. 1 prime white distillate (fuel oil), No. 1 straw fuel oil, No. 2 fuel oil and No. 3 fuel oil delivered in tank cars and transport trucks shall be as set forth below, except that the sum of ⅛ of a cent per gallon may be added by an eligible marketer.

(i) *Tank wagon resellers; contract buyers.* If on October 1, 1941 there was

a written contract in effect extending over a period of not less than one year for deliveries by a supplier to a tank wagon reseller, then the particular supplier's maximum delivered-at-destination price to such reseller shall be determined in accordance with the provisions of section 5.2 and Article VI or shall be established pursuant to section 8.3.

(ii) *Consumers and tank wagon resellers.* If (i) is inapplicable any supplier's maximum delivered-at-destination price for any of the products listed below (exclusive of any applicable taxes incident to the sale but not the transportation of such product) shall be the rail rate of transportation for the product as of October 1, 1941, from Tulsa, Oklahoma, to the particular destination plus the amount designated below for the particular product:

Product	Cents per gallon
Range, stove or heater oil	4.00
No. 1 prime white distillate (fuel oil)	3.875
No. 1 straw fuel oil	3.75
No. 2 fuel oil	3.625
No. 3 fuel oil	3.50

[Subparagraph (3) added by Am. 26, 10 F.R. 3553, effective 4-7-45]

(4) *Diesel fuels and tractor fuels.* In the above states (except in the Southern Peninsula of Michigan and in the Metropolitan Chicago area, as said area is defined in section 5.1 (e) (1) (iii) above), a supplier's maximum delivered-at-destination tank car prices for diesel fuels and tractor fuels, delivered in tank cars or motor transports, of the grades hereinafter referred to shall be as set forth below, except that the sum of .125¢ per gallon may be added by an eligible marketer.

(i) *Tank wagon resellers; contract buyers.* If on October 1, 1941 there was a written contract in effect extending over a period of not less than one year for deliveries by a supplier to a tank wagon reseller, then the particular supplier's maximum delivered-at-destination price to such reseller shall be determined in accordance with the provisions of section 5.2 and Article VI, or shall be established pursuant to section 8.3.

(ii) *Consumers and tank wagon resellers.* If (i) is inapplicable, any supplier's maximum delivered-at-destination price (exclusive of any applicable taxes incident to the sale but not the transportation of such products) for a particular grade of one of the products listed below shall be the applicable rail rate of transportation for the product as of October 1, 1941 from Tulsa, Oklahoma to the particular destination, plus the amount designated below for the particular grade:

DIESEL FUELS [1] (DISTILLATE)

Grade:	Cents per gallon to be added
Diesel Index 56 and above or 50 cetane and above	4.125
Diesel Index 45–55	4.00
Diesel Index 44 and below	3.625

[1] These maximum prices apply only to fuels sold for use in diesel engines.

[Table heading amended by Am. 29, 10 F.R. 8900, effective 7-23-45]

TRACTOR FUELS [1]

Grade:	Cents per gallon to be added
Gasoline type (volatile)	5.00
Distillate type (non-volatile) 40 octane ASTM and above	5.00
Distillate type (non-volatile) 30–39 octane ASTM	4.625

[1] For grades of tractor fuel other than those listed, maximum prices shall be established pursuant to section 8.3 of this regulation.

[Subparagraph (4) added by Am. 27, 10 F.R. 6936, effective 6-13-45]

(5) *Straight run gasoline when sold for use as another product, f. o. b. Michigan shipping points.* The maximum price for straight run gasoline, f. o. b. shipping points within the State of Michigan, when sold for use as either stove and lamp gasoline or naphtha, tractor fuel or charging stock, shall be as established by section 4.20 of this regulation for straight run gasoline when sold as automotive gasoline.

[Subparagraph (5) added by Am. 29, 10 F.R. 8900, effective 7-23-45]

(6) *Aviation gasoline*—(i) *Delivered-at-destination tank car prices.* The maximum delivered-at-destination tank car prices [11] (exclusive of any applicable taxes incident to the sale but not the transportation of such product) to the classes of purchasers named below, for aviation gasoline of a particular grade delivered in tank cars or transport trucks, shall be the amount set forth below for the particular class of purchaser and grade of product, plus the applicable rail rate of transportation as of October 1, 1941 from Tulsa, Oklahoma, to the particular destination: *Provided*, That the maximum price of an eligible marketer shall be .125¢ per gallon higher than the ceilings established for other sellers.

Aviation gasoline: grade—	To Class 1 [1] purchasers	To Class 2 [2] purchasers (cents per gallon)	To Class 3 [3] purchasers
62–65 octane ASTM	7.375	7.50	7.75
73 octane ASTM	7.625	7.75	8.00
80 octane ASTM	7.875	8.25	8.50

[1] Class 1 purchasers are refiners, the United States Government or any agency thereof.
[2] Class 2 purchasers are resellers (except airport dealers) not included in Class 1.
[3] Class 3 purchasers are airport dealers and consumers not included in Class 1.

[Above table amended by Am. 43, effective 4-10-46]

(ii) *Maximum tank wagon prices and related drum prices.* The maximum tank wagon price to dealers in a particular tank wagon area for Grade [12] 73 aviation gasoline, shall be the reference tank wagon seller's normal dealer price for regular grade automotive gasoline for such tank wagon area on October 1, 1941, plus 3.3¢ [13] per gallon. This maximum price is also designated as the "key price" and the maximum tank wagon or related drum [14] prices in a particular tank wagon area for the grades of aviation gasoline by classes of purchaser and levels of sale listed below, shall be the "key price" for the same tank wagon area plus or minus the applicable cents per gallon differential set forth in the following table:

Class of purchaser	Grade 62 or 65		Grade 73		Grade 80	
	Tank wagon	Drum	Tank wagon	Drum	Tank wagon	Drum
Dealer	−1	+2	(1)	+3	+1	+4
Consumer [2]	+1	+4	+2	+5	+3	+6

[1] Key price.
[2] *Discount Provision.* A consumer purchasing a total of 1000 gallons or over at the tank wagon level of aviation gasolines of these grades within a calendar month shall receive a discount below the applicable maximum price of 2¢ per gallon. The full price may be charged during the calendar month in which the deliveries are made, but if the purchaser becomes eligible for the discount, it shall be paid to him within 30 days after the end of the calendar month in which the deliveries were made.

(iii) *Maximum drum prices at certain levels of sale.* The maximum drum prices either delivered-at-destination or f. o. b. shipping point, for the aviation gasolines listed in (i) above, for carload deliveries by rail (or substitutes therefor) on sales to consumers; and for either carload or less carload deliveries by rail (or substitutes therefor) on sales to resellers other than dealers, shall be a maximum price established pursuant to section 8.3.

(iv) *Upon written authorization.* Upon application in writing and for good cause shown a seller at the tank wagon level, other than a refiner, may be authorized by order in writing of the Price Administrator or his duly authorized representative, to determine his maximum tank wagon or drum prices on the

[11] In the Lower Peninsula of the State of Michigan the maximum delivered-at-destination tank car prices to Class 2 purchasers shall be the lower of the following: The price determined above for a particular grade, or for 62–65 octane, the dealer tank wagon ceiling for grade 62 or 65 less 2.75¢ per gallon; for 73 octane, the dealer tank wagon ceiling for grade 73, less 3.5¢ per gallon; for 80 octane, the dealer tank wagon ceiling; for grade 80 less 4.0¢ per gallon.

[12] Grade refers to a gasoline meeting the prevailing industry and consumer specifications for aviation gasoline which is sold for use in aircraft engines or for special testing purposes and which has an ASTM octane number not lower than the designated grade number under which the particular grade is sold.

[Footnote 12 amended by Am. 4, 9 F.R. 3849, effective 4-14-44 and Am. 11, 9 F.R. 7137, effective 7-1-44]

[13] Except that 3.8¢ per gallon shall be added in lieu of 3.3¢ per gallon in the Chicago area where the reference tank wagon seller's normal dealer tank wagon price for regular grade automotive gasoline was 9.9¢ per gallon on October 1, 1941; and except in the Lower Peninsula of the State of Michigan where 4.8¢ per gallon shall be added in lieu of 3.3¢ per gallon; and except in the State of Indiana where 3.7¢ per gallon shall be added in lieu of 3.3¢ per gallon.

[14] Applies to all drum sales except those for which ceilings shall be established as directed in (iii) below.

basis of prices his records show he charged in the base period.

[Subparagraph (6) added by Am. 31, 10 F.R. 10434, effective 8-29-45]

[Paragraph (e) added by Am. 23, 9 F.R. 14944, effective 12-28-44 and amended as otherwise noted]

(f) *In the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware Maryland, Virginia, West Virginia, North Carolina, South Carolina, and in the District of Columbia; maximum prices of Nos. 2, 3 and 4 fuel oil.* Within the above states and in the District of Columbia, any seller's maximum per gallon tank wagon price for Nos. 2, 3 and 4 distillate fuel oils at a particular point shall be his maximum per gallon tank wagon price as determined under section 5.2 (c) of this regulation for single lot deliveries of 150 gallons or more of the product of the same grade at the same point.

[Paragraph (f), formerly 5.2 (d), amended by Am. 3, 9 F.R. 3230, effective 2-19-44; redesignated by Am. 23, effective 12-28-44]

(g) *Within the State of Louisiana; tractor fuel (gasoline type).* A seller's maximum price for gasoline type tractor fuel [15] at any shipping or delivery point within the State of Louisiana shall be his maximum price, as determined under Article V, for distillate type tractor fuel,[16] plus 0.25¢ per gallon.

[Paragraph (g) added by Am. 25, 10 F.R. 2080, effective 2-26-45]

(h) *At any shipping or delivery point—Blending naphtha*—(1) *At any shipping point.* A seller's maximum price (or prices) f. o. b. any shipping point for blending naphtha loaded into tank cars or transport trucks shall be the same as his maximum price (or prices) for automotive gasoline of the same ASTM octane number. If, in the case of sales of automotive gasoline f. o. b. a particular shipping point, price distinctions, dependent on ultimate destination or the seller's customary pricing practice, are required by the regulation, the same price distinctions shall be required on sales of blending naphtha f. o. b. the same shipping point.

(2) *At any delivery point.* A seller's maximum delivered-at-destination tank car price for any blending naphtha delivered in tank cars, transport trucks shall be the sum of his maximum shipping point price to the same purchaser, as determined under subparagraph (1) above or as established under section 8.3, plus the cost of transportation [17] to the particular destination.

[Paragraph (h) added by Am. 27, 10 F.R. 6936, effective 6-13-45]

(j) *Maximum prices for 75–76 Octane ASTM gasoline under certain conditions.* Where a seller's maximum price for automotive gasolines was established under the description of an octane rating rather than under trade terms such as "regular grade," "housebrands," or "second structure," his maximum price for 75–76 ASTM octane automotive gasoline shall be the same as his maximum price for 72–74 octane ASTM gasoline. Principally, this will be applicable to sellers whose maximum prices for gasolines are established under Article IV and in some cases under sections 5.1 (e), 5.2 and 8.3.

[Paragraph (j) added by Am. 32, 10 F.R. 11245, 11748, effective 9-1-45; amended by Am. 33, 10 F.R. 12082, effective 9-1-45]

SEC. 5.2 *In accordance with price charged on specified sales in a base period*—(a) *Definition of sale.* The term "sale" as used in section 5.2 shall include (1) Sales and contracts of sale made during the period specified, (2) Deliveries made during the period specified under a contract made prior thereto, if the prices chargeable under such contract were adjustable to reflect market conditions during the said period, and (3) Deliveries to tank wagon resellers during the period specified under a contract made prior thereto if said contract provided for varying the price to the reseller in accordance with a stipulated posted or market price (or prices) at the point or points where such buyer resells.

(b) *Definition of purchaser of the same class.* "Purchaser of the same class", as used in sections 5.2 and 5.3, refers to the practice adopted by the seller in setting different prices for a commodity for sales to purchasers performing different functions (for example, refiner; jobber; distributor; commercial, industrial or private consumer; service station tank car dealer; divided or undivided tank wagon dealer; etc.), or for purchasers performing the same function but located in different areas or buying in different quantities or grades or under different conditions of sale. Price is prima facie evidence but not conclusive evidence to be considered in determining if a purchaser belongs to a particular class; however, a lower price to a particular purchaser which was to meet competition and otherwise was inconsistent with the seller's practice in setting the same price to the particular purchaser and one or more other purchasers, shall neither result in placing the particular purchaser in a lower price class nor be considered in determining a seller's maximum price.

(c) *Maximum prices of fuel oil,[18] fuels, gasoline and liquefied petroleum gas.* Where the maximum price for fuel oil, fuel, liquefied petroleum gas, or gasoline (other than 68–70 Octane ASTM gasoline) at a given shipping or delivery point cannot be determined under section 5.1 the maximum price for each seller at such shipping or delivery point shall not exceed the price charged at that point by him on the last sale of the same product to a purchaser of the same class within 60 days prior to October 15, 1941. Where the product is sold on a delivered basis at a given point the maximum price shall be the price charged by the seller on the last sale of the same product to a purchaser of the same class made on a delivered basis at that point in the period specified. Where the product is sold at a given point on an f. o. b. shipping point basis the maximum price shall be the price charged by the seller on the last f. o. b. shipping point sale at that point to a purchaser of the same class in the period specified.

[Paragraph (c) amended by Am. 16, 9 F.R. 9896, effective 8-15-44; and Am. 23, effective 12-28-44]

(e) [Revoked]

[Paragraph (e) revoked by Am. 1, 9 F.R. 2405, effective 2-28-44]

SEC. 5.3 *In accordance with the maximum price of another seller at the same point.* When a seller's maximum price at a given shipping point for any petroleum product covered by this regulation cannot be determined under section 5.1 or 5.2, his maximum price at the particular shipping point shall be the highest maximum price determined under section 5.2 for the same shipping point of any seller of the same class to a purchaser of the same class. When a seller's maximum price at a given delivery point for any such petroleum product cannot be determined under section 5.1 or 5.2, his maximum price at the particular delivery point shall be the highest maximum delivered price determined under section 5.2 for the same delivery point of a seller of the same class to a purchaser of the same class. However, a method of determining a maximum price at a particular shipping or delivery point, as set forth above in this section, may not be used by a seller unless: (1) prior to September 1, 1944 he had actually sold and delivered the same product at the same point to a purchaser of the same class; (2) the seller's records show that for the purpose of such sale he had adopted, as his maximum price, the price of another seller of the same class at the same point and (3) the adopted price was a maximum price, properly determined under section 5.2, to a purchaser of the same class.

[Sec. 5.3 amended by Am. 11, 9 F.R. 7137, effective 7-1-44; Am. 20, 9 F.R. 13522, effective 11-15-44; and Am. 23, 9 F.R. 14944, effective 12-28-44]

[15] For the purposes of this section, gasoline type tractor fuel means a petroleum product sold for use in tractor engines which has a distillation range as follows:
The initial boiling point shall not be below 170° F. nor above 220° F.
The 20% recovery point shall not be below 250° F. nor above 300° F.
The 50% recovery point shall not be below 330° F. nor above 380° F.
The 90% recovery point shall not be below 430° F. nor above 480° F.
The end point shall not be below 500° F. nor above 540° F.

[16] For the purpose of this section distillate type tractor fuel means a petroleum product sold for use in tractor engines which has a minimum flash point of 115° F. (Tag. closed cup).

[17] On deliveries in Petroleum Administration for War District No. 1 the cost of transportation means the net cost after allowing for that portion of the transportation cost which is compensated for by the Defense Supplies Corporation.

[18] Except waste or re-refined lubricating oil when either is sold for use as fuel oil.

[Secs. 5.4 and 5.5 added by Am. 15, 9 F.R. 10046, effective 8–22–44; amended by Am. 20, 9 F.R. 13522, effective 11–15–44; revoked by Am. 23, 9 F.R. 14944, effective 12–28–44]

ARTICLE VI—INCREASES OR REDUCTIONS TO MAXIMUM PRICES DETERMINED UNDER ARTICLE V OR ESTABLISHED UNDER ARTICLE VIII

[Article heading amended by Am. 17, 9 F.R. 10639, effective 9–1–44]

SEC. 6.1. *On any product covered by this regulation—(a) On sales to government agencies pursuant to public bidding.* (1) If a maximum price is not established at a particular shipping or delivery point under Articles II, III, or IV, then, on a sale to a governmental agency, made pursuant to open and public bidding, a seller may charge either his own maximum price or that of such other bidder, who, among the participants in the same bidding, has the highest maximum price at the particular shipping or delivery point for the same product sold to the same purchaser.

(2) Each bidder whose maximum price is not established under Articles II, III or IV must attach to his bid his own maximum price but may bid any amount in excess thereof. However, on proposed sales at the tank wagon level of a grade of a product for which there are reference seller maximum prices pursuant to Article VII, the bidder need not attach his maximum price.

[Subparagraph (2) amended by Am. 23, 9 F.R. 14944, effective 12–28–44]

[Paragraph (a) amended by Am. 3, 9 F.R. 3230, effective 2–19–44; and Am. 20, 9 F.R. 13522, effective 11–15–44]

SEC. 6.2 *On sales of fuel oil, generally—(a) On tank wagon deliveries in rationed areas prior to August 15, 1945.* In any area where fuel oil rationing was, prior to August 15, 1945, required by the United States Government, or any Agency thereof, the sum of .3¢ per gallon may be added to a maximum price determined under Article V for tank wagon deliveries of any fuel oil or heating oil including, but not limited to, kerosene, range oil, Nos. 1, 2, 3, 4, 5, and 6 fuel oil, Diesel oil and gas oil.

(b) On container deliveries in areas where fuel oil rationing was required prior to August 15, 1945 by the United States Government, or any Agency thereof, the sum of 0.3¢ per gallon when delivery is made in single lots of 260 gallons, or less, may be added to a maximum price determined under Article V for container deliveries of any fuel oil or heating oil including, but not limited to kerosene, range oil, Nos. 1, 2, 3, 4, 5, and 6 fuel oil, Diesel oil and gas oil.

[Paragraphs (a) and (b) amended by Am. 32, 10 F.R. 11245, effective 9–1–45; and Am. 36, 10 F.R. 13494, effective 11–1–45]

(c) *In connection with free oil burner service.* Where a seller of fuel oil of Grade No. 5 or lighter was required prior to September 23, 1943 to furnish oil burner maintenance and repair services without charge in connection with the sale of such fuel oil, such seller may discontinue the giving of such free service without reducing his price for fuel oil below his maximum price as established or determined under other provisions of this price schedule. The maximum price for all sales of oil burner maintenance and repair services shall be determined in accordance with Supplementary Service Regulation No. 19.[19]

(d) *In the States of Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Dakota and Wisconsin.—(1) On delivered-at-destination sales at the tank car level to certain tank wagon resellers.* If, for the sale of a particular grade of kerosene or fuel oil, there was a contract in effect on October 1, 1941, between a supplier and a tank wagon reseller; and if such contract provided for varying the supplier's price to the reseller on the basis of the tank wagon price at the delivery point; and if the maximum tank wagon price at such delivery point is increased by the provisions of either section 7.4 or Article II, then the supplier's maximum price at the particular delivery point to the particular reseller shall be as determined below or as determined under section 5.2, whichever price shall be higher. In computing, as set forth below, the supplier's maximum price, the maximum tank wagon price used in any computation therein shall be regarded as .3 of a cent less than the actual maximum price of the tank wagon reseller.

(a) If the maximum tank wagon price at the delivery point is increased to the normal tank wagon price posted for such point by the reference seller on October 1, 1941, then the supplier may charge the reseller the highest price that he could have charged him under the terms of the contract on October 1, 1941, had the tank wagon price at the delivery point then been normal.

(b) If the maximum tank wagon price at the delivery point is increased, toward but not to the normal tank wagon price posted for such point by the reference seller on October 1, 1941, then the supplier's maximum price shall be a price which is equal to the adjusted maximum tank wagon price less the margin which would have been provided on October 1, 1941 by the terms of the contract had the tank wagon price at the delivery point then been normal.

(2) *On f. o. b. shipping point sales to certain tank wagon resellers.* If on October 1, 1941 there was a contract in effect for the sale of a particular grade of kerosene or fuel oil by a supplier to a tank wagon reseller; and if such contract provided for varying the supplier's f. o. b. shipping point price on the basis of the tank wagon price at a stipulated point; and if the maximum tank wagon price at such point is increased by section 7.4 or Article II, then, by application in writing to the Administrator, the supplier may apply for a written order increasing his maximum price, as determined under section 5.2, to the particular reseller. The tank wagon price to be used by the Administrator in any determination hereunder shall be .3 of a cent less than the actual maximum price of the tank wagon reseller.

[Paragraph (d) amended by Am. 26, 10 F.R. 3553, effective 4–7–45; and Am. 27, 10 F.R. 6936, effective 6–13–45]

SEC. 6.3 *On sales of kerosene, light middle distillates and medium middle distillates—(a) In the Eastern Seaboard area.—(1) Within the area, generally; at all selling levels—(i) Increases to maximum prices determined under Article V.* Within the States or portions thereof listed below the amount designated below may be added to a maximum price determined under Article V for any distillate or distillate type fuel or fuel oil having a viscosity below 85 Seconds Saybolt Universal (100° F.) including but not limited to the following: kerosene, No. 1 fuel oil and range oil, tractor fuel, gas house oils, distillate Diesel fuels, Nos. 2, 3 and 4 fuel oils, standard light gas oils, and Mirando and Mirando type crude oil when sold as No. 4 fuel oil or for other distillate fuel oil use.

(2) *Within Schedule "D" area of Zone 6 of Petroleum Administration for War District One.* On sales f. o. b. refineries and terminals within Schedule "D" area of Zone 6, as defined in section 1.14 (n) of this regulation, for shipment to ultimate destinations in Petroleum Administration for War District One outside of such Schedule "D" area, the maximum price for gasoline shall be the maximum price as determined under Article V. If a seller's maximum price for a sale as described above was established prior to December 1, 1943 under § 1340.159 (b) (7) of Revised Price Schedule No. 88 then his maximum price shall be his said maximum price prior to December 1, 1943 less 1.2¢ per gallon.

(b) *In the Territory of Puerto Rico: at all selling levels.* In the Territory of Puerto Rico on deliveries to all purchasers other than the United States Government, its agencies or instrumentalities, when purchased for their exclusive use, the sum of 3¢ per gallon may be added to a maximum price determined under Article V for deliveries of gasoline.

[Paragraph (b) amended by Am. 8, 9 F.R. 4686, effective 5–8–44; Am. 32, 10 F.R. 11245, 11748, effective 9–1–45, and Am. 33, 10 F.R. 12082, effective 9–1–45]

(c) *In the States of Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Dakota and Wisconsin—(1) On delivered-at-destination sales at the tank car level to certain tank wagon or service station resellers.* If, for the sale of a particular grade of gasoline there was a contract in effect on October 1, 1941 between a supplier and either a tank wagon or service station reseller; and if such contract provided for varying the supplier's price to the reseller on the basis of the tank wagon price at the delivery point; and if the maximum tank wagon price at such delivery point is increased by the provisions of either section 7.4 or Article IV, then the supplier's maximum price at the particular delivery point to the particular reseller shall be as determined below or as determined under section 5.2, whichever price shall be higher.

(i) If the maximum tank wagon price at the delivery point is increased to the normal tank wagon price posted for such point by the reference seller on October 1, 1941, then the supplier may charge the reseller the highest price that he could have charged him under the terms of the contract on October 1, 1941, had the tank wagon price at the delivery point then been normal.

(ii) If the maximum tank wagon price at the delivery point is increased toward but not to the normal tank wagon price posted for such point by the reference seller on October 1, 1941, then the supplier's maximum price shall be a price which is equal to the adjusted maximum tank wagon price less the margin which would have been provided on October 1, 1941 by the terms of the contract had the tank wagon price at the delivery point then been normal.

(2) *On f. o. b. shipping point sales to certain tank wagon or service station resellers.* If on October 1, 1941 there was a contract in effect for the sale of a particular grade of gasoline by a supplier to a tank wagon or service station reseller; and if such contract provided for varying the supplier's f. o. b. shipping point price on the basis of the tank wagon price at a stipulated point; and if the maximum tank wagon price at such point is increased by section 7.4 or Article IV, then, by application in writing to the Administrator, the supplier may apply for a written order increasing his maximum price, as determined under section 5.2, to the particular reseller.

[Paragraph (c) amended by Am. 11, 9 F.R. 7137, effective 7–1–44; Am. 21, 9 F.R. 14064, effective 12–2–44; Am. 26, 10 F.R. 3553, effective 4–7–45; and Am. 27, 10 F.R. 6936, effective 6–13–45]

(d) *In certain Maryland and Virginia communities—On tank wagon deliveries.* Effective as of February 19, 1944, on tank wagon deliveries of gasoline in those communities of Maryland and Virginia, where immediately prior to January 1, 1942, tank wagon sellers were absorbing part of the state gasoline taxes in order to avoid wide differences between the total selling prices in such communities and those in Washington, D. C., there may be added to a maximum price determined under section 5.2 a sum equal to the amount of tax absorbed or .5¢ per gallon, whichever is lower.

[Paragraph (d) added by Am. 6, 9 F.R. 4395, effective 4–29–44]

(e) *Throughout the United States—(1) Increases to maximum prices determined under Article VIII for automotive gasoline.* The sum of .125¢ per gallon shall be added to maximum prices except tank wagon maximum prices and except delivered-at-destination drum lots delivered maximum prices determined under Article VIII on or after August 15, 1944, for 70–74 octane ASTM gasoline, regular, housebrand, second structure or any automotive gasoline sold under any designation which is covered by the foregoing specifications and/or designations.

[Paragraph (e) added by Am. 33, 10 F.R. 12062, effective 9–1–45. Former (e) added by Am. 16, 9 F.R. 9896, effective 8–15–44; amended by Am. 20, 9 F.R. 13522, effective 11–15–44; and Am. 23, 9 F.R. 14944 effective 12–28–44; revoked by Am. 32, 10 F.R. 11245, 11748, effective 9–1–45]

SEC. 6.6 *On sales of liquefied petroleum gas—(a) In the Territory of Hawaii—on sales in packages.* At any particular delivery or shipping point in the Territory of Hawaii, the sum of .5 of a cent per pound may be added to a maximum price determined under section 5.2 for liquefied petroleum gas when sold in packages.

SEC. 7.3 *Consumers tank wagon prices—(a) In the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut and New York—Use of reference seller's maximum prices required.* Where deliveries are made within the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut and New York, any seller's maximum price for tank wagon and returnable steel barrel deliveries of motor gasoline to a consumer of any class other than a Governmental agency shall be as follows:

(1) For tank wagon deliveries in single lots of 200 gallons or more to a purchaser whose semi-annual requirements, as hereinafter defined, for bulk delivery are:

(i) 10,000 gallons and up to 60,000 gallons the maximum commercial consumer's tank wagon price, as determined under other provisions of this price regulation, of the reference tank wagon seller.

(ii) Under 10,000 gallons one-half cent (½¢) per gallon in addition to the maximum price established under (i).

(iii) 60,000 gallons or more one-quarter cent (¼¢) per gallon less than the maximum price established under (i).

(2) For tank wagon deliveries in single lots of less than 200 gallons, one cent (1.0¢) per gallon in addition to the maximum price to the same purchaser as established under (1).

(3) For returnable steel barrel deliveries, three cents (3¢) per gallon in addition to the maximum price to the same purchaser as established under (1).

(b) *In the States of New Jersey, Pennsylvania, Delaware, Maryland, Virginia and the District of Columbia—Use of reference seller's maximum price required.* Where deliveries are made within the States of New Jersey, Pennsylvania, Delaware, Maryland, Virginia, and the District of Columbia, any seller's maximum price for tank wagon and returnable steel barrel deliveries of motor gasoline to a consumer of any class other than a governmental agency shall be as follows:

(1) For tank wagon deliveries in single lots of 200 gallons or more to a purchaser whose semi-annual requirements for all grades of motor gasoline as hereafter defined for bulk delivery are:

(i) Under 60,000 gallons, the maximum commercial consumer's tank wagon price of the reference seller for the particular grade of gasoline in the tank wagon area of the reference seller where delivery is made, as such price is determined under other provisions of this price regulation.

(ii) 60,000 gallons and more, the maximum price as established under (i) less ¾ of a cent per gallon or the maximum price as established under (i) less an amount equal to the largest difference, if any, per gallon, between the net price charged and the undivided dealer tank wagon price of the reference seller for such grade of gasoline on any tank wagon delivery to the purchaser from any supplier during March 1941, in such area, whichever price is higher.

(2) For tank wagon deliveries in single lots of less than 200 gallons, one cent (1.0¢) per gallon in addition to the maximum price to the same purchaser as established under (1).

(3) For returnable steel barrel deliveries, two cents (2.0¢) per gallon in addition to the maximum price to the same purchaser as established under (1).

(c) *Method of determining a consumer's semi-annual requirements.* For the purposes of section 7.3 on and after January 1, 1946, a consumer's semi-annual requirements of motor gasoline for bulk delivery only, shall be the seller's best estimate of such consumer's requirements as of January 1 for the first six months of any calendar year, and as of July 1 for the second six months of any calendar year.

[Paragraph (c) amended by Am. 39, 10 F.R. 11634, effective 1–14–46]

SEC. 7.4 *In the States of Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Dakota and Wisconsin*—(a)

When use of reference seller's maximum tank wagon price is required. Except as provided in (b) below a seller's maximum tank wagon price for a particular grade of automotive gasoline, stove and lamp naphtha, kerosene, range, stove or heater oil, distillate fuel, diesel fuel or tractor fuel [21] at a particular point in any of the States of Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Dakota or Wisconsin shall be either (1) the reference tank wagon seller's normal price as posted on October 1, 1941, for the same point, except that in the case of the tank wagon deliveries of kerosene and fuel oils the sum of .3¢ per gallon may be added or (2) said reference seller's maximum tank wagon price for such product at the same point as determined under Articles V and VI plus .7 of a cent per gallon whichever results in the lower price.[22]

If the reference seller has no maximum price at a particular point for a particular grade of any of the products named above, then the tank wagon seller's maximum price shall be the maximum price as determined or established under other provisions of this regulation.

[Paragraph (a) amended by Am. 23, effective 12–28–44; Am. 24, 10 F. R. 739, effective 1–23–45; Am. 27, 10 F.R. 6936, effective 6–13–45; Am. 28, 10 F.R. 7195, effective 6–13–45; Am. 32, 10 F.R. 11245, effective 9–1–45; Am. 33, 10 F.R. 12082, 12554, effective 9–1–45; and Am. 36, 10 F.R. 13494 effective 11–1–45]

[21] For the purpose of section 7.4 (a) distillate type (non-volatile) tractor fuel of 40 octane ASTM and above and of 30–39 octane ASTM are to be considered the same grade of tractor fuel

[22] For deliveries of 100 gallons and over of Stanolind High-Speed Diesel fuel or any Diesel fuel of the same grade, deduct 1¢ per gallon.

(b) *When use of reference seller's maximum tank wagon price is not required*—(1) *For tractor fuel.* At any point covered by paragraph (a) above, a seller's maximum tank wagon price for tractor fuel shall be either as determined under such paragraph (a) or as determined under other provisions of the regulation, whichever is higher.

(2) *Upon written authorization.* Upon application in writing and for good cause shown, a seller may be authorized by order in writing of the Price Administrator or his duly authorized representative to determine his maximum tank wagon price under section 5.2 instead of under paragraph (a) above.

[Sec. 7.4 amended by Am. 20, 9 F.R. 13522, effective 11-15-44]

SEC. 7.5 *In the States of Arizona, California, Nevada, Oregon, and Washington*—(a) *When reference seller's maximum tank wagon prices are required.* Except as provided in paragraphs (b) and (c) below, a seller's maximum tank wagon price or prices at a particular delivery point in the States of Arizona, California, Nevada, Oregon, Washington, and the territory of Hawaii for 80 and 73 Octane ASTM aviation gasoline, first structure (premium grade), second structure (regular grade) and third structure (third grade) gasoline to service station dealers; [32] and for regular grade kerosene to dealers at retail establishments and to domestic consumers; and for P. S. 100 fuel oil and P. S. 200 fuel oil to all classes of purchasers, shall be the reference seller's posted price as of October 14, 1941 for the same grade of the particular product at the particular delivery point plus, in the case of tank wagon deliveries of kerosene and fuel oil in Washington and Oregon, the sum of .3¢ per gallon.

[Paragraph (a) amended by Am. 27, 10 F.R. 6936, effective 6-13-45; Am. 29, 10 F.R. 8900, effective 7-23-45; Am. 31, 10 F.R. 10434, effective 8-29-45; Am. 32, 10 F.R. 11245, effective 9-1-45; and Am. 36, 10 F.R. 13494, effective 11-1-45]

(b) *Maximum tank wagon prices on sales of gasoline [33] and kerosene to the United States, Armed Forces, Foreign Economic Administration and Federal agencies making purchases under T. P. S. contracts.* On all sales to the United States Armed Forces, the Foreign Economic Administration and Federal agencies making purchases under T. P. S. contracts, any seller's maximum tank wagon price for a particular grade of automotive gasoline or kerosene shall be as determined under paragraph (a) above less the following deductions:

	Cents per gallon
First structure (premium grade) gasoline	4.0
Second structure (regular grade) gasoline	3.0
Third structure (third grade) gasoline	2.0
Kerosene	3.0

Provided, however, That maximum prices shall be established under section 8.3 for deliveries under T. P. S. contracts entered into on a zone basis for the fourth quarter of 1944.

[Sec. 7.5 added; former 7.5 redesignated 7.6 by Am. 18, 9 F.R. 12530, effective 10-19-44]

SEC. 7.6. *In States other than those covered by sections 7.4 and 7.5. Use of Reference Seller's Maximum Prices Optional.* A seller's maximum tank wagon price in States other than those named in sections 7.4 and 7.5 for a particular grade of automotive gasoline, stove and lamp naphtha, kerosene, range or stove oil, distillate fuel oils, tractor and Diesel fuel, shall be his maximum price as determined or established under other provisions of the Regulation, or the reference tank wagon seller's maximum price for the same grade at the same point, whichever is higher.

[Sec. 7.6 amended by Am. 18; Am. 24, 10 F.R. 739, effective 1-23-45 and Am. 30, 10 F.R. 9585, effective 8-1-45]

ARTICLE VIII—MAXIMUM PRICES TO BE ESTABLISHED UPON APPLICATION

SEC. 8.1 *Continuing effectiveness of certain maximum prices heretofore approved under § 1340.159 (b) (7) or (b) (16) of Revised Price Schedule No. 88.* If a maximum price for a product at a given shipping or delivery point cannot be established under any preceding article of this regulation and if a maximum price for the product at the particular point was heretofore approved for the seller under § 1340.159 (b) (16) or § 1340.159 (b) (7) of Revised Price Schedule No. 88, then such approval shall be deemed to continue in full force and effect as if granted under section 8.2 or 8.3 below.

SEC. 8.2 *For waste or re-refined lubricating oil sold for use as fuel oil.* When waste lubricating oil or re-refined lubricating oil is sold for use as fuel oil, a seller may not charge and a buyer may not pay a price therefor until a maximum price has been approved in writing by the Office of Price Administration. Applications for such approval must be made in writing to the Petroleum Branch of the Office of Price Administration, Washington, D. C., and shall contain the same information as is required for an application under section 8.3 below.

[Sec. 8.2 amended by Am. 4, 9 F.R. 3840, effective 4-14-44 and Am. 11, 9 F.R. 7137, effective 7-1-44]

SEC. 8.3 *For all other products covered by this regulation.* (a) If under any preceding section of this regulation a seller is unable to determine the maximum price at a given shipping or delivery point for any product covered by this regulation then the seller may nevertheless make a sale of such product at the said point or may notify the Office of Price Administration in writing that he has set a tentative maximum price for the product at the said shipping or delivery point. In giving notice of the setting of such tentative maximum price or within 15 days of the making of the said sale, the seller shall file with the Petroleum Branch of the Office of Price Administration, Washington, D. C., a written request for the approval of either the tentative or sale price and together with such request a statement setting forth:

(1) Such tentative or sale price and in the latter case, full details of the sale;

(2) An explanation as to why it is impossible for the seller to establish a selling price under preceding articles of this regulation;

(3) Whenever applicable that the price set or charged by him is in line with the level of maximum prices for the three most closely competitive sellers of his same class and his own maximum price for the same product at three other points nearest the point at which the tentative price is set;

(4) Whenever subparagraph (3) is not applicable, an explanation, supplemented by specifications as to how the particular product differs from the two products having the most nearly similar specifications for which maximum prices are established under preceding articles of this schedule, the maximum prices of such products and a statement showing a computation of the cost to the seller [34] of the particular product and how that differs from the cost to him of the two products having the most nearly similar specifications.

Such tentative or sale price shall be the seller's maximum price at the particular shipping point or delivery point for the particular product until the said price is disapproved in writing by the Office of Price Administration or until the seller is notified in writing that a substitute maximum price has been set by the Office of Price Administration. Either an approved tentative or sale price or a substitute maximum price set by the Office of Price Administration may be replaced by another maximum price upon written notice to the seller from the Office of Price Administration.

(b) If a seller shall fail to report a sale as required by paragraph (a) above the Office of Price Administration may at any time upon written notice to the seller establish his maximum price for the particular product at the particular point effective retroactively to a date 15 days after the making of the said sale.

ARTICLE IX—TEMPORARY INCREASES

SEC. 9.1 *Kerosene, range oil, stove oil, Nos. 1, 2, 3 and 4 distillate fuel oil (including distillate diesel fuels and distillate gas oils) light and heavy tractor fuel and PS 100 and PS 200 fuel oil.*—(a) *PAW Districts I, II, III and IV, Puerto Rico and the Virgin Islands.* Notwithstanding other provisions of this regulation maximum prices determined or established on an f. o. b. or delivered price basis in PAW Districts I, II, III and IV and the territories of Puerto Rico and the Virgin Islands at all levels of sale for kerosene, range oil, stove oil, Nos. 1, 2, 3, and 4 distillate fuel oil (including distillate diesel fuels and distillate gas oils), and light and heavy tractor fuel shall be the maximum price as determined or established under other provisions of this regulation plus .5¢ per gallon. Section 9.1 (a) shall not apply to any maximum price established or determined under section 8.3 on and after March 18, 1946.

(b) *PAW District V.* Notwithstanding other provisions of this regulation maximum prices determined or established on an f. o. b. or a delivered price basis in PAW District V at all levels of sale for kerosene and PS 100 and PS 200 fuel oil shall be the maximum price as determined or established under other sections of this regulation plus .75¢ per gallon. Section 9.1 (b) shall not apply to any maximum price established or determined under section 8.3 on and after March 18, 1946.

[Sec. 9.1 amended by Am. 39, 10 F.R. 11634; effective 1-14-46; Am. 40, 11 F.R. 995, effective 1-24-46; Am. 41, 11 F.R. 1887, effective 2-20-46 and Am. 42, 11 F.R. 2090 effective 3-18-46]

SEC. 9.2 *Nos. 4, 5, and 6 residual fuel oil, gas enrichment oil, heavy diesel oil, Navy special fuel oil, bunker "C" fuel oil, PS 300 and PS 400 fuel oil.*—(a) *PAW Districts I, II, III and IV, Puerto Rico, and the Virgin Islands.* Notwithstanding other provisions of this regulation maximum prices determined or established on an f. o. b. or delivered price basis in PAW Districts I, II, III and IV, and the territories of Puerto Rico and the Virgin Islands at all levels of sale for Nos. 4, 5, and 6 residual fuel oil, gas enrichment oil, heavy diesel oil, Navy special fuel oil, bunker "C" fuel oil, shall be the maximum price as determined or established under other sections of this regulation plus 21¢ per barrel. Section 9.2 (a) shall not apply to maximum prices established by individual letter order for sales to the United States Navy of Navy special fuel oil, No. 6 residual fuel oil, or Grade 2 Navy fuel oil and shall not apply to any maximum price established or determined under section 8.3 on and after March 18, 1946.

(b) *PAW District V.* Notwithstanding other provisions of this regulation maximum prices determined or established on an f. o. b. or delivered price basis at all levels of sale for gas enrichment oil, heavy diesel oil, Navy special fuel oil, bunker "C" fuel oil, PS 300 and PS 400 fuel oil shall be the price as determined or established under other sections of this regulation plus 15¢ per barrel. Section 9.2 (b) shall not apply to maximum prices established by individual letter order for sales to the United States Navy of Navy special fuel oil, No. 6 residual fuel oil, or Grade 2 Navy fuel oil and shall not apply to any maximum price established or determined under section 8.3 on and after March 18, 1946.

[Sec. 9.2 added by Am. 42, 11 F.R. 2990, effective 3-18-46. Former 9.2 amended by Am. 39, 10 F.R. 11634, effective 1-14-46 and revoked by Am. 40, 11 F.R. 995, effective 1-24-46]

[Article IX added by Am. 38, 10 F.R. 15266, effective 12-19-45]

Effective date. This regulation shall become effective February 19, 1944, as to the 48 states and the District of Columbia and April 4, 1944, as to the territories and possessions, except the Panama Canal Zone. [MPR 88 originally issued February 14, 1944]

[NOTE: Effective dates of amendments are shown in notes following the parts affected]

NOTE: All reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 5th day of April 1946.

ARTICLE I—SCOPE AND PROHIBITIONS OF THE REGULATION

SECTION 1. *Scope*—(a) *Commodities and transactions.* Except as provided in the next section 2, this regulation establishes maximum prices for all sales, rentals and leases of unused or second-hand products that fall within the groups listed in Appendix A. Note that this regulation applies to sales to governmental, as well as non-governmental, purchasers. Thus, a product which falls within the groups listed in Appendix A is covered by this regulation, even if it is made only for military purposes and is sold to an agency of the United States.

(b) *Geographical applicability.* This regulation applies in the forty-eight states of the United States, in the District of Columbia, and in the territories and possessions of the United States.

SEC. 2. *Exclusions*—(a) *Commodities.* Any sales, leases or rentals of the following:

NOTE: This paragraph only deals with commodities which are covered by regulations which are superseded by this regulation. For commodities covered by other regulations see section 3 (Relationship to other regulations). Unless otherwise indicated, maximum prices for the commodities listed below are established by another regulation.

(1) Diamond dies and diamond tools. Sales of diamond dies under .002" are exempted from price control by Revised Supplementary Regulation 1 to the General Maximum Price Regulation.

(2) Instrument jewel bearings. Sales of these bearings are exempted from price control by Revised Supplementary Regulation 1 to the General Maximum Price Regulation.

(3) Nonferrous forgings.

(4) Pipe and tube fittings, except those made of glass.

(5) Refrigeration controls.

(6) Valves.

(7) Bicycle accessories and parts.

(8) Fountain pen and mechanical pencil parts.

(9) Inner-constructions for sofa beds, studio couches and other upholstered dual purpose sleeping equipment.

(10) Mica parts.

(11) Parts (except electrical) for portable lamps, lamp shades and residential lighting fixtures.

(12) Parts and accessories of musical instruments, including toy and novelty musical instruments.

(13) Radio cabinets.

(14) Radio receiver tubes covered by section 3.3 of Supplementary Regulation 14J to the General Maximum Price Regulation. Note that this exclusion does not apply to sales by manufacturers. Sales of these radio receiver tubes by manufacturers are covered by this regulation.

(15) Refrigerator cabinets.

(16) Watch and clock parts, except springs.

[Subparagraphs (7) through (16), inclusive, added by Am. 5, 10 F.R. 7682, effective 6-30-45]

(17) Porcelain covered steel table tops.

[Subparagraph (17) added by Am. 10, 10 F.R. 10436, effective 8-24-45]

(b) *Certain leases.* Any leases or rentals of the following:

(1) Public address systems.

(2) Electric storage batteries.

(3) Surveying and drafting instruments, and engineering reproduction equipment.

NOTE: Maximum prices for these leases and rentals are established by Revised Maximum Price Regulation 165 (Services).

(c) *Installation or erection services.* Where a person sells an unused product covered by this regulation, and also furnishes the services required to incorporate that product into a building, structure or construction project, the maximum price for the sale of the product must be determined under this regulation and the maximum price for the installation or erection services must be determined under Revised Maximum Price Regulation 251 (Construction Services and Sales of Installed Building Materials). In the case of a sale, the price of the product need not be billed or invoiced separately, but the seller shall maintain records of the price of the product pursuant to section 24 (a) of this regulation, and of the price for the installation services pursuant to section 15 (a) of Revised Maximum Price Regulation 251. All such records shall be available for inspection by the representatives of the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect. Note that the sale of the second-hand products on an installed or erected basis is covered by section 12 of this regulation.

[Paragraph (c) amended by Am. 9, 10 F.R. 10976, effective 8-30-45]

(d) *Sales of certain parts and subassemblies by a seller of the complete item.* Any sale or delivery of a part or subassembly of a commodity covered by any of the following regulations:

Regulation and Title
Maximum Price Regulation 64:
Domestic Cooking and Heating Stoves.
Revised Price Schedule 86:
Domestic Washing Machines and Ironing Machines.
Revised Price Schedule 102:
Household Mechanical Refrigerators.
Revised Price Schedule 111:
New Household Vacuum Cleaners and Attachments.
Maximum Price Regulation 188:
Manufacturers' Maximum Prices for Specified Building Materials and Consumers' Goods Other Than Apparel.
Maximum Price Regulation 272:
Cast-Iron Boilers and Cast-Iron Radiation.
Maximum Price Regulation 399:
New Ice Boxes.

However, this regulation does cover:

(1) Sales and deliveries of metallic parts and subassemblies of such items (except those parts and subassemblies excluded from the coverage of this regulation by paragraph (a) above) to the manufacturer of the complete item of which they are a part.

(2) All sales and deliveries by a manufacturer of replacement units and assemblies for mechanical refrigerators having a refrigerated volume of 16 cubic feet or less.

(3) All sales and deliveries by a manufacturer of parts for radio transmitting and receiving equipment, except radio cabinets.

(4) All sales and deliveries by a manufacturer of parts for electronic devices or equipment, except radio cabinets.

NOTE: Other regulations establish the maximum prices for those sales which this paragraph (d) excludes from this regulation.

[Paragraph (d) amended by Am. 5, 10 F.R. 7682, effective 6-30-45]

(e) *Certain sales to the War Department.* The following sales are excluded from this regulation (and are exempted from price control by Revised Supplementary Regulation 1 to the General Maximum Price Regulation):

(1) Any sale of used snow plows to the War Department.

(2) Sales by Caterpillar Tractor Company, Peoria, Illinois, pursuant to contract W11-032-eng(MST)-57, and sales by Caterpillar Military Engine Company, Decatur, Illinois, pursuant to subcontract thereunder.

[Paragraph (e) amended by Am. 7, 10 F.R. 9716, effective 8-9-45]

(f) *Certain leases by Defense Plant Corporation.* Any lease by Defense Plant Corporation, where the contract of lease (1) does not provide for specific rentals allocable to specific products, and (2) provides that products will be brought within the scope of the lease after purchase by the Defense Plant Corporation. These leases are exempted from price control by Revised Supplementary Regulation 11 to the General Maximum Price Regulation.

(g) *Certain sales of underground tanks or vessels.* The sale of any tank or vessel which (1) is installed underground at the time of sale, and (2) is purchased for use in its present location. Sales of such tanks are exempted from price control by Revised Supplementary Regulation 1 to the General Maximum Price Regulation.

(h) *Sales of rebuilt fractional horsepower motors.* The sale of a rebuilt fractional horsepower motor of ¾ horsepower or less. The maximum prices for such sales are established by section 3.1 of Supplementary Regulation 14K to the General Maximum Price Regulation. Note that this regulation covers sales of second-hand fractional horsepower motors that have not been rebuilt.

(i) *Secret contracts.* This regulation does not apply to sales or deliveries of any product under a contract or subcontract that is officially classified as "secret" and certified in writing as such to the OPA by the United States, the government of any country whose defense the President deems vital to the defense of the United States under the terms of the Lend-Lease Act, or any agency of any of the foregoing. Such certification shall state the date of the secret contract or subcontract and its number or other designation. The certifying government agency shall notify the seller and the OPA whenever such contract or subcontract ceases to be secret. This exemption shall not apply after the seller is notified by the certifying government agency that the contract is no longer deemed to be secret.

(j) *Developmental contracts*—(1) *Exclusion.* This regulation does not apply to sales and deliveries of any product manufactured under a contract or subcontract that is certified in writing to the OPA as being "developmental", by the United States, the government of any country whose defense the President deems vital to the defense of the United States under the terms of the Lend-Lease Act, or any agency of any foregoing. A contract is deemed to be "developmental" during the period required for the selection of a product by the purchaser or for the accumulation of sufficient experience by the manufacturer to permit a fair estimate of the manufacturing costs, or both. If the OPA determines, after consultation with the appropriate government agency, that the period necessary for development has expired, and in writing so notifies such agency and the seller, this regulation shall apply to all subsequent sales and deliveries of such product.

(2) *Report.* Within ten days after entering into any developmental contract or subcontract, the seller shall file a report with the Machinery Branch, Office of Price Administration, Washington 25, D. C. This report shall set forth a description of the products that are the subject of the contract, a summary of the terms of the contract, and an estimate of the expected duration of the developmental work. This report need not be filed if the developmental contract or subcontract is also certified as "confidential" or "restricted" by the certifying government agency.

(k) *Emergency purchases.* This regulation does not apply to sales or deliveries of any product which is purchased for immediate delivery by the United States, the government of any country whose defense the President deems vital to the defense of the United States under the terms of the Lend-Lease Act, or any agency of any of the foregoing, under such circumstances as to make immediate delivery imperative and as to render it impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable: *Provided*, That, within ten days after any such emergency purchase in the amount of $500 or more is made, the person making such purchase on behalf of the purchasing government or agency files a report with the Machinery Branch, Office of Price Administration, Washington 25, D. C. This report shall contain (1) a certification that an emergency existed, (2) the name and address of the seller, (3) date of purchase, (4) date of delivery, (5) description of the product purchased, (6) quantity purchased, (7) price at which purchased, and (8) a brief statement of the facts giving rise to the emergency situation which necessitated the purchase at a price higher than the applicable maximum price.

(l) *Retail sales of electric storage batteries, electric fuses and wiring devices.* This regulation applies to sales of electric storage batteries, electric fuses and wiring devices to industrial, commercial or governmental users. However, this regulation does not apply to sales of these items to any other type of user.

[Paragraph (l) added by Am. 5, 10 F. R. 7682, effective 6-30-45]

(m) Sales of special tools, dies, jigs, fixtures, molds, gauges and patterns by manufacturers of special tooling equipment. These sales are subject to Maximum Price Regulation 581—Industrial Services.

[Paragraph (m) added by Am. 6, 10 F.R. 9447, effective 8-4-45]

(n) Chassis for new consumer type receivers and electrical or electronic phonographs as defined in Maximum Price Regulation 599 (Radio Receivers and Phonographs).

[Paragraph (n) added by Am. 31, effective 4-13-46]

SEC. 3. *Relationship to other regulations*—(a) *In general.* Except as otherwise specifically provided in this regulation, this regulation supersedes the General Maximum Price Regulation, Revised Price Schedule 84 (Radio Receiver and Phonograph Parts) and Maximum Price Regulation 188 (Manufacturers' Maximum Prices for Specified Building Materials and Consumers' Goods Other Than Apparel), in so far as transactions covered by this regulation are concerned. This regulation does not apply to transactions covered by any other specific regulation issued by the OPA.

Following is a list selected from those regulations taking precedence over this regulation which are most likely to raise questions of jurisdiction:

(1) Regulations administered by the Machinery Branch:

MPR 1—Second Hand Machine Tools
MPR 67—New Machine Tools
MPR 82—Wire and Cable
MPR 133—Retail Prices for Farm Equipment
MPR 134—Construction and Road Maintenance Equipment Rental Prices and Charges for Operating and Maintenance or Repair and Rebuilding Services
MPR 246—Manufacturers' and Wholesale Prices for Farm Equipment
MPR 351—Ferrous Forgings
MPR 375—Sales of Used Industrial Sewing Machines and Rental Rates for New and Used Industrial Sewing Machines
MPR 465—Used Pressure Vessels and Used Enclosed Atmospheric Pressure Vessels
MPR 523—Plastics Products
MPR 581—Industrial Services

(2) Regulations affecting consumer goods:

MPR 591—Specified Mechanical Building Equipment
MPR 599—Radio Receivers and Phonographs

(3) Regulations affecting industrial materials:

RPS 6—Iron and Steel Products
RPS 41—Steel Castings
MPR 147—Bolts, Nuts, Screws and Rivets
MPR 149—Mechanical Rubber Goods
MPR 214—High Alloy Castings
MPR 235—Manganese Steel Castings and Manganese Steel Casting Products
MPR 241—Malleable Iron Castings
MPR 244—Gray Iron Castings

[Paragraph (a) amended by Am. 31, effective 4-13-46]

(b) *Applicability of the Second Revised Maximum Export Price Regulation.*[3] The maximum price at which a person may make any export sales of any product covered by this regulation shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation or any revision thereto. See the Second Revised Maximum Export Price Regulation for the definition of "export sale".

(c) *Applicability of the Maximum Import Price Regulation.*[4] The provisions of this regulation do not apply to purchases, sales or deliveries of products which originate outside of and are imported into the continental United States. Sales, purchases and deliveries of such imported products are governed by the provisions of the Maximum Import Price Regulation.

(d) *Supplementary Order No. 129*—Supplementary Order No. 129 (Exemption and Suspension from Price Control of Machines, Parts, Industrial Materials and Services) lists the commodities formerly subject to this regulation which are exempted or suspended from price control. The provisions of this regulation continue to apply to all transactions in these commodities which took place before the date upon which the applicable exemption or suspension became effective.

[Paragraph (d) added by Am. 31, effective 4-13-46]

SEC. 4. *Prohibitions.* (a) On and after March 31, 1945 (except as provided in paragraph (b)):

(1) No person shall sell, deliver, lease, rent or negotiate the sale or lease of any product at a price higher than the maximum fixed by this regulation.

(2) No person, in the course of trade or business, shall buy, rent, lease or receive any product at a price higher than the maximum fixed by this regulation. The purchaser or lessee shall be deemed to have complied with the subparagraph, if he receives a written statement from his supplier that the price does not exceed the maximum price and if he has no reason to doubt the validity of this statement.

(b) Nothing in this regulation shall be deemed to prohibit the fulfillment of any contract entered into before March 31, 1945, if the maximum price regulation or price schedule which was applicable to the transaction at the time the contract was made permitted deliveries at such price.

SEC. 5. *Less than maximum prices.* Lower prices than those established by this regulation may be charged or paid.

ARTICLE II—MAXIMUM PRICES AND TERMS OF SALE

SEC. 6. *Base dates.* Appendix A lists four base dates for the products covered by this regulation. These are October 1, 1941, October 15, 1941, March 31, 1942, and April 1, 1943. The date that must be used in determining the maximum price for the sale, lease or rental of any product depends upon the base date listed in Appendix A for that product.

SEC. 7. *Maximum manufacturers' prices for products with list or established prices.* The maximum price for the sale of any product (new and unused), for which the manufacturer had a published list price or established price in effect on the base date, shall be that price, adjusted to reflect all applicable extra charges, discounts or other allowances that the manufacturer had in effect to a purchaser of the same class on the base date. See the definition of "established price in effect on the base date" in section 28 (a).

SEC. 8 *Maximum manufacturers' prices for products that have been modified*—(a) *Pricing formula.* This section is applicable to any product (new and unused), for which the manufacturer either had a published list price or an established price in effect on the base date, or for which a list price has been approved by the OPA. Where a substantial change in design, and the OPA has not previously approved a maximum price for the product as modified, the manufacturer's maximum price shall be a price subject to the "in-line" limitations set forth in paragraph (c) of the next section 9. This price shall be based upon a reflection of the increases and decreases in the factory costs attributable to the modification.

(1) Such cost of modification shall be computed by making additions for those changes which increased cost and subtractions for those which decreased cost, listing and comparing such costs as follows:

(i) Direct labor cost before and after modification of those portions which are modified, in each case using straight-time labor rates *currently* in effect at the manufacturer's plant.

(ii) In the same manner, the *current* costs of materials, parts, subassemblies and components, not exceeding the applicable maximum prices of your customary suppliers.

(iii) In the same manner, the *current* costs of subcontracted services, not exceeding the applicable maximum prices of your customary suppliers of subcontracted services.

(iv) Factory overhead allocable to such direct material or direct labor costs, determined in accordance with the manufacturer's method of accounting and charged at the actual rate or rates in effect in his plant in the month preceding the base date, or at the standard rate or rates, if any, consistently used by the manufacturer for price determining purposes in the month which includes the base date, whichever is lower.

(v) Royalty payments, if any, determined at the rate actually paid by the manufacturer.

(vi) Where the product is sold on a freight allowed or a delivered price basis, out-bound transportation charges may be added. These charges shall be computed in accordance with the manufacturer's base date practice.

(2) The manufacturer shall then add or subtract the net increase or decrease in costs so calculated from his maximum *net* price (after deduction of all trade discounts, but before deduction of cash discounts) to the class of purchasers who paid the lowest net price for the product before modification. The resultant figure is the manufacturer's maximum price for the product as modified when sold to the class of purchasers who buy at the lowest net price. This maximum price may not be rounded out above the computed price.

(3) The manufacturer shall then determine the maximum price to every other class of purchasers by multiplying his maximum price for that class of purchasers before modification by a factor. This factor shall be determined by dividing the manufacturer's new lowest maximum net price after modification (computed under subparagraph (2) above by the manufacturer's lowest maximum net price before modification. The resulting prices and new list price computed in this fashion may not be rounded out above the applicable adjusted prices.

Examples

(1) Items sold on a list price basis:

Compute your new maximum list price. Example: Assume the lowest net price after the modification is $150.00 and applies to a jobber receiving a discount of 25% from the list price. The new list price is $150.00 divided by (100% minus 25%) .75. The maximum net list price is, therefore, $200.00 in this case.

To your maximum new list price, apply your established discounts to determine your maximum net selling prices after the modification of your various other classes of customers. Net selling prices must not exceed your computed new maximum net prices.

(2) Items not sold on a list price basis:

Determine your "new price after modification" to the class of customers who buy at the lowest net price.

To determine the "new price after modification" to any other class of customers, multiply the "new price after modification" to that class of customers receiving the lowest net price by the percentage ratio of the corresponding net prices before the modification.

Example: Assume the following:

Jobber's net price before the modification	$130.00
Dealer's net price before the modification	147.33
Jobber's net price after the modification	150.00

The dealer's net price after the modification is $147.33, multiplied by the factor (150 divided by 130). The dealer's net price after the modification, therefore, is $170.00.

NOTE: Since the maximum new prices may be used only for those products in which the modifications are actually made, manufacturers, in invoicing such modified products, are requested to include in such invoices after the model number or description the notation "revised" or any other explanation properly verifying the modification.

(b) *Report and approval of maximum prices.* If a manufacturer publishes or proposes to publish a list price for a modified product covered by this section, or for the modification itself, he must file a report with the Machinery Branch, Office of Price Administration, Washington 25, D. C. No reports need be filed, however, by a manufacturer who modifies repair parts or tools used in the maintenance and repair of products manufactured by him. The manufacturer must always file a report when specifically requested to do so by the OPA.

This report shall contain:

(1) A description of the modification which was made in the product, and of the product as modified;

(2) Unless the manufacturer states that he does not know of such, he shall name the nearest comparable competitive products, and support or justify his prices for the modified product as compared to the prices of such nearest comparable competitive products in light of the "in-line" tests set forth in section 9 (c).

(3) The computation required by paragraph (a) (1) of this section 8 of the cost of the modified portion both before and after the modification, stating the actual current-date and base-date bases used in his computation.

(4) The computation the proposed maximum prices for the modified product required by paragraph (a) (2) of this section 8.

The manufacturer may include a number of items or lines of items in a single application. In such cases, he may submit the detailed breakdown of comparative costs for representative items, explaining why they may be deemed representative.

After receipt of this report, OPA may (i) approve the proposed maximm price, (ii) disapprove the proposed maximum price, or (iii) establish a different maximum price determined under this section, by order. If the OPA fails to act within thirty days after it receives the required report (or any verification of the facts stated in the report that may be requested), the proposed maximum price shall be deemed to be approved.

The maximum price established in this manner shall be applicable to all subsequent sales and deliveries. However, if the OPA later determines that this price was not figured in accordance with this section, it may disapprove that price at any time. This disapproval will not be retroactive as to any deliveries made before the date of such disapproval.

In the event that the OPA finds that the manufacturer's production experience does not yet warrant the establishment of a permanent maximum price, it may either establish, or give temporary approval to, a maximum price and require further filing under this section at a later date.

(c) *Interim pricing.* Prior to receipt of approval by the OPA of the proposed price, or prior to the expiration of the thirty-day period after receipt by the OPA of the required report (or of any verification of the facts stated in the report that may be requested), the proposed price may be tentatively quoted or charged. However, not more than 75% of this price may be paid or received until the proposed price is or may be considered approved, with final settlement to be made in accordance with the action taken by the OPA, except that the manufacturer may be paid and may receive the proposed price upon compliance with the following conditions: The manufacturer's bills or invoices to customers shall state (1) that the prices charged therein are proposed maximum prices submitted for the approval of the OPA, and (2) payments at such prices may be subject to refund, in accordance with the final action taken by the OPA.

(d) *Certification by seller where the manufacturer is unable to determine the maximum price of purchased materials or services.* For the purposes of this section, if the manufacturer receives a written statement from his supplier that the price charged the manufacturer for the purchased materials, parts or services does not exceed the applicable maximum price, and he has no reason to doubt the validity of this statement, the price certified by the supplier shall be deemed not to be in excess of the maximum price. A statement that "prices in this invoice do not exceed OPA maximum prices" will be acceptable.

[Sec. 8 amended by Am. 31, effective 4-13-46]

SEC. 9 *Maximum manufacturers' prices for products without list or established prices*—(a) *Applicability.* This section is applicable to any product (new or unused) for which the manufacturer had no published list price or established price in effect on the base date, and which is not a modified product covered by section 8. Except where the National Office of the Office of Price Administration has approved a new list price pursuant to paragraph (e), or a maximum price has become established pursuant to paragraph (d), the manufacturer must determine the maximum price for each sale of any such product in accordance with the provisions of this section.

(1) *Experience gained before April 13, 1946.* In the case of a product which the manufacturer has made one or more times in the period preceding April 13, 1946, he shall, for the purpose of any sale of the same product subsequent to that date, recompute his price for the purpose of establishing such price as the maximum price applicable to all subsequent sales of such item pursuant to the provisions of paragraph (d) of this section.

(2) *Products for which the manufacturer has no experience.* In the case where the manufacturer makes any product for the first time on or after April 13, 1946, he shall estimate his maximum price for the purpose of such sale pursuant to the provisions of this section. Upon the second sale of the product he shall recompute and establish its maximum price pursuant to paragraph (d) of this section.

(b) *Maximum prices.* The maximum price for such a product shall be subject to the "in-line" limitations set forth in paragraph (c) of this section in all cases where one or more of the "in-line" tests there stated are applicable. The maximum price shall be based upon a calculation using the method of determining price by relation to cost that the manufacturer had in effect on the base date for products for the same or similar types or for products requiring comparable methods of production. If the manufacturer did not have such a method of price determination on the base date, or was not then in business, he shall use a method approved by the OPA. See section 10, paragraph (b).

(c) *"In-line" limitations.* The maximum price for any product meeting one or more of the tests set forth in this paragraph, shall be a price "in-line" with the maximum prices established under this regulation for similar or comparable products.

(1) Whether the price is "in-line" with prices charged by the applicant for simi-

lar commodities in his own line of products;

(2) Whether standards of construction, design or performance have been promulgated by a Government Agency authorized thereto (e. g.: Bureau of Standards, Interstate Commerce Commission, etc.), or agencies representative of the industry (e. g.: National Board of Fire Underwriters, American Society of Mechanical Engineers, etc.), or have otherwise been established or accepted by the industry;

(3) Whether the industry, irrespective of (2) above, produces commodities which are similar or identical, to the extent that in the absence of a brand name or mark the product of one maker could not be distinguished from other's;

(4) Without reference to (2) or (3), whether the standards of performance claimed by the applicant conform substantially with performance claims of other manufacturers.

(d) *Report and establishment of recomputed prices*—(1) *Recomputation.* After the manufacturer has acquired actual experience in the production of a product, as provided in paragraph (a) above, he shall, upon the second or subsequent sale of such product, recompute the maximum price thereof in accordance with this and the following section 10 making use of his production experience. This recomputed price shall become his established price for all subsequent sales of such product. Such an established price may not be increased, except upon application for price adjustment pursuant to Supplementary Order No. 142 (Adjustment Provisions for Sales of Industrial Machinery and Equipment). However, if the manufacturer believes that his previous production experience is inadequate to determine a maximum price, he may request and receive approval from the Office of Price Administration, Washington 25, D. C., for a further experimental period for the purpose of establishing maximum prices pursuant to this section applicable to all subsequent sales.

(2) *Report and approval of recomputed maximum prices.* If the recomputation required by this paragraph (c) results in the same maximum price, or a lower maximum price, and the price charged by the manufacturer does not exceed the price which he charged for the previous sale, the price resulting from the recomputation shall become the maximum price for all subsequent orders, and no report shall be required. If this recomputation results in a higher maximum price and the manufacturer elects to charge this price on any subsequent sale, he must file a report with the Office of Price Administration, Washington 25, D. C., within ten days after entering into a contract in such increased price. This report shall set forth (i) description of the product and a statement of the applicability or inapplicability of the "in-line" tests set forth in paragraph (b) of this section; (ii) the price on the last sale; the date of such sale and the name and description of the purchaser; (iii) the new price; (iv) an explanation of the reason for the increase, including a comparison of the original cost estimates with the production experience on which the new price is based, applying the manufacturer's price determining method as qualified by section 10.

After receipt of the report, OPA may (*a*) approve the proposed maximum price, (*b*) disapprove the proposed maximum price, or (c) establish by order a different maximum price determined under this section. If OPA fails to act within thirty days after it receives the required report (or any verification of the facts stated in the report that may be requested), the recomputed maximum price shall be deemed to be approved.

(e) *List prices, published or otherwise, and suggested resale prices*—(1) *Applicability.* This paragraph applies to the manufacturer of a new product covered by this section, who (i) publishes or proposes to publish a list price for such product, or (ii) offers or proposes to offer such product for general sale or for sale through one or more resellers, or (iii) is requested, in writing, by the OPA to establish a list or maximum net price for such product.

(2) *Report.* Such manufacturer shall file a report with the Machinery Branch, Office of Price Administration, Washington 25, D. C. stating the proposed list (or maximum net price) for such product. This report shall contain the following information: (i) the names and description of the nearest comparable competitive products, unless the applicant states that he does not know of such; (ii) The information required by OPA Form 694–2167 (see Appendix B); and (iii) a statement of the applicability or inapplicability of the "in-line" tests set forth in paragraph (c) of this section.

A manufacturer, who does not have the information required by OPA Form 694–2167, may propose a maximum price for such product or the basis of its "in-lineness" with the maximum prices established under this regulation for similar or comparable products. In such case, a manufacturer may submit a detailed statement containing the information contained by subdivisions (ii) and (iii) above, without including the information required by subdivision (i).

After receipt of this report, OPA may (*a*) approve the proposed maximum price, (*b*) disapprove the proposed maximum price, or (c) establish a different maximum price, determined under this section, by order. If the OPA fails to act within thirty days after it receives the required report (or any verification of the facts stated in the report that may be requested), the proposed maximum price shall be deemed to be approved.

The maximum price established in this manner shall be applicable to all subsequent sales and deliveries. However, if the OPA later determines that this price was not figured in accordance with this section, it may disapprove that price at any time. This disapproval will not be retroactive as to any deliveries made before the date of such disapproval.

In the event that the OPA finds that the manufacturer's production experience does not yet warrant the establishment of a permanent maximum price, it may establish, or give temporary approval to a maximum price and require further filing under this paragraph (e) at a later date.

(3) *Interim pricing.* Prior to the receipt of OPA's approval of any proposed price, or prior to the expiration of the thirty day period after OPA's receipt of the required report (or any verification of any facts stated in the report that may be requested), the proposed price may be tentatively quoted or charged. However, not more than 75% of this price may be paid or received until the proposed price is approved (or may be considered approved) with final settlement to be made in accordance with the action taken by the OPA, except that the manufacturer may be paid and may receive the proposed price subject to partial refund to the purchaser upon compliance with the following conditions: The manufacturer's bills or invoices to his purchasers shall state (i) that the prices charged therein are proposed maximum prices submitted for the approval of OPA, and (ii) payments at such maximum prices may be subject to refund in accordance with the final action taken by the OPA.

[Sec. 9 amended by Am. 10, 10 F.R. 10436, effective 8-24-45 and Am. 31, effective 4-13-46]

SEC. 10. *Pricing formula for manufacturers*—(a) *Price determining method where the manufacturer had one in effect on the base date.* The manufacturer shall use the method of determining price by relation to cost that he had in effect on the base date for determining the selling prices of products of the same or a similar type. This means that he must use the overhead rates, machine hour rates, if any, rates for general administrative and selling expense, profit markup, discounts and allowances, and any other bases of computing price by relation to cost that were in use in his plant on the base date and are applicable to the product being priced. This pricing method must be applied in accordance with paragraphs (c) to (h), inclusive, of this section.

However, where the production methods, which a manufacturer uses in his plant have changed so radically that his base date price determining method is no longer appropriate, he may submit a proposed revised price determining method to the Machinery Branch, Office of Price Administration, Washington 25, D. C. The OPA may approve such a revised price determining method for use by the manufacturer in substitution for his base date pricing formula only if it is clearly shown that the use of such revised method will not result in maximum prices higher than the manufacturer's existing applicable maximum prices as determinable by application of his base date price formula to his base date production methods. Such revised price determining method should not be deemed approved until the OPA has indicated its approval by issuance of an order pursuant to this paragraph.

[Above paragraph added by Am. 31, effective 4-13-46]

(b) *Price determining method where the manufacturer had none in effect on the base dates*—(1) *Price determining method.* If the manufacturer had no method of determining price by relation to cost in effect on the base date, for products of the same or a similar type, he must file a proposed price determining method with OPA before he delivers any product which is covered by the preceding section 9. This price determining method must relate to labor and material costs, shop-overhead rates, administrative selling and selling expenses, profit margins and other cost factors, in so far as they are applicable, which the manufacturer had in effect in his plant on the base date for comparable products. If the manufacturer was not in business on the base date, the price determining method must nevertheless be reasonable in the light of the operations being or to be performed, and the profit margin in line with that used by comparable manufacturers of comparable products. Immediately upon the determination of such a price determining method, the manufacturer shall file a report with the Machinery Branch, Office of Price Administration, Washington 25, D. C. This report shall set forth (i) a detailed description of the proposed price determining method, (ii) a detailed explanation of all factors included in the proposed price determining method and the manner in which they were determined and are applied, and (iii) a representative sample of prices determined in accordance with the proposed price determining method, showing in detail how they were computed.

[Above paragraph amended by Am. 31, effective 4-13-46]

After receipt of this report, OPA may approve the proposed price determining method, require the manufacturer to file a revised price determining method, or establish a different price determining method. If the OPA fails to act within thirty days after it receives the required report (or any verification of the facts stated in the report that may be requested), the proposed price determining method shall be deemed to be approved. In the event that the OPA finds that the manufacturer's production experience does not yet warrant the establishment of a permanent price determining method, it may either establish, or give temporary approval to, a price determining method and require further filing under this paragraph at a later date.

(2) *Interim pricing.* Prior to receipt of approval by the OPA of the proposed price determining method, or prior to the expiration of the thirty-day period after receipt by the OPA of the required report (or of any verification of the facts stated in the report that may be requested), prices determined in accordance with the proposed price determining method may be quoted or charged. However, until a price determining method has been established and final action is taken by the OPA, not more than 75% of this price may be paid or received, except that the manufacturer may be paid and may receive the price proposed in his report subject to his obligation to refund so much of that payment as is in excess of the maximum price approved by the OPA, if the manufacturer has complied with the following conditions:

(i) The manufacturer has informed his customer, by quotation, bill or invoice, that the prices charged are proposed maximum prices which have been submitted to OPA for its approval; and

(ii) That payments received at those prices are subject to refund to the extent that the maximum prices approved by the OPA are less than the proposed prices stated in the bill or invoice.

[Subparagraph (2) amended by Am. 31, effective 4-13-46]

(3) *Application of price determining method.* The price determining method approved by the OPA must be applied in accordance with paragraphs (c) to (h), inclusive, of this section.

[Subparagraph (3) amended by Am. 10, 10 F.R. 10436, effective 8-24-45. Last sentence revoked by Am. 31, effective 4-13-46]

(c) *Direct labor costs*—(1) *Method of determining direct labor costs.* The manufacturer shall determine direct labor costs by multiplying the straight-time labor rate for each classification of labor in effect on the base date (see subparagraph (2), below) by the estimated number of clock hours of that classification of labor. This estimate of the number of clock hours shall be based on previous production experience. If, on the base date, the manufacturer used an average rate to determine labor costs, he shall determine labor costs by using the method of computing the average in effect on that date and labor rates determined in accordance with (2).

(2) *Labor rates.* The rates used in determining allowable direct labor costs shall be the rate in the manufacturer's plant for each classification of labor that either was prevailing on the base date or was made retroactive to or before that date by an order of the National War Labor Board. If the manufacturer requires the use of labor of a classification not employed by him in his plant on the base date, he shall use as the rate for that classification of labor, the rate prevailing on that date in the locality in which the manufacturing is to be performed. If labor of that classification was not employed in that locality on the base date, the manufacturer shall use the rate prevailing on that date in the most comparable locality, as accurately as he is able to determine that rate by the use of reasonable diligence.

(3) *Overtime.* The method of determining direct labor costs set forth in (1) requires that only straight-time labor rates may be used in determining allowable direct labor costs. The manufacturer may add the amount of overtime premium which he expects to pay to the maximum price, except where he is figuring a maximum list price. This overtime premium shall be determined by multiplying the estimated number of hours of overtime by the rate for overtime premium determined in accordance with (2). No markup, overhead or profit shall be applied to that part of the allowable direct labor cost which is in excess of the straight-time cost, and any addition made for overtime must be invoiced separately. However, if the manufacturer's base date overhead or machine-hour rate included an amount for overtime, no adjustment of that rate shall be required. Also, if on the base date, the manufacturer's price determining method included an amount determined by applying a fixed percentage to straight-time labor costs, he may apply markup, overhead or profit to that amount, if he did so on the base date.

[Subparagraph (3) amended by Am. 10, 10 F.R. 10436, effective 8-24-45]

(d) *Material costs*—(1) *How the manufacturer determines material costs.* The manufacturer shall determine the allowable cost of raw materials, processed and fabricated materials, and parts or subassemblies as follows: He shall multiply the price determined in accordance with (2) for each material, part or subassembly by the estimated quantity of that material, part or subassembly. This estimate of the quantity of the material, part or subassembly, which is to be used in the production of the product, shall be based on previous production experience.

(2) *Material prices.* The price used in determining the allowable cost of purchased parts and subassemblies covered by this regulation, Revised Price Schedule 82 (Wire, Cable and Cable Accessories), Maximum Price Regulation 119 (Original Equipment Tires and Tubes),

Maximum Price Regulation 147 (Bolts, Nuts, Screws and Rivets), Maximum Price Regulation 149 (Mechanical Rubber Goods), Maximum Price Regulation 452 (Manufacturers' Maximum Prices for Automotive Parts), and Maximum Price Regulation 523 (Plastics Products) shall be the price paid by the manufacturer, not in excess of the applicable maximum price.

[Above paragraph amended by Am. 5, 10 F.R. 7682, effective 6-30-45]

The price used in determining the allowable cost of all other purchased parts or assemblies and all other material shall be the cost to the manufacturer on the base date, or if the manufacturer cannot determine his base date cost, the price in effect to a purchaser of the same class as the manufacturer in the same locality on the base date. However, if the actual cost to the manufacturer is lower, he shall use his actual cost. If the manufacturer is unable to determine a base date cost for the material, part or subassembly, he shall use his actual cost, not in excess of the applicable maximum price. However, the manufacturer must determine the base date cost, if there was a published price list for the material, part or subassembly in effect on the base date, if the manufacturer purchased such material, part or subassembly on or about the base date, or if one of the manufacturer's suppliers was selling the material, part or subassembly on or about the base date.

(e) *Subcontracted services.* If the manufacturer has materials processed by a subcontractor, he must use the actual price paid the subcontractor, not in excess of the applicable maximum price.

(f) *Transportation costs.* If the manufacturer pays any transportation costs for inbound shipments, he may use these costs in determining his maximum price. In determining such transportation costs, the manufacturer shall use freight rates in effect on the base date or current freight rates, whichever is the lower for the mode of transportation actually used.

(g) *Expendable tools, etc.* To the extent that the manufacturer's price determining method includes or is based on prices paid for expendable tools, dies, jigs, fixtures, moulds, patterns or workholding devices, the manufacturer shall use the actual cost to him for such items, not in excess of the applicable maximum price. These costs must be amortized in accordance with the manufacturer's price determining method.

(h) *Purchaser's allowance for scrap or wastage.* Where the manufacturer's base date price determining method included an allowance to the purchaser for scrap or wastage, generated during the manufacturing process, this allowance shall be determined as follows:

(1) If, on the base date, the manufacturer determined the amount of this allowance by the current market price, he shall multiply the estimated quantity of scrap or wastage by its market price on the date when he determines his maximum price.

(2) If, on the base date, the manufacturer determined the amount of this allowance by a percentage of the current market price, he shall first multiply the market price in effect for the scrap or wastage, on the date when he determines his maximum price, by the percentage of the market price he was using on the base date, and then multiply the result by the estimated quantity of scrap or wastage.

(i) *Certification by supplier where the manufacturer is unable to determine the maximum price of purchased materials, parts, or services.* For the purposes of this section, if the manufacturer receives a certification from his supplier that the price charged him for purchased materials, parts or services does not exceed the applicable maximum price, and if he has no reason to doubt the validity of this certification, the price certified by the supplier shall be deemed not to be in excess of the maximum price. A certification to the effect that "prices in this invoice do not exceed OPA maximum prices" will be acceptable.

SEC. 11. *Maximum resellers' prices—*(a) *Products with list of established prices.* The maximum price of a reseller for any product (new or unused) shall be the first applicable of the following prices:

(1) A published list price which the reseller had in effect on the base date, adjusted to reflect all applicable discounts, allowances or charges that the reseller had in effect to a purchaser of the same class on the base date.

(2) The reseller's established price in effect on the base date, adjusted to reflect all applicable discounts, allowances or charges as provided above (see definition of "established price in effect on the base date" in section 28 (a)).

(3) The published list price which the manufacturer of that product had in effect on the base date and which was used in the trade as the suggested resale price, adjusted to reflect all discounts, allowances or charges as provided above, or the published list price of such a manufacturer which has been approved by OPA as the basis for determining suggested resale prices. In the case of a reseller who did not sell that product on the base date, the manufacturer's suggested resale price shall be subject to the applicable discounts, allowances or extra charges which were in effect on the base date by other sellers of the same product, or were approved by the OPA, upon application by the manufacturer, for determination of the maximum prices applicable for sales to different classes of purchasers, or levels of sale.

(b) *Certain cases where the reseller's base date price is based on lower cost.* (1) *Applicability.* This paragraph is applicable to products (new and unused) for which the reseller had a published list or an established price in effect on the base date when (i) the reseller's base date price was based on price sheets published by another person and did not reflect an increase of those sheet prices that had occurred *before* the base date, or (ii) the reseller's base date prices were based on a supplier's unpublished prices and did not reflect an increase in the supplier's price that had occurred *before* the base date or (iii) the reseller's base date price was based on the price sheets or established prices of his supplier which, in turn, had not reflected increases in the supplier's cost that had occurred before the base date and had been revised with the approval of OPA under this paragraph (b).

This paragraph, however, is not applicable to the sales by a reseller of products whose cost has been increased to him because of an adjustment granted his supplier under section 1390.25a of Maximum Price Regulation 136, as amended, or section 21 of Revised Maximum Price Regulation 136, or Supplementary Order No. 142 (Adjustment Provisions for Sales of Industrial Machinery and Equipment).

(2) *Price.* In the circumstances to which paragraph (b) (1) of this section applies, the reseller may propose a revised price determined, as applicable, by substituting the base date or revised published list price of his supplier or a price increase percentage-wise to reflect the amount by which his cost has been increased.

(3) *Report and approval of price.* No price revision may be made under subparagraph (2) until the price which the seller wishes to charge is approved in writing by the OPA. A reseller who desires to obtain this approval shall file a report with the OPA, Machinery Branch, Washington 25, D. C. This report shall set forth the following information:

(i) The name and address of the immediate supplier, as well as the manufacturer of the product. If the manufacturer is also the supplier, include a statement to that effect.

(ii) A description of the product.

(iii) A copy (or a description by number and effective date, etc.) of the published price list which the reseller used in determining his base date price together with all applicable discounts, allowances and other deductions from that list price which the reseller had in effect on the base date; *or* where the reseller's base date price was not based on price sheets published on another, a statement of the price that the reseller's supplier would have charged on the base date, and the date that price became effective.

(iv) The revised price approved by the OPA and the date that approval was given, in the case where the price to the reseller was revised in accordance with the provisions of this paragraph.

(v) A copy (or description by number and effective date, etc.) of the published price list which the reseller's supplier put into effect either on or before the base date, or in accordance with the provisions of this paragraph; or where the reseller's base date price was not based on another's price sheets, the cost upon which the reseller's base date price was calculated, and the period during which such cost was effective, seller's net price in effect to each class of purchasers on the base date and the date such price or prices became effective.

(vi) The supplier's list price which the reseller desires to have approved for his own use, together with all applicable discounts, allowances and other deductions from such list price; or the proposed maximum price or prices, as determined by reflecting the reseller's increased cost, for the class of purchasers to which each price applies.

[Paragraphs (a) and (b) amended by Am. 31, effective 4-13-46]

(c) *Products without list or established prices—Where there is an approved suggested resale price—*(1) *Maximum price.* This paragraph is applicable only to products (new and unused) for which the reseller had no published list price or established price in effect on the base date. Where the manufacturer had a suggested resale price for such a product in effect on the base date or where the OPA has approved a suggested resale price for such a product in writing, the maximum price for a sale by a reseller shall be determined as follows: The reseller shall deduct from the suggested resale price, which the manufacturer had in effect on the base date or which was approved by the OPA, all discounts, allowances and other deductions that the reseller had in effect on the base date for products of the same type to a purchaser of the same class. Where the reseller was not selling products of the same type on the base date, he shall deduct from this suggested resale price all discounts, allowances and other deductions, which his most closely competitive seller of the same class had in effect on the base date for products of the same type to a purchaser of the same class.

(2) *Most closely competitive seller of the same class.* A reseller's "most closely competitive seller of the same class" means a person selling to the same class of purchasers who (i) is selling the same or a similar product (ii) is a seller of the same class (distributor, wholesaler, dealer, etc.), and (iii) is located nearest to the reseller.

(3) *Report.* The reseller must file any maximum prices determined under this paragraph (c) with the Machinery Branch, Office of Price Administration, Washington 25, D. C. This report shall identify the price sheets used by the reseller to determine his maximum prices, together with his own discounts and allowances, if any, and a statement as to the method by which those discounts and allowances were determined.

(d) *Products without list or established prices—Where the manufacturer had no approved suggested resale price—*(1) *How the seller calculates the maximum price.* This paragraph is applicable to products (new and unused) for which the reseller had no published list price or established price in effect on the base date. Where the manufacturer did not have a suggested resale price for such a product in effect on the base date and the OPA has not approved a suggested resale price for such a product in writing, the maximum price for a sale by a reseller shall be determined as follows: The reseller shall first multiply the cost of the product, determined under subparagraph (2), by the percentage margin determined under subparagraph (3). The result, less the deduction for lower freight rates required by subparagraph (4), if any, is the maximum price.

The maximum price so determined shall apply to all subsequent sales of the same product and may not be increased except as provided in an order issued pursuant to either section 1390.25a of Maximum Price Regulation 136, as amended, section 21 of Revised Maximum Price Regulation 136, or Supplementary Order No. 142 adjusting the reseller's maximum prices directly or by relation to an adjustment in the maximum prices of his supplier.

[Above paragraph added by Am. 31, effective 4-13-46]

(2) *Cost of the product.* The cost of the product that must be used in determining the maximum price shall be the reseller's net invoiced cost, not to exceed the applicable maximum price. For the purposes of this section, if the reseller receives a written statement from his supplier that the price charged does not exceed the applicable maximum price, and the reseller has no reason to doubt the validity of this statement, the price certified by his supplier shall be deemed not to be in excess of the maximum price. A statement that "prices in this invoice do not exceed OPA maximum prices" will be acceptable.

(3) *Percentage which must be used in determining the maximum price.* The percentage which the reseller must use in determining the maximum price shall be the first of the following which is available:

(i) The percentage margin over net invoiced cost that the reseller realized on or about the base date on sales of the same product to purchasers of the same class.

(ii) The percentage margin over net invoiced cost that the reseller realized on or about the base date on sales of products of the same type to purchasers of the same class.

(iii) The percentage margin over net invoiced cost that the reseller realized on or about the base date on sales of the same product to a purchaser of a different class, adjusted to reflect the reseller's base date differential between the two classes of purchasers.

(iv) The percentage margin over net invoiced cost that the reseller realized on or about the base date on sales of products of the same type to a purchaser of a different class, adjusted to reflect the reseller's base date differential between the two classes of purchasers.

(4) *Deduction to reflect lower freight rates.* In determining maximum prices for products with a March 31, 1942, base date, which are sold on a delivered basis and delivered by railroad, the reseller is required to deduct the railroad freight difference between March 31, 1942 rates and current rates.

(e) *Products that cannot be priced under (a) to (d)—*(1) *Maximum price.* This paragraph is applicable to sales by resellers of products (new and unused) that cannot be priced under paragraphs (a) to (d), inclusive. The maximum price for such sales shall be a price, in line with maximum prices otherwise established by this regulation, that is specifically authorized by the OPA. A reseller seeking such authorization shall file a report with the Machinery Branch Office of Price Administration, Washington 25, D. C. This report shall set forth the following:

(i) A description of the product for which a maximum price is sought. This description shall include the manufacturer's name, type of product, model and serial number, if any, and any other specifications commonly shown on price sheets for similar products.

(ii) The net invoiced cost of the product.

(iii) The proposed maximum price.

(iv) A statement of the basis on which such proposed maximum price was determined.

(v) An explanation of the reasons why the product cannot be priced under paragraphs (a) to (d), inclusive, of this section.

After receipt of this report OPA may approve the proposed maximum price, disapprove the proposed maximum price, or establish a different maximum price, by order. If the OPA fails to act within thirty days after it receives the required report (or any verification of the facts stated in the report that may be requested), the proposed maximum price shall be deemed to be approved.

The maximum price established in this manner shall be applicable to all subsequent sales and deliveries. However, if the OPA later determines that this price is not in line with maximum prices established by this regulation, it may disapprove that price at any time. This disapproval will not be retroactive as to any deliveries made before the date of such disapproval.

(2) *Interim pricing.* Prior to receipt of approval by OPA of the proposed price, or prior to the expiration of the thirty-day period after receipt by OPA of the required report (or of any verification of the facts stated in the report that may be requested), the proposed price may be tentatively quoted or charged. However, no more than 75% of the proposed price may be paid or received until a maximum price has been established. Also, final settlement shall be made in accordance with the action taken by the OPA.

SEC. 12. *Maximum prices for second-hand products: in general*—(a) *Applicability of this section.* This section is applicable to all sales of second-hand products, except those covered by the next section 13. A "second-hand product" is one which has been used and is in condition to be restored to use. Where the parts or components of a second-hand product are missing, the base price as defined in paragraph (e) of this section shall be correspondingly adjusted by subtracting from the price of the product when new, the prices when new of any missing parts or components.

[Paragraph (a) amended by Am. 31, effective 4–13–46]

(b) *Maximum prices for rebuilt and guaranteed products*—(1) *Applicability of this paragraph.* This paragraph is applicable to the sale of rebuilt and guaranteed products. A "rebuilt and guaranteed" product is one that meets the following conditions at the time of its delivery to the purchaser pursuant to a contract of sale, or to the lessee pursuant to a rental-purchase contract.

[Above paragraph amended by Am. 6, 10 F.R. 9447, effective 8–4–45 and Am. 10, 10 F.R. 10436, effective 8–24–45]

(i) The product must have been inspected to determine the need for replacement or repair of parts.

(ii) All worn, broken or missing components, that are necessary for satisfactory operation, must have been replaced or repaired.

(iii) The product must have been completely assembled and tested. This test must show that its performance will be substantially equivalent to that of the new product. Where the product operates under power or pressure, it must have been tested by the seller under power or pressure.

(iv) Except as provided in (v) below, the seller must certify to the buyer on the invoice that:

The product(s) described in this invoice is (are) in a rebuilt condition as defined in Revised Maximum Price Regulation 136, and is (are) guaranteed to give service equivalent to a new product(s) for a period of sixty days after installing or seventy-five days from date of shipment, whichever is shorter.

(v) In the case of a sale by a government agency, or a sale for the benefit of creditors where a government agency is the largest creditor, a written certificate may be substituted for the guarantee. This certificate must state that the used product has been inspected, that all worn, broken or missing components necessary for satisfactory operation have been replaced or repaired, and that the used product has a performance substantially equivalent to that of the new product. This certificate shall be signed by a qualified person who is not in the business of selling used products.

(2) *Maximum prices.* The maximum price of a rebuilt and guaranteed product is 85 per cent of its "base price" (see paragraph (e) below). However, the seller may charge the price determined in accordance with the "depreciation method" (see paragraph (f) below). See paragraph (g) below, for items which may and may not be added to the maximum price.

(c) *Maximum prices for second-hand products that do not qualify as rebuilt and guaranteed.* The maximum price for any second-hand product that does not qualify as rebuilt and guaranteed, shall be 55 percent of the "base price" (see paragraph (e), below). However, the seller may charge the price determined in accordance with the "depreciation method" (see paragraph (f), below), but never more than 80 percent of the "base price". See paragraph (g), below, for items which may and may not be added to the maximum price.

(d) *Refund where the buyer does his own dismantling and loading.* If the sale price of any second-hand product, plus the actual cost incurred by the buyer for dismantling and loading, exceeds the maximum price established by this section, the seller must make a refund to the buyer. This refund shall be equal to the difference between the maximum price and the sum of the sale price, plus the actual cost of dismantling and loading, not to exceed 10 percent of the maximum price.

(e) *Base price.* The "base price" that must be used in figuring maximum prices under this section shall be the first applicable of the following prices:

(1) The price for the same product, when new, stated in the published price list of the manufacturer in effect on the base date for the product, less the manufacturer's smallest discount to users, if any.

(2) The price for the same product, when new, stated in the published price list of the manufacturer in effect at the time the second-hand product is sold, less the manufacturer's smallest discount to users, if any.

(3) Where the manufacturer did not have a published price in effect on the base date for the product, the last price, f. o. b. manufacturer's plant, at which the manufacturer contracted to sell the same product, when new, to a user whether before, on or after the base date for the product.

(4) Where the product is not manufactured in the United States, the last price to a user, when new, landed in the United States, or in any territory or possession of the United States, in which the product is located when sold.

(5) Where the base price may not be determined by (1) to (4) above, the first applicable of the prices set forth in (1) to (4) above for the nearest equivalent product.

Unless otherwise provided herein, the base price shall be the f. o. b. manufacturer's plant. However, where the manufacturer sells the product when new only on an installed basis, the base price shall be the manufacturer's price to users of the products, when new, installed at the point of original installation. Where the manufacturer sells a product only on a delivered basis, the base price shall be the manufacturer's price to users for the product, when new, delivered to the point where the second-hand product is located at the time of the present sale.

[Paragraph (e) amended by Am. 5, 10 F.R. 7682, effective 6–30–45 and Am. 31, effective 4–16–46]

(f) *Depreciation method*—(1) *All products listed in Appendix E.* The "depreciation method" may be used only in computing the maximum prices of products listed in Appendix E. This subparagraph (1) is applicable to all such second-hand products. The seller shall determine the price of any such product under the depreciation method, as follows: The seller shall first determine the base price of the product under the preceding paragraph (d). The seller shall then deduct from that price an amount determined by applying to the base price of the product (see paragraph (d)), the depreciation rate set forth in Appendix E for the type of product being priced. Depreciation shall be determined by use of the straight line method. The period of time from the date of acquisition by the original purchaser for use of the product when new to the date of sale shall be used to determine the amount of depreciation. In measuring that period of time, a fractional period of a month consisting of sixteen days or more shall be regarded as a full month and a fractional period of a month consisting of fifteen days or less shall be disregarded.

[Above paragraph amended by Am. 31, effective 4–13–46]

(2) *Statement to be given purchaser.* The seller shall give the purchaser a signed statement before or at the time of the delivery of any machine or part priced under this paragraph (f). This statement shall contain (i) a description of the product that is sufficient to permit identification, (ii) the name and address of the original purchaser of the product when new, and (iii) the date of acquisition of the product by the original purchaser. If this information is not available to the seller, the maximum price may not be figured under the depreciation method.

[Subparagraph (2), formerly (3), redesignated by Am. 31, effective 4–13–46. Former subparagraph (2) revoked by Am. 31]

(g) *Items which may and may not be added to the maximum price.* The seller may add the following items of expense to the maximum price established by paragraphs (a) to (e), inclusive, (to the extent that they are incurred by him):

(1) The actual amount of any tax upon the sale or delivery.

(2) The actual cost of transportation from the point of shipment to the place where the purchaser requests that the second-hand product be shipped. The point of shipment means the point at which the second-hand product is first loaded on a common carrier, or normally would be first loaded on a common carrier for transportation to the place where the purchaser requests that it be shipped.

[Subparagraph (2) amended by Am. 31, effective 4–13–46]

(3) The actual cost of installation, if the installation is done at the request of the purchaser.

(4) The expense of packing and crating.

(5) In the case of a second-hand machine, a price not exceeding the applicable maximum price established by this regulation for any extras supplied with the machine. The term "extra" means optional equipment furnished by the manufacturer at additional cost.

(6) [Revoked]

[Subparagraph (6) revoked by Am. 31, effective 4–13–46]

These items may be added only if billed or invoiced separately. No other charges or expenses may be added, such as any commission or service charge paid to anyone or the expense incurred by the seller for dismantling and loading.

SEC. 13. *Maximum prices for certain sales of second-hand products*—(a) *Certain sales by the Defense Plant Corporation, the War Department and the Department of the Navy*—(1) *Applicability.* This paragraph is applicable to sales by Defense Plant Corporation, the War Department, or the Department of the Navy of second-hand products which were originally acquired by the agency for the purpose of rental. Notwithstanding any other provisions of this regulation, the maximum price for such sales is the price determined in accordance with subparagraphs (2) and (3), below, or the price determined in accordance with the applicable provisions of section 12, whichever is the higher.

(2) *Where the purchaser is the first lessee.* The maximum price for the sale of the second-hand product to the first lessee under an agreement with the agency shall be the sum of the following, less the deduction for depreciation required by subparagraph (4):

(i) The cost of the second-hand product to the agency.

(ii) The freight paid by the agency, if any, for transportation of the product to the point where it was installed for use by the first lessee.

(iii) The cost to the agency of unloading the product at the point where it was installed for use by the first lessee.

(iv) The cost to the agency of the installation of the product at the point where it was installed for use by the first lessee.

(v) Interest on items (i) to (iv), inclusive, at the rate actually charged the purchaser under the agreement of lease between the agency and the purchaser. If no interest rate was specified in such agreement, the interest rate used shall be the average rate charged by the agency to other lessees of comparable products. Interest shall be computed from the date that each of the items listed in (i) to (iv), inclusive, was paid by the agency.

(vi) Direct expenses actually incurred by the agency and normally charged the purchaser under the agreement of lease between the agency and the purchaser. If no provision for direct expenses is specified in such agreement, there may be added direct expenses actually incurred by the agency and normally charged by them to other lessees of comparable products.

(vii) Any tax upon the sale or delivery of the second-hand product, paid by the agency. This tax may be added only if it is billed or invoiced separately.

(3) *Where the purchaser is a person other than the first lessee of the product.* The maximum price for the sale of the second-hand product to a person, other than the first lessee, under an agreement with the agency, shall be the sum of the following, less the deduction for depreciation required by subparagraph (4):

(i) The cost of the product to the agency.

(ii) The freight paid by the agency for transportation to the place where the purchaser requests that the second-hand product be shipped.

(iii) Any tax upon the sale or delivery of the second-hand product paid by the agency. This tax may be added only if it is billed or invoiced separately.

(4) *Depreciation.* Depreciation on the original total cost of acquisition shall be deducted at the rate of 8% a year from the date of installation after acquisition by the agency, except where the product is sold within ninety days after that date.

(b) *Sales between affiliated corporation*—(1) *Applicability of this paragraph.* This paragraph is applicable to the sale of any second-hand product which (i) is sold by one corporation to another corporation, both of which are members of an affiliated group, as defined in section 141 of the Internal Revenue Code, and (ii) is acquired by the purchasing corporation for the processing or fabricating of other commodities and not for resale in the same or in a fabricated form. The maximum prices for such sales are to be determined in accordance with the provisions of this paragraph, notwithstanding any other provision of this regulation.

(2) *Maximum prices.* The maximum price for the sale of a second-hand product covered by this paragraph shall be the selling corporation's book value of the product, less depreciation computed at the rate and in the manner used by the selling corporation in the preparation of its federal income tax return. However, if the price computed in this manner equals zero, the maximum price for the sale of the second-hand product shall be its maximum price as scrap.

(3) *Report.* Within ten days after any sale of a second-hand product covered by this section, the selling corporation shall file a report with the Machinery Branch, Office of Price Administration, Washington 25, D. C. This report shall state the following:

(i) A description of the product, including the manufacturer's name, type of product and the model or serial number;

(ii) The name and address of the purchasing corporation;

(iii) The date of acquisition of the product by the selling corporation.

(iv) The selling price of the product;

(v) A computation of the maximum price under subparagraph (2) of this paragraph; and

(vi) A statement signed by a responsible officer of the purchasing corporation to the effect that the product has been acquired for the processing or fabricating of other commodities and not for resale in the same or in a fabricated form.

SEC. 14. *Maximum rental rates*—(a) *List or established prices.* The maximum rental for any new or second-hand product for which the lessor had a published or established price in effect on the base date, shall be that price, adjusted to reflect all applicable extra charges, discounts or other allowances that the lessor had in effect to a lessee of the same class on the base date. See the definition of "established price in effect on the base date" in section 28 (a).

(Note that this regulation does not apply to equipment and machines specifically described in Maximum Price Regulation No. 134 under the general classification of construction and road maintenance equipment or to industrial sewing machines under Maximum Price Regulation 375, or to machine tools subject to Maximum Price Regulation 1 and Maximum Price Regulation 67 or used pressure vessels subject to Maximum Price Regulation 465.)

[Above paragraph added by Am. 31, effective 4–13–46]

(b) *Products without list or established prices*—(1) *Report.* This paragraph is applicable to the lease or rental of any new or second-hand product for which the lessor did not have a published or established price in effect on the base date. The maximum rental for any such product shall be a price, in line with maximum prices otherwise established by this regulation, specifically authorized by the OPA. A lessor seeking such authorization shall file a report with the Machinery Branch, Office of Price Administration, Washington 25, D. C. This report shall set forth the following.

(i) A description of the product for which a maximum rental rate is sought. This description shall include the manufacturer's name and address, type of product, model, figure, or serial number, if any, and any other specifications commonly shown on price sheets or furnished to purchasers to identify similar products.

(ii) The lessor's acquisition cost of the product.

(iii) The proposed maximum rental rate and the rental period involved (day, week, month, year, etc.).

(iv) A statement of the bases on which such proposed maximum rental rate was established.

(v) A statement of the reasons why the maximum price cannot be determined under paragraph (a) of this section.

(2) *Maximum prices.* The lessor may quote, contract, lease and deliver the product at the maximum rental rate proposed by him in his report but he may not receive payment until the OPA approves the proposed maximum rental rate or

until thirty days have elapsed after the mailing of the required report (or all additional information which may be requested) without the OPA disapproving of the proposed rental rate. If the OPA disapproves of the proposed rental rate, it may fix a different maximum rental rate. This rental rate will be in line with maximum prices otherwise established by this regulation. The lessor may not receive payment at a price in excess of the maximum rental rate so fixed. The maximum rental rate either approved or fixed in the manner just set forth shall be the maximum rental rate for all subsequent leases or rentals of the product. However, the OPA may, by order, fix a different maximum rental rate (not to apply retroactively). This rental rate will be in line with maximum prices otherwise established by this regulation.

SEC. 15. [Revoked]

[Sec. 15 revoked by Am. 31, effective 4-13-46]

SEC. 16. *Taxes*—(a) *In general.* If a tax or tax increase is imposed on a new or second-hand product and the tax law does not forbid the seller or lessor to pass the tax on to his customers, he may add the tax or tax increase to his maximum price, if he separately states it. However, if the tax was in effect on the base date, and the seller or lessor did not charge his customers extra for the tax on that date, he may not do so now.

(b) *Tax on the transportation of property.* The tax on the transportation of all property imposed by section 620 of the Revenue Act of 1942, shall, for purposes of determining the applicable maximum price of any new or second-hand product, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated as a tax for which a charge may be made in addition to the maximum price.

SEC. 17. *Terms and conditions of sale*—(a) *Credit charges.* The maximum prices established by this regulation shall not be increased by any charges for the extension of credit unless (1) the seller or lessor on the base date required the payment of a separately stated additional charge for the extension of credit by purchasers of the same class on sales or leases of the same or similar types of commodities, and (2) the amount charged for the extension of credit is not in excess of the charge the seller or lessor had in effect on the base date for extension of credit involving the same amount and term.

(b) *Transportation costs.* No seller or lessor may require any purchaser, and no purchaser shall be permitted, to pay a larger proportion of transportation costs incurred in the delivery or supply of any commodity, than the seller or lessor required purchasers of the same class to pay on the base date on deliveries or supplies of the same or similar types of commodities.

(c) *Demonstration and training.* Charges for demonstrating and training of operators shall be figured on the same basis as that used by the seller on the base date. Where such charges are made, they shall be invoiced separately. Charges for demonstration and training may not be added where the seller supplied such services and made no separate charge therefor on the base date.

SEC. 18. *Transfers of business or stock in trade.* If the business, assets or stock in trade are sold or otherwise transferred after the base date for the product and the transferee carries on the business, or continues to deal in the same type of products, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the provisions of this regulation.

SEC. 19. *Maximum prices for certain specified products.* Notwithstanding any other provisions of this regulation, the maximum prices for the following products shall be as follows:

(a) *Lead acid storage batteries and parts.* The maximum price for any new lead acid storage battery or part shall be the higher of the following:

(1) The net price determined in accordance with the applicable provisions of section 7 to 11, inclusive, plus an amount not exceeding one cent for each pound, or major fraction of a pound, of lead contained in the battery or part.

(2) The net price determined in accordance with the applicable provisions of sections 7 to 11, inclusive, substituting the date February 1, 1942, for the base date.

(b) [Revoked]

[Paragraph (b) amended by Am. 1, 10 F.R. 5377, effective 5-8-45; Am. 3, 10 F.R. 7536, effective 6-26-45 and revoked by Am. 31, effective 4-13-46]

(c) *Machines and parts containing silver.* Except where another provision of this regulation permits the increase in cost due to the increased price of silver to be reflected in the maximum price, the maximum price for the sale of any product containing silver shall be as follows:

(1) *Manufacturers.* The maximum price for the sale by the manufacturer of a product containing silver shall be determined by computing a price in accordance with all other applicable provisions of this regulation, except that the silver content shall be computed at the rate of 34.98 cents per ounce; to the price so computed the manufacturer shall add an amount found by multiplying the number of fine troy ounces contained in the product by the difference between 34.98 cents and the market price, not in excess of 71.111 cents, per fine troy ounce of silver which is in effect to the manufacturer at the time he sells or quotes, a price for the sale of the product. The amount so added as a differential for the price of the silver content shall be separately stated by the manufacturer on his invoices.

(2) *Resellers.* The maximum price for the sale by a reseller of a product containing silver shall be determined by computing a price in accordance with all other applicable provisions of this regulation, except that it shall be based upon his supplier's price before inclusion of the differential for the price of silver and shall then be increased by the dollar-and-cents amount of the differential stated by his supplier.

[Paragraph (c) amended by Am. 21, 10 F.R. 13550, effective 10-31-45]

(d) *Mica capacitors.* The maximum manufacturers' prices of mica capacitors shall be determined as follows: The manufacturer shall first determine the price in accordance with all applicable provisions of this regulation, except this paragraph. The manufacturer shall then add to that price increases in unit cost, realized subsequent to the basic date of the capacitor (March 31, 1942, or April 1, 1943), in the cost of block mica and in the cost of splitting and cutting mica film. Labor rates must be determined as of the base date for the capacitor. Where the manufacturer purchases mica parts, he shall add increases in unit cost, realized subsequent to the base date of the capacitor, in the cost of mica parts.

[Paragraph (d) amended by Am. 5, 10 F.R. 7682, effective 6-30-45]

(e) *Textile bobbins and spools.* The maximum manufacturers' price for textile bobbins and spools made principally of wood shall be determined as follows: The manufacturer shall multiply the net price he had in effect to a purchaser of the same class on October 1, 1941, by whichever of the following percentages is applicable:

(i) 124% in the case of American Bobbin Company, Lewiston, Maine; Bowen-Hunter Bobbin Company, East Corinth, Vermont; The Jackman Company, East Corinth, Vermont; Monticello Bobbin Company, Monticello, Georgia; and Walter L. Parker Bobbin & Spool Company, Lowell, Massachusetts;

(ii) 120% in the case of Jas. H. Billington Company, Philadelphia, Pennsylvania; Dana S. Courtney Company, Chicopee, Massachusetts; and New England Bobbin & Shuttle Company, Nashua, New Hampshire.

(iii) 118% in the case of all other manufacturers.

[Paragraph (e) amended by Am. 4, 10 F.R. 7340, effective 6-15-45]

(f) *Buff and polishing wheels*—(1) *Maximum prices.* The maximum prices for sales of buff and polishing wheels (except those covered by Maximum Price Regulation 316) shall be determined by increasing by 9% the maximum net price which the seller (manufacturer or reseller) had in effect to a purchaser of the same class on March 31, 1942, plus the additional amount determined pursuant to the following subdivisions (i) and (ii), whichever is applicable.

(i) *Manufacturers of buff and polishing wheels who buy cotton textiles.* The amount to be added by any manufacturer who buys the cotton textiles listed in the table below from which he makes buff and polishing wheels, shall be the dollar-and-cents amounts by which his costs of the respective cotton textiles which are comprised in such buff and polishing wheels have been increased as the result of the following provisions of Supplementary Order 131:

Commodity:	*Supplementary Order 131 (Section and paragraph).*
Sheeting yarn fabrics.	Section 4, paragraph (f).
Print cloth fabrics.	Section 4, paragraph (p).
Flannels	Section 4, paragraph (w).
Ducks (in the grey).	Such action as may be taken in any amendment to Supplementary Order 131.

(ii) *Resellers.* The amount to be added by a reseller to his maximum price for the sale of any buff and polishing wheel shall be the dollars-and-cents amount by which his supplier's maximum price to him has been increased pursuant to this subparagraph (1). If the reseller's supplier has notified him of the amount of that increase in accordance with the next paragraph (2); and if the reseller has no reason to doubt the validity of the notification, the amount of which the seller has been so notified shall be deemed to be the proper amount to be added under this subdivision (ii).

(2) *Notification by sellers to purchasers for resale.* Every seller of buff and polishing wheels made of cotton textiles listed in subdivision (i), who sells such items to purchasers who buy for the purpose of resale, shall notify every such purchaser in writing of the amount by which the maximum price to the purchaser has been increased on each such item.

(3) *Reports; price lists and discount sheets.* Not later than December 1, 1945, every manufacturer or reseller of buff and polishing wheels made of cotton textiles listed in subdivision (i) above, who is affected by this paragraph (f) shall file with the Machinery Branch, Office of Price Administration, Washington, D. C., the maximum prices that were in effect just prior to October 23, 1945, and after recomputing his maximum prices as established by this section on October 23, 1945, shall file such new maximum prices with the Machinery Branch, Office of Price Administration, Washington, D. C.

[Paragraph (f) added by Am. 2, 10 F.R. 6591, effective 6-4-45 and amended by Am. 19, 10 F.R. 13229, effective 10-23-45]

(g) *Metal stampings and screw machine products.* The maximum prices for sales by a manufacturer to any purchaser of any new metal stampings or screw machine products for which the manufacturer had a published list price or an established price in effect on the base date shall be the prices established under section 7, or computed under section 8, increased by 8%. For the purposes of this paragraph, the terms "stampings" and "screw machine products" shall include all products which are subject to this regulation as otherwise definable parts, components, or subassemblies fabricated by the stamping or screw machine process as these processes are defined under those headings in Appendix A.

[Paragraph (g), formerly (f), added by Am. 11, 10 F.R. 11998, effective 9-19-45 and redesignated by Am. 18, 10 F.R. 12807, effective 10-11-45; amended by Am. 31, effective 4-13-46]

(h) *Radio tubes*—(1) *Definition.* For the purpose of this section, "Radio tubes" means "Radio receiving tubes" which were in actual use for radio receiver purposes in March 1942. The term does not mean special purpose and transmitting tubes or any tubes not made in March 1942, or tubes for which list prices were not established on March 31, 1942.

[Paragraph redesignated (h) and subparagraph (1) amended by Am. 18, 10 F.R. 12807, effective 10-11-45]

(2) For the purposes of the increased prices provided by this paragraph, the phrase "base date prices" shall mean the maximum prices in effect on March 31, 1942, as established by Revised Price Schedule 84.

(3) The maximum prices for sales by manufacturers of new radio tubes, except sales of new radio tubes to resellers or sales for replacement purposes, shall be the higher of the following prices:

(i) For unmodified tubes, the maximum prices established by section 7 or the base date prices increased by 10.4%.

(ii) For modified tubes, the maximum prices computed under section 8 or the maximum prices computed under section 8 using the base date prices increased by 10.4% as the "established price in effect on the base date."

[Paragraph (h), formerly (g), added by Am. 11]

(i) *Radio parts*—(1) *Definition.* For the purpose of this section, the term "Radio parts and electronic circuit parts" means:

Fixed capacitors of all types (excluding mica capacitors);
Variable condensers, all types, including padders and trimmers (except mica condensers);
Fixed wire wound resistors, excluding heater elements;
Fixed resistors other than wire wound, designed especially for radio and radar use;
Variable resistors, all types, designed for radio and radar use;
Transformers, coils and chokes designed for radio and radar use;
Speakers and vibrators designed for use in electronic applications;
Parts for electric phonographs or phonograph recorders or electric phonographs combined with radios;
Hardware, molded parts, terminals, shields and switches and other parts designed for radio and radar use.

This description does not include:

Radio tubes and tube parts and radio cabinets;
Such parts and materials that require additional fabrication before they become identified as an integral electronic component part.
Mica capacitors and condensers.

(2) *Definition of comparable part.* For the purpose of this paragraph, a comparable part shall be one whose use and functions are similar to those of the part to be priced, and which is constructed of the same or similar materials as the part to be priced. If there are a line of parts comparable to the part to be priced, the comparable part shall be that one of the line whose use, function and cost are most nearly those of the part to be priced.

(3) *Maximum prices.* The maximum prices for sales of new radio parts and electronic circuit parts by manufacturers who sold new radio parts and electronic circuit parts prior to October 1, 1941, shall be computed by applying the first of the methods, applicable to the part being sold, set forth in the following paragraphs (i) and (ii), except in cases where the manufacturer receives specific written approval of OPA to compute prices under the methods set forth in paragraphs (iii) and (iv). If a manufacturer did not sell new radio parts and electronic circuit parts prior to October 1, 1941, he may use the provisions of this paragraph (i) of section 19 only if he has a published list price for the part to be priced or for a comparable part which has been approved by OPA; otherwise, his prices for sales of new radio parts and electronic circuit parts shall be established by the other applicable provisions of this regulation without reference to this section.

(i) *Parts with base date prices.* If the part is one which the manufacturer sold at least once between April 1, and October 1, 1941, the last price at which he sold the part prior to October 1, 1941, shall be the established price in effect on the base date for the purpose of this subdivision (i). If the part is one for which the manufacturer has a published list price or an established price in effect on the base date, the maximum price shall be that price, adjusted to reflect all appropriate extra charges, discounts or other allowances that the manufacturer had in effect to a purchaser of the same class on October 1, 1941, increased by one of the following percentages applicable to the part being priced:

	Percent
Coils for radio equipment (including R. F. and I. F. coils)	26.3
Fixed capacitors	16.4
Radio power and audio transformers, chokes and vibrators	16.1
Variable condensers	16.5
Speakers and speaker parts	19.6
Parts for electric phonographs or phonograph recorders or electric phonographs combined with radios	11.5
Fixed and variable resistors	9.5
All other radio parts	9.5

(ii) *Comparable parts.* If the part is comparable to one for which the manufacturer has a price that can be computed under subdivision (i), the manufacturer shall first compute a price for the part to be sold under the pricing formula set forth in section 8, using the price for the comparable part computed under the preceding subdivision (i) as "the established price in effect on the base date" for the part before modification. If the price thus computed is substantially less than or greater than the computed price of the comparable part, and is in line with the general level of prices of similar parts then the price for the part to be sold computed in the manner stated in the preceding sentence shall be the max-

imum price of the part to be sold, but if the part to be sold is different from the comparable part only by reason of minor changes in material, design or construction, which do not substantially affect the cost of materials, or prevent the part from offering fairly equivalent serviceability, the maximum price of the part to be sold shall be the maximum price of the comparable part computed under subdivision (i). In any case, where the manufacturer established a maximum price for a part, under the provisions of this subdivision (ii), he shall file with the Machinery Branch, Office of Price Administration, Washington 25, D. C., a report of that price. After receipt of this report, OPA may (*a*) approve the proposed maximum price, (*b*) disapprove the proposed maximum price, or (*c*) establish a different maximum price determined under this section by order. If the OPA fails to act within thirty days after it receives the required report (or any verification of the facts stated in the report that may be requested), the proposed maximum price shall be deemed to be approved. OPA will give notice in writing of the date of receipt of the required report. Prior to May 1, 1946, the filing of the report required by this subparagraph shall automatically establish as the manufacturer's maximum price the maximum price computed according to the provisions of this paragraph and reported by the manufacturer. At any time after the filing of the report, upon ten days notice to the manufacturer, the OPA may establish a different maximum price in line with the general level of prices of similar parts, but the price so established shall become effective only as to deliveries made after the date OPA has established the new price.

[Subparagraph (ii) amended by Am. 31, effective 4-13-46]

(iii) *Formula priced parts.* The manufacturer may use the method of establishing a maximum price under the provisions of this paragraph only upon specific written approval by OPA. If the manufacturer can establish to the satisfaction of OPA that it is not feasible to compute a maximum price for sales of any new radio parts and electronic circuit parts under the provisions of subdivision (i) or (ii), and had in effect on the base date (October 1, 1941, as established by this paragraph) a method of determining price by relation to cost for parts of the same or similar types, the manufacturer may establish the maximum prices for sales of such parts under the provisions of this paragraph upon written approval by OPA. The application for such approval shall be filed with the Office of Price Administration, Machinery Branch, Washington 25, D. C., and shall contain a full statement of the reasons why the parts cannot be priced under subdivisions (i) or (ii) and a detailed statement of the price determining method of the manufacturer in effect on the base date. The approval of OPA may state conditions, limitations and restrictions upon which the manufacturer may compute prices under this subdivision (iii) which shall be consonant with the intent and purposes of this subdivision (i) of section 19. The maximum price for a part shall be computed under this subdivision (iii) in line with the general level of prices for comparable parts by applying to the manufacturer's price determining method, approved by the OPA, the materials prices (including purchased parts and subassemblies), the labor rates (labor hours may be computed on a current basis), and the rates for overhead, general administrative and selling expense, profit and other factors, in effect on October 1, 1941, and by increasing the price so computed by the percentage applicable to the part being priced set forth in subdivision (i).

(iv) *Other parts.* If the manufacturer can establish to the satisfaction of the OPA that it is not feasible to compute a maximum price for sales of any new radio parts and electronic circuit parts under the provisions of the preceding subdivisions (i), (ii) or (iii), he may apply to the Office of Price Administration, Machinery Branch, Washington 25, D. C., for permission to compute prices under the provisions of sections 9 and 10. Such application shall contain a detailed statement of the proposed method of computing prices under sections 9 and 10. Upon receipt of a written approval by OPA, a manufacturer may then compute maximum prices for sales of such part under the provisions of sections 9 and 10 without reference to this section.

(4) *Resellers.* A reseller of radio parts and electronic circuit parts may increase his maximum price by the same percentage by which the maximum price of his supplier has been increased by this paragraph on sales and deliveries to the reseller.

(5) *Deliveries.* From and after February 1, 1946, no person shall deliver new radio parts or electronic circuit parts at a price higher than the maximum price permitted by this section except as provided in sections 21 and 23. Any manufacturer of radio parts and electronic circuit parts who has not completed deliveries upon a firm order accepted prior to December 3, 1945, may apply to the Office of Price Administration, Machinery Branch, Washington 25, D. C., for permission to continue to make deliveries upon that order after February 1, 1946, at prices established before December 3, 1945, until the order has been filled. Such application shall state the names of the buyers, the total dollar amount of the orders from each buyer, and the estimated date of completion of all orders for each buyer. For the purposes of this provision, the phrase "firm order accepted" shall mean an order upon which the manufacturer has become bound to deliver to the buyer at a fixed price a definite quantity of specified parts.

[Paragraph (i), formerly (h), added by Am. 11, 10 F.R. 11998, effective 9-19-45; redesignated and amended by Am. 18, 10 F.R. 12807, effective 10-11-45; further amended by Am. 22, 10 F.R. 14705, effective 12-3-45; Am. 24, 10 F.R. 15127, effective 12-14-45 and Am. 27, 11 F.R. 676, effective 1-15-46]

(j) *Textile loom shuttles made of dogwood and persimmon wood*—(1) *Increase in maximum prices.* Notwithstanding any other provisions of this regulation, the maximum price calculated under this regulation, apart from this subparagraph, for any textile loom shuttles made of dogwood and persimmon wood, shall be increased by the amount provided in whichever of the following subdivisions (i) to (iii) is applicable:

(i) *Manufacturers of finished shuttles who buy shuttle blocks.* The amount to be added by any manufacturer who buys the dogwood and persimmon wood shuttle blocks from which he manufactures finished shuttles shall be the combined dollar-and-cents amount of the increase in the maximum price for the shuttle blocks going into the production of finished shuttles made of dogwood and persimmon wood being priced, which became effective August 11, 1945, in accordance with the provisions of Amendment 12 to the Second Revised Supplementary Regulation 14 (sec. 3.2) to the General Maximum Price Regulation. The increases shall be the amounts by which Amendment 12 to Second Revised Supplementary Regulation 14 (sec. 3.2) to the General Maximum Price Regulation increased the maximum price of dogwood and persimmon wood shuttle blocks sold or delivered by the manufacturer's supplier to the manufacturer, including any increase due to delivery charges that the supplier is permitted to make.

(ii) *Manufacturers who make their own shuttle blocks.* The amount to be added by any manufacturer who makes the dogwood or persimmon wood shuttle blocks from which he manufactures finished shuttles, shall be the amount in line with the amounts to be added under (i) by comparable manufacturers who buy dogwood and persimmon wood shuttle blocks, specifically authorized in writing by the Office of Price Administration. The manufacturer shall write to the Office of Price Administration, Washington 25, D. C., for such authorization.

(iii) *Resellers.* The amount to be added by a reseller shall be the dollar-and-cents amount by which the maximum price of his supplier has been increased by this subparagraph on sales and deliveries to the reseller. If the reseller's supplier has notified him of the amount of that increase in accordance with the next subparagraph (2), and if the reseller has no reason to doubt the validity of the notification, the amount of which the seller has been so notified shall be deemed to be the proper amount to be added under this subdivision (iii).

(2) *Notification by sellers who sell to purchasers for resale.* Every seller of finished shuttles made of dogwood and persimmon wood shuttle blocks which are covered by this subparagraph, who sells such items to purchasers for the purpose of resale, shall notify every such purchaser in writing of the amount by which the seller's maximum price to the purchaser has been increased on each such item calculated according to the appropriate provision in subdivision (i).

(3) *Reports; price lists and discount sheets.* Within sixty days after September 26, 1945, every manufacturer or seller of finished shuttles made of dogwood or persimmon wood, who is affected by this amendment, as provided in subdivisions (i) to (iii) above, shall file with the Machinery Branch, Office of Price Administration, Washington 25, D. C., his maximum prices and discounts for all sizes of shuttles manufactured or sold by him that were in effect just prior to September 26, 1945. Such manufacturer or seller shall, after recomputing his maximum prices and discounts for finished shuttles by applying the dollar-and-cents amount of the increases in shuttle blocks, file his new maximum prices and discounts for finished shuttles with the Machinery Branch, Office of Price Administration, Washington 25, D. C.

[Paragraph (j) added by Am. 12, 10 F.R. 12208, effective 9-26-45]

(k) *Construction and road maintenance machinery and equipment.* (1) Until, but not after, May 15, 1946, the manufacturer of any item listed in subparagraph (3) of this paragraph is authorized to increase by not more than 5% the base date maximum price which he had in effect for the sale of such item, or any repair and replacement part therefor, to any class of his purchasers. A manufacturer who proposes to increase any maximum price pursuant to this authorization shall forthwith file with the Machinery Branch, Office of Price Administration, Washington 25, D. C., a report setting forth the prices established pursuant hereto, and the date upon which they will become effective. The failure of OPA to disapprove any price so reported shall in no event constitute approval thereof as the applicable maximum price.

(2) *Resellers' maximum prices*—(i) *Non-list-priced items.* Until, but not after, May 15, 1946, and as to any item for which the manufacturer does not have a published list price, the maximum price of any reseller for the sale to any class of his purchasers of an item whose cost has been increased to him pursuant to subparagraph (1) above, shall be the price determined by increasing the maximum price which he had in effect to such purchaser, just prior to the issuance of this authorization, by the same percentage amount by which his invoiced cost of such item was increased.

(ii) *List-priced items.* A reseller who customarily sold on the basis of the manufacturer's list price may continue to sell on the basis of the manufacturer's new list price as adjusted pursuant to this authorization, subject to the discounts and allowances, and terms or conditions of sale, which such seller had in effect just prior to the issuance of this authorization.

(3) This section shall apply to machinery and equipment designed for use in and the performance of construction, road building and road maintenance work, limited, however, to the following items:

Aerial tramways
Agitator mixers: concrete, truck type
Airdrills, rock
Augers, earth, power
Batchers
Bins, construction
Blades:
  Ditcher
  Grader
  Snow plow (except designed for mounting on automobile trucks and wheel type farm or garden tractors)
Boosters, tank car
Borers, earth
Breakers, paving
Brooms, road, construction, rotary
Buckets:
  Clamshell
  Concrete
  Drag scraper
  Dragline
  Orange Peel
Buggies, concrete handling
Bull graders
Carts: concrete handling
Cement guns
Chutes, concrete
Circulator, asphalt plant
Concrete curing and spraying equipment
Construction equipment, tractor mounted
Conveyors, portable troughed, belt type
Conveyors, semi-portable, designed especially for use with construction plants or attached to construction machinery.
Crack and joint filling machinery
Cranes:
  Power, crawler
  Power, truck mounted
  Self-propelled
  Tractor mounted
Crushers, rock (construction)
Derricks, guy, stiffleg, floating (except oil drilling)
Diggers:
  Clay
  Earth, power operated
Discs, road
Distributors:
  Bituminous
  Water
Ditchers:
  Blade
  Ladder
  Wheel
Dozers:
  Angle
  Bull
  Tilt
  Tree
  Push
Draglines, crawler, slack line, walking
Drags, road
Dredges, construction
Drills, blast hole
Drivers, pile
Dryers, concrete aggregate
Elevators, construction
Excavators:
  Clam shell, dragline, trench hoe, etc.
Extractors, pile construction
Feeders, aggregate
Finegraders
Finishers:
  Bituminous
  Concrete
Form graders
Form tamping machines
Forms, road and sidewalk
Flushers, street
Gradation units
Graders, all types
Grapples, rock
Hammers, pile
Heaters:
  Concrete mixer
  Asphalt surface
  Tank car
  Stone, sand, bitumen
Hoists, contractors
Hoppers, concrete
Jacks, mud
Joint levelers
Kettles, heating, bituminous
Loaders:
  Bucket
  Front end
  Snow
  Forced feed windro
Maintainers, road
Maintenance units, bituminous
Mixers:
  Aggregate pulv.
  Bituminous
  Concrete, truck, readymix
  Concrete
  Mortar
  Plaster
Mortar boxes
Pavers:
  Bituminous
  Concrete
Paving tools
Pile driving caps
Pipelayers
Plants:
  Asphalt
  Bulk cement
  Concrete, portable (except concrete block and pipe plants)
  Crushing
  Crushing, portable
  Screening
  Soil stabilizer
Plows, snow (except designed for mounting on automobile trucks and wheel type farm or garden tractors)

(4) *Base price.* As used in this section, the term "base price" applies to the following prices:

(i) A published list price which the manufacturer had in effect on October 1, 1941.

(ii) A list price established prior to September 28, 1945, pursuant to section 8 of this regulation for a modified item.

(iii) An established price in effect on October 1, 1941, as defined in section 28 (a) of this regulation.

This paragraph does not apply to maximum prices established by adjustment pursuant to section 21 or to maximum prices computed by formula pursuant to sections 9 and 10 of this regulation. However, a price established pursuant to section 9 (d) or 9 (e) on the basis of its in-lineness with maximum prices prevailing upon the base date may be revised by individual order.

[Paragraph (k) added by Am. 13, 10 F.R. 12405, effective 9-28-45; amended by Am. 25, 10 F.R. 15371, effective 12-26-45 and Am. 26, 11 F.R. 711, effective 1-16-46]

(l) *Washing machine wringers.* The maximum prices for washing machine wringers shall be determined by orders issued pursuant to the provisions of this paragraph in accordance with the standards for reconversion pricing set forth in Maximum Price Regulation 188, section 159e (Amendment 67), such standards being applied to individual companies.

The price increase factor will be determined on the basis of industry-wide and individual company surveys and will represent costs experienced during the last period of normal production adjusted for subsequent lawful changes in the level of material prices and in basic wage rate schedules of factory workers, plus the company's peace-time profit margin over costs.

[Paragraph (l) added by Am. 14, 10 F.R. 12636, effective 10-13-45]

(m) *One-wear wrought steel freight car wheels.* The maximum prices for sales of the following classes of one-wear wrought steel freight car wheels, as the basic prices of such wheels before treatment, shall be:

Type:	*Maximum price (before treatment) (each)*
Class 33-C	$23.80
Class 33-D	25.80

The foregoing prices are f. o. b. Chicago, Illinois, or Pittsburgh, Pennsylvania. These prices are subject to the schedule of additional charges for extras which the manufacturer had in effect on October 1, 1941.

[Paragraph (m) added by Am. 16, 10 F.R. 12771, effective 10-16-45, and amended by Am. 30, 11 F.R. 3203, effective 3-25-46]

(n) *Fractional horsepower electric motors*—(1) *Definition.* For the purposes of this section, fractional horsepower electric motors are defined as all small electric power motors built in frames and core stacks, smaller than that frame and stack having a continuous rating of 1 H. P., open type, 1700–1750 rpm, and all generators in the corresponding frame size, including electric phonograph motors of all types, 6 volt automobile heater motors, and other motors and generators built in the designated frames and core stacks and included in Appendix A of this regulation but excluding motors and generators (such as toy motors and generators and automotive starter motors and generators) not included in Appendix A of this regulation. The parts of the fractional horsepower electric motors as herein defined are also included.

[Last sentence added by Am. 31, effective 4-13-46]

(2) *Maximum prices.* (i) The maximum prices for sales by manufacturers of new and factory rebuilt fractional horsepower electric motors established under sections 7 and 8 shall be increased by 9%. (ii) The maximum prices for sales by manufacturers of new and factory rebuilt fractional horsepower motors, for which the manufacturer had no published list price or established price in effect on the base date, the price for which has been established on October 16, 1945 under the provisions of section 9 (d) shall be increased 9%. (iii) For fractional horsepower motors that have incorporated within or added to the motor frame special features not found on standard motors (including speed reduction gears), the maximum prices shall be increased by the dollars-and-cents amount by which the maximum prices for the standard motor of the same rating are increased under the provisions of the preceding items (i) and (ii).

(3) *Resellers.* Resellers of fractional horsepower motors may increase their maximum prices by the same percentage by which the maximum prices of their suppliers have been increased on sales and deliveries to the resellers under the provisions of this paragraph.

(4) *Notification by resellers who resell to purchaser for resale.* Every seller of fractional horsepower motors who sells such motors to purchasers who buy for the purpose of resale shall notify every such purchaser, in writing, of the percentage by which the maximum price to the purchaser has been increased on each such motor.

[Paragraph (n) added by Am. 17, 10 F.R. 12811, effective 10-16-45]

(o) *Forged steel railway axles.* The maximum base price for the sale by the manufacturer of forged steel railway axles before the performance of any treatment or machine operations shall be $3.85 per 100 lbs. at the base points, namely, Pittsburgh, Pa., Chicago, Ill., and Birmingham, Ala. This price does not include or affect the switching charges and charges for extras which the manufacturer had in effect on October 1, 1941.

[Paragraph (o) added by Am. 23, 10 F.R. 15069, effective 12-19-45, and amended by Am. 30, 11 F.R. 3203, effective 3-25-46]

SEC. 20. *Individual maximum prices*—(a) *Those established by Maximum Price Regulation 136, as amended.*[8] The provisions of subparagraphs (2), (3), (4), (5), (6), (7), (8), (10), (11), (12), (14), (16), (17), (18), (19), (20), (22), (24), (26), (27), (28), (29), (30), (31), (32), (33), (34), (35), (36), (37), (38), and (39) of section 1390.25 (a) of Maximum Price Regulation 136, as amended, are incorporated by reference into this regulation as they were in effect on March 31, 1945. The maximum prices established by these subparagraphs remain in effect, notwithstanding any other provisions of this regulation. The subparagraphs named establish maximum prices for the following persons:

A. C. Spark Plug Division of General Motors Corporation.
Aget Manufacturing Company, Adrian, Mich.
Air Associates, Inc., Bendix, N. J.
A. K. Robins and Company, Baltimore, Md.
American Raw Hide Products Company, Providence, R. I.
American Saw Mill Machinery Company, Hackettstown, N. J.
Brandtjen and Kluge, Inc., St. Paul, Minn.
Counties of the State of Michigan.
Elmira Lubricator Company, Inc., Elmira, N. Y.
Filtration Engineers, Inc.
Frick-Reid Supply Corporation, Tulsa, Okla.
Gilfillan Machine Works, Inc., Ebenezer, N. Y.
International Telephone and Radio Manufacturing Corporation, East Newark, N. J.
J. F. Kidder Manufacturing Company, Inc.
J. A. Lang and Sons Company, Boston, Mass.
John E. Fast & Company, Chicago, Ill.
John E. Mitchell Company, Dallas, Tex.
L. H. Cook Research Laboratories, Limited.
Louis Van Dorp Sheet Metal and Roofing Company, Inc., Topeka, Kans.
Middlesex Manufacturing Company, Medford, Mass.
Monarch Engineering and Manufacturing Company, Baltimore, Md.

The Parks Woodworking Machine Company, Cincinnati, Ohio.
The Tabor Manufacturing Company, Philadelphia, Pa.
Teesdale Manufacturing Company, Grand Rapids, Mich.
The Electro Motive Manufacturing Company, Willimantic, Conn.
Tempest Products Manufacturing Company, Indianapolis, Ind.
Union Fork and Hoe Company, Columbus, Ohio.
Unique Manufacturing Company, Omaha, Nebr.

(b) *Those established by Administrative Notice No. 1.*[9] Notwithstanding any other provisions of this regulation:

(1) The maximum price for the sale or delivery by the manufacturer of any product listed in Administrative Notice No. 1, as amended, shall be the price established by that Notice.

(2) The maximum price for the sale or delivery by a reseller of any product listed in Administrative Notice No. 1, as amended, for which the manufacturer has published a list price in accordance with that notice shall be that list price, subject to all applicable extra charges, discounts or other allowances that the reseller had in effect to a purchaser of the same class on October 1, 1941.

ARTICLE III—MISCELLANEOUS

SEC. 21 *Applications for adjustment.* Any person seeking adjustment in his maximum price for the sale of any product subject to this regulation may file an application for price adjustment in accordance with the provisions of Supplementary Order No. 142 (Adjustment Provisions for Sales of Industrial Machinery and Equipment).

[Sec. 21 amended by Am. 31, effective 4-13-46]

SEC. 22. *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the OPA.

SEC. 23. *Adjustable pricing.* If the seller or lessor wishes, he may agree with the buyer or lessee to charge a price that can be increased up to the maximum price in effect at the time of delivery. Where the seller or supplier has filed an application for adjustment under section 21, he may, in accordance with the provisions of that section, deliver at a price which will be adjusted upwards in accordance with the action taken by the OPA on his application. In all other cases, unless authorized by the OPA, the seller or lessor must not deliver at a price which is to be adjusted upwards in accordance with action taken by the OPA after delivery. This authorization will be given only where: (a) a request for a change in the applicable price is pending; (b) authorization is necessary to promote distribution or production; and (c) it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the OPA having authority to act upon the pending request for a change in price. The authorization will be given by order.

SEC. 24. *Records.* Every person subject to the provisions of this regulation is required to keep certain records for inspection by the OPA, for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect. Such records need not be separately maintained, but shall be deemed adequate if they are at all times available for inspection, and if they contain either explicitly or by specific reference all the information required by the applicable provisions of this section. These records are:

[Above paragraph amended by Am. 31, effective 4-13-46]

(a) *By a manufacturer.* Every manufacturer shall keep for inspection by the OPA complete and accurate records of the following:

(1) *Records of sales and leases.* Complete and accurate records of each sale or lease of a product showing:

(i) The date thereof;

(ii) The name and address of the buyer or lessee;

(iii) An identification of each product sold or leased by a reference to either a price list or to production records;

(iv) The quantity of each product sold or leased;

(v) The net price or rental; and

(vi) The maximum price and computations showing the method by which it was determined.

(2) *Price lists and discount sheets.* Published price lists and discount sheets in effect on the base date for products sold or leased by him.

(3) *Prices charged.* The prices at which he contracted to sell or lease each product during the six months' period before and including its base date.

(4) *Price determining methods and rates.* Price determining methods, labor rates, material prices, overhead rates and machine hour rates, selling and administrative rates and profit mark-ups in effect on the base date of the products produced by him.

(5) *Cost estimate sheets.* Detailed cost estimate sheets and other data showing the calculation of maximum prices for all products for which the maximum price must be determined under sections 8 or 9 of this regulation.

(b) *By a lessor, other than a manufacturer.* Every lessor, other than a manufacturer, shall keep for inspection by the OPA accurate records of the following:

(1) *Records for rentals.* Accurate records of each lease or rental showing:

(i) The date thereof;

(ii) The name and address of the lessee;

(iii) An identification of each product leased or rented; and

(iv) The net rental.

(2) *Price lists and discount sheets.* Published price lists and discount sheets in effect on the base dates for products rented or leased.

(3) *Prices charged.* The prices at which he contracted to lease or rent each product during the six months' period before and including its base date.

(4) *Bases of maximum rentals.* The bases upon which maximum rentals are and have been figured.

(c) *By a reseller.* Every reseller of new products shall keep for inspection by the OPA accurate records of the following:

(1) *Records of sales.* A record of each sale of a product showing:

(i) The date of sale.

(ii) The name and address of the purchaser.

(iii) An identification of each product sold. Where available, this identification shall state the name of the manufacturer, the model or style number, the type, and the serial or other number.

(iv) The quantity of each product sold.

(v) The net price received.

(vi) The maximum price and the method by which it was determined.

(2) *Records of purchases.* Records of purchases of the kind the reseller has customarily kept.

(3) *Price lists.* Published price lists and discount sheets in effect on the base date for products sold by him.

(4) *Prices charged.* The prices at which he contracted to sell each product during the six months' period before and including its base date.

(d) *By a seller of second-hand products.* Every seller of second-hand products shall keep for inspection by the OPA accurate records of each sale of a second-hand product showing:

(1) The name and address of the purchaser.

(2) The date of sale.

(3) An identification adequate enough to determine the applicable base price, as defined in section 12 (e), of each second-hand product sold. Where available, this identification shall state the name of the manufacturer, the model or style number, the type, and the serial or other number.

[Subparagraph (3) amended by Am. 31, effective 4-13-46]

(4) The quantity of each second-hand product sold.

(5) The net price received.

(6) Whether or not the sale was made on a "rebuilt and guaranteed" basis.

[Subparagraph (6), formerly (7), redesignated by Am. 31, effective 4-13-46. Former subparagraph (6) revoked by Am. 31]

SEC. 25. *Reports*—(a) *Price lists and discount sheets.* On or before April 30, 1945, every manufacturer, seller and lessor shall file with the Machinery Branch, Office of Price Administration, Washington 25, D. C., if he has not already done so, all published price lists and discount sheets he had in effect on the base date for the sale or rental of products covered by this regulation. However, no price lists or discount sheets need be filed by a manufacturer for repair parts or tools used in the maintenance and repair of products manufactured by him, unless OPA specifically requests him to do so. Any person who, on the base date, sold or leased products at prices based upon price sheets published by another subject to this regulation shall file, instead of that other person's published price sheets, a statement identifying the particular price sheets he used on the base date, together with his own discount sheets, if any, and a statement of any variation from such other person's published price sheets.

(b) *Reports on products brought under this regulation.* Whenever the sale or rental of any product is brought within the scope of this regulation by an amendment, the reports required by paragraph (a) shall be filed within thirty days after the effective date of that amendment.

(c) *Notification of auction sales.* Every auctioneer shall file a written notice of every public or private auction sale of second-hand products at least one week before the sale. This notice shall be sent to the District Office of the OPA located where the auction is to be held. It shall include the place, date and hour of sale, the classes and types of products that are to be sold, and a copy of the sale announcement.

SEC. 26. *Evasion*—(a) *In general.* The price limitations set forth in this regulation shall not be evaded whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, lease of or relating to commodities covered by this regulation, alone or in conjunction with any other commodity or service, or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

[8] 9 F.R. 4748, 6420, 6239, 6884, 7079, 7079, 7168, 7615, 7854, 10589, 12034, 12266, 12538.

[9] 7 F.R. 2984, 3690, 5453, 5688, 7928, 11037; 8 F.R. 6313.

(b) *Specific practices.* The following are among the specific practices prohibited:

(1) Paying a purchase commission if the sum of the commission and the purchase price exceeds the maximum price.

(2) Requiring a customer to furnish material for processing not in accordance with previous practice.

(3) Entering into a joint venture with any other person subject to this regulation for cross-selling, cross-purchasing or cross-servicing.

(4) Reducing the period of any guaranty or warranty of performance in effect on the base date, except as otherwise provided in this regulation.

(5) Eliminating or reducing any maintenance, repair, replacement or installation service in effect on the base date.

[Subparagraphs (5) and (7) amended by Am. 31, effective 4-13-46]

(6) Granting less than a reasonable allowance for commodities received in trade.

(7) Eliminating or reducing rental or trade-in credits on purchases.

(8) Renting or leasing a new or second-hand product with an option to purchase, when the sum of the rental and the sale price exceeds the maximum price established by this regulation.

SEC. 27. *Violation*—(a) *Civil and criminal action.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(b) *Record-keeping and filing violations; failure to establish maximum price.* If any person subject to this regulation fails to keep the records or file the reports required by this regulation, or if any person subject to this regulation fails to establish a maximum price or to apply to the OPA for the establishment of a maximum price under sections 8, 9, 10, 11, or 14, if he is required to do so, the OPA may issue an order fixing maximum prices for the products such person sells. Any maximum price fixed in this manner will be in line with maximum prices established by this regulation. The order fixing the maximum price may apply to all deliveries or transfers for which a maximum price was not established in accordance with the provisions of this regulation. The issuance of such an order will not relieve the seller or lessor of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

(c) *License suspension.* The licensing provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. During the period of suspension, no sale for which the license has been suspended can be made.

SEC. 28. *Definitions.* (a) When used in this regulation, the term—

(1) "Established price in effect on the base date" means a price at which the seller or lessor contracted to sell, rent or lease the same product to the same class of purchasers at least three times during the six months' period before and including the base date. However, if, during that period, he contracted at least once to sell, rent or lease that product to the same class of purchasers at a higher price, then neither price shall be considered an "established price".

[Above paragraph amended by Am. 5, 10 F.R. 7682, effective 6-30-45]

If the seller or lessor has an established price to one class of purchasers, he must determine his maximum price to all other classes of purchasers by adjusting that established price to reflect the seller's or lessor's base date differentials, if any, between classes of purchasers.

A manufacturer who on the base date had in effect a method for determining prices for the sales of certain variations of his products by the application of predetermined dollar and cent factors corresponding to such variations may apply to the Machinery Branch of the Office of Price Administration, Washington 25, D. C., for approval of such price determining method as constituting his established prices in effect on the base date. Such approval may be given only where it appears that the manufacturer has sold such products in these variations at the prices automatically determined by application of such pricing method at least three times during the six months' period before and including the base date, without varying the dollar and cent factors within such period. Such a price determining method may not include the computation of a price by reference to percentage factors.

[Above paragraph added by Am. 31, effective 4-13-46]

(2) "Manufacturer" means any of the following:

(i) Any person engaged in one or more operations in the fabrication, processing or assembly of the product being priced, including subcontractors.

(ii) Any person who sells a product which has been produced on his account from materials or parts owned by him.

(iii) Any person who sells a product under his own brand.

(3) "OPA" means the Office of Price Administration.

(4) "Parts and subassemblies" includes all metallic and non-metallic component parts, adjuncts, and accessories of products listed in Appendix A that have been machined or fabricated. The term does not include any materials in such form as to permit their use in the manufacture of products other than those listed in Appendix A.

(5) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(6) "Product" means any commodity covered by this regulation. Unless otherwise specified, this term means such a commodity in an unused and new condition.

(7) "Purchaser of the same class" and "class of purchaser" means a purchaser or lessee belonging to the same price class; that is, a group of purchasers to whom it was the seller's or lessor's practice on the base date to sell or lease the same product at a particular price. If on the base date the seller or lessor customarily sold or leased, or offered to sell or lease, the same product to any purchaser or lessee at a price different from the price or prices at which he sold or leased, or offered to sell or lease, the same product to all other purchasers or lessees, that purchaser or lessee is in a price class by himself.

If, on the base date, the seller or lessor had an established practice of charging the same price to certain customers on the basis of standards, such as the nature of the buyer or lessee (manufacturer, distributor, wholesaler, dealer, etc.) or the nature of the sale or lease (large, small, cash, credit, etc.), he must place a new purchaser or lessee of the same product in the proper price class in accordance with such standards. If the seller or lessor had no such standards, he must establish a price for the new purchaser or lessee under section 9, in the case of a manufacturer; section 11 (c) or 11(e), in the case of a reseller; and section 14 (b), in the case of a lessor. For the purposes of this definition, a "new purchaser or lessee" means a purchaser or lessee to whom the seller or lessor did not sell or lease, or offer to sell or lease, the same type of product on the base date.

(8) "Reseller" means a seller who is not a manufacturer of the product being sold.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used here.

SEC. 29. *Delegation of authority.* Any Regional Administrator and any District Director, who has been authorized to act by the Regional Administrator having jurisdiction over his district, may adjust maximum prices under section 21 of this regulation.

SEC. 30. *Industry-wide adjustments for reconversion products.* Special pricing provisions applicable to particular products may be established by orders issued under this section when, with respect to the product, the Administrator finds:

(a) That in 1944 its production was approximately one-half or less of its production in its last representative period of peacetime production;

(b) That this reduction in dollar volume resulted from (1) governmental restrictions on the manufacture of products or on the use of materials, facilities, or manpower, or (2) the use of facilities for the production of war goods, or (3) other direct needs of the war effort; and

(c) That because of change in government restrictions or in the needs of the war program, manufacturers of the product generally are able to begin or to increase substantially the production of the product line.

If, in the judgment of the Administrator, the purposes of this section will be effectuated, as to a particular product, without any special pricing provisions, an order under this section will not be issued with respect to that product even though the above findings could be made as to it.

Orders under this section will, generally, authorize industry-wide increases in the established maximum prices of manufacturers in those industries, based upon surveys conducted by the Price Administrator, either upon the request of the particular industry or upon his own motion. Those orders will establish adjusted maximum prices or methods of determining such prices by the use of price increase factors. Where, however, in the judgment of the Price Administrator, the use of an industry-wide factor will, by reason of the diversity in the products made by the member firms, the wide variation in cost experience among them, or other reasons, be an inequitable and inappropriate means of establishing reconversion prices, he may provide for the calculation and application of individual price increase factors.

Broadly stated, the new maximum prices will represent costs experienced during the last period of normal production adjusted for subsequent lawful changes in the level of materials prices and in basic wage rate schedules of factory workers, plus the industry's average peacetime profit margin over cost. Changes in materials prices may be measured by materials cost increase factors, determined by the Administrator, in those cases where such action may be necessary to eliminate temporary or artificial influences. In the case of an industry for which the Administrator has decided that price increase factors should be determined and applied for each firm, the profit element in each increase factor will be the firm's own base period profit margin or one-half the industry's average peacetime margin, whichever is the higher.

Orders issued under this section may also modify or supersede the provisions of Revised Maximum Price Regulation 136, with respect to the establishment of maximum prices, if, on the basis of the particular characteristics of the industry involved, the Administrator finds that another method of price determination will effectuate the purposes of this regulation better than the general pricing provisions of the regulation. In addition, those orders may establish new maximum prices or a method of determining new maximum prices for sales by persons other than manufacturers which will supersede maximum prices fixed by other regulations for such sales and which will be consistent with the standards applied by the Office of Price Administration for the reasonable absorption of necessary cost increases.

Orders issued under this section will not ordinarily reduce higher maximum prices which manufacturers have previously established in accordance with the applicable provisions.

A manufacturer of a product covered by an order issued under this section may not obtain an adjustment of his maximum prices under any adjustment provision other than Supplementary Orders Nos. 118 and 119, unless the adjustment provision itself or the order issued under this section covering his product expressly provides otherwise. This rule does not apply, however, to any adjustment which may be made in accordance with Procedural Regulation No. 6 with respect to any Government contract or subcontract thereunder, for the sale of a commodity essential to the war program.

Small volume manufacturers may use as their new maximum prices those which they calculate under Supplementary Order No. 118, and general orders issued pursuant thereto, if the maximum prices so calculated are higher than maximum prices set under orders issued under this section. Any other manufacturer may apply for an individual adjustment under Supplementary Order No. 119 if, after the adjustment authorized for his industry by an order under this section, his maximum price still continues eligible for adjustment in accordance with the provisions of that supplementary order.

Orders issued under this section may require a manufacturer to arrange the production and distribution of his products so that they will be representative of his production and distribution in a specified past period for goods in a particular category. The Administrator may also require authorized price increases to be applied among articles or price lines in a manner consistent with the need, under the stabilization program, to maintain the production of lower-priced articles.

[Sec. 30 added by Am. 15, 10 F.R. 12555, effective 10-3-45]

SEC. 31. *Industry adjustments.* Separate pricing provisions applicable to particular industries whose products are covered by this regulation and to particular products may be established by orders issued under this section in any cases (except those covered by section 30), where the Administrator determines that a price adjustment is required for any purpose.

The opinion accompanying each such order will set forth fully the reasons for the issuance of the order and the basis upon which the price adjustment is being computed. In general, such price adjustments will reflect increases required by law or by Executive order or by orders issued by the Administrator of Economic Stabilization, or increases required to induce production of essential products.

[Sec. 31 added by Am. 28, 11 F.R. 2595, effective 3-8-46]

APPENDIX A: PRODUCTS COVERED BY THE REGULATION

The products covered by this regulation and the base dates to be used in determining the maximum prices for those products are listed below:

NOTE: If a part or subassembly of any item listed in this Appendix is produced by the manufacturer of the complete item, the part or subassembly has the same base date as that listed for the complete item, even where the part or subassembly is listed separately in this appendix.

Product	*Base date*
Abrasive products, including coated, bonded, natural stone and artificial abrasives	Mar. 31, 1942
Air-conditioning equipment, condensing units of 25 tons capacity and over	Oct. 1, 1941
Anchors, earth and rock	Mar. 31, 1942
Anchors, marine, except those subject to Revised Price Schedule 41 (Steel Castings and Railroad Specialties) or Maximum Price Regulation 351 (Ferrous Forgings)	Mar. 31, 1942
Antennas, radio, including automobile antennas, except built-in antennas included within the cases of domestic radio receivers	Mar. 31, 1942
Anvils, except jewelers' anvils	Mar. 31, 1942
Arresters, lightning	Oct. 1, 1941
Asphalt mixing plant and attendant plant	Oct. 1, 1941
Attachments and accessories for machinery and machine tools, except when subject to Maximum Price Regulation 1 (Second-Hand Machine Tools) or Maximum Price Regulation 67 (New Machine Tools). The term "attachments and accessories for machinery and machine tools" means all devices used with, but not an integral part of, machinery or machine tools and includes the following illustrative list:	Mar. 31, 1942
Adapters.	
Arbors.	
Blocks, machine tool.	
Brakes, spindle.	
Centers, bench.	
Centers, lathe.	
Chucks, all types.	
Clamps.	
Collets.	
Die heads.	
Die sets.	
Dogs, work driving.	
Edges, straight.	
Electric etchers and de-magnetizers.	
Feeding devices.	
Glass, level.	
Grinders.	
Guides, adjustable.	
Heads, universal dividing.	
Holders, tool.	
Holders, work.	
Mandrels, all types.	
Plates, angle.	
Plates, bench.	
Plates, brick liner.	
Plates, face.	
Plates, lapping.	
Plates, surface.	
Plates, wearing.	
Posts, tool.	
Saw accessories (sets, swages, guides, clamps, bracing tools).	
Sockets.	
Stops, machine.	
Templates.	
Torque wrenches.	
Wheels, buffing and polishing.	
Augers, earth	Oct. 1, 1941

Automotive trucks, motorcycles, busses, and house and truck trailers, new only, which are manufactured on or after August 12, 1943, and originally designed for use as private or commercial motor vehicles. The foregoing does not include automotive trucks, motorcycles, trailers or busses specially designed for use as military vehicles, nor does it include cars or trucks listed elsewhere in this Appendix	Mar. 31, 1942
Automotive testing and maintenance equipment, mechanical and electrical, not listed elsewhere in this Appendix	Mar. 31, 1942
Batteries, storage, wet cell only, including automotive	Oct. 1, 1941
Batteries, wet primary cell	Mar. 31, 1942
Battery chargers, except motor generator sets	Mar. 31, 1942
Bearings, antifriction (ball, roller, needle, etc.), except automotive	Oct. 1, 1941
Bearings and bushings, ferrous and non-ferrous metal, except pipe and tube bushings; those listed elsewhere in this Appendix; and those for which maximum prices are established by Revised Price Schedule 41 (Steel Castings and Railroad Specialties), Revised Maximum Price Regulation 125 (Non-ferrous Foundry Products), Maximum Price Regulation 241 (Malleable Iron Castings) or Maximum Price Regulation 244 (Gray Iron Castings)	Mar. 31, 1942
Belting, leather and textile, except those for which maximum prices are established by Maximum Price Regulation 149 (Mechanical Rubber Goods)	Mar. 31, 1942
Bimetallic thermal strips, fabricated	Oct. 1, 1941
Blocks and tackle	Mar. 31, 1942
Boilers, power, industrial and marine, 100 p. s. i. and higher working pressure	Oct. 1, 1941
Broom-making machinery	Oct. 1, 1941
Brushes, industrial, power-driven	Mar. 31, 1942
Brush-making machinery	Mar. 31, 1942
Bushings, porcelain, glass and steatite, for electrical uses	Mar. 31, 1942
Cable accessories, electrical, other than copper, copper alloy or copper clad	Mar. 31, 1942
Can-making machinery and equipment	Oct. 1, 1941
Capacitors, electrical, except fixed capacitors of the type and size used for military radio and radar equipment	Mar. 31, 1942
Capacitors, electrical, fixed, of the type and size used for military radio and radar equipment	Apr. 1, 1943
Carbon graphite and metal graphite for electrical uses	Oct. 1, 1941
Carriers, lumber	Oct. 1, 1941
Cars, freight, including all types of flanged wheel mining and industrial cars	Oct. 1, 1941
Cars, passenger, for surface, subway or elevated lines	Oct. 1, 1941
Casters	Mar. 31, 1942
Cement-making machinery	Oct. 1, 1941
Ceramics machinery	Oct. 1, 1941
Chain, chain fittings and assemblies, except jewelry chains, cast manganese steel chain subject to Maximum Price Regulation 235 (Manganese Steel Castings and Manganese Steel Castings Products), and power transmission chains	Mar. 31, 1942
Chains, power transmission (roller and silent type), including sprockets	Oct. 1, 1941
Chemical processing machinery	Oct. 1, 1941
Circuit breakers, electrical	Oct. 1, 1941
Clamps of the C and bar type, except those used for medical or dental purposes	Mar. 31, 1942
Clevises, except those covered by Maximum Price Regulation 246 (Manufacturers' and Wholesale Prices for Farm Equipment)	Mar. 31, 1942
Clockwork systems, industrial, used in connection with mechanical instruments	Oct. 1, 1941
Coal preparation equipment	Oct. 1, 1941
Compressors, except those used with condensing units under 25 horsepower or 25 tons	Oct. 1, 1941
Concrete products machinery and equipment	Oct. 1, 1941
Condensers, synchronous, electrical	Oct. 1, 1941
Conduit fittings	Oct. 1, 1941
Conduit, metallic	Oct. 1, 1941
Control equipment, electrical, industrial	Oct. 1, 1941
Convertors, synchronous, electrical	Oct. 1, 1941
Conveyors and conveying systems, industrial	Oct. 1, 1941
Core drilling machinery	Oct. 1, 1941
Cotton-ginning machinery	Oct. 1, 1941
Cranes, crawler, overhead bridge, locomotive, revolving and truck	Oct. 1, 1941
Cutting tools, including the following illustrative list	Mar. 31, 1942
Augers, machine.	
Bits, machine.	
Blades, hacksaw—all types.	
Blades, power-driven saw.	
Blades, machine, shear, etc.	
Broaches.	
Chasers.	
Chisels, machine.	
Counterbores.	
Countersinks, machine.	
Cutter heads.	
Cutters, machine.	
Dies, cutting and threading.	
Dressers, abrasive wheel, except diamond dressers.	
Drills, twist.	
Extractors.	
Files, rasps and burrs.	
Form tools.	
Hobs.	
Knives, machine.	
Knurling tools.	
Machinist scrapers.	
Punches, machine.	
Reamers.	
Rules, creasing, cutting and perforating.	
Scraper blades, machine.	
Taps.	
Tips, tool, tungsten carbide, stellite, etc.	
Cylinders, power, hydraulic, pneumatic and hydropneumatic	Mar. 31, 1942
Derricks	Oct. 1, 1941
Diamond tools, core bits, dies .002" and larger, dressing tools, shaped tools, wheels, etc	Mar. 31, 1942
Dies, jigs and fixtures, except when (1) the die, jig or fixture is used in connection with the production of a product not covered by this regulation, and (2) the die, jig or fixture is sold in connection with the sale of that product	Mar. 31, 1942
Die-casting machinery	Oct. 1, 1941
Distribution boards, electrical	Oct. 1, 1941
Doilies, industrial	Oct. 1, 1941
Dozers, angle, bull and push	Oct. 1, 1941
Dredging machinery	Oct. 1, 1941
Dry-cleaning and clothes-pressing machinery, except domestic	Oct. 1, 1941
Ducts for electrical uses, metallic and nonmetallic, except wooden, asbestos-cement, cement conduit and clay conduit	Oct. 1, 1941
Dust-collecting equipment, industrial, portable and stationary, including industrial vacuum cleaners	Oct. 1, 1941
Economizers, steam, industrial and marine	Oct. 1, 1941
Electric phonographs and electric radio phonograph combination parts when sold by the manufacturer of the part or when sold to industrial, commercial or governmental users	Mar. 31, 1942
Electric recorders when sold by the manufacturer of the part or when sold to industrial, commercial or governmental users	Mar. 31, 1942
Electrodes	Oct. 1, 1941
Electroplating and hot-dip metal coating equipment, including preparatory and finishing equipment used in connection with metal coating processes	Oct. 1, 1941
Electro-therapeutic apparatus and supplies	Mar. 31, 1942
Electronic devices, equipment and parts (other than radio receivers), when sold by the manufacturer or when sold to industrial, commercial or governmental users	Mar. 31, 1942
Elevators, passenger and freight, except farm grain elevators	Oct. 1, 1941
Engines, diesel and oil, except automotive, truck and aircraft	Oct. 1, 1941
Engines, gas	Oct. 1, 1941
Engines, gasoline and kerosene, except automotive, truck and aircraft, toy and portable outboard motors	Oct. 1, 1941
Engines, steam, except toy	Oct. 1, 1941
Engine-generator sets	Oct. 1, 1941
Escalators (moving inclined stairways for raising or lowering passengers)	Oct. 1, 1941
Excavating and earth-moving machinery, including power shovels, ditchers, draglines and power scrapers	Oct. 1, 1941
Fans and blowers, industrial, except unit heaters or unit ventilators, hand blowers, and desk, pedestal, portable, ceiling and wall-bracket type fans, but including warm air furnace fans, attic ventilating fans, pressure fans and blowers and built-in fans	Oct. 1, 1941
Feed-water heaters (steam specialties), industrial and marine	Oct. 1, 1941
Floor surfacing and floor maintenance machinery, industrial	Oct. 1, 1941

Product	Base date
Food and beverage machinery, including baking, bottling, brewing, canning, confectionery, grain milling, meat packing, edible oil, sugar and dairy machinery and equipment (except dairy farm equipment)	Oct. 1, 1941
Foundry machinery, including ladles not over 40 ton capacity	Oct. 1, 1941
Furnaces and ovens, industrial and laboratory, except space heating, warm air furnaces, stoves, blast furnaces, open hearth furnaces, bessemer converters and soaking pits, coke ovens, and industrial furnaces used solely for the manufacture of pig iron and steel	Oct. 1, 1941
Fuses for the protection of electrical equipment, except automotive	Oct. 1, 1941
Galvanometer and pyrometer movements	Oct. 1, 1941
Gas burners designed for use with products covered by this regulation	Mar. 31, 1942
Gaskets and packings, except those for which maximum prices are established by Maximum Price Regulation 149 (Mechanical Rubber Goods) or Maximum Price Regulation 452 (Manufacturers' Maximum Prices for Automotive Parts)	Mar. 31, 1942
Gauges, special, manufactured pursuant to the customers' drawings, including special purpose plug, ring, snap, height, length, and location gauges, but not general purpose graduated or adjustable gauges	Mar. 31, 1942
Gears, pinions, sprockets and speed reducers, including gear motors, motorized speed reducers and variable speed drives, but not including (1) automotive or tractor transmissions, transfer cases, power take-offs, differential or axle assemblies; (2) any item designed for use in private or commercial motor vehicles; or (3) any item specially designed for use in vehicles, aircraft or equipment used primarily for military purposes	Oct. 15, 1941
Gears, pinions, sprockets and speed reducers specially designed for use in vehicles, aircraft or equipment used primarily for military purposes, except automotive gears; and automotive or tractor transmissions, transfer cases, power take-offs, differentials or axle assemblies	Mar. 31, 1942
Generators, electrical, except automotive	Oct. 1, 1941
Generators, gas	Oct. 1, 1941
Generator sets, diesel-electric, gas engine, electric, and motor or engine driven, except automotive	Oct. 1, 1941
Glass-making machinery	Oct. 1, 1941
Glass products, industrial, scientific and technical, which are listed below	Mar. 31, 1942
Electrical glassware:	
Bulbs, glass portion (incandescent, fluorescent, indicator, auto lamp, radio, television, X-ray, radar and power tube).	
Glass products—Continued.	
Electrical glassware—Con.	
Bushings.	
Capacitors.	
Coil forms.	
Flares (glass base portion for lighting, radio, indicator, auto lamp, television, X-ray, radar and power tube).	
Fuse plugs.	
Insulators.	
Resistor tubes.	
Tubing (electrical, fluorescent).	
Industrial glassware:	
Cylinders.	
Flat gauge glasses.	
Glass bulbs.	
Gauge cup and oil cup glasses.	
Meter and relay covers.	
Miscellaneous industrial glassware which is to be further fabricated by others, or which is to be incorporated as a component part of an industrial product.	
Laboratory and pharmaceutical glassware:	
Apparatus ware.	
Chemical ware.	
Instrument tubing.	
Laboratory apparatus tubing.	
Pharmaceutical ware.	
Optical glass:	
Rough glass blanks for optical, ophthalmic and scientific use.	
Signal glassware:	
Airplane running lights.	
Battery jars.	
Explosion resisting globes.	
Fresnels.	
Front glasses.	
Lenses.	
Obstruction lights.	
Optical ware (color and light filters).	
Roundels.	
Governors, engine	Oct. 1, 1941
Ground steel stock for punches, dies, jigs, fixtures, etc	Mar. 31, 1942
Gyroscopes	Oct. 1, 1941
Hat-making and repairing machinery	Oct. 1, 1941
Heat exchanger equipment, (when designed for use with products covered by this regulation)	Oct. 1, 1941
Heaters, sand, stone, or bitumen	Oct. 1, 1941
Heating, melting, burning and thawing equipment, portable, for industrial and transportation purposes, except mechanics' fire pots and blow torches	Oct. 1, 1941
Heating units and devices, electrical, industrial	Oct. 1, 1941
Hoists	Oct. 1, 1941
Hose and tubing, metal, flexible, except that for which maximum prices are established by Maximum Price Regulation 149 (Mechanical Rubber Goods)	Mar. 31, 1942
Instruments, electrically or magnetically operated, for measuring, testing, indicating and recording electrical quantities, except automotive	Oct. 1, 1941
Instruments, mechanical, for indicating, measuring, recording and testing, including aircraft, laboratory, marine, precision and scientific mechanical instruments, but excluding automotive and tire gauges, carpenters' tools, clinical, dental, household, optical and surgical instruments, low pressure heating controls (such as thermostatic traps, blast traps and strainers), water level controls (all types), air temperature and humidity controls (all types), complete coin-operated devices, refrigeration controls, and special gauges manufactured to conform to the purchaser's specifications	Oct. 1, 1941
Insulators, porcelain, glass and steatite, for electrical uses	Mar. 31, 1942
Inter-communicating systems, electronic	Mar. 31, 1942
Jacks (and jack screws) except those hand jacks customarily purchased or designed as original equipment or replacement equipment for passenger automobiles, commercial trucks or busses	Mar. 31, 1942
Laundry machinery, except domestic	Oct. 1, 1941
Leather-working machinery	Oct. 1, 1941
Lighting equipment, electrical for airway, commercial, flood-lighting, industrial, marine, seadrome, and street and highway uses	Oct. 1, 1941
Line material, transmission or trolley	Oct. 1, 1941
Lock and dam machinery, not listed elsewhere in this appendix and not listed in other specific regulations issued by OPA, which is designed exclusively for the control of water flow in locks, dams and structures when such locks, dams and structures are designed for flood control, irrigation, power generation or transportation purposes	Mar. 31, 1942
Locomotives and tenders, including mining and industrial	Oct. 1, 1941
Logging and lumbering machinery and equipment	Oct. 1, 1941
Lubricating systems and devices, industrial, stationary, except portable hand-operated grease guns and devices designed for automotive and truck lubrication	Oct. 1, 1941
Machinery, industrial, not listed elsewhere in this Appendix. The term "industrial machinery" means any machinery and equipment, not specifically excluded from the coverage of this regulation, which is used in the extraction, production or processing of commodities	Mar. 31, 1942
Machine tools, including those powered by hand or foot, except those subject to Maximum Price Regulation 1 (Second-Hand Machine Tools) or Maximum Price Regulation 67 (New Machine Tools)	Oct. 1, 1941

Product	Base date
Machine tool parts and subassemblies, except those subject to Maximum Price Regulation 1 (Second-Hand Machine Tools) or Maximum Price Regulation 67 (New Machine Tools)	Oct. 1, 1941
Machines, tools, devices and appliances designed especially for the installation, operation, maintenance and protection of tracks, yards, signals, rolling stock and motive power of surface, subway or elevated rail lines	Oct. 1, 1941
Magnetos, except automotive	Oct. 1, 1941
Magnets, lifting, industrial	Oct. 1, 1941
Marine equipment listed below	Mar. 31, 1942
Anchors, except those subject to Revised Price Schedule 41 (Steel Castings and Railroad Specialties) or Maximum Price Regulation 351 (Ferrous Forgings).	
Boat hooks without handles.	
Buoys, pontoons and rafts, metallic.	
Capstans.	
Chocks.	
Cleats.	
Controls, bulkhead and throttle.	
Deck and man-hole plates, machined.	
Fog horns and whistles, manually operated.	
Gooseneck and boom bands.	
Hatch covers, metal.	
Lights, oil.	
Marlin spikes and belaying pins, metal.	
Mooring and riding bitts.	
Port lights.	
Pumps, marine, manually operated.	
Reels, hawser, manually operated.	
Rope guides and leaders.	
Rowlocks	
Shackles.	
Snaps.	
Sockets.	
Steering apparatus, manually operated.	
Ventilators.	
Metals and alloys, special electrical, except steel with less than 6% alloy content, in any fabricated form, used for electrical, magnetic or glass-sealing purposes, including special contact alloys and special coated iron wire	Oct. 1, 1941
Mining machinery, including mine cars and trucks	Oct. 1, 1941
Molds and patterns, except (1) when the mold or pattern is used in connection with the production of a product not covered by this regulation, and (2) the mold or pattern is sold in connection with the sale of that product	Mar. 31, 1942
Motion picture equipment, 35 millimeter, including sound equipment and parts for recording, reproducing and projecting, for studio, theater, commercial or industrial use	Mar. 31, 1942
Motors, electrical, except automotive	Oct. 1, 1941
Neon indicator attachments	Mar. 31, 1942
Numbering and marking machines for use on metal, except office machines	Oct. 1, 1941
Oil burners, industrial and marine, burning No. 5 oil or heavier, except horizontal rotary and gun type burners	Oct. 1, 1941
Oil-well machinery and equipment	Oct. 1, 1941
Optical processing machinery, manufacturers', except Rx optical, laboratory machinery	Mar. 31, 1942
Ore-crushing and concentrating machinery	Oct. 1, 1941
Ovens, industrial and laboratory, except coke ovens	Oct. 1, 1941
Packaging, wrapping, filling and labeling machinery	Oct. 1, 1941
Paint-making machinery	Oct. 1, 1941
Panelboards, electrical	Oct. 1, 1941
Parts and subassemblies of any item listed in this Appendix when produced by the manufacturer of the complete item.	Same as base date of complete item.
Parts and subassemblies of any item listed in this Appendix when (1) produced by a person other than the manufacturer of the complete item and (2) not listed elsewhere in this Appendix	Mar. 31, 1942
Parts, subassemblies and components, metallic, of any commodity covered by a regulation listed in the following table, when the part, subassembly or component is sold to the manufacturer of the commodity of which it is a part	Mar. 31, 1941

Regulation and Title
Maximum Price Regulation 64: Domestic Cooking and Heating Stoves.
Revised Price Schedule 86: Domestic Washing Machines and Ironing Machines.
Revised Price Schedule 102: Household Mechanical Refrigerators.
Revised Price Schedule 111: New Household Vacuum Cleaners and Attachments.
Maximum Price Regulation 188: Manufacturers' Maximum Prices for Specified Building Materials and Consumers' Goods Other Than Apparel.
Maximum Price Regulation 246: Manufacturers' and Wholesale Prices for Farm Equipment.
Maximum Price Regulation 272: Cast-Iron Boilers and Cast-Iron Radiation.
Maximum Price Regulation 399: New Ice Boxes.

This regulation does not cover bicycle parts and accessories; fountain pen and mechanical pencil parts; inner-constructions for sofa beds, studio couches and other upholstered dual purpose sleeping equipment; parts (except electrical) for portable lamps, lamp shades and residential lighting fixtures; parts and accessories of musical instruments, including toy and novelty musical instruments; radio cabinets; refrigerator cabinets; and watch and clock parts, except springs.

Product	Base date
Petroleum refining machinery	Oct. 1, 1941
Pharmaceutical machinery	Oct. 1, 1941
Pile drivers	Oct. 1, 1941
Pipe wrapping and coating machinery	Oct. 1, 1941
Plants, stationary, for railroad use in handling cinders, fuel, sand or water	Oct. 1, 1941
Plastics fabricating and molding machinery	Oct. 1, 1941
Pole-line hardware and line construction specialties	Mar. 31, 1942
Power transmission equipment, industrial, including belt-tighteners, blocks and bearing housings, brackets, clutches, collars, couplings, hangers, motor bases, pillow blocks, pulleys, sheaves, shifters, universal joints and variable speed drives	Oct. 1, 1941
Presses, baling, except those covered by Maximum Price Regulation 246 (Manufacturers' and Wholesale Prices for Farm Equipment)	Mar. 31, 1942
Printing machinery and equipment	Oct. 1, 1941
Public address apparatus	Mar. 31, 1942
Pulp, paper and paper products machinery	Oct. 1, 1941
Pulverized fuel burners	Oct. 1, 1941
Pumps, hand-operated, except store fixtures and those covered by Maximum Price Regulation 246 (Manufacturers' and Wholesale Prices for Farm Equipment)	Mar. 31, 1942
Pumps, power-operated, with or without power, except pumps subject to Maximum Price Regulation 246 (Manufacturers' and Wholesale Prices for Farm Equipment) and Maximum Price Regulation 452 (Manufacturers' Maximum Prices for Automotive Parts), and pumps designed for use with oil burners not covered by this regulation	Oct. 1, 1941
Radio headphones	Mar. 31, 1942
Radio receivers, all, except the types defined in MPR 599 (Radio Receivers and Phonographs) as "consumer type radio receivers"	Mar. 31, 1942
Radio receiving equipment parts when sold by the manufacturer of the part or when sold to industrial, commercial or governmental users, except sales by retailers and wholesalers of radio receiver tubes for which maximum prices are established by section 3.3 of Supplementary Regulation 14J to the General Maximum Price Regulation, except chassis for radio receivers and phonographs of the type subject to MPR 599	Mar. 31, 1942
Radio transmitting equipment and parts, including dual transmitting-receiving units	Mar. 31, 1942
Railroad car and locomotive parts, and specialties for elevated, subway and surface lines, including	Oct. 1, 1941
Axles.	
Bearings, truck side.	
Boilers, fireboxes, front ends and cabs, fittings, fixtures, devices or appliances mounted thereon.	
Brakes and brake gears.	
Coupler devices or attachments except those subject to Revised Price Schedule 41.	
Devices and appliances mounted on locomotives for treatment, distribution, and control of water, fuel, steam, sand or electricity.	
Doors and fixtures, except those subject to Revised Price Schedule 40 (Builders' Hardware and Insect Screen Cloth).	
Draft gears, buffers, and attachments.	

Product	Base date
Railroad car and locomotive parts, etc.—Continued	
Driving, foundation, and running gear.	
Journal boxes, assembled.	
Heating, lighting, ventilating, and air-conditioning equipment.	
Lubricating devices.	
Miscellaneous fittings, fixtures, specialties, devices or appliances designed specifically for use on railroad cars or locomotives, except artillery or other exclusively military or naval equipment.	
Safety appliances and warning devices.	
Sides, roofs, ends, running boards and brake steps.	
Spring rigging, snubbers and shock absorbers.	
Tires, steel.	
Train control apparatus.	
Trucks, complete.	
Underframes.	
Wheels, iron and steel.	
Rectifiers, power, industrial	Oct. 1, 1941
Record changers, and parts, except cased record changers designed for retail-consumer sale	Mar. 31, 1942
Refrigeration equipment, condensing units of 25 horsepower and over	Oct. 1, 1941
Regulators, feeder voltage	Oct. 1, 1941
Regulators and dampers, power operated	Oct. 1, 1941
Replacement units and assemblies for mechanical refrigerators having a refrigerated volume of 16 cubic feet or less, when sold by the manufacturer	Mar. 31, 1942
Reproduction machinery, architectural and engineering, such as blueprinting, black and white printing, and brown printing machinery	Oct. 1, 1941
Road-building and maintenance machinery, including graders, pavers, rollers, sprayers, etc.	Oct. 1, 1941
Rock-crushers and plants	Oct. 1, 1941
Rod, wire and tube-working machinery and equipment	Oct. 1, 1941
Rolling mill machinery and equipment	Oct. 1, 1941
Rope fittings, manila and wire	Mar. 31, 1942
Rubber and allied products machinery	Oct. 1, 1941
Rubber tire and tube machinery and equipment, including tire recapping and retreading molds and necessary parts (full circle and sectional molds, matrices, etc.), tire buffers and spot vulcanizers for tubes	Oct. 1, 1941
Saws, masonry	Oct. 1, 1941
Scaffolds and construction towers	Oct. 1, 1941
Scales, weighing, industrial and laboratory, except coin operated, counter, household, office and store types	Oct. 1, 1941
Screw machine products, when sold by the manufacturer, except those for which the manufacturer issues a catalog or price list. The term "screw machine product" means any product that is made complete or in its first operation on a hand or automatic screw machine. However, it does not include products covered by Maximum Price Regulation 147 (Bolts, Nuts, Screws and Rivets) or Maximum Price Regulation 452 (Manufacturers' Maximum Prices for Automotive Parts)	Mar. 31, 1942
Searchlights, except military	Oct. 1, 1941
Searchlights, military, completely assembled	Mar. 31, 1942
Separators, steam, industrial and marine	Oct. 1, 1941
Sewing machines, industrial	Oct. 1, 1941
Sharpening and filing equipment	Mar. 31, 1942
Shoe manufacturing and repairing machinery	Oct. 1, 1941
Signal equipment, railroad, including highway crossing signals	Oct. 1, 1941
Signalling apparatus, except automotive	Oct. 1, 1941
Siren blowers	Mar. 31, 1942
Skid platforms and pallets, all metal	Oct. 1, 1941
Snow plows, except when designed specifically for use with farm and garden tractors	Oct. 1, 1941
Soot blowers and tube cleaners, power-operated, industrial and marine	Oct. 1, 1941
Sound recording and reproducing equipment and parts, including portable recorders and recording and transcription turntables, except home or office recording or reproducing equipment	Mar. 31, 1942
Spraying devices, industrial, power-operated, for the application of any material, except agricultural sprayers	Oct. 1, 1941
Spreaders for construction and road-building use	Oct. 1, 1941
Springs, except furniture and bed springs, inner-constructions for sofa beds, studio couches and other upholstered dual purpose sleeping equipment, and springs covered by Maximum Price Regulation 452 (Manufacturers' Maximum Prices for Automotive Parts) or 548 (Metal Upholstery Springs, Constructions, and Accessories)	Mar. 31, 1942
Spring winding and forming machinery	Oct. 1, 1941
Sprockets, roller and silent, power transmission, except automotive	Oct. 1, 1941
Stackers, industrial	Oct. 1, 1941
Stampings, metal, when sold by the manufacturer, except forgings, non-ferrous mill products, wire goods, steel mill products, or any product for which the manufacturer has issued a catalog or price list. The term "metal stampings" means stamped or pressed metal products which are mechanically processed by the use of dies and upon which further finishing operations may or may not have been performed, when sold unassembled. A metal stamping may consist of two or more stamped pieces which have been permanently joined by methods such as brazing, riveting, soldering or welding	Mar. 31, 1942
Steam cleaning and degreasing equipment and parts washing and cleaning equipment, except commercial and domestic dish and utensil washing and cleaning equipment	Mar. 31, 1942
Stokers, industrial and marine, with a capacity of 1200 pounds per hour or more	Oct. 1, 1941
Stone-working machinery	Oct. 1, 1941
Substations, unit (power distribution)	Oct. 1, 1941
Superheaters, industrial and marine	Oct. 1, 1941
Surveying instruments, such as alidades, levels and transits	Oct. 1, 1941
Switchboxes	Oct. 1, 1941
Switches, electrical, knife and enclosed	Oct. 1, 1941
Switchgear and switchgear accessories	Oct. 1, 1941
Tanks and vessels, pressure, made of metal 10 B. W. G. and heavier, regardless of capacity, or of a capacity in excess of 192 gallons, regardless of gauge, except field-erected storage tanks, and tanks or cylinders which are designed primarily for the transportation of liquids or gases under pressure and which are not designed to be permanently attached to the vehicle transporting such tanks	Mar. 31, 1942
Tanks and vessels, non-pressure, made of metal 10 B. W. G. and heavier, regardless of capacity, or of a capacity in excess of 585 gallons, regardless of gauge, except all obround tanks; field-erected tanks or vessels; products commonly known as plumbing fixtures, such as flush tanks and laundry trays; products commonly known as pans and cans, such as pails and buckets; non-returnable shipping containers; refuse receptacles; drip and waste receivers; and septic tanks	Mar. 31, 1942
Telegraph apparatus	Oct. 1, 1941
Telephone apparatus, including sound and powered telephone and non-electronic intercommunicating equipment	Oct. 1, 1941
Testing sets for electronic equipment	Mar. 31, 1942
Textile machinery, including equipment and accessories designed exclusively for use with such machinery, except cutting tools as listed in this Appendix A	Oct. 1, 1941
Tobacco working machinery	Oct. 1, 1941
Tools, hand-operated, especially designed for manufacture, repair or maintenance of aircraft, military vehicles or other predominantly military equipment	Mar. 31, 1942
Tools, manually operated, for the cutting, forming and punching of metals	Mar. 31, 1942
Tools, pipe and tube, manually operated, including beading, belling, bending, cleaning, cutting, expanding, and flaring, and wrenches for operating	Mar. 31, 1942

Product	Base date
Tools, portable, power-driven, which in normal use are held or guided by hand and not customarily attached to a permanent support	Oct. 1, 1941
Tools, power-driven, primarily designed for use on a bench, for the working of wood and plastics, except bench tools especially designed for metal working which are subject to Maximum Price Regulation 1 (Second-Hand Machine Tools) or Maximum Price Regulation 67 (New Machine Tools)	Oct. 1, 1941
Tools, specially designed, except those listed elsewhere in this Appendix	Mar. 31, 1942

APPENDIX B: FORM FOR REPORTING MANUFACTURERS' NEW LIST PRICES.

(a) *Form.* OPA Form 694-2167 Budget Bureau No. 08-R800.1

UNITED STATES OF AMERICA
OFFICE OF PRICE ADMINISTRATION
Washington 25, D. C.

REPORT OF MANUFACTURER'S PROPOSED LIST PRICE

(Under section 9 of Revised Maximum Price Regulation 136, Machines, Parts and Industrial Equipment.)

Company Name

Address—Number and street

City and State

NOTE: Before filling in this form read the accompanying instructions carefully.

SCHEDULE A

1. Designate and describe product for which list price is proposed.
NOTE: If proposed price and catalog pages are attached which contain the answers to the following you need not fill in this item.

Brand name	Model No.	Proposed effective date of price list

Type and kind of product

Specifications commonly shown on price pages. (Attach additional sheet if more space is needed)

2. Describe in detail the price determining method which you used for similar products on the base date. This should include the overhead rates, the machine hour rates, if any, rates for general administrative and selling expense, profit mark-up, discounts, and other bases of computation which were in use in your plant on the base date, for similar products.

NOTE: If you have already filed your base date, price-determining method with the Office of Price Administration, you need not fill in this item.

SCHEDULE B

NOTE: The manufacturer need not fill in the following information if his proposed prices are net selling prices or if he has attached a price book page(s) which supplies the information asked in this schedule.

Terms of sale

1. Trade discounts to be allowed to various classes of purchasers

2. Quantity discounts—specify quantities and discounts

3. Cash discounts—state amount and condition under which granted

4. Terms concerning freight charges

5. Charges for special services

6. Other terms, if any (specify)

SCHEDULE C

COMPUTATION OF MAXIMUM LIST PRICE

(a) *Instructions for form.—General instructions.* This form is applicable only to products for which the manufacturer did not have a published list price or an established price in effect on the base. The term "established price" in effect on the "base date" is defined in section 28 of Revised Maximum Price Regulation 136. If the manufacturer publishes or proposes to publish a list price or if he is required in writing by the Office of Price Administration to establish a list price for any such product, he must complete this report and send it in duplicate to the Machinery Branch, Office of Price Administration, Washington 25, D. C. The form may be adapted to the manufacturer's cost-keeping methods.

No more than 75% of the proposed price may be received until OPA approves the proposed price or until thirty days have elapsed after receipt of the report (or all additional information that may be requested) without OPA disapproving the proposed price. Final settlement must be made in accordance with the action taken by OPA on the report.

Base dates

Appendix A of Revised Maximum Price Regulation 136 lists four base dates for the products covered by the regulation. These are October 1, 1941, October 15, 1941, March 31, 1942, and April 1, 1943. The date that must be used in determining the maximum price of any product depends upon the base date listed in Appendix A for that product.

General instructions for Schedule C

The manufacturer must use the price-determining method which was in use for similar products in his plant on the base date. This means that he must use the overhead rates, machine hour rates, if any, rates for general administrative and selling expense, profit mark-up, discounts, and other bases of computation which were in use in his plant on the base date.

If the manufacturer had no price-determining method for similar products in use in his plant on the base date, a price-determining method must be established under section 10 (b) of Revised Maximum Price Regulation 136.

Whenever the manufacturer is required to use a price which does not exceed his supplier's maximum price, he may rely on his supplier's written certification if the manufacturer had no reason to doubt the validity of that certification

Specific instructions for Schedule C

1. Shop labor. The manufacturer is required to use the straight-time labor rate that he paid each classification of labor on the base date, and to multiply such rates by the labor time estimated to be required to manufacture the product. The estimate of the number of clock hours required shall be based on previous production experience, if any. If, on the base date, the manufacturer used an average shop labor rate to cover all classifications of labor he may apply such average rate.

If the manufacturer used machine hour rates on the base date, instead of shop labor rates, he may apply such machine hour rates. If he uses machine hour rates, he must explain the cost factors which such rates are designed to cover.

2. *Subcontracted services purchased.* If the manufacturer subcontracts services, he must use the actual prices paid, not in excess of his supplier's maximum prices for such subcontracted services.

3. *Materials.* (Except purchased parts and subassemblies covered by Revised Maximum Price Regulation 136, Revised Price Schedule 82, or Maximum Price Regulations 119, 147, 149 or 523.)

In computing estimated costs for these materials the manufacturer is required to multiply the estimated quantity of each material to be used (based on previous production experience, if any) by the lower of the following prices:

1. The price which was or would have been paid by him on the base date.

2. The actual price paid, not in excess of his supplier's price for such material.

If the manufacturer is unable to determine by reasonable diligence the price that he would have paid for the material on the base date, he shall use the actual price paid by him, not in excess of the applicable maximum price.

4. *Purchased parts and subassemblies.* (Covered by Revised Maximum Price Regulation 136, Revised Price Schedule 82, or Maximum Price Regulations 119, 147, 149 or 523.)

This item applies to purchased parts and subassemblies covered by Revised Maximum Price Regulation 136 and any products covered by Revised Price Schedule 82 (Wire, Cable and Cable Accessories), Maximum Price Regulation 119 (Original Equipment Tires and Tubes), Maximum Price Regulation 147 (Bolts, Nuts, Screws and Rivets), Maximum Price Regulation 149 (Mechanical Rubber Goods), or Maximum Price Regulation 523 (Plastics Products).

The price used for such purchased part or subassembly shall be the price paid, not in excess of the applicable maximum price.

5. *Shop overhead.* Shop overhead charges shall be calculated by using the rate or rates which the manufacturer used in calculating shop overhead on the base date.

6a, b, c, and d. *Other shop costs.* In general, other shop costs may include such shop costs as those for perishable tools, dies, molds, patterns, jigs, and workholding devices, provided they have not been included in shop overhead. The prices used shall be the actual prices paid, not in excess of the applicable maximum prices. In general, the manufacturer may include only those other shop costs which he used in determining his selling prices on the base date.

If the other shop costs include engineering and developmental costs, the manufacturer must determine such costs by using the same methods and the same rates, if any, which he used on the base date.

If, on the base date, the manufacturer used machine hour rates in determining prices, he must continue to use such rates.

7. *Total estimated shop cost (per unit).* The sum of items 1 to 6d inclusive.

8. *General administrative and selling expenses.* The manufacturer shall calculate general administrative and selling expenses by using the same methods and the same rates, if any, that he used on the base date.

9a and b—Items 9a and 9b may be used for the recording of any other price-determining factors which were in use by the manufacturer on the base date. If used they must be explained.

10. *Total estimated cost (per unit).* The sum of items 7 to 9b inclusive.

11. *Profit mark-up.* The manufacturer must determine profit mark-up by using the same methods and the same rates, if any, that he used on the base date.

12, 13—Use these items for any factors not included above which you used, on the base date, in determining your selling prices. If such other factors are used they must be explained.

14. *Overtime labor.* If the estimated overtime labor exceeds that provided for in the base date, overhead or machine hour rate, the premium paid for such overtime may be added in computing maximum list price. However, no mark-up, overhead, or profit shall be applied to that premium.

15. *Maximum discount (if any).* In determining computed maximum list price the manufacturer shall include the maximum discount rate which he applied on the base date in the sale of similar products to any class of purchaser.

16. *Computed maximum list price (per unit).* The sum of items 10 to 15 inclusive.

17. *Proposed new list price (per unit).* The proposed new list price must not exceed the computed maximum list price. (Item 16.)

APPENDIX C: TABLE OF DEPRECIATION RATES FOR DETERMINING MAXIMUM PRICES OF SECOND-HAND PRODUCTS

NOTE: The maximum prices of items not listed in this table may not be figured by the depreciation method.

PART 1400—TEXTILE FABRICS: WOOL, COTTON, SILK, SYNTHETIC AND ADMIXTURES

[MPR 127,[1] Amdt. 44]

FINISHED PIECE GOODS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 127 is amended in the following respects:

1. Section 1400.78 (c) (8) is revoked.

2. Section 1400.81 (a) (30) is added to read as follows:

(30) "Awning goods supplier" means a person more than 50% of whose civilian dollar sales of finished piece goods during the year 1941[2] were made to "small manufacturers of awnings". "Small manufacturer of awnings" means a person engaged in the manufacture of awnings on individual order in his own plant for sale directly to the ultimate consumer and who has certified to the supplier (i) that during the year 1941 his total dollar sales of manufactured awnings and awning supplies did not exceed $50,000 and that his total sales of all commodities and services did not exceed $100,000; or (ii) if he was not engaged in business during 1941, that his total sales of awnings and awning supplies and his total of all commodities and services during the most recent 12-month period or portion thereof that he has been in business, did not exceed $25,000 and $50,000, respectively, or that fraction of each amount which corresponds to the fraction of a 12 month period that he was engaged in business.

3. Section 1400.82 (g) (1) (x) is added to read as follows:

(x) A converter who meets the definition of an "awning goods supplier" may use Table IV set forth below for sales of finished piece goods composed to the extent of 75% or more by weight of cotton to small manufacturers of awnings (as defined in paragraph (a) (30) of § 1400.81): *Provided*, That no converter shall use Table IV for a period of more than 30 days from the effective date of this amendment unless on or before May 5, 1946, he shall have filed his name and address with the Office of Price Administration, Washington 25, D. C., stating that he is an "awning goods supplier" and shall have received written acknowledgement of that report.

4. Section 1400.82 (g) (5) is added to read as follows:

(5) *Awning cloths.*

TABLE IV—DIVISION FACTOR FOR CERTAIN SALES OF AWNING CLOTH

(To be applied only by those converters and on those sales specified in § 1400.82 (g) (1) (x).)

To be applied in accordance with Step A to the sums of items 1, 2, 3, and 4 (Basic grey goods cost, grey freight, working allowance, and put up charges as explained in paragraph (a))	$0.85
To be applied in accordance with Step B to finishing cost as explained in paragraph (a)	.85

5. Section 1400.82 (i) (1) (v) is added to read as follows:

(v) Subject to subparagraph (2) (ii) below, the maximum price on resales of finished piece goods composed to the extent of 75% or more by weight of cotton, by an "awning goods supplier" to "small manufacturers of awnings" (as defined in paragraph (a) (30) of § 1400.81) shall be computed by dividing the actual cost[3] by $0.85.

6. The effective date provision of Amendment 40 to Maximum Price Regulation 127 is amended to read as follows:

This amendment shall become effective April 20, 1946, except for §§ 1400.82 (1) (vii) and 1400.82 (i) (2) (iii) which shall become effective immediately.

[1] 9 F.R. 2464, 3031, 4029, 4879, 10088, 12020, 12636, 13067, 14014; 10 F.R. 412, 2014, 3093, 4216, 6308, 6857, 8979, 11148, 11896, 12260, 14507, 14628, 15006; 11 F.R. 1783, 2075, 2223.

[2] A supplier who was not engaged in business throughout 1941 shall substitute for the year 1941 wherever 1941 appears in subparagraph (30), § 1400.82 (g) (1) (x), and § 1400.82 (i) (1) (v), the last full calendar year during which he was engaged in business.

[3] The actual cost may include only (a) the invoice price of the finished piece goods less all discounts taken (which must not, for any purchases made on or after May 4, 1942, exceed the maximum price established by this Maximum Price Regulation No. 127) and (b) the actual transportation charges incurred by the wholesaler or jobber with respect to such finished piece goods. If the goods are transported in a conveyance other than a commercial carrier, the transportation charge shall not exceed the charge which would be applicable in an identical shipment from the same point of shipment to the same receiving point at the lowest available commercial transportation rate. A wholesaler, jobber or converter-jobber, where he mingles in his inventory separate lots of the same pattern of printed goods or separate lots of the same bleached goods, or separate lots of the same dyed goods which he acquired at varying prices, may take the weighted average cost of such mingled lot for the purpose of determining his actual cost thereof: *Provided*, That if any unsold portion of a lot on which an average cost has been determined is subsequently combined with another lot, the previously determined weighted average cost of such unsold portion shall be used for such unsold portion in computing the weighted average cost of the newly mingled lot.

This amendment shall become effective April 8, 1946.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 8th day of April 1946.

ADJUSTMENT FOR CERTAIN FOREST PRODUCTS

A statement of the considerations involved in the issuance of this amendment to Supplementary Order 128 has been issued simultaneously herewith and filed with the Division of the Federal Register.

Supplementary Order 128 is amended as follows:

1. Section 1 is amended to read as follows:

SECTION 1. *Applicability.* The commodities to which this supplementary order is applicable are those covered by the following maximum price regulations.

Maximum Price Regulation 196—Turned or Shaped Wood Products.
Revised Maximum Price Regulation 290—Sitka Spruce Lumber.
Maximum Price Regulation 412—Tidewater Red Cypress Lumber.
Maximum Price Regulation 501—Hardwood Small Dimension.
Maximum Price Regulation 568—Hardwood Plywood.

This amendment shall become effective April 15, 1946.

Issued this 9th day of April 1946.

PART 1351—FOOD AND FOOD PRODUCTS

[FPR 1,[1] Amdt. 11 to Supp. 13]

PACKED FRUITS, BERRIES AND VEGETABLES (1945 AND LATER PACKS)

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.

Supplement 13 to Food Products Regulation No. 1 is amended in the following respects:

1. The first table in section 6 (a) (4) is amended by adding the phrase "(except maraschino, glacé and brine cherries)" immediately following the item "Cherries, sweet."

2. The part 6 table in section 6 (g) is amended by adding a new column immediately preceding the column headed "Style" and by inserting as a caption thereof the word "Area." In this column immediately below the word "Area" and opposite the designation "Halves, unpeeled" the states "Oregon and Washington" are added.

3. Appendix A to section 16 is amended in the following respects:

a. In Table 3, areas 6 and 7 are amended to read as follows:

Area	No. 2 cans		No. 10 cans	
	Permitted increase	Price range	Permitted increase	Price range
6	$0.98	$2.27–$2.37	$4.73	$11.34–$11.84
7	1.45	2.74– 2.84	7.12	13.73– 14.23

b. In Table 4, areas 6 and 7 are amended to read as follows:

Area	No. 2 cans	No. 10 cans
6	$2.32	$11.89
7	2.79	13.98

This amendment shall become effective April 8, 1946.

Issued this 8th day of April 1946.

PAUL A. PORTER,
Administrator.

Approved: April 4, 1946.

CLINTON P. ANDERSON,
Secretary of Agriculture.

PART 1351—FOOD AND FOOD PRODUCTS

[RMPR 271,[1a] Incl. Amdts. 1–46]

POTATOES AND ONIONS

This compilation of Revised Maximum Price Regulation 271 includes Amendment 46, effective April 15, 1946. The text amended by Amendment 46 is underscored.

In the judgment of the Price Administrator, the maximum prices established by this regulation are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order Nos. 9250 and 9328.

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected.

[Preamble amended by Supplementary Order 55, 8 F.R. 12550, effective 9–11–43]

A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.[2]

§ 1351.1001 *Maximum prices for potatoes and onions.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order Nos. 9250 and 9328, Revised Maximum Price Regulation 271 *Potatoes and Onions*, which is annexed hereto and made a part hereof, is hereby issued.

[NOTE: Supplementary Order No. 42 (8 F.R. 4968) provides that no price regulation of the OPA shall apply to sales or deliveries of any commodity or service made to Government agencies pursuant to secret contracts or subcontracts.]

SEC. 8. *Definitions.* (a) When used in this regulation the term:

(1) "Person" includes individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Grower" means a person who produces potatoes or onions.

(3) "Country shipper" means any person, including a grower or grower's sales agent, who makes sales from a farm or other country shipping point to any other person.

[Subparagraph (3) amended by Am. 3, 8 F.R. 9160, effective 7–1–43]

(4) "Grower's sales agent" means a person who customarily acts as an agent for growers and makes sales for the account of such growers at the country shipping point. Such agents customarily finance growers, purchase materials for growers, advise growers on production problems, handle railroad traffic and plans, extend credit to buyers and distribute potatoes and onions in carlots or trucklots for the account of the grower.

(5) "Intermediate seller" means any person (other than a retailer as defined in Maximum Price Regulation 422 and Maximum Price Regulation 423 and other than a country shipper) who purchases potatoes or onions for the purpose of reselling and who takes title and makes sales to any person who is not an ultimate consumer. The term "ultimate consumer" shall not include industrial, commercial, or institutional users (including procurement agencies of the United States or any State).

[Subparagraph (5) amended by Am. 7, 8 F.R. 13338, effective 10–1–43]

(6) [Revoked]

(7) [Revoked]

[Subparagraphs (6) and (7) revoked by Am. 7, 8 F.R. 13338, effective 10–1–43]

(8) "Variety" means any of the varieties of potatoes and onions listed in Article V, section 24.

(9) "Grade" means official United States grades for potatoes and onions as set forth in the "United States Standards for Potatoes" and "United States Standards for Onions" issued by the United States Department of Agriculture.

(10) "Country shipping point" means a farm or other place in or near the producing area from which potatoes and onions are sold, shipped, delivered, or otherwise transferred to any person, or at which potatoes and onions are prepared for sale, shipment, delivery, or other transfer to any person. "Prepared" means, but is not limited to, loading, sacking, grading, sizing or harvesting.

[Subparagraph (10) amended by Am. 3, 8 F.R. 9160, effective 7–1–43]

(11) "Broker" means a person who is an agent for the seller of potatoes and onions at the terminal market or any other wholesale receiving point, and who does not customarily warehouse, storage, or otherwise distribute potatoes and onions. If any person acts as an agent for the purchaser his commission shall be paid by the purchaser and shall not be added to the purchaser's base price or maximum price.

(12) "Hotel and restaurant supply houses" are persons who customarily purchase potatoes and onions at the terminal market or other wholesale receiving point, maintain repacking facilities, employ salesmen to call on institutions, hotels, restaurants and other commercial, industrial or institutional users, and who customarily make less than carlot sales in original or broken packages for delivery locally within the metropolitan area or city limits.

(13) "Records" means books of account, ledgers, sales and price lists, sales slips, receipts, invoices, bills of lading and other papers and documents.

(14) [Revoked]

(15) [Revoked]

[Subparagraphs (14) and (15) revoked by Am. 8, 8 F.R. 15587, effective 11–19–43]

(16) "Tablestock potatoes" means white flesh potatoes (including selected seed potatoes) for which maximum prices are established in Article V, section 24.

[Subparagraph (16) amended by Am. 8, 8 F.R. 15587, effective 11–19–43]

(17) "Cost of transportation" means the lowest of the following available to the shipper.

(i) If shipment is by a common carrier whose maximum rates and charges are regulated by the Interstate Commerce Commission or other Federal or State regulatory body, the amount actually paid to the carrier, in conformance with its lawfully established rates and charges, including charges for precooling, icing and other protective or accessorial services actually performed. Any allowance made by the carrier to a shipper or consignee for performing pre-cooling or other services may, nevertheless, be included in "cost of transportation" and may be retained by the person performing the services for which the allowance is made. The amount of the transportation tax imposed by section 620 of the Revenue Act of 1942 may be added.

(ii) If shipment is by a carrier for hire other than a common carrier (such as a contract carrier) the amount actually paid to the carrier but not in excess of the maximum charges as determined by the General Maximum Price Regulation,[7] amendments, and supplementary regulations thereto, or such other regulations of the Office of Price Administration as may be applicable to the services of such carrier at the time of movement. The amount of the transportation tax imposed by section 620 of the Revenue Act of 1942 may be added.

(iii) If shipment is by a carrier other than described in (i) and (ii) above (such as an unregulated common carrier or a private carrier) the amount actually paid to the carrier but not in excess of an amount computed by applying to the actual weight of the shipment the lowest published rail carload rate between the rail stations nearest to the points of origin and destination plus rail charges for protective and accessorial services if equivalent services are performed. If the shipment is less than 20,000 pounds, an additional charge of 2 cents per 100 pounds may be made, provided that the total charge for a shipment of less than 20,000 pounds shall not exceed the charge for a shipment of 20,000 pounds. In applying rail accessorial and protective charges which are stated in amounts per car, the per car charge may be made against a shipment of 20,000 pounds or more moving in a single conveyance, but only the proportion of such per car charge which the weight of the shipment bears to 20,000 pounds, may be made against a shipment of less than 20,000 pounds. When pre-cooling or icing, not included in the carrier rates and charges, is performed by or for account of the shipper, the cost of this service, but not to exceed maximum prices prescribed by Maximum Price Regulation 165,[8] may be added.

(iv) If a shipment is by a means owned or controlled by the seller an amount not in excess of the lowest of the rates mentioned in (i), (ii), or (iii) above, available to the seller. The amount of the transportation tax imposed by section 620 of the Revenue Act of 1942, may be added, if the shipment is subject to that tax.

[Subparagraph (17) amended by Am. 3, 8 F.R. 9160, effective 7–1–43 and Am. 7, 8 F.R. 13338, effective 10–1–43]

(18) "Commission merchant" means a person who is the agent in the terminal market or other wholesale receiving point, of a country shipper or other seller, who receives potatoes or onions and who distributes them on behalf of his principal in less-than-carlot or less than trucklot quantities.

[Subparagraph (18) added by Am. 2, 8 F.R. 8075, effective 6–12–43]

(19) A "carlot sale" or a "trucklot sale" means a sale of a quantity of potatoes or onions shipped in one car or truck or other conveyance at one time, out of which 75% or more by weight is sold to one person. The sale of the remaining quantity to another person or persons may be considered a less-than-carlot sale or less-than-trucklot sale. The sale of that proportion of potatoes or onions moving in a mixed carload or mixed truckload with another commodity or commodities must be on the basis of a "carlot sale" or "trucklot sale" if the entire carload or truckload or 75% thereof by weight is sold to one person.

[Subparagraph (19) added by Am. 2; amended by Am. 3, 8 F.R. 9160, effective 7–1–43]

(b) Unless the context otherwise requires, the definition set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used herein.

ARTICLE II—MAXIMUM PRICES FOR TABLE STOCK POTATOES AND ONIONS

SEC. 9. *Maximum prices for country shippers.* (a) If you are a country

---

[7] 9 F.R. 1385, 5169, 6106, 8150, 10193, 11274.

[8] Revised: 10 F.R. 2097, 2250, 3925, 6231, 7854, 14449.

shipper, your maximum prices f. o. b. country shipping point are established in Article V, section 24 and section 25.

[Paragraph (a) amended by Am. 15, 9 F.R. 5379, effective 5–22–44]

Example 1: Suppose you are a person (including a grower) who sells potatoes or onions in the State of Pennsylvania. You wish to sell 5 carlots of potatoes in September, 1943. You turn to Article V, section 24, Table III, and find that the maximum price for potatoes produced in your area and sold in November, 1943, is $2.55 per cwt. This is the highest price which you are permitted to charge f. o. b. (usual terms or cash track) your country shipping point during September, 1943.

Example 2: Suppose you are a country shipper from Modoc county, in the State of California who wishes to sell unharvested potatoes, to be harvested September, 1943. You turn to Article V, section 24, Table III, and you find that the maximum price for potatoes produced in Modoc county and sold in November, 1943, is $2.40 per cwt. f. o. b. country shipping point. You may contract to sell these potatoes at the rate of $2.40 per cwt. (on the basis of U. S. No. 1, grade sacked and loaded on carrier) according to the ultimate actual yield. You may also contract to sell these potatoes by the acre, but your contract, in such case, must provide that the ultimate selling price will be the per acre price of $2.40 per cwt. according to the actual yield per acre, whichever is lower. You may not sell unharvested potatoes at a per acre price because you must know the yield before you can figure the price per cwt.

Example 3: Suppose you are a country shipper in the State of Wisconsin and ship potatoes in October, 1943, for delivery to the purchaser in November, 1943. You turn to Article V, section 24, Table III, and find that the maximum price for potatoes produced in your area is $2.20 for October and $2.30 per cwt. for November. Unless the carrier is owned or controlled by you, delivery to the carrier is considered to be delivery to the purchaser regardless of when title passes as a matter of sales law. Thus, the highest price you may charge for potatoes shipped in October on a carrier not owned or controlled by you is $2.20 per cwt. f. o. b. country shipping point.

[Examples amended by Am. 7, 8 F.R. 13338, effective 10–1–43 and corrected to conform with Table III]

(b) If a country shipper makes sales of potatoes or onions through a broker or growers' sales agent or makes sales of potatoes or onions on a delivered basis in the terminal market or other wholesale receiving point, the maximum price shall be computed as follows:

(1) For sales of potatoes and onions by country shippers through a broker or growers' sales agent, the maximum prices per cwt. (in the case of potatoes) and per 50 pounds (in the case of onions) shall be the maximum price f. o. b. country shipping point, plus

5 cents per cwt. for potatoes.
3 cents per 50 pounds for onions.

(2) For sales of potatoes and onions by country shippers on a delivered basis in the terminal market or other wholesale receiving point, the maximum price per cwt. (in the case of potatoes) and per 50 pounds (in the case of onions) shall be the maximum price f. o. b. country shipping point, plus the cost of transportation (as defined in section 8 (a) (17)), from the country shipping point to the terminal market or other wholesale receiving point, plus

6 cents per cwt. for potatoes.
4 cents per 50 pounds for onions.

[Subparagraph (2) amended by Am. 3, 8 F.R. 9160, effective 7–1–43]

(3) For sales of potatoes and onions by country shippers on a delivered basis to the premises of dehydrating plants or in the terminal market or other wholesale receiving point, where the country shipper performs the functions of carlot or trucklot distribution (including, but without limitation, sales expenses for telephone, telegrams, salaried representatives, established sales offices and other similar customary sales activities) the maximum price per cwt. (in the case of potatoes) and per 50 pounds (in the case of onions) shall be the maximum price, f. o. b. country shipping point, plus the cost of transportation (at lowest common or contract carrier rates for available transportation) from the country shipping point to the terminal market or other wholesale receiving point, plus

14 cents per cwt. for potatoes.
9 cents per 50 pounds for onions.

[Subparagraph (3) amended by Am. 4, 8 F.R. 9995, effective 7–16–43 and Am. 29, 10 F.R. 2248, effective 2–26–45]

(c) If a country shipper makes a sale of potatoes or onions in a less-than-carlot or less-than-trucklot quantity and delivers the goods to the premises of a retail store or restaurant where the goods are to be sold or served to ultimate consumers, the maximum price for that sale is the maximum price otherwise figured under paragraphs (a) and (b) of this section plus 60¢ per cwt. for potatoes and 40¢ per 50 pounds for onions.

[Above paragraph amended by Am. 32, 10 F.R. 3764, effective 4–11–45]

Example: A country shipper at Long Island, New York, sells Long Island potatoes (of the 1943 crop) in November, 1943, through a broker, delivered to the premises of a retailer located in New York City. The shipper turns to Article V, section 24, Table III, and finds that his maximum price f. o. b. country shipping point is $2.60 per cwt. Under paragraph (b) (1) of section 9, he is permitted to add 5 cents per cwt. for selling through a broker and under paragraph (c) of this section 9, he is permitted to add 60 cents per cwt. for selling delivered to the premises of a retailer. In addition, he is permitted to add the transportation cost (15 cents per cwt.) from Long Island to New York City, and 6 cents per cwt. for selling on a delivered basis. Therefore, the maximum price for his delivered sale is $3.46 per cwt. If the shipper sells on a delivered basis to an intermediate seller and performs the selling functions described in paragraph (b) (3) of section 9, his maximum delivered price is $2.60 plus 15 cents (freight) plus 14 cents (see (b) (3) of section 9), which results in a maximum price for this sale of $2.89.

[Example amended by Am. 7, 8 F.R. 13338, effective 10–1–43 and corrected to conform with Table III]

[Paragraph (c) amended by Am. 1, 8 F.R. 7494, effective 6–3–43]

(d) Notwithstanding any other provision of this regulation, if a country shipper makes sales and deliveries to ultimate consumers, his maximum price for such sales shall be his maximum price computed under paragraphs (a), (b) (1) and (b) (2) of section 9, plus $1.00 per cwt. in the case of potatoes, or plus $1.00 per 50 pounds in the case of onions.

In the case of potatoes, however, the country shipper may not make this addition in sales to any person in quantities of more than 800 pounds.

[Above paragraph added by Am. 11, 9 F.R. 2298, effective 6–1–44]

(e) (1) If a country shipper makes sales f. o. b. country shipping point to procurement agencies of the United States or any State and bears the intransit risk to the place of delivery, he may add to his maximum price, f. o. b. country shipping point, 6¢ per cwt. for potatoes or 4¢ per 50 pounds for onions.

[Text designated (1) and subparagraph (2) added by Am. 12, 9 F.R. 3589, effective 4–1–44]

(2) In the case of onions, if a country shipper makes sales to procurement agencies of the United States, and at the buyer's specification, grades or regrades the onions and specially packs them in containers other than bags, he may add 40 cents per 50 pounds to his maximum price, f. o. b. country shipping point.

(f) If a country shipper makes sales through a commission merchant, the maximum price shall be the country shipper's maximum f. o. b. price, plus the increase for sales on a delivered basis provided by section 9 (b) (2), if applicable, and plus the commission merchant's usual commission or fee but such commission or fee shall in no event exceed 60¢ per cwt. in the case of potatoes, or 40¢ per 50 pounds in the case of onions. No addition for the brokerage mentioned in section 9 (b) (1) is permitted.

[Paragraphs (d), (e), and (f) added by Am. 2, 8 F.R. 8075, effective 6–12–43]

(g) If any person makes sales at terminal auction, the maximum price for such sales shall be the maximum price computed under section 9 (a) and 9 (b) (1) and (2) plus a commission to the seller not exceeding 15 cents per cwt. for potatoes, or 10 cents per 50 pounds for onions. All expenses of the sale, including charges of the auction market, shall be paid out of the commission, and the amount of the commission shall not be added to the intermediate seller's base price.

[Subparagraph (2) added by Am. 2; amended by Am. 3, 8 F.R. 9160, effective 7–1–43]

(h) (1) Every country shipper making a sale to any person shall either furnish an invoice or other document of sale, or shall attach a tag or label to each sack or bag of potatoes or onions, on which shall be stated the state in which the potatoes or onions were grown, and the month and year of the sale.

[Paragraph (h) added by Am. 3, 8 F.R. 9160, effective 7–1–43; text designated (1), and (2) added by Am. 7, 8 F.R. 13338, effective 10–1–43]

(2) Every country shipper making shipments of potatoes or onions in any conveyance other than railroad freight car, shall post or cause to be posted in the conveyance, a manifest showing the following:

The name and address of the shipper; the location of the shipping point; the quantity, grade, state or area of production and maximum price, f. o. b. shipping point of the goods; and the name and address of the person to whom shipped. If the goods are shipped unsold the manifest shall show that fact, and the shipper shall give his own name and address as the person to whom the goods are shipped.

The shipper shall retain a copy of the manifest pursuant to section 22 of this regulation.

[Subparagraph (2) amended by Am. 22, 9 F.R. 10981, effective 9–11–44]

SEC. 10. *Maximum prices for carlot or trucklot distributors.* If any person other than a country shipper (a) purchases potatoes or onions in carlots and resells such potatoes or onions in carlots in a terminal market or other wholesale receiving point or (b) purchases potatoes or onions in trucklots and resells such potatoes or onions in trucklots (without breaking the original trucklot) at a terminal market or other wholesale receiving point, the maximum price per cwt. (in the case of potatoes) and per 50 pounds (in the case of onions) shall be the maximum price f. o. b. country shipping point plus the cost of transportation (as defined in section 8 (a) (17)) from the country shipping point to the terminal market or other wholesale receiving point plus

14 cents per cwt. for potatoes.
9 cents per 50 pounds for onions.

Provided, That a carlot distributor who sells a carlot of potatoes or onions to two or more persons without breaking a carlot shall continue to be a carlot distributor and shall not thereby become entitled to any portion of the markups allowed by this regulation to intermediate sellers.

Example: Suppose you are a carlot distributor of potatoes located in Pittsburgh, Pennsylvania. In September, 1943, you purchase a carlot of Maine potatoes f. o. b. country shipping point. You turn to Article V, section 24, Table III, and find that the maximum price per cwt. for 1943 crop Maine potatoes in November, 1943, is $2.25. To this you may add the cost of transportation to your customary receiving point and 14 cents per cwt. If the sale to you was made on a delivered basis, and the shipper has added 6 cents per cwt. pursuant to section 9 (b) (2) you may nevertheless add only 14 cents per cwt. to the maximum price f. o. b. country shipping point plus the cost of transportation. The resulting maximum price, regardless of the terms of the purchase, is $2.25 plus transportation plus 14 cents.

[Example amended by Am. 7, 8 F.R. 13338, effective 10–1–43 and corrected to conform with Table III]

[Sec. 10 amended by Am. 3, 8 F.R. 9160, effective 7–1–43 and Am. 4, 8 F.R. 9995, effective 7–16–43]

SEC. 11. *Maximum prices for intermediate sellers.* An intermediate seller's "base price" for each lot of potatoes or onions sold by him is the maximum price, f. o. b. country shipping point, for the particular goods being priced in effect at the time of shipment from the country shipping point, plus the cost of transportation (see section 8 (a) (17)) from the country shipping point to the terminal market or other wholesale receiving point, plus the applicable allowances for sales through a broker or growers' sales agent (section 9 (b) (1)), or on a delivered basis (section 9 (b) (2)), or by a carlot distributor (section 10) or country shipper performing the functions of a carlot distributor (section 9 (b) (3)), to the extent that such allowances were actually paid by the intermediate seller.

NOTE: In figuring a base price, the intermediate seller shall not add more than 14¢ per cwt. (in case of potatoes) or 9¢ per 50 pounds (in the case of onions) to the f. o. b. shipping point price plus the cost of transportation. (See example in section 10.) In no event may commission merchant or auction market fees be included in the base price.

[Paragraph (a) amended by Am. 2, 8 F.R. 8075, effective 6–12–43; Am. 3, 8 F.R. 9160, effective 7–1–43; Am. 7, 8 F.R. 13338, effective 10–1–43 and Am. 25, 9 F.R. 12270, effective 10–14–44]

(b) *Notification.* Every sale of potatoes or onions by an intermediate seller shall be accompanied by a notification in writing showing the base price for such sale, the variety and grade of potatoes or onions being sold, and the state or district within a state where the potatoes or onions were produced. See paragraph (a) of this section 11 for computation of the "base price."

[Paragraph (b) amended by Am. 4, 8 F.R. 9995, effective 7–16–43]

(c) *Maximum prices for intermediate sellers.* (1) The maximum price which intermediate sellers may charge for each lot or shipment of potatoes or onions is, in each case, the base price plus 60¢ per cwt., in the case of potatoes, or the base price plus 40¢ per 50 pounds, in the case of onions.

EXPLANATORY NOTE: There may be any number of transactions between intermediate sellers, but no intermediate seller shall charge more than the maximum price figured by adding the applicable markup to the base price, regardless of the number of prior intermediate sellers involved.

[Subparagraph (1) added by Am. 25, 9 F.R. 12270, effective 10–14–44. Former subparagraph (1) amended by Am. 9, 8 F.R. 15663, effective 11–13–43 and revoked by Am. 25]

(2) If the intermediate seller is a hotel and restaurant supply house, the maximum price for sales except to intermediate sellers or retailers shall be the "base price" plus 70 cents per cwt. (in the case of potatoes), and 55 cents per 50 pounds (in the case of onions).

[Subparagraph (2), formerly (6), redesignated by Am. 25, 9 F.R. 12270, effective 10–14–44. Former (2) amended by Am. 9, 8 F.R. 15663, effective 11–13–43; Am. 13, 9 F.R. 4027, effective 4–14–44 and revoked by Am. 25]

(3) The maximum dollar-and-cents markups provided herein for intermediate sellers include all items of cost involved in making local deliveries within a metropolitan area or city limits. Any intermediate seller delivering potatoes or onions to institutions or retail stores outside his free delivery zone may charge different delivered prices in such other areas or zones in which deliveries are made as follows: (i) He first determines his delivered prices for each of these areas or zones by adding to the prices established by this regulation an amount not exceeding the average cost of delivery to the institution or retailers in the area or zone. (ii) In determining the average cost of delivery to the retailers in the area or zone no rate shall be used which is in excess of the lowest common or contract carrier rate for available transportation. (iii) If such a delivery charge is made, the amount of this delivery charge shall be included as part of the maximum price established by this regulation. Before using such a zone differential, the intermediate seller shall report it in writing to the nearest regional, state or district office of the Office of Price Administration having jurisdiction over the seller. If a particular class of intermediate sellers have normally operated on the basis of markups which are lower than the markups provided by this regulation, the regional office of the Office of Price Administration having jurisdiction over the seller or the sellers of such District Office as may be authorized by the appropriate Regional Office shall reduce the maximum prices for such intermediate sellers. However, in no case shall the maximum prices provided by this regulation be increased. (iv) All regional offices, and such district offices as they in turn may authorize, may approve or disapprove in whole or in part the zone differentials reported under (iii) above, and may, on the basis of such reported zone differentials, establish uniform zone differentials.

[Subparagraph (3), formerly (7), amended by Am. 3, 8 F.R. 9160, effective 7–1–43; Am. 7, 8 F.R. 13338, effective 10–1–43 and redesignated by Am. 25. Former subparagraph (3) revoked by Am. 25]

(4) Any intermediate seller who shall have purchased potatoes or onions and stored them for more than 30 days may use the appropriate price set forth in section 24 under the month in which he sells the potatoes or onions instead of the month in which they were purchased from a country shipper, grower or other intermediate seller in computing his base price, but he may add nothing on account of storage charges.

[Subparagraph 4, formerly (8), added by Am. 4, 8 F.R. 9995, effective 7–16–43; amended by Am. 7, 8 F.R. 13338, effective 10–1–43 and redesignated by Am. 25, 9 F.R. 12270, effective 10–14–44. Former (4) amended by Am. 9, 8 F.R. 15663, effective 11–13–43 and revoked by Am. 25]

(5) For sales by intermediate sellers to ultimate consumers the maximum price shall be the intermediate sellers' base price, as computed under this regulation, for the item being sold, plus $1.00 per cwt. for potatoes or plus $1.00 per 50 pounds for onions.

[Subparagraph (5), formerly (9), added by Am. 7, 8 F.R. 13338, effective 10–1–43 and redesignated by Am. 25]

SEC. 12. *Imported potatoes and onions*—(a) *Imported potatoes.* For each hundred pounds of potatoes, whether for use as tablestock or as seed, imported from any country, the maximum price per cwt. at any terminal market or any other wholesale receiving point shall

be the maximum delivered price for the most closely similar variety of domestic potatoes in the particular terminal market or other wholesale receiving point where such imported potatoes are being offered for sale.

(b) *Imported onions.* For all dry onions of any variety imported from any country for sale within the continental limits of the United States the point of entry shall be deemed the country shipping point and the maximum price per 50 pounds, f. o. b. such point of entry, shall be the same as the maximum price, f. o. b. country shipping point, for the most closely similar variety of domestic dry onions produced in the State or locality in which that point of entry is located.

[Paragraph (b) amended by Am. 6, 8 F.R. 11672, effective 8–20–43]

SEC. 13 [Revoked]

[Sec. 13 amended by Am. 3, 8 F.R. 9160, effective 7–1–43; and Am. 7, 8 F.R. 13338, effective 10–1–43; revoked by Am. 22, 9 F.R. 10981, effective 9–11–44]

ARTICLE III—MAXIMUM PRICES FOR SEED POTATOES

[Secs. 14 through 16a revoked by Am. 8, 8 F.R. 15587, effective 11–19–43]

ARTICLE IV—ENFORCEMENT PROVISIONS AND MISCELLANEOUS PROVISIONS

SEC. 17. *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided by the Emergency Price Control Act of 1942, as amended.

SEC. 17a. *Licensing.* The provisions of Licensing Order No. 1,[9] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Sec. 17a added by Supplementary Order 72, 8 F.R. 13244, effective 10–1–43]

[NOTE: Supplementary Order No. 7 (7 F.R. 5176) provides that War Procurement Agencies and governments whose defense is vital to the defense of the United States shall be relieved of liability, civil or criminal, imposed by price regulations issued by the Office of Price Administration.]

SEC. 18. *Relationship between this regulation, the General Maximum Price Regulation, and Temporary Maximum Price Regulation No. 22.*[10] (a) The provisions of this regulation supersede the provisions of temporary Maximum Price Regulation No. 22. However, the following provisions of the General Maximum Price Regulation, as well as any amendments thereto, continue to be applicable to every grower, country shipper and intermediate seller of potatoes and onions:

(1) Transfers of business or stock in trade (§ 1499.5).
(2) Federal and State taxes (§ 1499.7).
(3) Current records (§ 1499.12).
(4) Sales slips and receipts (§ 1499.14).
(5) Definitions (§ 1499.20).

[Paragraph deleted by Supplementary Order 72, 8 F.R. 13244, effective 10–1–43]

SEC. 19. *Evasion.* The price limitations which are set forth in this regulation shall not be evaded, whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to potatoes or onions alone or in conjunction with any other commodity or by way of commission, service, transportation or any other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding or otherwise.

SEC. 20. *Petitions for amendment.* Persons seeking a modification of this regulation may file a petition therefor in accordance with the provisions of Revised Procedural Regulation No. 1[11] issued by the Office of Price Administration.

[NOTE: Procedural Regulation No. 6 (9 F.R. 10628; 10 F.R. 1382, 9394) provides for the filing of applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts. Revised Supplementary Order 9 (8 F.R. 6175; 10 F.R. 9394) makes the provisions of Procedural Regulation No. 6 applicable to all price regulations, excepting those which expressly prohibit such applications, and certain specific regulations listed in Revised Supplementary Order No. 9.]

SEC. 21. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action to be taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purpose of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any officer of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order.

SEC. 22. *Records.* (a) Every person subject to this regulation shall, so long as the Emergency Price Control Act of 1942, as amended, remains in effect, preserve for examination by the Office of Price Administration all his records, including invoices, sales tickets, cash receipts, or other written evidences of sale or delivery which relate to the prices charged pursuant to the provisions of this regulation.

(b) Every person subject to this regulation shall keep and make available for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, records of the same kind as he has customarily kept, relating to the prices which he charges for potatoes and onions after the effective date of this regulation and in addition as precisely as possible the basis upon which he determined maximum prices for these commodities.

(c) In addition to the above records, sellers shall keep all correspondence in connection with any sale of seed potatoes together with a copy of every invoice or other written evidence of purchase or sale and, on or before May 25, 1943, prepare, on the basis of all available information and records, and maintain for examination by any person during ordinary business hours a statement showing his maximum prices for every kind of certified seed potatoes which he sold during the period February 15, 1943, to March 1, 1943, and his customary allowances, discounts and other price differentials. Whenever such sellers offer any other kind of certified seed potatoes for sale, they shall add to such statement their maximum price for such certified seed potatoes.

SEC. 23. *Fractions of cents.* Any calculation of a maximum price per cwt. or other customary unit of sale which results in a fraction of a cent shall be reduced to the nearest lower cent if the fraction is less than ½ cent and shall be increased to the nearest higher cent if the fraction is ½ cent or more.

ARTICLE V—PRICE SCHEDULES

SEC. 24. *Potatoes and onions.* The prices in the following tables are maximum prices, f. o. b. country shipping point, for U. S. No. 1 potatoes, per 100 pounds, graded, sacked and loaded on carrier and for dry onions per 50 pounds, in sacks, loaded on carrier.

TABLE V—1944 CROP WHITE FLESH POTATOES

(The following prices apply to all varieties of U. S. No. 1 grade white potatoes of the 1944 crop, harvested and sold during the 1944 marketing season, sacked and loaded on carrier, except those actually sold before May 22, 1944, and except those shipped from the country shipping point, whether sold or unsold, before May 18, 1944. The differentials set forth in section 25 are to be used in determining maximum prices for other grades, special sizes and special packs or packages.) However, for the months of June and July 1944, and with respect to all states other than California and Arizona, potatoes of a minimum diameter of 1½ inches and otherwise meeting the requirements of U. S. No. 1 grade, 85 percent U. S. No. 1 grade or U. S. Commercial grade, as the case may be, may be sold at the ceiling price established for the respective grade without discount by reason of size, and the provision of section 25 with respect to U. S. Size B shall not be applicable.

SEC. 25. *Differentials for grade, size and packaging.* (a) *Potatoes (grade and size).* The following differential shall be applied to the maximum prices for potatoes set forth in section 24. They shall be added or subtracted, as indicated, in sales by country shippers (including growers) to all persons (including other country shippers).

[Above paragraph amended by Am. 44, 10 F.R. 10226, effective 8–19–45]

	Amount to be applied per cwt.
(1) *Grade*	
U. S. Extra No. 1 or better	add 10¢
Below U. S. No. 1 but 85% U. S. No. 1, U. S. commercial or better	subtract 10¢
Less than 85% U. S. No. 1, U. S. commercial or better, including ungraded and unclassified	subtract 30¢
(2) *Size*	
U. S. Size B	subtract 30¢
6 oz. minimum	add 15¢
2 inch minimum or U. S. Size A, or combination (If both 2 inch minimum and U. S. Size A only 10¢ may be added).	add 10¢
U. S. No. 1 or better, 6 oz. and heavier, 2½ inch and larger	add 35 cents

[Subparagraph (2) amended by Am. 12, 9 F.R. 3589, effective 4–1–44]

(3) *Baking type.*

6 oz. minimum to 14 oz. maximum, or 2¼ inch minimum to 4 inch maximum, hand selected and graded, washed or brushed, and specially packed in 100 pound bags	add 50 cents
Same, but specially packed in 10 lb. mesh bags, or in bags containing 10 mesh bags, each such bag containing approximately 5 lbs	add $1.25
Same, but specially packed in 50 lb. bags	add 60 cents
12 oz. minimum, packed in 50 lb. bags	add 70 cents
Same, but packed in 100 lb. bags	add 60 cents

(These differentials apply only to potatoes grading U. S. No. 1 or better, and shall not be used in combination with any other differential established by this section.)

[Subparagraph (3) amended by Am. 12, 9 F.R. 3589, effective 4–1–44; Am. 25, 9 F.R. 12270, effective 10–14–44 and Am. 28, 10 F.R. 1334, effective 2–5–45]

(b) *Potatoes (packaging).* The following differentials for packaging shall be added to or subtracted from the figure which results from application of the above grade and size differentials, as indicated, in sales by country shippers (including growers) to all persons (including other country shippers):

Type of pack or package	*Amount to be applied per cwt.*
(1) *Bulk, or in containers furnished by the purchaser*	subtract 20¢
(For example, if the potatoes are U. S. Extra No. 1 and the buyer supplies the containers, the seller's maximum price per cwt. is the price from the appropriate table, plus 10¢ as shown in (a) (1) above, and minus 20¢ under this paragraph)	

(2) *Cotton, mesh or burlap bags.*

10 pounds	add 50¢
15 pounds	add 35¢
25 pounds	add 25¢
50 pounds	add 10¢

(3) *Paper bags.*

10 pounds	add 25¢
15 pounds	add 20¢
25 pounds	add 10¢
50 pounds	add 5¢

(4) *Kraft paper bags specially treated for moisture proof.*

10 pounds	add 27¢
15 pounds	add 22¢
25 pounds	add 12¢
50 pounds	add 7¢

[Subparagraphs (2), (3) and (4) amended by Am. 22, 9 F.R. 10981, effective 9–11–44]

[Sec. 25 added by Am. 10, 9 F.R. 1532, effective 2–5–44; amended as otherwise noted]

SEC. 26. *Miscellaneous adjustments for crop losses.* (a) In Table V of section 24, the prices for September in the column "1944" are increased by the following amounts:

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 149, Amdt. 27]

MECHANICAL RUBBER GOODS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 149 is amended in the following respects:

1. Subparagraph (2) of § 1315.21a (b) is amended to read as follows:

(2) *Redetermination of maximum prices for molded, extruded, lathe-cut, and chemically blown sponge rubber products.* (i) This subparagraph (2) applies to a manufacturer of those mechanical rubber goods listed in § 1315.35, Appendix B, which are generally known by the term "molded, extruded, lathe-cut, and chemically blown sponge rubber products" (including hard rubber goods) who has a regularly quoted price (as defined in § 1315.31 (a) (7) of this regulation) or a price stated in his schedule or price list which was in effect on January 5, 1942, for such mechanical rubber goods and who has filed with the Office of Price Administration pursuant to § 1315.28, his base period price lists and regularly quoted prices and his base period pricing methods and rates for these products. This subparagraph does not apply to brake linings and clutch facings, flooring, mats and matting, foamed latex products and rubber covered rolls.

(ii) A manufacturer who meets the requirements of subdivision (i) above may redetermine his maximum prices for any mechanical rubber good covered by this subparagraph (2) according to the formula method set forth in paragraph (a) (2) (iii) of this section, except that the date January 5, 1942, shall be substituted for the date October 1, 1941, where the latter appears. The redetermined maximum price for a mechanical rubber good established under this subparagraph (2) shall not exceed 115 percent of the manufacturer's January 5, 1942, list or regularly quoted price for it. If the redetermined maximum price computed according to the formula results in a price that exceeds 115 percent of the manufacturer's January 5, 1942, list or regularly quoted price for an item, the maximum price for the item is 115 percent of the manufacturer's January 5, 1942, list or regularly quoted price.

2. Section 1315.37 is amended in the following respects:

a. Table I–D in paragraph (a) (1) is amended to read as follows:

TABLE I–D—CONSUMERS' MAXIMUM PRICES FOR NEOPRENE HOSE SOLD IN BROKEN PACKAGE LOTS

b. Paragraph (b) (2) is amended to read as follows:

(2) *How the manufacturer calculates his maximum price.* The manufacturer shall calculate the maximum price of the belts and belting covered by this paragraph as follows: (i) The manufacturer shall, for any of the following commodities, first deduct from the list price in effect on October 1, 1941, the amount determined by multiplying that list price by the following percents:

	Percent
Neoprene conveyor belting	7.4

The manufacturer shall then deduct from the resulting figures all discounts, allowances, and other deductions from the list price that he had in effect to a purchaser of the same class on October 1, 1941.

(ii) The manufacturer shall, for the following commodities, add to the list price in effect on October 1, 1941, the amount determined by multiplying that list price by the following percents:

	Percent
Solid neoprene multiple V-belts	7.8
Solid neoprene FHP V-belts (A and B sections only)	6.3
Automotive equipment solid neoprene fan belts	3.0
Neoprene cover multiple V-belts	13.9
Neoprene cover FHP V-belts (A and B sections only)	12.8

The manufacturer shall then deduct from the resulting figures all discounts, allowances and other deductions from the list price that he had in effect to a purchaser of the same class on October 1, 1941.

c. In paragraph (c), Table II-D is amended to read as follows:

j. A new paragraph designated as (m) is added, to read as follows:

(m) *Maximum prices for certain rubber belting, hose and packing.* The manufacturer's maximum prices for sale of a mechanical rubber good listed in Table XI-D shall be the percent set forth in Table XI-D of the selling price computed under § 1315.21a (a).

TABLE XI-D—MANUFACTURERS' MAXIMUM PRICES FOR SALES OF THE FOLLOWING RUBBER BELTING, HOSE AND PACKING, OTHER THAN NEOPRENE RUBBER BELTING, HOSE AND PACKING [1] [2]

Product	Maximum price is the following percent of the manufacturer's price computed under subparagraph (1) or (2) (ii) or (2) (iii) of section 1315.21a(a)
V-belting	117.3
Flat belting	114.8
Molded and braided hose [4]	112.1
Cotton rubber-lined hose [5]	120.7
All other hose [6]	125.8
Sheet packing without reinforcement [7]	119.0
Sheet packing with reinforcement [8]	124.0

[1] This table of percents applies to a mechanical rubber good, the selling price of which may be computed under subparagraph (1) or (2) (ii) or (2) (iii) of § 1315.21a (a).

[2] This § 1315.37 (m) does not apply to a commodity which is priced under § 1315.21a (c) or § 1315.28 (b). The Administrator may by written order revise the maximum price for a commodity established under either of these sections (1315.21a (c) or 1315.28 (b)) to make it consistent with the level of maximum prices for the same or similar commodities that are established under § 1315.37 (m).

[3] Where an item of belting, hose, or packing listed in this table has a selling price computed under subparagraph (1) or (2) (ii) or (2) (iii) of § 1315.21a (a) which has been adjusted by an order issued under paragraph (a) of § 1315.28a (adjustments), its maximum price is the price established by the order or the price determined by applying the percent for that item listed in Table XI-D to the item's selling price computed under subparagraph (1) or (2) (ii) or (2) (iii) of § 1315.21a (a).

[4] Molded and braided hose is that type generally understood by the industry to be made with a vertically braided reinforcement and a molded cover, commonly referred to as long length hose such as air, fuel oil, garden, gasoline, spray, water, welding, etc.

[5] Cotton rubber-lined hose is that type generally understood by the industry to be made with a woven cotton jacket and a rubber lining, commonly referred to as fire hose or mill hose.

[6] All other hose is that type generally understood by the industry to be not defined as molded and braided hose or cotton rubber-lined hose, but is commonly referred to as wrapped hose, horizontally braided hose, and hand-built hose such as creamery, drillers, oil suction and discharge, hydraulic control, steam, suction, etc.

[7] Sheet packing without reinforcement is that type generally understood by the industry to be made without a reinforcement, commonly referred to as red sheet, all rubber sheet, oil resisting sheet, etc.

[8] Sheet packing with reinforcement is that type generally understood by the industry to be made with a reinforcement, commonly referred to as cloth inserted sheet, diaphragm sheet, chute lining sheet, wire inserted sheet, compressed asbestos sheet, etc.

k. A new paragraph designated (n) is added, to read as follows:

(n) *Manufacturers' maximum prices for certain hard rubber SLI battery containers and battery parts*—(1) *Applicability.* Notwithstanding any other provision of this regulation, this paragraph (n) is applicable to sales by manufacturers of hard rubber SLI battery containers, covers, and vents referred to below.

(2) *Manufacturers' maximum prices for certain hard rubber SLI battery containers.* (i) The manufacturer's maximum price for a sale of any of the following hard rubber SLI battery containers, shall be as follows:

SLI CONTAINERS

SAE container designation:	*Maximum price per 1,000*
S-8-B	$715.00
S-10-B	781.00
S-10-C	822.00
S-13-B	860.00
S-16-B	932.00
S-16-C	966.00

(ii) The manufacturer's maximum price for a sale of a hard rubber SLI battery container listed in the SAE battery groups numbered I and II which is not priced under (i) above, shall be 128 percent of his January 5, 1942, selling price, and for a hard rubber SLI battery container listed in SAE battery groups III and IV which is not priced under (i) above, shall be 115 percent of his January 5, 1942, selling price.

(3) *Manufacturers' maximum prices for certain hard rubber SLI battery covers.* (i) The manufacturer's maximum price for a sale of any of the following standard hard rubber SLI battery covers, shall be as follows:

SLI COVERS

SAE cover designation:	*Maximum price per 1,000*
S-8 gasket	$41.00
S-10 gasket	46.50
S-8 soft rubber bushing	60.25
S-10 soft rubber bushing	64.25
S-8 lead bushing	63.75

SLI COVERS—Continued

SAE cover designation:	*Maximum price per 1,000*
S-10 lead bushing	$70.00
S-8 combination (lead and rubber)	60.25
S-10 combination (lead and rubber)	64.25

(ii) The manufacturer's maximum price for a sale of a standard hard rubber SLI battery lead bushing cover, not priced under (i) above, shall be 120 percent of his January 5, 1942, selling price, and for a standard hard rubber SLI combination lead and rubber bushing cover not priced under (i) above, shall be 125 percent of his January 5, 1942, selling price.

The manufacturer's maximum price for a sale of the standard hard rubber SLI battery gasket cover or a soft rubber bushing cover which is not priced under (i) above, shall be 135 percent of his January 5, 1942, selling price.

(4) *Manufacturers' maximum prices for certain hard rubber SLI vents.* (i) The manufacturer's maximum price for the following hard rubber SLI vents shall be as follows:

SLI VENTS

SAE vent designation:	*Maximum price per 1,000*
High-type, plug-baffle	$17.30
Low-type, plug baffle	12.40
Vent plugs, double baffle	16.80

(ii) The manufacturer's maximum price for a sale of a hard rubber SLI high or low type battery vent whose maximum price is not established by (i) above, shall be 115 percent of his January 5, 1942, selling price.

(5) *Definition of "January 5, 1942, selling price".* When used in this paragraph (n), the term "January 5, 1942, selling price" means the price stated in the manufacturer's schedule or price list in effect on that date, or a price which was regularly quoted by the manufacturer in any other manner on that date. This "January 5, 1942, selling price" is subject to all discounts, allowances and other deductions that the seller had in effect to a purchaser of the same class on January 5, 1942.

This amendment shall become effective April 8, 1946.

Issued this 8th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

AUTHORITY: § 1330.101 issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; Pub. Law 108, 79th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9599, 10 F.R. 10155; E.O. 9651, 10 F.R. 13487; E.O. 9697, 11 F.R. 1691.

ARTICLE I—SCOPE OF THIS REGULATION AND PROHIBITIONS

SECTION 1. *What this regulation covers*—(a) *Transactions covered.* This regulation applies to the sales, uninstalled, by any person of the tanks and vessels described in (b) below, except (1) sales by a householder who originally purchased for his own use and (2) auction sales made in good faith for the account of such a householder.

(b) *Commodities covered.* This regulation covers tanks and vessels 585 gallons and smaller in capacity, having a shell made from 7 gauge steel and lighter or from other metals of equivalent thickness, non-code pressure and non-pressure, coated and non-coated, lined and un-lined.

These commodities include, but are not limited to the following: domestic fuel oil storage tanks, domestic steel septic tanks, domestic water tanks, range boilers, water storage tanks, cylindrical hydropneumatic tanks, expansion tanks, solar tanks, water purification tanks and water heater tanks.

The following commodities, however, are not covered by this regulation: leg tanks, skid tanks, tanks specifically designed for use with industrial equipment (except cylindrical hydropneumatic tanks as described above) subject to the provisions of Revised Maximum Price Regulation 136, products commonly known as pans and cans, such as pails and buckets, shipping containers, refuse receptacles, and drip and waste receivers.

(c) *Relationship to other regulations.* (1) This regulation supersedes the General Maximum Price Regulation, Revised Maximum Price Regulation No. 136, Maximum Price Regulation No. 591, Revised Price Schedule No. 96 and any other regulations with respect to transactions and commodities covered by this regulation.

(2) *Exports.* The Second Revised Maximum Export Price Regulation covers export sales and sales to exporters.

(3) *Imports.* The Revised Maximum Import Price Regulation covers purchases, sales or deliveries if they originate outside of the Continental United States.

(d) *Geographical applicability.* This regulation applies in the forty-eight States of the United States and the District of Columbia.

(e) *Definitions.* "Manufacturer" means a person operating an establishment which produces or assembles any commodity covered by this regulation.

"Jobber" or "wholesaler" means a person who purchases the products covered by this regulation from a manufacturer for resale to industrial and commercial users, installers, or retailers.

"Retailer" means a person who maintains a store or similar establishment where 75 percent of the annual dollar volume of sales of all commodities covered by this regulation consists of sales without discounts (except cash discounts) from that establishment to ultimate consumers.

"Installer" means any person who sells any commodity covered by this regulation together with the labor, services, and materials required to install it.

SEC. 2. *Prohibitions against dealing at prices above the maximum.* On and after the effective date of this regulation, no person shall sell or deliver, and no person shall buy or receive in the course of trade or business, any commodity covered by this regulation at a price higher than the maximum price fixed by this regulation, regardless of any contract or other obligation. No person shall agree, offer, solicit or attempt to do any of the foregoing.

Lower prices may, of course, be charged.

SEC. 3. *Evasion.* The price limitations set forth in this regulation shall not be evaded by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of any commodities covered by this regulation, or by way of commissions, services, transportation or other charges, or by tying agreement or other trade understanding, or by making the terms and conditions of sale more onerous to buyers than they were during March 1942 (except as specifically permitted by this regulation).

ARTICLE II—MAXIMUM PRICES

SEC. 4. *Manufacturers' maximum prices—(a) Commodities delivered or offered for delivery on July 1, 1941.* The manufacturer's maximum price, f. o. b. point of shipment, for any commodity covered by this regulation which he delivered or offered for delivery on July 1, 1941, shall be the higher of the following: (1) the highest price for which such commodity was delivered or, if it was not delivered, offered for delivery, to each class of purchaser on July 1, 1941, plus 17 percent, or (2) the maximum price properly established by any applicable Office of Price Administration regulation before April 8, 1946.

Filing. A manufacturer determining a maximum price under paragraph (a) (1) shall file a report of such maximum price with the Office of Price Administration, Building and Construction Price Division, Washington 25, D. C., within 15 days after first offering the item for sale, giving the following information:

(i) An adequate description of the commodity

(ii) The price in effect July 1, 1941 (State whether a published price or price charged for a delivery made on that date).

(iii) The maximum price as determined under Section 4 (a) (1)

(iv) All of the customary allowances, discounts and other price differentials.

(b) *Manufacturers who cannot establish maximum prices under paragraph (a).* A manufacturer who cannot establish a maximum price under paragraph (a) above, but who had a maximum price "frozen" or established under any regulation before April 8, 1946, may apply for an order adjusting such maximum price to reflect the level of prices established under paragraph (a) above. Such application shall be submitted to the Prefabrication and Building Equipment Branch, Office of Price Administration, Washington 25, D. C., and shall contain the following information:

(1) Full description of the item. Cuts or detailed sketches should be supplied.

(2) Established maximum price for the item and the section and regulation under which the maximum price was established.

(3) If possible, the names of competitors marketing a similar item for which they had July 1, 1941, prices.

(c) *Maximum prices for new commodities.* A manufacturer who has not heretofore established his maximum price for a commodity now subject to this regulation (because he is newly engaged in manufacturing such commodity, or a new type or model of such commodity) shall establish his maximum price for its sale in accordance with the provisions of section 6, and the sections therein referred to, of Maximum Price Regulation No. 591. Every manufacturer who is required to establish a maximum price in accordance with these provisions shall give written notice to each purchaser at or before the issuance of the first invoice to the customer, of the maximum price so established for him.

SEC. 5. *Maximum prices for resellers—(a) Sales by wholesalers.* The maximum price for sales by any wholesaler of the commodities covered by this regulation shall be his properly established maximum price to each class of purchaser in effect on April 7, 1946. However, on any item for which his acquisition cost is increased as a result of the increase permitted manufacturers under section 4, his maximum price for any item shall be the higher of the following: (1) his properly established maximum price in effect on April 7, 1946, or (2) the manufacturer's adjusted maximum less-than-carload price multiplied by 1.2 plus actual inbound freight charges.

(b) *Sales by retailers purchasing direct from manufacturers.* The maximum price for sales by any retailer of the commodities covered by this regulation purchasing direct from the manufacturer shall be his properly established maximum price to each class of purchaser in effect on April 7, 1946. However, on any item for which his acquisition cost is increased as a result of the increase permitted manufacturers under section 4, his maximum price for any item shall be the higher of the following: (1) his properly established maximum price in effect on April 7, 1946, or (2) the manufacturer's adjusted maximum less-than-carload price multiplied by 1.3 plus actual inbound freight charges.

(c) *Sales by retailers purchasing from persons other than the manufacturer.* The maximum price for sales by any retailer of the commodities covered by this regulation purchasing from persons other than the manufacturer shall be his properly established maximum price to each class of purchaser in effect on April 7, 1946. However, on any item for which his acquisition cost is increased as a result of the increase permitted manufacturers under section 4, his maximum price for any item shall be either his properly established maximum price in effect on April 8, 1946, or his supplier's properly established maximum price multiplied by 1.2 plus actual inbound freight charges whichever is higher.

(d) A person who sells a commodity covered by this regulation in assembly or combination with another commodity, as a part, component or subassembly thereof, shall not be deemed a "reseller" within the meaning of this section for his sales of the covered commodity in such assembly, and is not authorized by this section to reflect his increased cost of the covered commodity in his maximum price for the entire assembly or unit of which the covered commodity is a part.

SEC. 6. *Discounts, allowances and price differentials.* Every seller covered by this regulation shall extend discounts, allowances including transportation allowances and other price differentials at least as favorable as those in effect or those which would have been in effect to every class of purchaser on July 1, 1941.

SEC. 7. *Revision of maximum prices.* A maximum price established under this regulation may at any time be revised by order (not to apply retroactively) to make it consistent with the level of prices otherwise established by this regulation.

SEC. 8. *Notification to purchasers for resale—(a) By manufacturers.* Every manufacturer making sales of any commodity covered by this regulation shall at or before the first delivery on and after April 8, 1946, furnish to any purchaser, except an installer or an ultimate consumer, a written statement containing the information set forth below.

(1) A description of the commodity including the manufacturer's model or plate number, if any, and such additional information as may be necessary to identify the commodity on the manufacturer's pricing records and invoices to purchasers for resale.

(2) The manufacturer's maximum price both on car-load and less-than-carload basis and the terms and conditions fixed for sales to that class of purchaser.

(3) The section of the regulation under which the manufacturer's maximum price was established.

(4) Where approval of the manufacturer's maximum price by specific authorization of the Office of Price Administration is required, the date of such approval and the number of the specific order.

(b) *By wholesalers.* Every wholesaler shall on or before the first delivery after the effective date of this regulation furnish to any purchaser, except an ultimate consumer, a written statement containing the information set forth below.

(1) A description of the commodity.

(2) The wholesaler's maximum price and terms and conditions of sale fixed for sales to that class of purchaser.

(3) The section of the regulation under which the wholesaler's maximum price was established.

ARTICLE III—ADJUSTMENT PROVISIONS

SEC. 9. *Applications for adjustment.* The maximum prices for any seller of any commodity covered by this regulation may be adjusted as hereinafter provided.

(a) *Manufacturers.* (1) A small volume manufacturer as defined below may use as his new maximum prices those which are calculated under Supplementary Order No. 118, and general orders issued pursuant thereto if the maximum prices so calculated are higher than the maximum prices established under the provisions of this regulation.

A small volume manufacturer for the purposes of this paragraph is any manufacturer:

(i) Whose total net sales of products made by him in 1941 (not including sales on contracts or sub-contracts of any United States War Procurement Agency or of any Allied Government) did not exceed $200,000 or

(ii) Who cannot reasonably expect that his sales (not including sales on contracts or sub-contracts of any United States Procurement Agency or of any Allied Government) after giving consideration to all relevant factors, including the volume of his continuing war orders and the facilities, manpower, and materials available for his civilian business, will not be more than $200,000 in the twelve months following the date of his report under Supplementary Order No. 118.

(2) Any other manufacturer may apply for an individual adjustment under Revised Supplementary Order 119 if, after the increase authorized for his commodity by this regulation, his maximum price still continues eligible for adjustment in accordance with the provisions of Supplementary Order No. 119.

(b) *Resellers.* Any reseller may redetermine his maximum price for any commodity covered by this regulation and for which the manufacturer's maximum price has been adjusted by adding to his acquisition cost of such commodity the appropriate markup provided in this regulation.

SEC. 10. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may, however, be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to grant the authorization. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

ARTICLE IV—MISCELLANEOUS PROVISIONS

SEC. 11. *Transfer of business.* If the business, assets or stock-in-trade of any business are sold or otherwise transferred after the effective date of this regulation, and the transferee carries on the business, or continues to deal in the same type of commodities in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 12. *Records and statements.* Every manufacturer making sales of any commodity covered by this regulation in an amount of $200 or more in any one calendar month must comply with the following provisions for keeping price records and for maintaining statements of maximum prices.

(a) *Records.* Each such manufacturer must preserve for examination by representatives of the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, the following:

(1) All his records regarding his prices and pricing methods of commodities delivered or offered for delivery on July 1, 1941.

(2) Records relating to the prices he charged for such commodities as he sold after July 1, 1941, showing as precisely as possible the basis upon which he determined maximum prices for those commodities, including copies of his correspondence with the Office of Price Administration and the letters and orders he received from the Office of Price Administration relating to such maximum prices.

(3) Records relating to sales made after the effective date of this regulation of commodities covered by this regulation, showing for each such sale, the date thereof, the name and address of the purchaser, the description of the item, the quantity sold and the price charged.

(b) *Statements of maximum prices.* (1) Each such manufacturer must prepare and keep for examination by any person during ordinary business hours, a statement showing:

(i) His maximum prices to purchasers of each class of every commodity covered by this regulation which he sells or offers for sale.

(ii) An adequate description of each such commodity.

(iii) All of his customary allowances, discounts and other price differentials.

(2) The manufacturer must prepare this statement within 15 days of the date that his maximum price for a commodity is first established under this regulation. If he has previously prepared a statement of maximum prices under any other regulations superseded by this regulation as stated in section (c), and his maximum prices have not changed under this regulation, he need not prepare another statement. The manufacturer must also prepare an appropriate supplement to the statement within 10 days after any change in his maximum price is authorized by the Office of Price Administration.

(3) Any manufacturer who claims that substantial injury would result to him from making such statement available to any other person may file it with the appropriate field office of the Office of Price Administration. The information contained in such statement will not be published or disclosed unless it is determined that the withholding of such information is contrary to the purpose of this regulation.

SEC. 13. *Licensing.* The provisions of Licensing Order No. 1 licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more maximum price regulations. A person whose license is suspended may not, during the period of suspension, make any sales for which his license has been suspended.

SEC. 14. *Enforcement.* (a) Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(b) If a manufacturer fails to keep the records required by this regulation or if such records are incorrect, or if he fails to report proposed maximum prices where required to do so, the Office of Price Administration may issue an order establishing maximum prices for his sales of commodities covered by this regulation which are consistent with the level of prices fixed by this regulation. The

issuance of any such order will not relieve the manufacturer of his obligations to comply with the reporting and record-keeping requirements of this regulation.

SEC. 15. *Petitions for amendment.* Any person seeking an amendment of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1. A petition for amendment must propose a change of general applicability in the regulation for the industry as a whole or a substantial portion thereof, or a change affecting all sellers in a given area, as distinguished from an application which seeks an individual price adjustment.

SEC. 16. *Federal and State taxes.* Any tax upon, or incident to, the sale or delivery of any of the commodities covered by this regulation, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such commodity and in preparing the records of such seller with respect thereto: If the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased: *Provided, however,* That for the purpose of determining the applicable maximum price of any product covered by this regulation, the tax on the transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall be treated as though it were an increase of 3 percent in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated as a tax for which a charge may be made in addition to the maximum price.

Effective date: This regulation shall become effective April 8, 1946.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 8th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

PART 1381—SOFTWOOD LUMBER

[RMPR 26, Amdt. 23]

DOUGLAS FIR AND OTHER WEST COAST LUMBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 26 is amended in the following respects:

1. Section 10 is amended to read as follows:

SEC. 10. *Lumber produced in Canada.* The maximum prices for lumber produced in Canada, west of the crest of the Cascade Mountains, and imported into or resold in the United States are the maximum prices, f. o. b. mill, set forth in article V plus additions for transportation permitted in section 7: *Provided, however,* That the amount of such addition may not be greater than if the shipment had originated at Seattle, Wash.

2. In section 23, the base prices in table 1 are amended to read as follows:

	6' to 20'	6'	8'	10'	12'	14'	16' 18' 20'	Add. for dry except par. 185	Add. for sel. merch. par. 186	Add. for par. 185 dry only	Deduct for rough

3. In section 23, the undesignated note immediately below table 2 is amended to read: "Maximum prices for hemlock and all species of true fir in sizes priced in this table are the same as for Douglas fir."

4. In section 25, General Notes, the table in Note 3 is amended to read as follows:

Grade paragraphs	For paragraph 300	For paragraph 301	For paragraph 302
221, 223, 224, 251, 252	$1.00	$2.00	$5.00
284, 285	xxx	xxx	5.00
222, 289	xxx	xxx	4.00

This amendment shall become effective April 6, 1946.

Issued this 5th day of April 1946.

PART 1365—HOUSEHOLD FURNITURE

[3d Rev. MPR 213,[1] Amdt. 2]

NEW COIL AND FLAT BEDSPRINGS AND METAL BEDS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith; and it has been filed with the Division of the Federal Register.

Third Revised Maximum Price Regulation No. 213 is amended in the following respect:

1. Section 10 is amended to read as follows:

SEC. 10. *Retail price label.* (a) No person shall sell, offer to sell, or deliver, and no person shall receive delivery in the course of trade or business of any article covered by this regulation, except an article manufactured primarily for use in hospitals, unless there is securely attached to such article a durable tag containing in easily readable lettering the following:

O. P. A. has established a retail ceiling price of $_____ (insert correct figure) for this (insert "bedspring" or "metal bed"). Lower prices may be charged.

This tag may not be removed until after delivery to the consumer.

Every article delivered to a jobber or a retailer, except an article manufactured primarily for use in hospitals, after the effective date of this regulation must have the tag described above securely attached to it at all times while in his stock (including those in warehouses or storage).

(b) A manufacturer or jobber offering any article covered by this regulation, except an article manufactured primarily for use in hospitals, at a maximum price established by this regulation shall attach the tag described in paragraph (a) above to it. In most cases the person who must attach the tag will be the manufacturer but in those cases where articles are in the stock of jobbers or retailers, when this regulation becomes effective, they must attach the tag. As stated in paragraph (a) it shall be the responsibility of each jobber and retailer to see to it that a tag as described in paragraph (a) is attached to every bedspring and metal bed in his stock except those manufactured primarily for use in hospitals.

This amendment shall become effective on the 15th day of April 1946.

Issued this 9th day of April 1946.

PAUL A. PORTER,
Administrator.

PART 1418—TERRITORIES AND POSSESSIONS

[2d Rev. MPR 183,[1] Amdt. 23]

MISCELLANEOUS COMMODITIES IN PUERTO RICO

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Second Revised Maximum Price Regulation 183 is amended in the following respects:

1. A new paragraph (d) is added to Section 4.14 to read as follows:

(d) *Suspension of certain commodities from price control.* The provisions of this section are suspended for an indefinite period of time with respect to export sales of canned grapefruit sections, segments or pieces packed in Puerto Rico.

2. A new section 12.14 is added to read as follows:

SEC. 12.14 *Electric cooking stoves.*—(a) *Definitions.* When used in this section the term:

(1) "Unbranded" means any electric hotplate or stove that does not have any permanent identifying characteristic as to the manufacturer thereof, or for whom it was manufactured, affixed thereto by such manufacturer.

(b) *Maximum prices for unbranded electric hotplates or stoves.* The maximum prices for unbranded electric hotplates or stoves shall be as follows:

Description	At wholesale	At retail
Single burner hotplate or stove, with cord	*Each* $0.92	*Each* $1.25
Double burner hotplate or stove, with cord	1.87	2.40

(c) *Tagging.* (1) No person may sell at wholesale any article covered by this section unless there is attached to the article a tag or label containing the OPA retail ceiling price.

(2) No person may sell at retail any article covered by this section unless there is attached to the article a tag or label provided by the wholesaler in accordance with paragraph (a) of this section. Such tag or label may not be removed until after the article is delivered to the consumer.

This amendment shall become effective April 15, 1946.

Issued this 9th day of April 1946.

[RMPR 74, Amdt. 8]

ANIMAL PRODUCT FEEDINGSTUFFS

A statement of the consideration involved in the issuance of this amendment, issued simultaneously herewith has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 74 is amended in the following respects:

1. Section 4 (c) is added to read as follows:

(c) Any person owning domestic or imported dry rendered tankage may have the fat extracted on a custom service basis and sell the fat and the dry rendered tankage at their respective lawful maximum prices. If the person who performs the extraction service is also the purchaser of either the fat or the dry rendered tankage or both he must deduct from the appropriate maximum price for such product or products his maximum lawful charge for the extraction service.

2. Section 5 (c) is added to read as follows:

(c) Any person owning domestic or imported wet rendered tankage may have the fat extracted on a custom service basis and sell the fat and the wet rendered tankage at their respective lawful maximum prices. If the person who performs the extraction service is also the purchaser of either the fat or the wet rendered tankage or both he must deduct from the appropriate maximum price for such product or products his maximum lawful charge for the extraction service.

This amendment shall become effective April 15, 1946.

Issued this 9th day of April 1946.

PAUL A. PORTER,
Administrator.

Approved: March 29, 1946.

PART 1382—HARDWOOD LUMBER

[RMPR 97 [1], Amdt. 22]

SOUTHERN HARDWOOD LUMBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 97 is amended in the following respects:

1. In § 1382.102 (a) (2), subdivision (iii) is amended to read as follows:

(iii) *Retail type of sale.* The retail type of direct mill sale, which is defined below, is subject to this regulation. A seller's maximum f. o. b. mill price for hardwood lumber sold on the retail type of direct mill sale is the maximum price that would be permitted to that seller under the provisions of the General Maximum Price Regulation or the maximum price which would be permitted for a sale of such lumber under the provisions of this regulation, whichever is higher.

A "retail type" direct-mill sale means a sale of not more than 2,000 feet of lumber in which the purchaser requests delivery to a point not more than 20 miles from the mill at which the shipment originates. It includes only sales of lumber to contractors or consumers for use in construction, remodeling, repair, maintenance, fabrication, or remanufacture, and it does not include sales for resale in substantially the same form.

2. In § 1382.112 (b), price table (1) is amended to read as provided below with subdivisions (i), (ii) and (iii) remaining as presently written. In addition, price tables (2) through (31) and price tables (33) and (34) are amended to read as follows:

4. In § 1382.113 paragraph (a) is amended to read as follows:

(a) *Ungraded hardwood lumber, maximum prices.* The maximum prices for 1,000 feet board measure for the full product of the logs of ungraded Southern hardwood lumber produced by small mills, except such mills located in the State of Virginia, of any species or combination of species in green or dry condition, are as follows:

Lumber cut to dry to:	
Thicknesses of 1", 1¼" and 1½"	$34.50
Thickness of 2"	31.50
Thicknesses over 2"	30.50

The maximum price for the full product of the logs of ungraded Southern hardwood lumber produced by small mills located in that portion of the State of Virginia within the Southern hardwood area, of any species or combination of species in green or dry condition, is $2.00 per 1,000 feet board measure higher than the prices above.

5. In § 1382.115 (a) price tables 1, 2 and 6 are amended to read as follows:

Additions and deductions per 1,000 feet board measure: (see §1382.105 (b) (10)).
For working:
1. S1S, S2S, add $3.00.
2. S3S, S4S, S1S1E, S2S, M, shiplap, grooved roofing add $4.50.
3. Casing, base, jambs, sill stock, casket moulding or any other pattern stock, (except moulding), add $6.00. For lots of less than 1,000 feet board measure any pattern (except moulding), add a flat $5.00 machine set up charge.
For grade:
4. Heart face selects, add to selects, $5.00 for 4/4" and 5/4"; $14.00 for 6/4"; $23.00 for 8/4" and thicker.
5. No. 2 shop, all thicknesses, deduct $10.00. from No. 1 shop prices.
For size:
6. For any average width, charge the specified width prices for the widths shipped.
7. Extra standard thickness or width other than American lumber standards, add $1.50 when stock is dressed clean. No addition may be made for extra standard thickness or width, hit or miss dressing.
For length:
8. For precision cutting to a specified exact length, with tolerance of not more than 1/4" allowed, add $1.50. No addition is permitted for customary double end trimming.
9. For any specified average length, except odd lengths, 16' or longer, charge the specified length prices for the lengths shipped.

10. Specified lengths, add to standard length prices:

Thickness (inches) and grades	16'	18'	20'
4/4, 5/4, 6/4, 8/4, all grades (except box)	$5.00	$7.50	$10.00
10/4 and thicker, boat and tank stock and FAS	5.00	10.00	10.00
10/4 and thicker selects, No. 1 shop	5.00	7.50	10.00
Box, all thicknesses	3.00	3.00	5.00

11. Any length 6' or shorter, cut to a specified exact length, all grades (except No. 1 shop and box) charge the standard length price and add $1.50 for each necessary cross cut, but the total charge may not exceed $6.00 and must be based on the nearest standard multiple length. No additional charge may be made for precision cutting. If length breaks on even one half foot, compute footage on actual length, otherwise compute on 6" breaks, on the next break above. This footnote covers lengths under 6' in No. 1 shop and under 4' in box.

12. No additional charge may be made when 18' and 20' are excluded from standard lengths, either at request of buyer or through inability of seller to supply. (For other working, condition, grade and handling additions and deductions, see table (11).)

Additions and deductions per 1,000 feet board measure (see § 1382.105 (b) (10)).
For working:
1. S1S, S2S, add $3.00.
2. S3S, S4S, S1S1E, S2S & M, shiplap, grooved roofing, add $4.50.
3. Casing, base, jambs, sill stock, casket moulding, or any other pattern stock (except moulding), add $6.00.
For lots of less than 1,000 feet board measure, any pattern (except moulding) add a flat $5.00 machine set up charge.
4. Clear stock in grade equal to No. 1 Common or Better, counted on Leaver measurement, 8 x 6" and under in width, under 8' in length, bundled, $53.50 per M'BM; for 5/4" and 6/4", add $10.00 per M'BM.
5. Clear heart 4/4" and 5/4", add $10.00 to A finish; 6/4" and 8/4", charge boat and tank stock prices.
6. All heartwood No. 1 and No. 2 Common, add $10.00; No. 3 Common, add $5.00 to grade item price.
7. 75 to 87½ heartwood No. 1 and No. 2 Common, add $5.00. For No. 3 Common, add $3.00 to grade item price.
8. No. 2 peck or peck droppings, deduct $11.00 from peck prices, for all thicknesses.
9. Dunnage, $17.00 per M'BM, for all thicknesses.
For size:
10. For any average width, charge the specified width prices for the widths shipped.
11. Extra standard thickness and/or width, other than American lumber standards, add $1.50 when stock is dressed clean. No addition may be made for extra standard thickness or width, hit or miss dressing.
12. 10/4" and 12/4" No. 1, No. 2 and No. 3 Common, add $6.50 to the 8/4" price. For 16/4", add $10.50 to the 8/4" price.
For length:
13. For precision cutting to a specified exact length, with tolerance of not more than 1/4" allowed, add $1.50. No addition is permitted for customary double end trimming.
14. For any specified average length, 16' or longer, charge the specified length price for the lengths shipped.
15. Specified lengths, add to standard length prices:

Thicknesses and grades	16'	18'	20'
A and B finish, all thicknesses	$5.00	$7.50	$10.00
C, D, and No. 1 Common, all thicknesses	5.00	7.50	10.00
No. 2 and No. 3 Common, all thicknesses	3.00	3.00	5.00
Peck, all thicknesses	4.00	3.00	5.00

16. Random lengths peck in 4' multiples, add $4.00 to standard length prices.
17. Any length 6' or shorter cut to a specified exact length, all grades, (except Peck), charge the standard length price and add $1.50 for each necessary cross cut, but the total charge may not exceed $6.00 and must be based on the nearest standard multiple length. No additional charge may be made for precision cutting. If length breaks on even half feet, compute footage on actual length, otherwise compute on 6" breaks on the next break above. This footnote covers lengths under 4' in Peck.
18. No additional charge may be made when 18' and 20' are excluded from standard lengths, either at request of buyer or through inability of seller to supply.
(For other working, condition, grade and handling additions and deductions, see table (11).)

13 to 19 R/W	70.50	97.00	126.00

Additions and deductions per 1,000 feet board measure: See § 1382.105 (b) (10).
For working:
1. S3S, S4S, add $1.00.
For grade:
2. B, deduct $4.00.
For length:
3. Specified lengths, 8', 10', 12' and 14', add $2.00; 16', add $5.00; 18', add $7.50; 20', add $10.00. All additions shall be to the standard length prices. No additional charge may be made, when 18' and 20' are excluded from standard lengths, either at request of buyer or through inability of seller to supply.
(For other working, condition, grade and handling additions and deductions, see table (11).)

This amendment becomes effective April 5, 1946.

Issued this 5th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

PART 1305—ADMINISTRATION

[SO 129, Amdt. 13]

EXEMPTION AND SUSPENSION OF PRICE CONTROL OF MACHINES, PARTS, INDUSTRIAL MATERIALS, AND SERVICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order No. 129 is amended in the following respects:

1. Section 12 (a) (1) is amended by adding the following products:

Antenna systems and towers.
Domestic watt-hour electric meters.
Electron microscopes.
Electronic metal detectors.
Electronic tube apparatus over 5 KW capacity.
High voltage metering equipment, 1,000 volts and over.
Large power equipment as follows:
Current limiting reactors, above 150 KVA.
Diesel or gas, or other internal combustion generator sets, or combinations of such type generator sets, 150 KW and over, including prime movers.
Frequency converters, all types, rotary and electronic, all integral capacity units.
Generators, electric, 150 KW and over.
Motors, electric, A. C. or D. C., 250 HP and over.
Phase converters of integral capacity.
Synchronous condensers of integral capacity.
Synchronous converters, all integral capacity units.
Turbine generator sets, 150 KW and over.
Water wheel generator sets, all sizes and types, including governors.
Transformers, all types, 500 KVA and over.

Lightning arresters, except 15,000 volts and less for pole and cross-arm mounting and except secondary arresters for use on power circuits 650 volts and less.
Magnets, lifting, industrial.
Motion picture equipment and parts for 35mm film, but not including sound recording or reproduction units or parts of such units, rectifiers, wire and cable, lights and lighting equipment, storage batteries, electrical wiring devices and controls.
Neon indicator attachments, except wiring devices.
Power mercury arc rectifiers over 5KW capacity.
Oscillescopes.
Quartz crystal assemblies.
Radio direction finders.
Switch gear listed in the National Electric Manufacturers' Association Manual, Part IV, dated January 31, 1946, in sub-section of Section 8–SG as follows:
8–SG–3 Large air circuit breaker group.
8–SG–4 Power oil circuit breaker group, except outdoor power circuit breakers 15 KV and below.
8–SG–5 Power switchboard group.
8–SG–5a' Manual and Automatic switchgear assemblies.
8–SG–5b' Metal enclosed switchgear.
8–SG–5c' Relays, regulators and miscellaneous switchboard devices sold separately.
8–SG–6 Power switching equipment group, except that for 15,000 volts and less.
Telephone, central station and other telephone equipment as follows:
All complete items of telephone equipment identifiable as such without further work. This does not include parts, storage batteries, wire and cable, cable connectors, pole line hardware and related items, anchors and other general hardware and related items whose use is not limited to telephone service equipment and installations.
Central station power boards, (manual and automatic), switchboards, distribution frames and racks, repeater equipment.
Telephone hand sets and related items of all types which are complete units.
Telephone switchboards, including PBX boards, all sizes and types.
Welding equipment, direct current arc welding types only.
Welding equipment, alternating current, including fusion type welding, rotating arc welding units, but not including transformer type welders.
Welding rods and coated electrodes.
X-ray tubes.

2. Section 12 (b) is amended by adding the following products:

The following new or second hand machine tools covered by MPR's 67 and 1:

Automatic screw machine, single and multiple spindle, over 2½" spindle capacity;
Bending rolls, all sizes and types, over 50,000 pounds in weight;
Board hammers, all sizes;
Boring mills, horizontal, over 5" boring bar;
Boring mills, vertical, over 62" swing.
Car wheel lathes, all sizes;
Cylindrical grinders, plain and universal, over 20,000 pounds in weight;
Engine and turret lathes, over 24" swing;
Face and surface grinders, vertical and horizontal, all types over 15,000 pounds in weight;
Forging presses, all sizes and types;
Hydraulic presses, all sizes and types over 50,000 pounds in weight;
Mechanical presses, all types and sizes over 50,000 pounds in weight;
Milling machines, horizontal and vertical, over size #3;
Milling machines, other types, over 15,000 pounds in weight;
Planers, single and double housing, over 48" x 48" x 10";
Press brakes, over 30,000 pounds in weight;
Radial drills, over 5' arm;
Screw machines and turret lathes, over 2½" spindle capacity;
Squaring shears, over 30,000 pounds in weight;
Steam hammers, both single and double frame.
New and second hand attachments as defined in MPR's 67 and 1 designed specially for a machine tool listed in this paragraph and produced by the machine tool manufacturer and sold by the machine tool manufacturer or by his dealer.

3. Section 12 (c) is amended by adding the following products:

Air preheaters, economizers and superheaters, designed and sold for use with steam generating equipment described in this paragraph (c).
Alarms, fire, which function entirely by mechanical means.
Blocks and sheaves, tackle.
Burners, gas, industrial, designed for use with products covered by RMPR 136.
Burners, oil, industrial and marine, burning No. 5 oil or heavier, except rotary and gun type burners under MPR 591.
Bushings, wood, subject to RMPR 136.
Bushings, combination wood and metal, subject to RMPR 136.
Casters, industrial.
Chains, tire.
Chain hoists (manually operated).
Clamps.
Clevises covered by RMPR 136.
Cloth, industrial woven metallic wire, including pulp and paper mill wire cloth, but not including insect screen cloth, hardware cloth, poultry netting, welded wire fabric and items subject to MPR 133 or MPR 246.
Controls, electric organ.
Controls, chair iron.
Conveyors and conveying systems, industrial of the stationary fixed type except those designed especially for mining use or use with construction plants, or attached to construction or mining machinery, and except portable conveyors and loaders.
Cranes, bridge, gantry, hammerhead, jib.
Dies, jigs, fixtures, molds and patterns, except sales by manufacturers of products in whose production such dies, jigs, fixtures, molds or patterns are used.
Engines, diesel, normally operated at 1200 RPM or less, and with piston displacements in excess of 3000 cubic inches and having a continuous duty rating in excess of 400 horsepower.
Filters, filter elements and parts, industrial, subject to Revised Maximum Price Regulation 136.
Forgings, open or flat die, not including commercial drop forgings.
Grinding balls, ferrous or non-ferrous.
Gaskets, packings and oil seals subject to Revised Maximum Price Regulation 136.
Hose and tubing, flexible, metallic, except electrical metallic tubing.
Instruments, mechanical, for indicating, measuring, testing and/or recording (all types covered by Revised Maximum Price Regulation 136).
Industrial machinery covered by Revised Maximum Price Regulation 136 which is used in the extraction, production or processing of commodities and is not included in any of the categories of products specifically listed in Appendix A of Revised Maximum Price Regulation 136.
Liquid controlling and/or regulating devices, manually operated, designed and sold for use with machinery and equipment covered by Revised Maximum Price Regulation 136, but excluding standard general purpose valves and devices.
Meters, gas, iron and steel cased.
Meters, water.
Presses, baling, except those subject to Maximum Price Regulation 133 or 246 (Farm Equipment).
Pulverizers, coal, including burners and auxiliary combustion equipment, installed for primary purpose of pulverizing solid fuel for firing any type of furnaces and which are required to be built to the National Bureau of Fire Underwriter Standards.
Regulators and dampers, power operated.
Rings, hot-top for ingot molds.
Rope fittings, manila and wire.
Scales, weighing, industrial and laboratory, except coin operated, household, office and store types.
Shanks, shoe.
Shims, metallic, when fabricated as machine parts.
Springs, mechanical precision.
Spinnerettes.
Soot blowers and tube cleaners, power operated, industrial and marine.
Steam cleaning and degreasing equipment and parts-washing and cleaning equipment, industrial, except commercial and domestic laundry and dry-cleaning equipment, dish and utensil washing and cleaning equipment.
Steam generating equipment, such as industrial power boilers 100 p. s. i. and higher, for stationary and marine use, including water tube boilers, horizontal return tubular boilers, refractory lined fire box boilers, but not including steel heating boilers as defined in Section IV A3ME Boiler Construction Code such as horizontal fire box boilers, Scotch type boilers for stationary use, vertical tube and tubeless boilers, oil country type boilers and miniature boilers.
Stokers, industrial and marine, with feeding capacity of 1200 pounds per hour or more.
Strainers and filters, pipe, industrial and marine.
Tanks and vessels (used) covered by Revised Maximum Price Regulation 136 and Maximum Price Regulation 465.
Turnbuckles.
Tools, hand-operated, especially designed for the manufacture, repair or maintenance of aircraft, military or naval vehicles and equipment.
Thermostats, bi-metallic and bellows types, except those covered by Maximum Price Regulation 591 or 188.
Welding and cutting equipment, gas, limited to torches, tips, regulators and generators.
Wheels, water.

4. Section 12 (d) is amended by adding the following products:

Elevators and escalators, passenger and freight, not including farm grain elevators.
Equipment, parts and accessories exclusively designed for use on or in connection with the operation of boats or vessels, including propellers and shafts but not including marine engines, parts and accessories (unless otherwise specifically listed in this section).
Lock and dam machinery listed in Revised Maximum Price Regulation 136, Appendix A.
Railroad and transportation equipment covered by Revised Maximum Price Regulation 136, specifically including, but not limited to:
Cars, freight, including all types of flanged wheel mining and industrial cars.
Cars, passenger, for surface, subway or elevated lines.
Locomotives and tenders, including mining and industrial.
Machines, tools, devices, appliances, designed especially for the installation, operation, maintenance and protection of tracks, yards, signals, rolling stock and motive power of surface, subway or elevated rail lines, including frogs, switches and special track work.

Railroad car and locomotive parts and specialties for elevated, subway and surface lines, including:
Axles; bearings, truck side; boilers, fireboxes, front ends and cabs, fittings, fixtures, devices or appliances mounted thereon.
Brakes and brake gears; coupler devices or attachments; devices and appliances mounted on locomotives for treatment, distribution, and control of water, fuel, steam, sand or electricity.
Doors and fixtures, except those subject to RPS 40 (Builders' Hardware and Insect Screen Cloth).
Draft gears, buffers and attachments.
Driving, foundation and running gear.
Journal boxes, assembled.
Heating, lighting, ventilating and air conditioning equipment.
Lubricating devices.
Miscellaneous fittings, fixtures, specialties, devices or appliances designed specifically for use on railroad cars or locomotives, except artillery or other exclusively military or naval equipment.
Safety appliances and warning devices.
Sides, roofs, ends, running boards and brake steps.
Springs and spring rigging, snubbers and shock absorbers.
Tires, steel.
Train control apparatus.
Trucks, complete.
Underframes.
Wheels, iron and steel.
Trucks, industrial, hand, not including lift trucks and portable elevators as well as special purpose commercial trucks covered by Maximum Price Regulation 188.

5. Section 12 (e) is amended by adding the following products:

Broom making machinery.
Brush making machinery.
Cement making machinery specially designed and sold exclusively for the manufacture of cement.
Clay brick making and clay working machinery.
Doughnut machines, barbecue and/or rotisserie machines, food dicing machines, rotary fish cookers.
Foundry machinery and equipment as follows:
Blast cleaning equipment (sand or shot);
Core making and core crushing machinery;
Cupolas; Dust collecting equipment; Furnaces, electric metal melting; Flasks, ladles, not over 40 tons capacity; Metal molding machines; Sand preparing equipment; Shakeout equipment; Tumbling barrels or tumbling mills.
Lapidary machines and equipment (Gem cutting machines and equipment).
Paper-making and fiber and pulp board making machinery when sold as complete units (not including stock preparatory and converting machinery).
Printing presses, web-fed, newspaper and magazine, when specially built and engineered to individual purchasers' requirements including special-to-order folding machines and cut-off equipment for use with web-fed newspaper and magazine presses.
Rod, wire and tube working machinery.
Rolling mill machinery and equipment.
Textile machinery:
Fiber to fabric machinery as follows:
Cleaning and opening machinery (for cotton, wool or other fibers); Carding machinery; Combing machinery; Drawing and roving frames; Spinning and twisting machines; Yarn preparatory machinery; Synthetic fiber spinning machinery; Machinery for filament extrusion; Staple fiber spinning machinery.
Fabric machinery as follows:
Looms; Knitting machinery; Braiding machinery; Lace machinery; Embroidering machinery.
Bleaching, dyeing and finishing machines as follows:
Bleaching machinery; Dyeing machinery; Cloth printing machinery; Starching machinery; Dry-finishing machinery; Wet finishing machinery; Cloth handling machinery.
Watch makers' cleaning machinery.

6. Section 12 is amended by adding the following paragraph (f):

(f) *The following parts, attachments and accessories.* Attachments and accessories exclusively designed for incorporation in or attachment to and applicable solely to a particular machine or piece of equipment specifically suspended in this section 12. This suspension does not apply, however, to sales of any of the following products except in so far as they have been specifically listed in other paragraphs of this section: Adapters; Arbors; Blocks, machine tool; Brakes, spindle; Centers, bench; Centers, lathe; Chucks, all types; Die heads; Die sets; Dogs, work driving; Edges, straight; Electric etchers and de-magnetizers; Feeding devices; Glass, level; Guides, adjustable; Heads, universal dividing; Holders, tool; Holders, work; Mandrels, all types; Plates, angle; Plates, brick liner; Plates, face; Plates, lapping; Plates, surface; Plates, wearing; Posts, tool; Saw accessories; Sockets; Stops, machine; Torque wrenches; Wheels, buffing and polishing; Wheels, abrasive; Batteries, storage, wet cell; Bearings, anti-friction; Bearings and bushings, ferrous and non-ferrous, subject to RMPR 136; Belting, leather and textile, subject to RMPR 136; Bushings, porcelain, glass and steatite for electrical uses; Cable, wire, and wire and cable accessories subject to MPR 82; Capacitors, electrical; Chain, chain fittings and assemblies subject to RMPR 136; Chains, power transmission, including sprockets; Circuit breakers, electrical; Compressors, air and gas; Conduit fittings; Conduit, metallic, for electrical use; Control equipment, electrical; Cutting tools, subject to RMPR 136; Cylinders, power, hydraulic, pneumatic and hydropneumatic; Distribution boards, electrical; Ducts for electrical uses, subject to RMPR 136; Electronic devices, equipment and parts, subject to RMPR 136; Engines, internal combustion, subject to RMPR 136; Engine generator sets, subject to RMPR 136; Fans and blowers, industrial, subject to RMPR 136; Forgings, subject to MPR 351; Fuses for the protection of electrical equipment, subject to RMPR 136; Gears, pinions, sprockets and speed reducers, subject to RMPR 136; Generators, electrical, subject to RMPR 136; Glass products, industrial and scientific, subject to RMPR 136; Heat exchanger equipment, subject to RMPR 136; Heating units and devices, electrical, subject to RMPR 136; Hoists; Insulators, porcelain, glass, steatite, for electrical uses; Lighting equipment, electrical, subject to RMPR 136; Lubricating systems and devices, subject to RMPR 136; Magnetos, subject to RMPR 136; Motors, electrical, subject to RMPR 136; Panel boards, electrical; Plastic products, subject to MPR 523; Power transmission equipment subject to RMPR 136; Pumps, hand operated and power operated, subject to RMPR 136; Rectifiers, power industrial; Screw machine products, subject to RMPR 136; Signalling apparatus, subject to RMPR 136; Sound recording and reproducing equipment, subject to RMPR 136; Spraying devices, industrial, power operated, subject to RMPR 136; Springs, subject to RMPR 136; Sprockets, power transmission, subject to RMPR 136; Stampings, metal, subject to RMPR 136; Switch boxes, electrical; Switches, electrical; Switches, electrical, knife and enclosed; Switchgear and switchgear accessories; Tanks and vessels, new, pressure, non-pressure and open, subject to RMPR 136; Transformers, electrical, subject to RMPR 136; Wheels, subject to RMPR 136; Wiring devices, electrical.

Parts of any machinery or equipment covered by RMPR 136 when the machine was produced prior to December 31, 1940, when such parts are not interchangeable with parts for machines being produced at the time of sale.

Parts, repair and replacement, which are designed especially for incorporation in any of the machinery or equipment listed in this section and which have been supplied by the manufacturer of the machinery and equipment. This includes, however, sales by resellers of such parts.

7. Section 12 is amended by adding the following paragraph (g):

(g) *The following services.* Services in connection with the installation of any of the machinery or equipment listed in this section only when the machinery or equipment is sold by the manufacturer on an installed basis.

8. Section 13 (b) is amended by adding the following:

Marine or ship castings subject to RPS 41 or RMPR 125 when specifically designed for ship or marine use, except castings in machinery and accessories used for ship propulsion.

Railroad specialties as defined in § 1306.113 of RPS 41.

This amendment shall become effective April 8, 1946.

Issued this 8th day of April 1946.

[MPR 82, Amdt. 3]

WIRE AND CABLE

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 82 is amended by adding section 16 (d) to read as follows:

(d) *Products containing silver.* Except where another provision of this regulation permits the increase in cost due to the increased price of silver to be reflected in the maximum price, the maximum price for the sale of any products containing silver shall be as follows:

(1) *Manufacturers.* The maximum price for the sale by the manufacturer of a product containing silver shall be the price determined in accordance with other applicable provisions of this regulation plus an increase in dollars and cents computed as follows: The manufacturer shall multiply the number of fine troy ounces contained in the product by the difference between 45 cents and the market price, not in excess of 71.111 cents, per fine troy ounce of silver which is in effect to the manufacturer at the time he sells or quotes a price for the sale of the product.

(2) *Resellers.* The maximum price for the sale by a reseller of a product con-

taining silver shall be determined by computing a price in accordance with all other applicable provisions of this regulation, except that it shall be based upon his supplier's price before inclusion of the differential for the price of silver and shall then be increased by the dollar-and-cents amount of the differential stated by his supplier.

This amendment shall become effective April 8, 1946.

Issued this 8th day of April 1946.

ADJUSTMENT OF MAXIMUM PRICES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Supplementary Regulation No. 15 is hereby amended in the following respects:

1. The first sentence of § 1499.75 (a) (27) (iv) is amended to read as follows: "Subject to the qualification that adjusted maximum prices shall not exceed the lowest price level referred to in (iii) above, adjustments may be granted to the extent necessary to permit the price to cover current total costs or to the extent of 90% of the amount by which the applicant's direct labor and material costs[1] per unit currently are in excess of the highest of those costs experienced in the 'reference period', whichever is greater."

2. To § 1499.75 (a) (27) (vi) add the following:

(e) Woven or quilted mattress pads.
(f) Ironer pads and covers.

This amendment shall become effective April 8, 1946.

Issued this 8th day of April 1946.

PART 1499—COMMODITIES AND SERVICES

MANUFACTURERS' MAXIMUM PRICES FOR CONSUMERS GOODS OTHER THAN APPAREL

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 188 is amended in the following respects:

1. Section 1499.152 is amended to read as follows:

§ 1499.152 *Buying or selling above ceiling prices forbidden.* (a) Regardless of any contract or any other obligation:

(1) No manufacturer of an article covered by this regulation shall sell or deliver such article at a price higher than the maximum price permitted by this regulation. A manufacturer's sales of all articles covered by this regulation which are set forth in Appendix A, but which are not also set forth in Appendix C (and which are not exempted from price control by Supplementary Order No. 126), are suspended from price control for an indefinite period of time, provided the manufacturer complies with the requirements of § 1499.159c of this regulation. If a manufacturer fails to file the information required by that section, his sales of those articles are not suspended from price control, and his maximum prices are those properly determined under the pricing provisions of this regulation.

(2) No person in the course of trade or business shall buy or receive any such article from a manufacturer at a price higher than the maximum price permitted by this regulation:

Provided, That in the case of articles for which a maximum price has been established under §§ 1499.156 or 1499.157 of this regulation, if the purchaser shall receive from the seller a written affirmation that the seller has calculated the maximum price for the article in accordance with either of these sections, and has filed a report with the Office of Price Administration and complied with the prescribed waiting provisions, and if in such case the purchaser shall have no knowledge of the maximum price and no cause to doubt the accuracy of the affirmation, the purchaser shall be deemed to have complied with this section if the price paid is not in excess of the maximum price as affirmed by the seller.

(b) No manufacturer may sell, offer for sale, or deliver any article for which a maximum price must be determined under §§ 1499.156 or 1499.157 until he has complied with the reporting and waiting provisions of the applicable section, or an article for which a maximum price must be established under § 1499.158 until an order under that section establishing his maximum prices has become effective.

2. Section 1499.157 (a) is amended to read as follows:

(a) *Pricing formula.* To establish a maximum price the manufacturer shall:

(1) Determine the "unit direct cost" for the article being priced.

(2) Select from his line of "comparable articles" for which maximum prices have already been established, two comparable articles: the one which has a unit direct cost immediately higher and the one which has a unit direct cost immediately lower than the unit direct cost of the article being priced. If a comparable article has the same unit direct cost as the article being priced, it shall be selected in addition to the comparable articles immediately above and below. If all comparable articles are either above or below, the one closest in unit direct cost shall be selected.

(3) Determine both the average percentage and the average dollar mark-up over unit direct cost for the comparable articles selected.

In calculating the mark-up over unit direct cost for the comparable articles selected, the manufacturer shall use the maximum prices for those articles, including only adjustments authorized under Supplementary Order 118, Revised Supplementary Order 119, or § 1499.159e of this regulation, or under this section. However, in the case of household furniture articles covered by Order No. 4800 under this regulation, or by Order No. 8 under § 1499.159e of this regulation, the manufacturer shall use, instead, the maximum prices of the comparable articles, exclusive of all adjustment charges or permitted increases. The maximum prices used shall be those applicable to the class of purchaser to whom he sold the largest quantities of those articles. The same class of purchaser shall be used for all the comparable articles. If the class of purchaser to whom he sold the largest quantities is not the same for all of the comparable articles, the manufacturer shall determine which of the comparable articles, the manufacturer shall determine which of the comparable articles has the largest sales volume and use the maximum prices applicable to the class of purchaser to whom he sells that article in the largest volume.

(4) Apply to the unit direct cost of the article being priced either the average percentage or the average dollar markup, whichever will yield the lower price. The resulting price shall be the maximum price for sales of the article being priced to such largest volume class of purchaser. That price may be adjusted for other classes of purchaser according to § 1499.159.

In the case of all articles except household furniture covered by the orders referred to above, these maximum prices will automatically include any individual adjustments permitted the manufacturer under Supplementary Order 118 or Revised Supplementary Order 119, or any industry-wide adjustment permitted under § 1499.159e of this regulation. These maximum prices may not, therefore, be increased by any industry-wide adjustment set forth in an order under § 1499.159e of this regulation, unless the order specifically provides for increasing maximum prices determined on the basis of comparable articles whose maximum prices include adjustments.

In the case of household furniture articles covered by the orders referred to above, these maximum prices may be increased under either of the following provisions:

(i) If the manufacturer was permitted to increase his maximum prices for the comparable articles under Supplementary Order 118 or Revised Supplementary Order 119 or under this provision, he may increase these maximum prices by the percentage which he determines in accordance with "Note 3" in section 6 of Revised Supplementary Order No. 119.

(ii) If the manufacturer's industry was granted an industry-wide adjustment under § 1499.159e of this regulation (for example, metal furniture covered by Order No. 8 under that section), he may increase these maximum prices by the percentage amount of that industry-wide adjustment.

EXAMPLE OF COMPUTATION OF MAXIMUM PRICE WHEN NO INCREASE HAS BEEN PERMITTED IN MAXIMUM PRICES OF COMPARABLE ARTICLES

[Unit direct cost of the article being priced: $9.00]

Unit direct costs of comparable articles selected according to (2)	Maximum selling price for each such article	Dollar mark-up for each such article	Average percentage mark-up for such articles
$10	$14	$4	$23 (sum of maximum prices).
7	9	2	—$17 (sum of unit direct costs).

Unit direct cost plus average percentage mark-up=$9 plus $3.18=$12.18.
Unit direct cost plus average dollar mark-up=$9 plus $3=$12.
Maximum selling price of article being priced (the lower of above two sums) $12.

3. A new § 1499.157 (b) (4) is added to read as follows:

(4) *Alternative method of computation by base period manufacturers.* If, during March 1942, a manufacturer produced articles of the same type as the article being priced, he may compute his unit direct costs by using the following wage rates and material prices instead of those provided above in paragraphs (b) (1) and (b) (2). A manufacturer who computes his unit direct costs in this way must indicate on the report he files under paragraph (e) of this section that his unit direct costs were computed in accordance with this alternative method.

(i) The wage rates applicable to any article shall be the highest wage rates in effect in the manufacturer's plant for any substantial portion of March 1942, for each class of labor involved in the production of the article. If the manufacturer did not employ a given class of labor in March 1942, he shall use the highest wage rate paid for any substantial portion of March 1942, by the nearest employer operating under comparable conditions who employed that class of labor during that month.

(ii) The price of any material used in the comparable article and the article being priced shall be the highest price charged during March 1942 (as defined in § 1499.163) by the "manufacturer's supplier". Material prices must be based on purchases in comparable quantities from the same or corresponding class of supplier for both the comparable articles and the article being priced. If a particular material is a new material which was not produced during March 1942, the price used shall be the lower of the manufacturer's cost, or the ceiling price for sales to the manufacturer of a supplier who is of the same class as the manufacturer's March 1942 supplier of the material having a use most similar to that of the new material. For the purposes of this provision the "manufacturer's supplier" shall be his March 1942 supplier of the material, or, lacking a March 1942 supplier of the material, his most recent supplier of the material; and if neither of these exists, it shall be his potential supplier.

4. A new paragraph is added at the end of § 1499.157 (e) to read as follows:

The Price Administrator, or his duly authorized representative may by order under this section establish maximum prices for sales by persons other than the manufacturer of an article for which a manufacturer's maximum price has been determined under this section.

5. The first sentence of § 1499.158 (a) is amended to read as follows:

(a) *Maximum prices.* If a maximum price cannot be established under any of the preceding pricing methods of this regulation, or if the use of the third pricing method (§ 1499.157) is not feasible because of the large number of new articles for which a particular manufacturer is required to determine his maximum prices, the maximum price for sales of an article to a particular class of purchaser shall be the price in line with the level of maximum prices established by this regulation fixed by the Price Administrator or his duly authorized representative.

6. The first paragraph of § 1499.158 (b) is amended to read as follows:

(a) *Reports of maximum prices.* Before offering to make any sale for which a maximum price must be established under this section, the manufacturer shall submit a report in duplicate applying for the establishment of a maximum price or prices for his sales of the article. In the case of consumers durable goods, the manufacturer shall submit the report to the District Office of the Office of Price Administration having jurisdiction over the area in which the principal place of his business is located.

7. Section 1499.158a is amended by inserting the section number "1499.157" immediately before the section number "1499.158" where it appears for the first time in § 1499.158a.

8. A new § 1499.158b is added to read as follows:

§ 1499.158b *Establishment of maximum prices in certain cases.* If a manufacturer is required by this regulation (or an order under this regulation) to file a report of maximum prices before his maximum prices are deemed to be properly established, or to file an application for the establishment of maximum prices, and he fails or refuses to do so or to furnish any of the information required under the applicable pricing provision, the Office of Price Administration may, on its own motion, issue an order under this section fixing the manufacturer's maximum prices which, according to the best information available to it, are in line with the maximum prices which would have been established had the manufacturer complied with the regulation or order. Maximum prices so established will be effective as of the date of first sale.

A Regional Administrator, or any District Director authorized by the appropriate Regional Administrator, may issue orders under this section.

9. The last two sentences of § 1499.159d are amended to read as follows: "In addition, every manufacturer must file three

[1] 9 F.R. 2821, 11007; 10 F.R. 654, 2967; 11 F.R. 2824.

copies of every notification he issues to the trade on and after July 15, 1945, concerning new prices, changes in prices, changes in terms, discounts, allowances, and conditions of sale, and changes in the model designation of any article he manufactures, as well as three copies of every catalog, price list, and other announcement by which he offers articles covered by this regulation for sale to the trade. Copies of these notifications and announcements must be filed within ten days after they were first issued to the trade."

10. A new paragraph is added at the end of § 1499.159d to read as follows:

In the case of a manufacturer whose sales of particular articles have been exempted or suspended from price control, the requirements of this section shall be deemed to be satisfied if he files with the Office of Price Administration, Washington, D. C., only one copy of the notifications or announcements described above which he issues on and after the date on which his sales were exempted or suspended.

11. Section 1499.161 is amended to read as follows:

§ 1499.161 *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

12. Section 1499.162 is amended to read as follows:

§ 1499.162 *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

13. Section 1499.166 (Appendix A) is amended in the following respects:

Paragraph (b) (10) (xii) is amended by changing the last item in the list contained therein to read as follows:

Parts (except electrical) for portable lamps and lamp shades.

b. Paragraph (b) (13) is amended by deleting the word "photo-engraving" from the heading thereof, and by deleting the listing "Photoengraving machines, apparatus, and supplies".

c. Paragraph (b) (20) is amended by adding the following to the list of articles contained therein:

Specialty display boxes (other than paper) in which individual items of consumer durable goods (such as fountain pens, watches, razors, jewelry, etc.) are customarily packaged and sold.

Silverware chests

14. Section 1499.167 (Appendix B) is hereby revoked.

15. A new § 1499.168 is added to read as follows:

§ 1499.168 *Appendix C.* Manufacturers' maximum prices for the following articles of consumer durable goods must be established under this regulation:

PART 1499—COMMODITIES AND SERVICES

[SR 14C,[1] Amdt. 17]

MODIFICATION OF MAXIMUM PRICES ESTABLISHED BY GENERAL MAXIMUM PRICE REGULATION FOR CERTAIN FOODS AND BEVERAGES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Section 1.6 is amended to read as follows:

[1] 10 F.R. 1165, 1764, 2618, 5458, 6308, 8020, 9010, 7882, 10124, 10231, 11364, 11906, 13369, 13370, 14295, 14318; 11 F.R. 14619.

SEC. 1.6 *Ground pepper (bulk and packaged).*—(a) *Definitions.* (1) "Bulk ground pepper" means ground black or white pepper packed in containers of 3 pounds capacity or more.

(2) "Packaged ground pepper" means ground black or white pepper packed in containers of less than 3 pounds.

(3) "Distributor" means a person who purchases all he sells "for his own account" of the kind and brand of product being priced and resells it without processing any part of it.

(b) *Maximum prices which processors may charge for bulk ground pepper in bags.* A processor's maximum price for sales of bulk ground black pepper in bags f. o. b. New York City, shall be $.1875 per pound.

A processor's maximum price for sales of bulk ground white pepper in bags f. o. b. New York City shall be $.2875 per pound.

A processor's maximum price for sales of bulk ground pepper in bags f. o. b. any point other than New York City, shall be the f. o. b. New York City maximum price per pound, plus the lowest established less-than-carload rail freight rate from New York City to such point, reduced to a per pound basis.

(c) *Maximum prices which distributors other than wholesalers and retailers may charge for bulk ground pepper in bags.* The maximum price for bulk ground pepper in bags, f. o. b. shipping point, of a distributor who is not a wholesaler or retailer shall be the maximum price of the processor f. o. b. factory, plus incoming freight paid by him. ("Wholesalers" and "retailers" mean the persons respectively referred to as "wholesalers" and "retailers" in Maximum Price Regulation Nos. 421, 422 and 423.)

(d) *Maximum prices for processors and distributors for sales of bulk ground pepper in containers other than bags.* A processor's or distributor's maximum price per pound for sales of bulk ground pepper in containers other than bags, f. o. b. a particular point, shall be the maximum price per pound established by paragraphs (b) and (c) respectively, for a sale in bags, f. o. b. that particular point, adjusted to reflect his established March 1942 per pound price differential between sales in bags and sales in the type of container in which the pepper is being sold.

(e) *Maximum prices which all sellers other than wholesalers and retailers may charge for packaged ground pepper.* Any seller whose maximum prices for sales of packaged ground pepper are on April 9, 1946 established by the General Maximum Price Regulation, may adjust his maximum prices therefor to an amount not in excess of:

(1) His maximum price as established by the General Maximum Price Regulation to the same class of purchasers for the same container type and size of packaged ground pepper, plus

(2) $.0900 per pound of net weight of black pepper and $.1200 per pound of net weight of white pepper, respectively.

(f) *Discounts.* All sellers shall allow as a deduction from their maximum prices the discounts for prompt payment

which they customarily allowed during March 1942.

(g) *Notification of new maximum price.* With the first delivery after April 10, 1946, of bulk or packaged ground pepper, in any case where a seller determines his maximum price pursuant to this section, he shall supply each wholesaler and retailer who purchases from him with written notice reading as follows:

_____
(Insert date)

NOTICE TO WHOLESALERS AND RETAILERS

Our OPA ceiling price for (describe item by kind, variety, grade, brand, style of pack, and container type and size) has been changed by the Office of Price Administration. We are authorized to inform you that if you are a wholesaler or retailer pricing this item under Maximum Price Regulation 421, 422 or 423, you must refigure your ceiling price for this item on the first delivery of it to you from your customary type of supplier with this notification after April 10, 1946. You must refigure your ceiling price following the rules in section 6 of Maximum Price Regulation No. 421, 422, 423, whichever is applicable to you.

For a period of 60 days after determining the new maximum price for the item, and with the first shipment after the 60-day period to each person who has not made a purchase within that time, each processor or repacker shall include in each case, carton, or other receptacle containing the item, the written notice set forth above, or securely attach it to the outside. However, for sales direct to any retailer, the seller may supply the notice by attaching it to, or stating it on, the invoice covering the shipment, instead of providing it with the goods.

This amendment shall become effective April 10, 1946.

Issued this 9th day of April 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

PART 1499—COMMODITIES AND SERVICES

[SR 14K, Amdt. 2]

MODIFICATIONS OF MAXIMUM PRICES ESTABLISHED BY GENERAL MAXIMUM PRICE REGULATION FOR CERTAIN MACHINERY AND PARTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Regulation 14K is amended in the following respects:

The following section 4.2 is hereby added:

SEC. 4.2 *Plug fuses*—(a) *Definition.* For the purposes of this paragraph, the phrase "plug fuse" includes standard plug fuses, sub-standard plug fuses, and special size plug fuses.

"Standard" plug fuses are one-time (or nonrenewable) standard Edison base plug fuses constructed in accordance with the requirements of Underwriters Laboratories, Inc., or of any governmental agency, for the protection of 125-V electric current, and of 10, 15, 20, 25 or 30 amperages.

"Sub-standard" plug fuses are plug fuses of size not included in the definition of "standard" plug fuses, but which otherwise meet the definition of "standard" plug fuses, and which are specifically identified as "sub-standard" sizes in the manufacturer's published price list in effect on October 1, 1941.

"Special" size plug fuses are plug fuses of sizes which are not included in the definition of "standard" and "sub-standard" plug fuses, but which otherwise meet the definition of "standard" plug fuses.

The phrase "plug fuse" shall not include any type plug fuse having a thermal element or any other electrical device in addition to a fusable element.

(b) *Maximum prices.* Maximum prices for sales of any plug fuses to consumers shall be the dollars-and-cents amounts listed below:

Standard Plug Fuses: $50.00 per 1,000.
Substandard Plug Fuses: $55.00 per 1,000.
Special Plug Fuses: $57.00 per 1,000.

This amendment shall become effective April 5, 1946.

Issued this 5th day of April 1946.

Chapter XX—Office of Contract Settlement

[Reg. 14, Amdt. 4]

PART 8004—TERMINATION COST MEMORANDUMS

Pursuant to section 2 of Regulation No. 14 of this Office, Termination Cost Memorandum No. 11, which was issued on July 26, 1945, as part of Amendment No. 2 to Regulation No. 14, is hereby revised and reissued as a part of such regulation. The revision is deemed advisable for the sake of clarity and is reflected in the rewording of paragraph 2a of the memorandum.

H. CHAPMAN ROSE,
Director.

MARCH 30, 1946.

TERMINATION COST MEMORANDUM NO. 11 APPLICABLE TO FIXED-PRICE SUPPLY CONTRACTS

(As revised and reissued on March 30, 1946)

(Issued under Regulation No. 14)

SETTLEMENT EXPENSES AND COSTS OF PROTECTION AND DISPOSITION OF PROPERTY

1. *Reference to statement of cost principles.* The statement provides for the inclusion of settlement expenses and costs of protection and disposition of property as follows (subpars. 1 (k) and (l)):

Settlement expenses. Reasonable accounting, legal, clerical, and other expenses necessary in connection with the termination and settlement of the contract and subcontracts and purchase orders thereunder, including expenses incurred for the purpose of obtaining payment from the Government only to the extent reasonably necessary for the preparation and presentation of settlement proposals and cost evidence in connection therewith.

Protection and disposition of property. Storage, transportation and other costs incurred for the protection of property acquired or produced for the contract or in connection with the disposition of such property.

2. *Definitions.* a. The costs and expenses covered by subparagraphs 1 (k) and (l) of the Statement of Cost Principles include such items as are incident to effecting terminations, termination settlements, and the protection and disposition of property acquired or produced for the contract and on hand at the date of termination. They do not include: (1) the cost of idle equipment, facilities, and personnel and (2) accounting, legal, clerical, and other costs and expenses incurred by a prime contractor or a subcontractor in any formal appeal or submission, either within a contracting agency or to the Appeal Board of the Office of Contract Settlement, or in any arbitration, mediation, or suit in court, where such proceeding is instituted by such contractor for the purpose of obtaining payment in excess of the settlement amount determined to be due by the Government or an intervening higher tier contractor. Nothing herein shall be deemed to preclude recovery by a contractor of the reasonable costs and expenses incurred by it in settling termination claims of subcontractors related to the terminated portion of its war contract, including in appropriate cases the cost of defending itself against the assertion of such claims.

b. The costs of preservation and protection of termination inventory include the necessary greasing, packing, and any other special treatment accorded termination inventory to insure the maintenance of its condition as well as the cost of special precautions necessary to insure its safety. Such costs should be distinguished from storage of termination inventory, the cost of which may include (1) amounts actually paid or payable to outside parties and (2) a reasonable allocation of the contractor's own costs.

3. *Interpretations.* a. To the extent practicable, the costs and expenses covered by this memorandum should be segregated and charged directly to particular terminated contracts. However, where direct charging is not practicable, any method of allocating these expenses may be used which produces results consistent with the principles set forth in subparagraph c below. The method used may be based on estimates in the light of past experience and reasonably anticipated future terminations. In the absence of a more appropriate basis of allocation, expenses not charged directly may be allocated to particular terminated contracts by the application of a properly computed rate to the amount of the contractor's own costs included in the settlement proposals.

b. Settlement expenses and costs of protection and disposition of property may include a properly allocable portion of the costs, including overhead, of special termination units or departments and regularly established organizational units. In such cases, it is not necessary that the expenses of such units or departments be identified with specific contracts, but the services performed must be directly related to termination activities. Factory and administrative overhead may be included as a settlement expense only to the extent that the elements of such overhead are properly allocable to such termination units or departments.

c. Whatever method is used to allocate settlement and property expenses, the cumulative amount included for these expenses in all termination settlements to date should not exceed the cumulative total of such expenses actually incurred, and the total amount included in any single termination settlement proposal should not exceed an amount reasonably necessary to settle the contract in question.

d. The cost of microfilming or preserving records of a war contractor will ordinarily be classified as general and administrative expense and should not be included as a direct settlement expense in a termination settlement.

e. Regulation No. 10 of this Office relates to the clearance of termination inventory from plants of war contractors. Section 4 of that Regulation provides for reimbursement of the costs thereof as follows:

Contractor's right to store at his own risk. A war contractor may at any time remove from his plant and store on his own premises or elsewhere any of the above materials at his own risk. The war contractor will use reasonable care in the transportation and preservation of material so removed and stored, and will comply with any directions or specifications covering removal, preservation, transportation and storage which may be issued by the contracting agency. The war contractor is entitled to be reimbursed for the reasonable cost of (i) necessary or appropriate transportation, preservation, protection and storage, and (ii) compliance with any directions or specifications in connection therewith issued by the contracting agency. Ordinarily, charges for storage of termination inventory prior to the expiration of the plant clearance period will not be deemed a reasonable settlement expense.

f. Section 5 of Regulation 10 provides for the removal and storage of termination inventory after the 60-day plant clearance period as follows:

Contractor's right to remove or store at Government expense and risk. If the contracting agency fails to arrange for storage by the war contractor or to remove any termination inventory within 60 days after its receipt of a satisfactory inventory schedule (or within such longer period as the contractor may agree), the contractor may remove and store at the Government's expense and risk, any or all those materials remaining, using reasonable care in the transportation and preservation of materials so removed and stored. The words "at the Government's expense and risk" mean, among other things, that the contractor is not required to insure such materials.

g. In accordance with the foregoing references, the contractor may include in its settlement proposal the reasonable and necessary costs of transportation, preservation, and protection of termination inventory, regardless of whether such costs are incurred prior or subsequent to the expiration of the 60-day plant clearance period.

h. Charges for storage of termination inventory may ordinarily be included only for the time following the 60-day plant clearance period. However, if the 60-day period is unreasonable in a particular case, the cost of storage of termination inventory prior to the expiration of such period may be included.

The preliminary estimate of the probable cost of the works to be provided the District under said contract is $15,500,000. It will be necessary, if construction work is to continue beyond the District's present contract construction obligation of $15,000,000 for the District formally to authorize an increase in its present obligation.

The preliminary estimate of the construction charge per irrigable acre for the works built and to be built under this contract is hereby announced as $216.00 an acre. This per-acre construction charge is preliminary and subject to readjustment upon completion or termination of the construction program for providing the works to the District under said contract and the ascertainment of the actual cost thereof, and is subject to increase or decrease to the end that the District will pay to the United States the full construction cost as finally determined by the Secretary of the Interior.

The construction charges payable by the District to the United States on account of the above described lands of the District will be due and payable in seventy-eight (78) semi-annual installments, and will be based upon this preliminary estimate until the actual cost of the works to be provided the District under the said contract is determined and announced. The first of these installments will be Three and no/100 dollars ($3.00) per irrigable acre, as the irrigable acreage is shown on the above list of lands, and will be due and payable by the District to the United States on December 31, 1946. Subsequent semi-annual installments will be due on June 30 and December 31 of each year beginning with 1947, the last installment to be due and payable within forty (40) years from the date of this notice. The amount of the remaining seventy-seven (77) installments will be determined and announced by a later public notice or notices.

Pursuant to article 12 (e) of the aforementioned contract, the operation and maintenance charge payable to the United States on behalf of the above described land for 1946 shall be transferred to and paid as a part of the construction obligation.

Very truly yours,

MICHAEL W. STRAUS,
Commissioner.

3% CONSOLIDATED FEDERAL FARM LOAN BONDS, MAY 1, 1946-56

NOTICE OF CALL FOR REDEMPTION

To holders of 3 percent consolidated Federal Farm Loan Bonds of May 1, 1946-56, and others concerned.

Public notice is hereby given that the twelve Federal land banks have called all outstanding 3 percent consolidated Federal farm loan bonds of May 1, 1946-56, for redemption on May 1, 1946, in accordance with their terms. Interest on the bonds will cease on May 1, 1946, and the bonds will be payable at par on and after that date.

The twelve Federal land banks have designated the Federal reserve banks and branches and the Treasury Department, Washington, D. C., as agencies for the payment of the afore-mentioned bonds. It is requested that the bonds be presented for payment at one of those agencies.

[SEAL] W. E. RHEA,
Land Bank Commissioner.

APRIL 3, 1946.

Attest:

J. R. ISLEIB,
Deputy Land Bank Commissioner.

[Docket Nos. 6811, 6812]

SAN BERNARDINO BROADCASTING CO., INC. AND LEE BROTHERS BROADCASTING CO. (KFXM)

ORDER ENLARGING ISSUES

In re applications of San Bernardino Broadcasting Company, Inc., San Bernardino, California, for construction permit; Docket No. 6811, File No. B5-P-3908. J. C. Lee and E. W. Lee, doing business as Lee Brothers Broadcasting Company (KFXM), San Bernardino, California, for construction permit; Docket No. 6812, File No. B5-P-4093.

The Commission having under consideration a motion filed March 29, 1946, by San Bernardino Broadcasting Company, San Bernardino, California, requesting enlargement of the issues in the proceeding upon its application for construction permit (File No. B5-P-3908; Docket No. 6811), and that of J. C. Lee and E. W. Lee, doing business as Lee Brothers Broadcasting Company (KFXM), San Bernardino, California (File No. B5-P-4093; Docket No. 6812), to include the following:

To determine whether public interest, convenience and necessity would be served by the granting of both the application of San Bernardino Broadcasting Company, Inc. and Lee Brothers Broadcasting Company, Inc. (KFXM), and if so, if one of them may be granted on a frequency other than 590 kc;

and for a waiver of § 1.386 of the Commission's rules and regulations;

It is ordered, This 5th day of April 1946, that insofar as the motion requests the addition of an issue which would include consideration of the use of the frequency 1290 kc as well as 590 kc in the San Bernardino area, said petition be, and it is hereby granted; and that insofar as it requests the addition of the specific issue set forth in its petition, said petition be, and it is hereby, denied.

It is further ordered, On the Commission's own motion, that the issues to be heard in the proceeding upon the applications of San Bernardino Broadcasting Company, Inc., San Bernardino, California, for construction permit (B5-P-3908; Docket No. 6811), and J. C. Lee and E. W. Lee, doing business as Lee Brothers Broadcasting Company (KFXM), San Bernardino, California, for construction permit (File No. B5-P-4093; Docket No. 6812) be, and they are hereby, enlarged to include the following:

To determine the complete specifications of an antenna system suitable for use by a station in San Bernardino, California, on 1,290 kc.

To determine whether the erection of such an antenna system, as may be designed for use in San Bernardino on 1,290 kc, would be consistent with Civil Aeronautics Administration requirements.

To determine the areas and populations which would be expected to gain primary service from the operation of a station in San Bernardino on 1,290 kc.

To determine whether the operation of a station in San Bernardino on 1,290 kc would involve objectionable interference with any existing broadcast station, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

To determine whether the operation of a station in San Bernardino on 1,290 kc would involve objectionable interference with services proposed in any pending applications for broadcast facilities, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

To determine whether the installation and operation of a station in San Bernardino on 1,290 kc would be in compliance with the Commission's Rules and Standards of Good Engineering Practice concerning standard broadcast stations.

By the Commission.

LUDWIG VOGELSTEIN

In re: Trust under the Will of Ludwig Vogelstein, deceased; file No. D-34-133; E. T. sec. 5217.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding;

That the property described as follows: All right, title, interest, and claim of any kind or character whatsoever of Dorothea Neugebauer and the issue, names unknown, of Dorothea Neugebauer, and each of them, in and to the Trust created under the Will of Ludwig Vogelstein, deceased, is property payable or deliverable to, or claimed by, nationals of a designated enemy country, Hungary, namely,

Nationals and Last Known Address

Dorothea Neugebauer, Hungary.
The issue, names unknown, of Dorothea Neugebauer, Hungary.

That such property is in the process of administration by Leo S. Frenkel and Hans A. Vogelstein, as Trustees and The Treasurer of the City of New York, as Depositary, acting under the judicial supervision of the Surrogate's Court, New York County, New York;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Hungary);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095 as amended.

1. That Preussische Staatsbank, (Seehandlung), the last known address of which is Markgrafenstrasse 38, Berlin W8, Germany, is a national of a designated enemy country (Germany);

2. That the property described as follows: (a) That certain debt or other obligation owing to Preussische Staatsbank,

(Seehandlung), by Brown Brothers Harriman & Co., 59 Wall Street, New York, New York, arising out of a checking account, entitled Preussische Staatsbank, and any and all rights to demand, enforce and collect the same, and

(b) That certain debt or other obligation owing to Preussische Staatsbank, (Seehandlung), by Brown Brothers Harriman & Co., 59 Wall Street, New York, New York, arising out of a clients account, entitled Preussische Staatsbank, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on March 26, 1946.

KATHIE REBHAN

In re: Bank account owned by Kathie Rebhan.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian, after investigation:

1. Having found and determined in Vesting Order Number 4140, dated September 18, 1944, that Kathie Rebhan is a national of a designated enemy country (Germany);

2. Finding that the property described as follows: That certain debt or other obligation owing to John Barnickel, by Corn Exchange Bank Trust Company, New York, New York, arising out of a dollar account, entitled John Barnickel in trust for Kathie Rebhan, maintained at the branch office of the aforesaid bank located at 38–18 Broadway, Long Island City, New York, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Kathie Rebhan, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any

claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

[Vesting Order 6111]

NISSEN STIFTUNG

In re: Bank account owned by Nissen Stiftung.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Nissen Stiftung, the last known address of which is Herzog Adolfstrasse 25, Husum, Nordfriesland, Germany, is a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation owing to Nissen Stiftung, by Bankers Trust Company, 16 Wall Street, New York, New York, arising out of a custodian funds account, Account Number 5804, entitled Nissen Stiftung, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,
